

1. Hi, kids! I'm PB. I have a messy job, but I like it. I clean up graffiti!

2. What is *graffiti*? It is any type of mark put on a fence, bathroom wall, house, bridge, or anything else without permission.
3. Did you know graffiti is *illegal*, meaning it is against the law? That means whenever somebody puts graffiti somewhere he or she is breaking the law. Some can even go to jail.
4. A lot of times graffiti may seem pretty, but if you did not get permission from the owner, it's still breaking the law.
5. Graffiti can make buildings, fences, signs, sidewalks, and walls really ugly too. Even if we clean it up, it will never look new again.
6. We have used the word 'graffiti' a lot so far. Circle all the 'graffiti' you can find below. I found one for you to get you started. How many did you find? (word puzzle below)
7. *How can graffiti be illegal? I can draw, paint, color, and design. It's almost like art!* Graffiti sometimes is pretty, but it is still against the law if you did not permission first.
8. Some people do not use paint to mess up other people's things. They use markers, nail polish, things to scratch their name on something, or chemicals that cause damage to plastic and glass. They can all be against the law if you don't have permission.
