

# Memorandum

CITY OF DALLAS

DATE October 20, 2023

TO Honorable Mayor and Members of the City Council

SUBJECT **Technology Accountability Report – September 2023**

Please find attached the Technology Accountability Report (TAR) based on information through September 30, 2023. The TAR is a progress report reflecting the performance and operational status of the city in purchasing, implementing, operating, and securing technology to achieve the city's priorities and service objectives.

If you have any questions, please contact William (Bill) Zielinski, Chief Information Officer and Director of Information & Technology Services.

A handwritten signature in blue ink that reads "Jack Ireland".

Jack Ireland  
Chief Financial Officer

c: TC Broadnax, City Manager  
Tammy Palomino, City Attorney  
Mark Swann, City Auditor  
Biliera Johnson, City Secretary  
Preston Robinson, Administrative Judge  
Kimberly Bizer Tolbert, Deputy City Manager  
Jon Fortune, Deputy City Manager

Majed A. Al-Ghafry, Assistant City Manager  
M. Elizabeth (Liz) Cedillo-Pereira, Assistant City Manager  
Dr. Robert Perez, Assistant City Manager  
Carl Simpson, Assistant City Manager  
Genesis D. Gavino, Chief of Staff to the City Manager  
Directors and Assistant Directors

# Technology Accountability Report (TAR)

City of Dallas

**As of September 30, 2023**

---

**Prepared by Information & Technology Services**

---

**1500 Marilla Street, 4DS  
Dallas, TX 75201**

**214-671-9868**

# Executive Summary

The highlights of the September 2023 Technology Accountability Report (TAR) include:

- The City of Dallas published the After-Action Review Report (AAR) for the May 2023 Ransomware event on September 20<sup>th</sup>. The report is publicly available in both English and Spanish versions for download on the City's website at <https://dallascityhall.com/DCH%20Documents/dallas-ransomware-incident-may-2023-incident-remediation-efforts-and-resolution.pdf>.
- Section 1: IT Programs & Projects – Since the August 2023 TAR report, six major projects were completed and removed from the report:
  - The **Court Case Management System (On-Premise Upgrade)** project provided infrastructure upgrades and enhancements for the Municipal Courts system. (Previously project #9 on the August 2023 TAR)
  - The **iNovah Upgrade** project provides technical upgrade for the iNovah payment system used by Development Services for accepting payments for permits. (Previously project #15 on the August 2023 TAR)
  - The **Unmanned Aerial System (Drones)** project provides the Dallas Fire and Rescue Department with drones used to investigate areas in support of missions that are either inaccessible or unsafe for staff to enter. (Previously project #18 on the August 2023 TAR)
  - The **Axon Air (Drones)** project provides drone capability for the Dallas Police Department. (Previously project #26 on the August 2023 TAR)
  - The **Data Center Improvement Program (Phase I)** project provided several upgrades and improvements to the City's current data center environment. (Previously project #39 on the August 2023 TAR)
  - The **Infrastructure Upgrade for the Dallas Library System** project provides a complete telecommunications infrastructure upgrade to support the City's library system. (Previously project #46 on the August 2023 TAR)
- Section 1: IT Programs & Projects – Since the August 2023 TAR report, four new major projects were approved:

---

## As of 9/30/23

- The **WIC Texting Solution** project will provide the Office of Community Care with communication functionality needed to contact their service population.
  - The **CAD and RMS Universal Replacement** project initiates a major market research and technology review process for long-term replacement of core law enforcement functionality utilized by the Dallas Police Department.
  - The **Dispatch & Communications Video Wall** project provides the Dallas Fire and Rescue Department with significant new AV capabilities for their Operations Command Center.
  - The **Enterprise Community and Employee Engagement Solutions** project will provide all City departments with enhanced capabilities to measure engagement.
- 
- Section 2: IT Operations – adds a new IT Service Desk survey-based performance metric which measures the requests to the service desk that were resolved or fulfilled in the first call to the IT Service Desk as reported by the user.
  
  - Section 3: IT Budget Execution – adds new information regarding open contract solicitations.

*This page left intentionally blank.*

# Section 1: IT Programs & Projects

## A. Project Pipeline

### 1. IT Projects by Strategic Priority

#### NOTES:

1. As of 09/30/2023, ITS has 113 approved IT projects in the pipeline.
2. The total budgeted costs for the 113 projects are \$458,726,242.
3. Project pipeline includes at least one project in 7 of the identified 8 strategic priorities.
4. The highest number of active IT projects are aligned to the Public Safety Strategic Priority with a total of 29 projects at a total budgeted cost of \$223.9M, followed by Government Performance & Financial Management with a total of 28 projects at a total budgeted cost of \$80.9M, Transportation & Infrastructure with a total of 23 projects at a total budgeted cost of \$137.8M, and Environment & Sustainability with 15 projects at a total budgeted cost of \$6.6M.

2. IT Projects and Budgeted Cost by City Department

**NOTES:**

1. 30 City Departments are represented across the 113 approved IT projects in the pipeline.
2. Dallas Police Department has 16 active projects at a total budgeted cost of \$213.1 million, followed by Dallas Water Utilities with 14 active projects at a total budgeted cost of \$131.1 million, Information & Technology Services with 12 projects at a total budgeted cost of \$48.7M, Code Compliance with 11 projects at a total budgeted cost of \$5.4M, and Dallas Fire and Rescue with 8 active projects at a total budgeted cost of \$3.9M.
3. 9 Departments have 1 active project each, making up the Other (OTH) group in figure 2 above.

## B. Major Project Status

**\*\*LEGEND:**

- **Cancelled:** The project has not finished, and work on the project will not continue.
- **Completed:** Work on the project has finished, and all deliverables/tasks have been completed.
- **Delayed:** The project is still active, but we have passed the initial estimated completion date.
- **In Process:** The project is currently being worked on by the project team.
- **On Hold:** The project has not finished, and work on the project has been suspended.
- **Ongoing:** The project consists of multiple phases or is an operational project. Some portions have been completed, but the project has not fully reached fruition.

-  : Addresses technical debt
-  : PCI project

#	Project Name	Description	Strategic Priority	Dept.	Estimated Completion Date	Project Status	Value Adds
1.	Enterprise Contact Center (ECC) Solution	The Enterprise Contact Center application within the City of Dallas is a secure, reliable, and scalable call platform to meet the high call volumes and growth to meet the needs of city residents. The ECC includes Natural Language Processing (NLP), Knowledge Base, Workforce Management, Interactive Voice Response (IVR), Courtesy Call Back, and other core call center capabilities to support multiple departments across the city. <a href="#">(\$2,134,245)</a>	GPFM	311	TBD	In Process	
2.	Ethics Point Salesforce Integration	The purpose of this system is to promote and support ethical financial compliance. <a href="#">(\$63,164)</a>	GPFM	ATT	Dec-23	In Process	
3.	Core Financial System Upgrade	The CG Advantage 3 system is utilized by all departments within the City for processing and recording of all budget, procurement and financial accounting transactions and interfaces with many enterprise-class business applications. This major upgrade moves the City's core financial system to a cloud-based solution providing advanced capabilities and incorporating modern technologies such as robotic process automation (RPA) and machine learning (ML) to improve the quality and speed of financial transactions. <a href="#">(\$22,095,745)</a>	GPFM	CCO	Dec-24	In Process	
4.	Asset Management System	The Code Compliance office is seeking an asset management system to manage different assets to include Ballistic vests, uniform items (pants, belts, reflective vests, shirts, jackets) that are issued to officers, and other equipment deployed to their staff to perform their duties. This effort gathers requirements to conduct market research and identify potential solutions to meet the business need. <a href="#">(\$76,000)</a>	Environment & Sustain	CCS	TBD	In Process	

## As of 9/30/23

#	Project Name	Description	Strategic Priority	Dept.	Estimated Completion Date	Project Status	Value Adds
5.	Envision Connect Replacement Project	This project will replace the current Restaurant Inspection System - Envision Connect. Envision Connect is at the end of life for support. The vendor is requesting to move to their newer application for restaurant inspections. (\$482,611)	Environment & Sustain	CCS	TBD	In Process	
6.	Consumer Protection online Salesforce Application/ permitting system	This system will allow department to implement online permit process for seven applications (wood vendor, motor vehicle repairs, Credit access, electronic repairs, home repair, scrap tire). Will Allow business owners to access, complete, submit, and track their business permit applications online. (\$318,050)	Environment & Sustain	CCS	Nov-23	In Process	
7.	Body Worn Cameras for Code Personnel (CCS)	Code Compliance is implementing body-worn cameras to enhance citizen interactions, officer safety, and provide investigatory evidence for field inspections. The department has completed a pilot with limited staff and will move forward with a phased rollout. (TBD)	Environment & Sustain	CCS	Feb-24	In Process	
8.	Closed Captioning System for City Council Meetings	Closed Captioning on the live webstream/cable channel of City Council meetings will help meet ADA compliance and our Equity and Inclusion goals. (\$504,612)	GPFM	COM	Jun-23	Completed	
9.	RFCSP for Court Case Management System	The current Court Case Management System (Tyler Technologies) contract expires June 2024. CTS wishes to conduct market research and conduct a competitive procurement to ensure the best solution is selected to upgrade and improve court case management. (\$4,371,720)	Public Safety	CTS	TBD	In Process	
10.	DAS Inventory Management Tool	Dallas Animal Services manages a large inventory of drugs, supplies and business equipment needed to perform their functions. Currently inventory management is done through a legacy system database (animal software) or on spreadsheets, but are inadequate to provide appropriate controls and functionality. (\$14,062)	Environment & Sustain	DAS	TBD	In Process	
11.	Development Services Training Simulator	The building permitting and inspection process involves a number of different components operating independently on separate software platforms. The purpose of this project is to develop a training simulator that allows for cross-collaboration across city divisions to improve quality and efficiency of processes. (\$50,000)	ECO	DEV	TBD	On Hold	
12.	Customer Queuing software	Customers currently walking into the permit center need to be able to "sign in" and set appointments remotely. DEV needs to offer this service to their customers to better track the data associated with their customers' experiences; volume, wait times, types of service...etc. This project identifies, procures, and implements a customer queue management solution for Development Services. (\$60,000)	ECO	DEV	Jul-23	In Process	
13.	Expand OnBase to the entire SDC Department	The OnBase content management system was originally implemented only for the Building Inspection division within the Development Services Department (DEV). Purpose of this project is to implement the content management system to all divisions within DEV. (\$180,712)	ECO	DEV	TBD	On Hold	

## As of 9/30/23

#	Project Name	Description	Strategic Priority	Dept.	Estimated Completion Date	Project Status	Value Adds
14.	DallasNow	The city's current permitting system has reached end of life, cannot interact with the new geospatial technology standards, and is difficult to change to support new business requirements, and workflows. This project will deploy a new system to replace the existing system and to add efficiencies in the permitting process. <b>(\$9,746,780)</b>	ECO	DEV	Sep-25	In Process	
15.	Smart Device/Technology Behavioral Health App for DFR members	This project will provide a Peer Support Contact App for Dallas Fire-Rescue (DFR) personnel. At Dallas Fire-Rescue (DFR), the City is promoting whole-person wellness. This new application will supplement existing mental health support services available to the City's DFR members. <b>(\$170,000)</b>	Public Safety	DFD	TBD	In Process	
16.	Telestaff-Workday Integration	Telestaff automated scheduling and staffing system for City of Dallas Fire Department 24-hr employees' integration with Workday Payroll System. <b>(\$731,238)</b>	Public Safety	DFD	Oct-23	In Process	
17.	Fire Station Alerting System	Dallas Fire Rescue dispatches resources from 58 fire stations strategically deployed throughout the City. To avoid response delays, DFR relies on a station Alerting System that integrates with our Computer Aided Dispatch (CAD) system to advise firefighter/paramedics of assistance calls. The current station alerting system is end of life, difficult to maintain, and lacks the full range of functionality more modern solutions provide. This project will conduct market research into, procure, and implement a new, modern station alerting system for Dallas Fire Rescue. <b>(\$1,860,000)</b>	Public Safety	DFD	Oct-24	In Process	
18.	IT Infrastructures For New Fire Stations 19, 21, 36, 41, 46, 58 & 59	Total of 8 new and rebuild Dallas Fire Stations are being constructed in scope Sta. 46, 36, 59, 41 Temp, 41 Replacement, 19, 58 and 21 FS/AVI Center. All new IT infrastructures including cabling, network, workstations, printers, radio Alerting system equipment, etc., will be activated in line with facility openings. <b>(\$131,688)</b>	Public Safety	DFD	May-25	In Process	
19.	Mobile Surveillance Platform Vehicles (Formerly known as Bait Car)	The Dallas Police Department ("DPD") currently operates a fleet of 25 Mobile Surveillance Platform vehicles. These vehicles are deployed throughout the City and serve as "bait cars". These vehicles are outfitted with covert cameras, microphones, GPS, and other capabilities. <b>(\$700,000)</b>	Public Safety	DPD	TBD	In Process	
20.	County CAD Collaboration	Upgrade and expand the city's Computer-Aided Dispatch (CAD), extending it to the County to improve collaborate on emergency 911 call center responses. This project is also required to fully implement the upgrade of the 911 call center's telecommunications infrastructure. <b>(\$0)</b>	Public Safety	DPD	TBD	In Process	

## As of 9/30/23

#	Project Name	Description	Strategic Priority	Dept.	Estimated Completion Date	Project Status	Value Adds
21.	WEB-RMS	This project will migrate DPD's current law enforcement Records Management System (RMS) case management system from the current onsite solution to an upgraded Web-based system. The upgraded RMS will give the department needed functionality that is not available to the department currently in the on-premise solution. Current limitations require process workarounds creating potential errors and inefficiencies which will be resolved with the upgrade. <a href="#">(\$1,010,000)</a>	Public Safety	DPD	TBD	In Process	
22.	COBWEBS	This project will implement social media investigative software for the Police Department (DPD). This software will provide an efficient tool for investigating social media post from potential suspects to aid in investigations. <a href="#">(\$93,353)</a>	Public Safety	DPD	TBD	In Process	
23.	P25 Compliant Radio Project	The city's current public safety radio network is 40 years old and not compliant with new standards (P25) for these networks. This project installs all-new infrastructure for a fully P25 compliant radio communications system that will be used by multiple departments within the City and County of Dallas. This system is intended and designed to host external governmental agencies throughout the region. <a href="#">(\$54,898,873)</a>	Public Safety	DPD	Oct-23	In Process	
24.	Ricoh-Fortis Document Management System Replacement	The DPD Fortis document management system is at end of life and no longer supported. This project will replace and upgrade the DPD document management system. <a href="#">(\$217,633)</a>	Public Safety	DPD	TBD	In Process	
25.	Fusus Devices Implementation for DPD	The Fūsus product suite will provide a video and data collaboration platform to expedite intelligence gathering and efficiency of response to situations as they unfold throughout the community. Further, providing a tool for identifying the location of cameras in proximity that may provide valuable information to aid in the response and/or subsequent investigation. <a href="#">(\$478,589)</a>	Public Safety	DPD	Dec-23	In Process	
26.	Surveillance Cameras and Real Time Crime Center	This project will provide a "Real Time Crime Center" capability within Jack Evans police station. It will include 1) building a new command center video room (Real Time Crime Center), 2) building camera installations, 3) video camera software, video storage and surveillance camera installations at intersections, and 4) Trailer camera installations. <a href="#">(\$16,261,454)</a>	Public Safety	DPD	Dec-24	In Process	
27.	In Car Video - Body Worn Camera - Interview Room	There is a Federal Requirement to video record public safety stops. In car systems involve video in patrol cars. Body Worn Cameras involve wearable video cameras systems for officers. Interview Rooms involves replacement of video equipment in Public Safety interview rooms. <a href="#">(\$134,756,801)</a>	Public Safety	DPD	Dec-24	In Process	

## As of 9/30/23

#	Project Name	Description	Strategic Priority	Dept.	Estimated Completion Date	Project Status	Value Adds
28.	Use of Force - Police Strategies LLC	This project will provide a data analytics platform which produces analytic dashboards which provides comparative analyses by extracting data from incident reports & officer narratives, analyzes the data using established algorithms, and produces written summary reports used by DPD leadership in focusing resources. <a href="#">(\$1,383,800)</a>	Public Safety	DPD	Jul-26	Ongoing	
29.	Unsupported Software Remediation	Identify Servers running unsupported Software, DBs running unsupported versions of software, and Applications that will require modifications to bring up to supported software levels. Develop a plan to upgrade, in a sequenced fashion. <a href="#">(\$0)</a>	GPFM	ITS	TBD	Ongoing	
30.	Visualization Engineering Services	Purchase of Visualization Engineering services will provide an authoritative visualization of our Current State and Future States - an effort critical to information data center improvements. The outputs of this engagement will be crucial to the success of planned improvements to Application Portfolio Management in addition to the stated necessity in regard to data center improvements. <a href="#">(\$685,972)</a>	GPFM	ITS	Apr-23	In Process	
31.	Apptio IT Financial Transparency SaaS	This project is for a cloud-based solution for the Department of Information and Technology Services (ITS) to gain detailed insight into information technology (IT) expenses, cloud infrastructure / software usage and other IT related costs. <a href="#">(\$1,353,866)</a>	GPFM	ITS	Sep-23	In Process	
32.	Relocate Development Services to New Facility	In September 2022, the City of Dallas purchased a new facility at 7800 N. Stemmons Freeway which will serve as the offices and storefront for the Development Services Department (DEV). This project will provide all new IT infrastructure including cabling, network, workstations, printers, radio equipment, etc. in line with the facility opening. <a href="#">(\$5,000,000)</a>	GPFM	ITS	Nov-23	In Process	
33.	ServiceNow Phase 2	ServiceNow Phase 2 comprises 4 major tasks or subprojects - "IT Software and Hardware Asset Management", "ServiceNow Stabilization and Workflow Improvement", "ServiceNow Fedramp Cloud Migration", and "ServiceNow Version Upgrade to San Diego Q1 2022". <a href="#">(\$1,305,890)</a>	GPFM	ITS	Dec-23	In Process	
34.	Network Unified Communications Upgrade	The City's current collaboration suite is at end of life and requires an update to maintain functionality and reduce risk. This project will upgrade the Unified Communications Management (UCM) to the latest version available. <a href="#">(\$618,180)</a>	GPFM	ITS	Feb-24	In Process	
35.	IT Project and Portfolio Management Tool	This project will implement a new Project and Portfolio Platform (PPM) tool suite to provide a centralized and automated project management portfolio, assist with project intake, and improve the tracking and management of IT projects. <a href="#">(\$300,134)</a>	GPFM	ITS	Nov-24	In Process	

## As of 9/30/23

#	Project Name	Description	Strategic Priority	Dept.	Estimated Completion Date	Project Status	Value Adds
36.	Digital Equity Infrastructure	This project seeks to meet the City's vision of ensuring that all Dallas households will have high-speed, reliable internet and access to devices in their homes by seeking commercial telecommunication service providers to develop and implement digital equity infrastructure which addresses established gaps in targeted communities. (\$40,000,000)	GPFM	ITS	Dec-26	In Process	
37.	Enterprise Capital Project Management System (ECPMS) Phase 2	Phase 2 Implementation of the Enterprise Capital Project Management System (ECPMS), IBM Tririga, to support the DWU Capital Projects division. Also, includes the delivery of reporting enhancements and efficiencies to the Phase 1 implementation. (\$2,169,090)	Transport & Infra	DWU	Dec-22	In Process	
38.	Enterprise Work Order and Asset Management (EWAMS) Phase 2	Implementation of an Enterprise Work Order and Asset Management System (EWAMS), that can be utilized as the standard for the City of Dallas. The Phase 2 effort of this Enterprise platform implementation will manage Work Orders and Maintenance. (\$4,901,864)	Transport & Infra	DWU	Sep-23	In Process	
39.	LIMS Acquisition and Implementation Phase 3	DWU is implementing a Laboratory Information Management System (LIMS) for one Analytical Lab, five treatment plants, the Water Quality Division and the Watershed-Reservoir Division to increase regulatory compliance, productivity, efficiency and effectiveness. (TBD)	Transport & Infra	DWU	May-24	In Process	
40.	Enterprise Work Order and Asset Management (EWAMS) Phase 3	This professional service contract allows for continuous consultant services for the expansion of the Enterprise Work Order and Asset Management System (EWAMS). Phase 3 will oversee the implementation of Dallas Water Utilities (DWU) Meter Services division. (\$12,989,751)	Transport & Infra	DWU	May-28	In Process	
41.	Library Website update	The library's website needs to be updated to meet the current and future needs of the library including being able to support additional online content and online programs and education. (TBD)	QOL	LIB	Dec-24	In Process	
42.	Neighborly Expansion - Fair Housing	The purpose of the software is to complete the Fair Housing assessment of housing projects. This ensures we affirmatively further fair housing in the City as required by the Fair Housing Act and HUD. (\$25,700)	WEE	OEI	Mar-23	Delayed	
43.	Stormwater Compliance Information Management System	OEQ staff currently manage mission-critical and legally sensitive environmental management consent decree (EMCD) /permit-required tasks through a 20-year-old "homemade" information system built on MS Access 2002 and InfoPath. This project will procure and implement a new, modern system which provides timely information through dashboards and reports. (\$49,900)	Environment & Sustain	OEQ	Mar-23	In Process	
44.	Implement Workday Prism	The Workday Prism Project will aggregate historical data from the City's prior payroll system and make it available with new payroll data in Workday. (\$68,995)	GPFM	PER	Sep-23	In Process	

## As of 9/30/23

#	Project Name	Description	Strategic Priority	Dept.	Estimated Completion Date	Project Status	Value Adds
45.	Replace Human Capital Management System Ph 2	This initiative involves the strategic implementation of HR modules for Performance and Talent Management, Recruiting and Onboarding, Learning Management System, Benefits Administration, and Advanced Compensation. In addition, we are orchestrating a meticulous Data Migration process, ensuring a seamless transition from legacy applications. (TBD)	GPFM	PER	Dec-24	In Process	
46.	PKR Recreational Management System	Dallas Park and Recreation Department is looking for a recreation management system to manage recreation activities and programs of its 43 recreation centers, 107 pavilions, 19 aquatic facilities and over 200 athletic fields. (\$0)	QOL	PKR	Feb-25	In Process	
47.	Payment Vendor (SAP Users - DWU)	This project is to migrate DWU and other user departments of online (Biller Direct) and IVR payments to a new payment platform which provides real-time information for payments and reconciliation. (\$15,000,000)	Transport & Infra	DWU	Apr-24	In Process	
48.	DWU Billing CIS and Customer Portal Replacement	DWU's current CIS system, SAP, will reach its end of life in 2025. DWU must replace SAP by 2025 to ensure continuity of our billing. (\$0)	Transport & Infra	DWU	Dec-25	In Process	
49.	SEC Records Inventory Management Solution	Replace the current obsolete unsupported FoxPro database with a state-of-the-art software application (preferably SaaS) that provides full functionality for operating a records center. Replacing this application will improve the management of the 70,000+ (\$231,440)	GPFM	SEC	TBD	In Process	
50.	Build an Ethics Financial Reporting Solution	The purpose of this system is to promote and support ethical financial compliance. (\$15,000)	GPFM	SEC	TBD	On Hold	
51.	Electronic Document Management - EDMS	Project Provides Electronic Document Management and Document Archive System for City Secretary's Office. (\$336,562)	GPFM	SEC	TBD	On Hold	

## NOTES

- 1. Enterprise Contact Center (ECC) Solution.** Project is still in process. Anticipate approximately 3 – 6 months' work to implement Single Sign On (multi-factor authentication), for final delivery of the Lab (test portion) of the project, and potential re-evaluation of Salesforce integration.
- 3. Core Financial System Upgrade.** Formal project kickoff held on July 31, 2023.
- 9. Court Case Management System: On Prem Upgrades.** This project is in the closure phase. It will be removed from the TAR next month.
- 11. DAS Inventory Management Tool.** Multiple departments have requested an asset/inventory management tool. ITS is consolidating requirements across departments to perform market research to determine whether an option for a city-wide solution can be provided.

---

**As of 9/30/23**

- 12. Development Services Training Simulator.** This project is on hold due to competing priorities as the focus is on the DallasNow project.
- 15. iNovah Upgrade.** The initial upgrade has been completed. Project is a low priority at request of the department and is placed on hold until a later date. This project will be removed from the TAR Major Project list but will continue to be tracked by ITS.
- 17. Smart Device/Technology Behavioral Health App for DFR members.** Project requirements are being re-evaluated.
- 18. Telestaff-Workday Integration.** Telestaff Scheduling System is operational for Dallas Fire Rescue. TeleStaff Integrations to Workday are scheduled to Go-Live September 2023.
- 21. IT Infrastructures For New Fire Stations 19, 21, 36, 41, 46, 58 & 59.** Project is being implemented in an agile fashion. Next phase is expected to complete October 2023. No. of Fire Stations complete to date include Sta. 46, 36, 41 Temp, 58, 59 and 19. Remaining 41 Main and FS 21/AVI Center are on schedule for implementation to plan..
- 22. Mobile Surveillance Platform Vehicles (Formerly known as Bait Car).** Awaiting funding to be identified.
- 24. WEB-RMS.** This project is still in the procurement process. Purchase request has been submitted. New date will be provided when available.
- 27. P25 Compliant Radio Project.** The new P25 Public Safety Radio system is now live, operational, and performing as designed. Final migration of all City of Dallas Departments is complete. Team is now working on decommissioning of old systems and equipment.
- 28. Ricoh-Fortis Document Management System Replacement.** This project is in the planning stages. New timeline is being developed. New date will be provided when available.
- 32. Use of Force - Police Strategies LLC.** All initial project tasks have been completed. End date of project is 2026 because CoD will continue to provide data on a quarterly basis until the end of the contract.
- 38. Network Unified Communications Upgrade.** Project is being implemented in an agile fashion. Unity Voice Mail portion is now complete. The next phase, "Call Manager" has an estimated completion date December 2023.
- 39. Data Center Improvement Program.** Project work for this phase is complete and this project is moving to closure. This project will be removed from the TAR next month.
- 42. Enterprise Capital Project Management System (ECPMS) Phase 2.** PCR received by Vendor for update requirements/deliverables for linear segments, linear structures and X/Y coordinates; PCR pending review for acceptance and approvals.
- 46. Infrastructure Upgrade of Dallas LIB system (formerly called E-Rate).** Project work is complete and this project is moving to closure. This project will be removed from the TAR next month.
- 50. Implement Workday Prism.** Dataset movement to Production scheduled for Sep 2023.
- 51. Replace Human Capital Management System Ph 2.** New Workday modules for Recruiting/Onboarding and Talent/Performance are scheduled to complete January 2024.

---

**As of 9/30/23**

**55.SEC Records Inventory Management Solution.** Requirements have been developed.

Awaiting Council approval.

**56.Build an Ethics Financial Reporting Solution.** Project date will be updated after this project has completed the procurement process.

**57.Electronic Document Management - EDMS.** The EDMS project is part of a group of projects relying on the Hyland Software System, which are being developed serially. We are currently re- validating project budget, scope, and participating department and will then re-work the schedule.

## C. Changes to Major Project Status List

1. Major Projects Implemented or closed since last report.
  - a. Court Case Management System: On Prem Upgrades – #9 on August 2023 TAR.
  - b. iNovah Upgrade. – #15 on August 2023 TAR.
  - c. Unmanned Aerial Systems (Drones) – #18 on August 2023 TAR.
  - d. Axon Air (Drones) – #26 on August 2023 TAR.
  - e. Data Center Improvement Program – #39 on August 2023 TAR.
  - f. Infrastructure Upgrade of Dallas LIB system (formerly called E-Rate) – #46 on August 2023 TAR.
  
2. New Projects added that are not on the Major Projects List – These projects are either Internal projects or projects that are still be developed before adding to this list.
  - a. WIC Texting Solution – Office of Community Care
  - b. CAD & RMS Universal Replacement – Dallas Police Department
  - c. Dispatch/Communications - Video Wall – Dallas Fire & Rescue
  - d. Enterprise Community and Employee Engagement Solution – City Manager’s Office

# Section 2: IT Operations

## A. Outage Report

### 1. Monthly Service Desk Report

The IT service desk functions as the single point of contact (SPOC) between the City’s IT organization and its end users. The service desk handles a variety of requests that include distribution to support, setting user passwords, and troubleshooting issues. It assists customers with incident resolution and service request management. The monthly service desk report provides metrics and trends of the IT service desk performance.

#### Service Desk Call Metrics

Category	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept
Total Calls	7616	7151	7222	9694	6969	8230	7319	11740	5528	5698	8195	6344
Answered	6921	6132	6222	7117	6778	8048	7171	7977	5005	5513	7941	6056
Abandoned	695	1019	1000	1000	1084	182	148	523	523	185	254	288
Abandoned (<10sec)	93	273	408	380	1493	81	65	1398	175	166	172	172
Abandoned %(<10sec)	1.3	3.9	6	5	8	1	1	17.53	3.5	3.0	2.2	2.8

Metric	Metric	Current Month	Trend								
Average Speed to Answer – Voice	Average Speed to Answer - Voice	00:19									
Password Related Incidents	Password Related Incidents	18%	<table border="1"> <tr><th>Month</th><th>Value</th></tr> <tr><td>Jul</td><td>26.4%</td></tr> <tr><td>Aug</td><td>18.2%</td></tr> <tr><td>Sept</td><td>18.3%</td></tr> </table>	Month	Value	Jul	26.4%	Aug	18.2%	Sept	18.3%

Month	Value										
Jul	8913										
Aug	6644										
Sept	7236										

NOTES:

- 1. In September 2023, the IT Helpdesk received 6344 calls for support. This is a decrease over August which saw 8195 calls, and slightly below the yearly average of ~7700 per month (excluding May and the impact of ransomware related calls).
- 2. First Contact Resolution (Incidents) for September, 74% was down from August, 88%, and slightly above previous months.
- 3. Field Services (excluding DPD) average service duration of 18.9 days in September is an increase over August of 3.4 days, however it is expected that ransomware deployments and ticket maintenance has skewed this reporting metric substantially.
- 4. Field Services for DPD remained relatively stable with average service duration 5 days in September from 4.6 days in August.

2. Monthly Incident Report (Break/Fix “My Computer doesn’t work”)

Top 15 Assignment Groups  
Incidents September 2023

**NOTES:**

1. Severity 1 and Severity 2 incidents are the most severe and most likely result in degraded services or outages that impact the ability of City departments to fulfill their missions.
2. This chart tracks the number of reported incidents by department for the prior month, along with the total number of minutes the incident(s) potentially impacted them.
3. These data points are extracted from ServiceNow based upon input by city IT technicians. ITS continuously works with IT service delivery managers to improve documented processes to ensure timely updates to ServiceNow in order to accurately reflect the actions for the incident and to provide a more representative experience.

**NOTES:**

1. This chart provides the distribution of major incidents and impact minutes over specific services and delineated by Critical and High Severity.

**NOTES**

1. This chart provides the trendline for the average mean time to repair (MTTR), an industry standard for tracking the timeliness of resolution on reported incidents.
2. Diligence by the technicians to document and resolve tickets in a timely manner is the primary driver of the reduction in MTTR.
3. Month over month, for the last 4, of sustained decrease in MTTR post ransomware.
4. August MTTR updated to reflect post month closure validation. September numbers will be updated in October reporting cycle to reflect tickets closed post data compilation.

\*Open incidents may impact September MTTR in October report

### 3. Monthly Major Outage Report

Priority	Description	Department	Primary	Secondary	Assignment Group	Hours
1 - Critical	Network   Network outage	DFD	Inquiry / Help	How To	ITS Network Engineers	5.5
1 - Critical	PC Support   L3 videos for dash camera not playing	DPD	Software	Troubleshooting	ITS DPD Applications	4.0
2 - High	Water IVR   customer is not getting confirmation of Water Payment	311	Inquiry / Help	Policy/Procedure	ITS Presidio Service Desk	73.6
2 - High	Server   FSDPD30   Stuck Processes and unable to process any rehydration	DSV	Inquiry / Help	Escalation/Status	ITS Server Team	8.0
2 - High	Polaris   Polaris and the web version Leap is not functioning	LIB	Hardware	Server	ITS Server Team	5.6
2 - High	Network   slow network connection   1400 botham jean	DPD	Network	Slow Speed	ITS Network Connectivity	25.3

#### NOTES

1. Major outages are identified as Severity1 and Severity2 that have significant impact to City services or Department’s ability to perform critical functions and last over 4 hours in duration. As we mature the process this definition will be better scoped around impact and less around duration.
2. Outages with #value are incidents that had over 4 hours of impact, however, are incomplete of details, at the time the report was generated, to identify full impact to departments
3. September 2023 saw a significant decrease in both average time to repair and total outage time for Major Incidents compared to August 2023. September average MTTR of 20.3 hours compared to August of 141.6 hours. September total outage 121.9 hours compared to August which had 3682 hours.
4. 6 Major incidents in the month of September 2023, 2 critical and 4 high, a decrease of 22 over August 2023 of 28, 13 critical and 15 high.

## B. Service Requests (including new employee onboarding)

### 1. New Hire Report

### Notes

1. In the month of September 2023, a total of 137 requests tickets were generated for new employees.
2. DWU, DEV, and PKR being the top 3 hiring departments. DWU has had 12 consecutive months in the top 3.
3. Blank indicates no department match was available for the requested onboarding at the time the report was generated.

2. Service Request Report (An ask for service – “I need Software Installed”)

Notes

1. September 2023 Service Request actions totaled 773 a decrease of ~500 over August which totaled 1269. This report depicts the top 15 Request by type that were selected.
2. “I Can’t Find What I’m Looking For” is a category used when a service catalog item does not exist for what the user is asking.

Notes

1. This chart illustrates that 647 Request Tickets generated 932 Request Actions. Frequently one Request generates multiple actions to be completed by one or more teams to fulfill the ask.

## C. IT Service Desk Satisfaction Surveys

The City’s IT Service Desk conducts surveys of employees that have submitted incident reports and service requests. These surveys are performed through the ServiceNow platform in the form of email requests directly to the individuals who submitted the request to the IT Service Desk either by calling or submitting through the online ServiceNow platform. Submitters are asked to provide feedback on the timeliness of the disposition of their request and their rating of the overall Service Desk experience. Along with the rating, submitters are asked to provide other feedback which can be used to address specific issues and to improve the overall timeliness and experience.

Starting with the August 2023 Technology Accountability Report (TAR), the monthly survey results will be provided. In subsequent monthly TAR reports, it will also track trends over time from the survey data.

### 1. IT Service Desk Timeliness Report

#### Notes

1. This chart illustrates the overall survey responses to the question of Service Desk timeliness for requests submitted in September 2023.

---

## As of 9/30/23

2. While each IT Service Desk ticket submitted results in a survey request to the submitter, not all survey requests receive a response, and these data represent the results from those responding to the survey.
3. The survey requests employees that have submitted an incident report or service request to the IT Service Desk to rate the timeliness of the service delivery on a scale along five points; Unhappy, Just OK, Average, Fine, Happy, and Delighted.
4. For the September 2023 survey, 86% of respondents rated their perception of timeliness of the service to be either Fine, Happy, or Delighted.

### 2. IT Service Desk Overall Experience Report

#### Notes

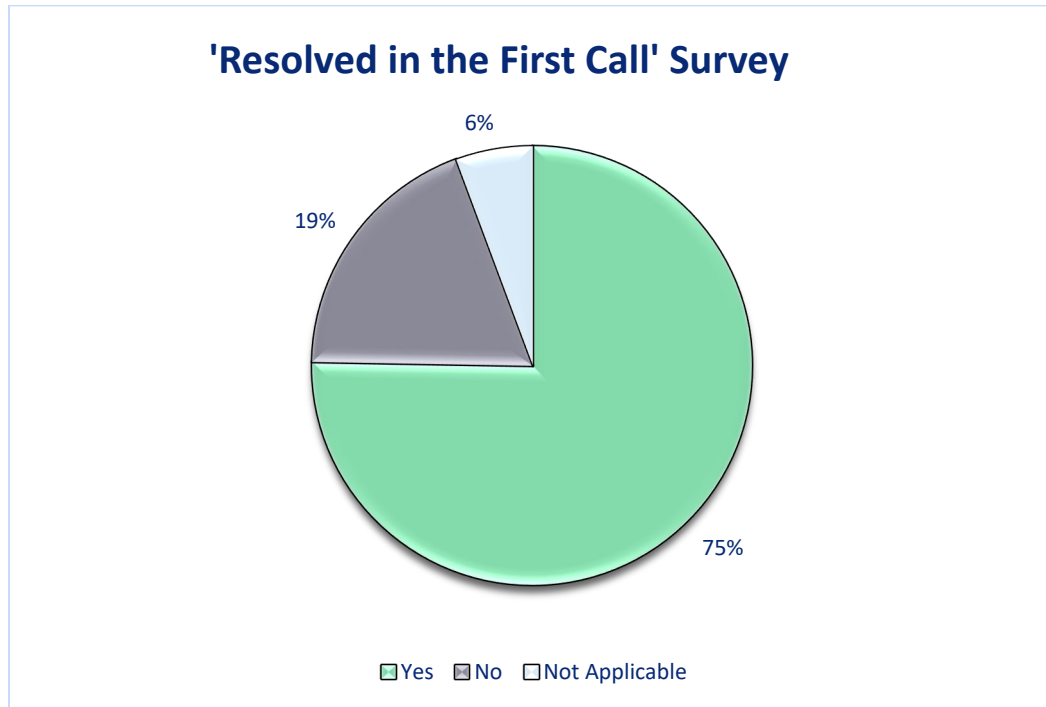

1. This chart illustrates the overall survey responses to the question of Service Desk experience for requests submitted in September 2023.
2. While each IT Service Desk ticket submitted results in a survey request to the submitter, not all survey requests receive a response, and these data represent the results from those responding to the survey.

---

**As of 9/30/23**

3. The survey requests employees that have submitted an incident report or service request to the IT Service Desk to rate their overall experience of the service delivery on a scale along five points; Unhappy, Just OK, Average, Fine, Happy, and Delighted.
4. For the September 2023 survey, 88% of respondents rated their overall experience with the IT Service Desk to be either Fine, Happy, or Delighted.

### 3. IT Service Desk First Call Resolution Report

#### Notes

1. This chart illustrates the overall survey responses to the question of whether the issue was resolved on the first call to the Service Desk for requests in September 2023.
2. The survey requests employees that have submitted an incident report or service request to the IT Service Desk on whether the issue was resolved with the first call (Yes or No).
3. For the September 2023 survey, 75% of respondents responded that their issue or request was resolved on the first call.

## Section 3: IT Budget Execution

IT Budget Execution provides information on the execution of the IT budget, the management of technology procurements, and the management of IT Human Capital. Unless otherwise noted, information in this section is effective through 9/30/2023.

### A. Contract/Procurement Management

#### Upcoming/Recent Contracts Requiring Council Approval

##### Item on October 25 Agenda:

Sigma Surveillance, Inc. dba STS360 – Supplemental Agreement No. 2 to increase the service contract for purchase and installation of hardware and software for a video surveillance camera system

- Contract amount \$4,081,989, from \$16,327,955 to \$20,409,944
- Maintenance and support include warranties on all camera hardware, system patches and updates for functionality improvements, and relocation of cameras as necessary to improve effectiveness.

##### Item Approved on September 27 Agenda:

AT&T Global Services – service contract for continuous maintenance and support for the City's 911 telephone system infrastructure

- 1-Year renewal option (2<sup>nd</sup> of 3)
- Contract amount \$4,916,382
- System is used to process telephone and text message requests for emergency services
- Agreement includes software upgrades and patches, network monitoring, and 24 hour technical support to prevent and/or resolve outages, performance and connectivity issues, data corruption and security issues

---

## As of 9/30/23

### Item Approved on September 13 Agenda:

International Business Machines (IBM) – agreement for the ongoing licensing, hosting and technical support for the citywide enterprise asset management system

- 5-Year agreement
- Contract amount \$11,000,354
- System is a fully integrated platform to monitor the operational use and sustainment of all capital assets including:
  - Capital asset project management efforts
  - Work orders, scheduling, and capital asset maintenance
  - Inventory management and replacement schedules

### Open Solicitations

#### **Network Cabling**

- Five-year contract with two, two-year renewal options for the design, installation, maintenance, and repair of network cabling
- Open Date – September 7
- Close Date – October 20

#### **Broadband and Digital Divide**

- Eight-year initial contract with four three-year renewal options for Digital Equity Infrastructure and Last Mile Connectivity. The City is looking to select one or multiple solution/service providers qualified to design, build, deliver, and manage scalable fiber infrastructure to connect City facilities and high-priority unserved Census Tracts.
- Open/Advertised Dates – September 28 and October 5
- Pre-Solicitation Conference Dates – October 23 and November 14 (each at 2:00 p.m.)
- Close Date – December 15
- Solicitation Evaluations – January 3 to February 14

### **Fire Station Alerting System**

- Stable state-of-the-art internet protocol (IP) Fire Station Alerting System (FSAS) that offers pre-alert capabilities, dispatch capabilities, audio, and visual features, administrative features, and alternative forms of monitoring for Dallas Fire and Rescue (DFR or Department).
- Open Date – March 20
- Close Date – September 29 (evaluations are in process)

### Upcoming Solicitations

**Electronic Lien Filing** – System capable of e-recording the lien filing process with Dallas County

**Software Master Agreement** – Service contract to purchase of various enterprise commercial off the shelf (COTS) software products including perpetual, fixed term, subscription, and software as a service with their related software maintenance, support, training, and implementation, and other related services that will be used by the City in support of existing business operations.

**Network Managed Services** – Managed services for voice and data services and network support help desk

**Court Case Management System** – System to automate and optimize daily work processes for Dallas Municipal Courts; replacement for current system

**EMS Inventory Management System** - System to manage and track acquisition and distribution of DFR inventory which include operation supplies, emergency medical supplies, personnel gear

B. Budget Performance & Execution – estimates as of August 2023  
September 2023 actuals will be available after November 27, 2023

**Fund 0191-9-1-1 System Operations Estimates as of August 2023**

Expenditure Category	FY 2022-23 Adopted Budget	FY 2022-23 Amended Budget	YTD Actual	YE Forecast	Variance
Civilian Pay	643,798	643,798	471,091	525,713	(118,085)
Pension	91,413	91,413	65,889	73,980	(17,433)
Health Benefits	54,481	54,481	40,750	61,802	7,321

<b>Total Expenditures</b>	<b>110,191,357</b>	<b>110,191,357</b>	<b>103,391,574</b>	<b>114,446,875</b>	<b>4,255,518</b>

## D. ITS Staffing & Hiring Report

### 1. ITS Funded Staffing Levels

IT Fund	FY 20	FY 21	FY 22	FY 23	FY 24 Plan
<b>Fund 0191 - 9-1-1 Technology Support</b>	7.0	7.0	7.0	7.0	7.0
<b>Fund 0197 - Radio Communications</b>	28.0	28.0	30.0	30.0	30.0
<b>Fund 0198 - Data Services</b>	204.0	190.0	204.0	223.0	223.0
<b>Total</b>	<b>239.0</b>	<b>225.0</b>	<b>241.0</b>	<b>260.0</b>	<b>260.0</b>

### 2. Vacancies and Hiring Activities

- As of September 30, 2023, ITS had 61 vacancies out of the available 260 positions.
- As of September 30, 2023, of the 12 vacancies the disposition was:
  - 35 are in draft posting
  - 8 are undergoing reclassification to re-align within the ITS department
  - 10 are awaiting posting
  - 8 are actively posted
  - 7 were previously posted
    - 5 are under review
    - 0 are at a second round of interviews
    - 7 have pending offers with candidates
- During September 2023, the department completed 5 hiring actions with 4 promotions and 1 new employee.

# Section 4: Cybersecurity Programs

## A. Awareness Training

Security Awareness training is measured on an annual basis. Over the last several years ITS has observed a generally positive trend in risk scoring associated with annual employee training. Beginning with each new fiscal year the City will conduct a new set of security awareness courses to meet not only the best practices, but State of Texas House Bill 3834 requirements for all government employees.

However, each year we see new or enhanced requirements from the Texas State Legislature as the risk environment evolves and becomes increasingly more threatening. As such, our security awareness training program must evolve to reflect the latest requirements and latest threats and it is critical that the security awareness training is completed each year. The information below illustrates the enrollment and completion efforts of employee training over the course of the year. For FY 2021-22 the City completed 99% of 18 training campaigns covering HIPAA, PCI, and Cybersecurity. The FY 2022-23 security awareness training campaign on January 25, 2023, and ITS is tracking its progress and working with City employees to ensure completion.

- Note employees with less than 25% of job function on technology are not required to complete cybersecurity training.

In addition, ITS continuously applies best practices to the employees around phishing and their ability to recognize and appropriately handle phishing incidents. Campaigns designed given real world scenarios, typically taken from recent events are sent out to the employee population to test their ability to distinguish and act. This provides feedback to the employees as well has increased the actual amount of true phishing reported. As well, a “Report phishing” button added to user’s Outlook has increased both the numbers of test phish and actual phishing emails.

## B. Situational Awareness

Annually ITS assess the overall Security posture of the organization based upon the NIST Cybersecurity Framework (CSF). Each category within the NIST CSF is evaluated for the current level of maturity and expectant maturity level. This process uses current and projected technologies and documented standards and procedures to complete the process. ITS utilizes both internal and external resources to conduct assessments. The results of the assessments are used by ITS to develop security strategy for cybersecurity and privacy. The below figure outlines the maturity model for the CSF. While the TAR does not provide our scores from our self-assessment, ITS can provide this information to Council members and discuss the assessments in depth as requested.

		Capability Maturity Model Levels				
		Level 1 Initial	Level 2 Repeatable	Level 3 Defined	Level 4 Managed	Level 5 Optimized
NIST Cybersecurity Framework Functions	Identify	Little to no cybersecurity risk identification.	Process for cybersecurity risk identification exists, but it is immature.	Risks to IT assets are identified and managed in a standard, well defined process.	Risks to the business environment are identified and proactively monitored on a periodic basis.	Cybersecurity risks are continuously monitored and incorporated into business decisions.
	Protect	Asset protection is reactive and ad hoc.	Data protection mechanisms are implemented across the environment.	Data is formally defined and protected in accordance with its classification.	The environment is proactively monitored via protective technologies.	Protection standards are operationalized through automation and advanced technologies.
	Detect	Anomalies or events are not detected or not detected in a timely manner.	Anomaly detection is established through detection tools and monitoring procedures.	A baseline of "normal" activity is established and applied against tools/procedures to better identify malicious activity.	Continuous monitoring program is established to detect threats in real-time.	Detection and monitoring solutions are continuously learning behaviors and adjusting detection capabilities.
	Respond	The process for responding to incidents is reactive or non-existent.	Analysis capabilities are applied consistently to incidents by Incident Response (IR) roles.	An IR Plan defines steps for incident preparation, analysis, containment, eradication, and post-incident.	Response times and impacts of incidents are monitored and minimized.	The capabilities of all IT personnel, procedures, technologies are regularly tested and updated.
	Recover	The process for recovering from incidents is reactive or non-existent.	Resiliency and recovery capabilities are applied consistently to incidents impacting business operations.	A Continuity & Disaster Recovery Plan defines steps to continue critical functions and recover to normal operations.	Recovery times and impacts of incidents are monitored and minimized.	The capabilities of all IT personnel, procedures, technologies are regularly tested and updated.

Figure 3: Assessing Cybersecurity Maturity

## C. Data Protection & Privacy

### 1. Endpoint Protection

Endpoint protection is one component to the organization's ability to handle daily malware. All devices needing connection to the internet are subject to attacks. Attacks are mitigated through technologies monitoring the systems in real time reacting and responding to those attacks. Technologies like Firewall and Endpoint Detection and Response all are in place to respond to those attacks. Below is the current status for endpoint attack metrics.

## 2. Email Screening

The City of Dallas receives and send millions of emails a month. Phishing is an attack vector that is utilized by bad actors in the form of social engineering, as a means to gain internal access to the network. This can then be used to introduce malware, ransomware, and other malicious software to adversely affect City services. Below provides a picture of mail messages processed and remediated prior to user reception.

## Section 5: IT Infrastructure

IT Infrastructure information and status updates on efforts to upgrade and improve the IT infrastructure used by the City to reduce technical debt, better meet current needs, and build for future service needs.

### A. Resiliency - Disaster Recovery and Business Continuity

Resilience is essential in the City’s IT environment because it ensures that the system can continue to function effectively and efficiently even when unexpected events occur. This can include things like hardware or software failures, power outages, natural disasters, and cyber-attacks. Lack of resiliency impacts Local government to prolonged outages, data loss, and security breaches. These can be costly in terms of services to residents, loss of public trust, and regulatory penalties.

Resiliency can be achieved through a combination of redundancy, fault tolerance, disaster recovery planning, and proactive monitoring and maintenance. By designing and implementing resilient IT systems, the City can minimize the impact of disruptions and maintain business continuity, ensuring that critical applications and services remain available. ITS has begun evaluating on opportunities to design the City’s IT environment to improve resilience.

A critical component of Disaster Recovery and Business Continuity practices is backing up critical data, testing data backups, and conducting exercises to ensure that data backups can be successfully utilized to restore business services.

## B. Audit

Currently the ITS department is working through several audits that impact technology services. Below representative if the Audit remediation efforts and stages.
