## Areas in Dallas to be sprayed for West Nile Virus today and tomorrow

**Dallas** – Mosquito pools in Dallas have confirmed positive for the West Nile Virus. Weather permitting; the areas delineated below are scheduled for mosquito control spraying on Thursday, July 21<sup>st</sup> and Friday, July 22<sup>nd</sup> between 9 p.m. and 5 a.m. on each night.

**Control Area:** The area to be sprayed is within an area generally bounded by: 11100 block of Sinclair (75218): **EARLYWOOD DRIVE** on the north, **SAXSON STREET** on the west, **LANEWOOD CIRCLE** on the east and **ALVIN STREET** on the south.

**Control Area:** The area to be sprayed is within an area generally bounded by: 9000 block of Rolling Rock (75238): **WALLBROCK DRIVE** on the north, **PLANO ROAD** on the west, **PANDORA DRIVE** on the east and **NORTHWEST HIGHWAY** on the south.

**Control Area:** The area to be sprayed is within an area generally bounded by: 10000 block of Muskogee (75217): **MOUNTAIN BEND CIRCLE** on the north, **MEMORY LANE** on the west, **FOX RUN DRIVE** on the east and **ELF STREET** on the south.

**Control Area:** The area to be sprayed is within an area generally bounded by: 6000 block of Lakehurst (75230): **OVERDOWNS DRIVE** on the north, **DALLAS NORTH TOLLWAY** on the west, **EDGEMERE ROAD** on the east and **FALLS ROAD** on the south.

**Control Area:** The area to be sprayed is within an area generally bounded by: 2900 block of MLK (75215): **ROBERT CULLUM BOULEVARD** on the north, **LOGAN STREET** on the west, **DALLAS STREET** on the east and **ATLANTA STREET** on the south.

**Control Area:** The area to be sprayed is within an area generally bounded by: 7300 block of Campbell (75248): **BANTRY LANE** on the north, **HILLCREST ROAD** on the west, **COIT ROAD** on the east and **BLUEFIELD DRIVE** on the south.

While the insecticide is approved by the Environmental Protection Agency for treatment, residents in the above areas should avoid contact with the spray by staying indoors. Persons inside a vehicle while trucks are actively spraying should remain in their vehicles with the windows up and the air conditioner on until the trucks pass and the spray is no longer visible. Persons out during the scheduled spraying time should be alert for trucks and should not follow them. Residents who come in contact with the spray are advised to wash the affected area thoroughly with soap and water. The spray breaks down quickly in the presence of sunlight and has no residual effect.

### **Protection against mosquito bites**

Dallas residents are urged to take precautions against mosquito bites by reducing outdoor activity during evening and nighttime hours. Residents who are outside during these times should cover their arms and legs and use a mosquito repellent.

### **Prevent mosquito breeding**

Residents should eliminate standing water to prevent mosquito breeding and the spread of West Nile Virus. Breeding places for mosquitoes include swimming pools that are not kept clean, stagnant ponds, pet watering dishes, birdbaths, potted plants, old tires, empty containers, toys and clogged rain gutters and French drains. Standing water should be eliminated promptly, as mosquitoes can grow from egg to adult in as little as seven days.

To report standing water or mosquito problems Dallas residents should call 3-1-1. For additional information on mosquito control, visit [www.dallascitynews.net/fightthebite](http://www.dallascitynews.net/fightthebite).
