RE: Approval for Thermosaddles, Thermobutton-lok and Thermoruff Plate

Mr. Vaughn DeBose,

I have reviewed your request for approval of the Thermosaddles, Thermobutton-lok and Thermoruff Plate and concluded from the information submitted to my office for approval that these products are approved for use within the City of Dallas.

This product must be installed according to manufacturers installation instructions, product listings and all applicable mechanical codes. As with all new products I would ask that 5 sets of training literature be provided for each of our four (4) district building inspection offices. This material can be forwarded to my office for distribution.

Therefore, use of this product may begin immediately in the City of Dallas.
