Area in Dallas to be sprayed for West Nile Virus

Dallas – A mosquito pool in Dallas has confirmed positive for the West Nile Virus. Weather permitting, the area delineated below is scheduled for mosquito control spraying on Friday, June 19th and Saturday, June 20th between 9:00 p.m. and 5:00 a.m. each night.

Control Area: The area to be sprayed is within an area generally bounded by: 3700 block of Bickers Street 75212: **Canada Drive** on the north, **Kilgore Street** on the west, **N. Westmoreland Road** on the east, and **Singleton Boulevard** on the south.

While the Environmental Protection Agency approves the insecticide for treatment, residents in the above areas should avoid contact with the spray by staying indoors. People inside a vehicle while trucks are actively spraying should remain in their vehicles with the windows up and the air conditioner on until the trucks pass through, and the spray is no longer visible. People who are out during the scheduled spraying time should be alert for trucks and should not follow them. Residents who come into contact with the spray are advised to wash the affected area thoroughly with soap and water. The spray breaks down quickly in the presence of sunlight and has no residual effect.

Protection against mosquito bites

Dallas residents are urged to take precautions against mosquito bites by reducing outdoor activity during the evening and nighttime hours. Residents who are outside during these times should cover their arms and legs and use a mosquito repellent.

Prevent mosquito breeding

Residents should eliminate standing water to prevent mosquito breeding and the spread of West Nile Virus. Breeding places for mosquitoes include swimming pools that are not kept clean, stagnant ponds, pet watering dishes, birdbaths, potted plants, old tires, empty containers, toys and clogged rain gutters and French drains. Eliminate standing water promptly, as mosquitoes can grow from egg to adult in as little as seven days. Dallas residents may receive free mosquito dunks at Code Compliance Services District Offices while supplies last.

Code District Offices:

3112 Canton Street (Code Administration)

7901 Goforth Road (North Central, North East)

2721 Municipal St. (South East)

320 East Jefferson Blvd. (Central/South Central)

4230 W. Illinois Ave (South West)

9803 Harry Hines Blvd. (North West)

To report standing water or mosquito problems Dallas residents should call 3-1-1. To be added to the City of Dallas Do Not Spray list contact 3-1-1. For additional information on mosquito control, visit www.dallascitynews.net/fightthebite.
