RE: Approval for SPIRAmir™ products

Mr. Scooter Day

I have reviewed your request for approval of the SPIRAmir™ products I have concluded from the information submitted to my office for approval this product is approved for use within the City of Dallas.

This product must be installed according to manufactures installation instructions, product listings all applicable plumbing and mechanical codes. As with all new products I would ask that 5 sets of training literature be provided to for each of our four (4) district building inspection offices. This material can be forwarded to my office for distribution.

Therefore, use of this product may begin immediately in the City of Dallas, provided the aforementioned training is not necessary.

Best Regards,

Lonnie Erwin
