**Presentation:**

Robin Bentley, Director of the Office of Economic Development, provided information about the proposed Economic Development proposition. The presentation included a comparison of the Economic Development proposition to typical infrastructure propositions, as well as an overview of the local, state, and federal regulations that guide economic development bond investments.

The subcommittee reviewed the three most recent bond propositions that funded economic development projects (2006, 2012, and 2017), as well as examples of bond-funded projects.

Finally, the subcommittee was presented with potential options for the 2024 Economic Development proposition, including a focus on catalytic development areas, directing all funding toward the Target Areas identified in the recently adopted Economic Development Incentive Policy, allocating funding by Council district, or some combination of these three options.

The subcommittee did not take formal action but discussed the four options.
