

The new Trinity River Audubon Center opens October 18-19, 2008 and the hours are 10:00 a.m. to 5:00 p.m. during the grand opening weekend. This is the first signature development opening along the Trinity River Corridor, and it will be the flagship location for Audubon Texas. The center is located eight miles from downtown Dallas on South Loop 12 Freeway.

The National Audubon Society's mission is to conserve and restore natural ecosystems, focusing on birds, other wildlife, and their habitats for the benefit of humanity and the earth's biological diversity. Through Audubon centers and in partnership with local chapters, Audubon connects people of all ages and backgrounds to nature through conservation and education programs.

The beautiful Trinity River Audubon Center offers visitors a variety of important and much needed educational and recreational options such as field-based experiences for students, guided nature walks for visitors of all ages, academic lectures, and an impressive curriculum of educational programs in multi-purpose classrooms and interactive laboratories. The 120-acre Trinity River Audubon Center showcases ecosystems of native prairies, restored wetlands, wildlife observation areas and bottomland forest habits. TRAC also offers visitors additional outdoor activities such as hiking and bird watching.
