Areas in Dallas to be sprayed for West Nile Virus

Dallas – Mosquito pools in Dallas have confirmed positive for the West Nile Virus. Weather permitting the areas delineated below are scheduled for mosquito control spraying on Monday, July 10 and Tuesday, July 11 between 9 p.m. and 5 a.m. each night.

Control Area: The area to be sprayed is within an area generally bounded by: 3400 block of Pondrom (75215): **PENNSYLVANIA AVENUE** on the north, **SOUTH CENTRAL EXPRESSWAY** on the west, **GUARANTY STREET** on the east and **DATHE STREET** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 15400 block of Meandering Way (75248): **ALTO CARO DRIVE** on the north, **HILLCREST ROAD** on the west, **COIT ROAD** on the east and **BELTLINE ROAD** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 2800 block of Ruidosa (75228): **HOUSLEY DRIVE** on the north, **GALENA STREET** on the west, **DELFORD CIRCLE** on the east and **NORWOOD DRIVE** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 7700 block of Maplecrest (75254): **BELTLINE ROAD** on the north, **BRIAR COVE DRIVE** on the west, **COIT ROAD** on the east and **FAR HILLS LANE** on the south.

Control Area: The area to be sprayed is within an area generally bounded by: 2900 block of Sundial (75229): **NORTH BEND DRIVE** on the north, **GRISSOM LANE** on the west, **WEBB CHAPEL ROAD** on the east and **FLOWERDALE LANE** on the south.

While the insecticide is approved by the Environmental Protection Agency for treatment, residents in the above areas should avoid contact with the spray by staying indoors. Persons inside a vehicle while trucks are actively spraying should remain in their vehicles with the windows up and the air conditioner on until the trucks pass and the spray is no longer visible. Persons out during the scheduled spraying time should be alert for trucks and should not follow them. Residents who come in contact with the spray are advised to wash the affected area thoroughly with soap and water. The spray breaks down quickly in the presence of sunlight and has no residual effect.

Protection against mosquito bites

Dallas residents are urged to take precautions against mosquito bites by reducing outdoor activity during evening and nighttime hours. Residents who are outside during these times should cover their arms and legs and use a mosquito repellent.

Prevent mosquito breeding

Residents should eliminate standing water to prevent mosquito breeding and the spread of West Nile Virus. Breeding places for mosquitoes include swimming pools that are not kept clean, stagnant ponds, pet watering dishes, birdbaths, potted plants, old tires, empty containers, toys and clogged rain gutters and French drains. Standing water should be eliminated promptly, as mosquitoes can grow from egg to adult in as little as seven days. Dallas residents may receive free mosquito dunks at 3112 Canton Street or at 7901 Goforth Road while supplies last. Both locations are closed from 12:00 noon to 1:00 pm daily for lunch.

To report standing water or mosquito problems Dallas residents should call 3-1-1. To be added to the City of Dallas Do Not Spray list contact 3-1-1. For additional information on mosquito control, visit www.dallascitynews.net/fightthebite.
