2026 Bond Package

On November 3, 2026, voters will decide on **Proposition A**, which asks whether the **City of Dallas** should issue **$443 million** in general obligation bonds for 5 public safety facility projects.

Proposition A is the only City of Dallas bond proposition on the November 2026 ballot.

Proposition A would fund 5 proposed projects:

- **$82M** — Law Enforcement Training Center
- **$149M** — Public Safety Training Complex
- **$40M** — Emergency Operations Center and 911 Facility
- **$150M** — DPD Property Room and Crime Lab
- **$22M** — Fire Station No. 4 Replacement

Relationship to the 2024 Bond Program

The 2024 Bond Program totaled $1.25 billion across ten propositions. Proposition A on the November 2026 ballot is a new, separate authorization specific to the 5 proposed public safety facilities.

The Law Enforcement Training Center previously received $50 million from the 2024 Bond Program, along with $25 million in state grants, $31.5 million in committed private funds, and $38.5 million in expected private donations. Completion of the Law Enforcement Training Center will require an additional $82 million.

The Public Safety Training Complex, the Emergency Operations Center and 911 Facility, the DPD Property Room and Crime Lab, and the Fire Station No. 4 replacement were not included in the 2024 Bond Program.

Where to Get More Information

Beginning October 13, Voter Information Documents will be available on the City of Dallas website.
Fact sheets on the individual projects and a FAQ sheet can be found on the City's website at DallasBond.com.
Early voting is October 19–30, 2026, and Election Day is November 3, 2026.

Project Details:

Law Enforcement Training Center (LETC)

The Law Enforcement Training Center is a replacement facility for the academic portion of the Dallas Police Department (DPD) Police Academy. The location on the UNT Dallas Campus will provide academic instruction, Reality-Based Training (RBT), and physical training, for DPD recruits and in-service personnel. The total project cost is $227 million. Of that amount, $145 million in City, State, and private funding has been identified. Proposition A would provide $82 million. Design is complete, and groundbreaking was September 3, 2026.

Public Safety Training Complex (PSTC)

The Public Safety Training Complex is proposed as a 60-plus acre training complex at Dallas Executive Airport. The second site of the DPD Police Academy is for the advanced, scenario-based field training needed to complete the DPD recruit and in-service training. The total funding need is $170 million, of which $149 million would be funded through Proposition A. This project is in the programming stage, design has not yet started.

Emergency Operations Center and 911 Facility

This project would relocate, renovate and equip an existing City-owned facility to house the City's Emergency Operations Center and 911 call center. The total estimated cost is $40 million. Site selection is in progress.

DPD Property Room, Evidentiary Vehicle Storage Facility, and Crime Lab

The project consists of developing a consolidated facility to accommodate DPD's property and evidence storage, forensic crime laboratory functions, and secure evidentiary vehicle storage in a single location. The estimated cost is $150 million at a City-owned site, and $232 million at an alternate site in Dallas. Proposition A would provide $150 million. City staff are continuing due diligence on a possible site.

Fire Station No. 4 Replacement

Fire Station No. 4 has been in service since 1953. The project will be a replacement of the existing Fire Station No. 4 with a 5-apparatus bay configuration. A new site will need to be identified for a replacement. The total estimated cost is $22 million.

The ballot language includes the statement **'THIS IS A TAX INCREASE'**, which State law requires this language for bond propositions, however, **the city's tax rate will not increase related to this bond program**.

The estimated total repayment amount, including principal and interest, is **$629,618,180**, based on market conditions, over a term not to exceed 20 years.
