

**Vanguard Rental Corporation**  
(Non-Industrial Facility)

Vanguard Rental Corporation is a car rental service for public travelers utilizing Love Field. Vanguard operates National Car Rental and Alamo Rent A Car in one facility.

Vanguard Car Rental Facility

A car wash is located on the premises in order to service the rental vehicles. This carwash drains through an oil/water separator to the sanitary sewer. Light vehicle maintenance (tire rotation, oil changes, etc) is done on the rental cars, and there is a shop maintained for this purpose. Waste oil and filters are kept in secondary containment. Used tires are kept inside the shop until collected by an approved recycler. A gas island provides gasoline and motor oil. Spill kits are kept in strategic locations in the shop and gassing area. Key employees are trained in spill response; safety training occurs quarterly. This facility does not conduct deicing activities.

<b>Chemical Inventory</b>		
<i>Item</i>	<i>Quantity/Where stored</i>	<i>Comments</i>
Waste oil	1 drum/inside shop	Secondary containment
Waster oil filters	1 drum/inside shop	Secondary containment
Antifreeze	2 drums/inside shop	
Detergent	1 drum/inside shop	
Window cleaner	20 gallons/inside shop	
All-purpose cleaner	12 cases/inside shop	
Gasoline	3 10,000 gal UST	
Oil	1 500-gal UST
