RE: Approval for PVC 4" Two Way Clean-Out

Mr. Mercer,

I have reviewed your request for approval of the PVC 4" Two Way Clean-Out and concluded from the information submitted to my office for approval that these products are approved for use within the City of Dallas.

This product must be installed according to manufacturer's installation instructions, product listings and all applicable codes. As with all new products I would ask that 4 sets of training literature and be provided for each of our four (4) district building inspection offices. This material can be forwarded to my office for distribution.

Therefore, use of this product may begin immediately in the City of Dallas.

Best Regards,

*Lonnie Erwin*
