

To add a site to the Compatibility View list from your Internet Explorer homepage:

1. Tap or click the Tools button, and then tap or click Compatibility View settings.
2. Under Add this website, enter the URL of the site you want to add to the list, and then tap or click Add.

Note: If you add a site to the Compatibility View list and the page looks worse, the problem might not be compatibility and you should remove the site from the list.

Once you turn on Compatibility View, Internet Explorer will automatically show that site in Compatibility View each time you visit. You can turn it off by removing it from your compatibility list.
