Area in Dallas to be sprayed for Mosquito Abundance

Dallas – The City of Dallas will be spraying for mosquito abundance in the areas listed below. Weather permitting the areas delineated below is scheduled for mosquito control spraying on Monday, June 5, 2017 and Tuesday, June 6, 2017 between 9 p.m. and 5 a.m. each night.

Control Area: The area to be sprayed is within an area generally bounded by: 1200 block of Elmwood (75224): **NOLTE DRIVE** on the north, **S. MONTCLAIR AVENUE** on the west, **S. POLK STREET** on the east, and **PIONEER DRIVE** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 18700 block of Platte River Way (75287): **E. ROSEMEADE PARKWAY** on the north, **KELLY BOULEVARD** on the west, **MONET PLACE** on the east, and **PICASSO PLACE** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 19300 block of Millwheat Trail (75252): **WILLOW WOOD LANE** on the north, **CAMPBELL ROAD** on the west, **BREAKPOINT TRAIL** on the east, and **TREE SHADOW TRAIL** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 7100 block of Valley View (75240): **KENDALLWOOD DRIVE** on the north, **HILLCREST ROAD** on the west, **VALLEY VIEW PLACE** on the east, and **LBJ FREEWAY** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 7300 block of Campbell (75248): **QUEENS GARDEN DRIVE** on the north, **GRACEFIELD LANE** on the west, **LOCH MAREE LANE** on the east, and **LAIRDS LANE** on the south.

While the insecticide is approved by the Environmental Protection Agency for treatment, residents in the above areas should avoid contact with the spray by staying indoors. Persons inside a vehicle while trucks are actively spraying should remain in their vehicles with the windows up and the air conditioner on until the trucks pass and the spray is no longer visible. Persons out during the scheduled spraying time should be alert for trucks and should not follow them. Residents who come in contact with the spray are advised to wash the affected area thoroughly with soap and water. The spray breaks down quickly in the presence of sunlight and has no residual effect.

Protection against mosquito bites

Dallas residents are urged to take precautions against mosquito bites by reducing outdoor activity during evening and nighttime hours. Residents who are outside during these times should cover their arms and legs and use a mosquito repellent.

Prevent mosquito breeding

Residents should eliminate standing water to prevent mosquito breeding and the spread of West Nile Virus. Breeding places for mosquitoes include swimming pools that are not kept clean, stagnant ponds, pet watering dishes, birdbaths, potted plants, old tires, empty containers, toys and clogged rain gutters and French drains. Standing water should be eliminated promptly, as mosquitoes can grow from egg to adult in as little as seven days. Dallas residents may receive free mosquito dunks at 3112 Canton Street or at 7901 Goforth Road while supplies last. Both locations are closed from 12:00 noon to 1:00 pm daily for lunch.

To report standing water or mosquito problems Dallas residents should call 3-1-1. To be added to the City of Dallas Do Not Spray list contact 3-1-1. For additional information on mosquito control, visit www.dallascitynews.net/fightthebite.
