31 March 2009

MEMORANDUM FOR COMMANDER, US Army Corps of Engineers, Southwestern Division,  
(CESWD-MTE), 1100 Commerce Street, Dallas, Texas 75242

SUBJECT: Dallas Floodway Project, Trinity River, Texas; Embankment, Levees, Channels, and Appurtenant Structures; Periodic Inspection Report No. 9

1. The subject periodic inspection was conducted in December 2007. The inspection report is submitted for your information and approval in accordance with ER 1110-2-100, Periodic Inspection and Continuing Evaluation of Completed Civil Works Structures, dated 15 February 1995, and Policy Guidance Letter, Periodic Inspection Procedures for the Levee Safety Program, dated 17 December 2008. A technical quality control review has been performed by the district staff in addition to an ATR. The content of the report is considered to be technically adequate.

2. POC for this action is José Hernández, P.E., 817-886-1696.

FOR THE COMMANDER:

A handwritten signature in black ink that reads "Brian Giacomozzi".

Encl

Brian Giacomozzi, P.E.  
Chief, Engineering & Construction Division  
Dam Safety/Levee Safety Officer
