

Residential In-Fill Waiver

I, _____, the applicant/homebuilder for the construction of a house at _____ hereby request a waiver to the Grading Procedures associated with residential in-fill development. This waiver is specifically for:

(Check One)

ف Replacement of an existing house with a house of similar size on the same lot

I hereby certify that the proposed pad elevation of the new house will be generally the same pad elevation of the existing house and the top of the proposed pad elevation will not exceed one foot above the existing lot grade. Furthermore, I certify that I have checked the contour elevations of the lot, and there will be no adverse drainage impact on the surrounding area/adjacent lots after the final construction of the house and final grading of the lot.

ث Construction of a house on a vacant lot.

I hereby certify that the finished grade of the lot will not exceed the grade of the adjacent lots and/or surrounding area. I furthermore certify that I have checked the contour of the lot and there will be no adverse drainage impact on the surrounding area or adjacent lots after the final construction on the house and final grading of the lot. Further, the top of the pad elevation of the proposed house will not exceed one foot above the lot grade.
