Enclave At Ash Creek
Home Owners Association

May 3, 2011

Ruth Morgan, Chairwoman
Gary Griffith, District 9 representative

Dallas Redistricting Committee
Dallas City Hall
1500 Marilla Street
Dallas, Texas 75201

RE: Enclave at Ash Creek

Dear Chairwoman Morgan and Representative Griffith:

On behalf of the homeowners of the Enclave at Ash Grove, I respectfully request that our neighborhood be considered and drawn into the same district as our immediately adjacent neighborhoods of Forest Hills, Little Forest Hills, and Casa Linda. We are together a community.

Unfortunately, for many years the Enclave neighborhood has been arbitrarily separated from our companion neighborhoods by the illogical boundary of a railroad track. The more appropriate boundary is Ferguson Road, which is currently the DISD boundary. This school boundary line reinforces the cohesion of our community and enables our children to attend school together and to participate in sporting activities together. Our children belong to the same Scout Troops, YMCA activities and after-school programs. Similarly, our families socialize together, enjoy cultural events together and participate in community building efforts such as FTLOTL, Rotary and the East Dallas Chamber.

To have consistent City Council representation would *"recognize the traditional geographic, economic, cultural or social center of an existing district"* as noted in your redistricting guidelines set out here for your convenience.

Redistricting Guidelines

- Preserving the voting strength of minority populations in compliance with the Voting Rights Act;
- Making the districts compact;
- Maintaining communities of interest in a single district and avoiding splitting neighborhoods;
- Using public school attendance boundaries as defined by the independent school districts in the City of Dallas to assist in defining neighborhoods;
- Preserving the cores of existing districts as permitted by case law, meaning to recognize the traditional geographic, economic, cultural or social center of an existing districts as supported by public testimony;
- Following easily identifiable geographic boundaries and other unique geographical configurations; or
- Facilitating responsiveness of elected representatives to their constituents.

We believe our request satisfies all 7 of these redistricting criteria. The district is more compact. Our neighborhood would no longer we split and it would preserve the core of our community. Ferguson Road is a logical, easily identifiable boundary. Further, our neighborhood has relied on the gracious responsiveness of Sheffie Kadane (and Gary Griffith prior to that) to address our problems and resolve our issues at City Hall.

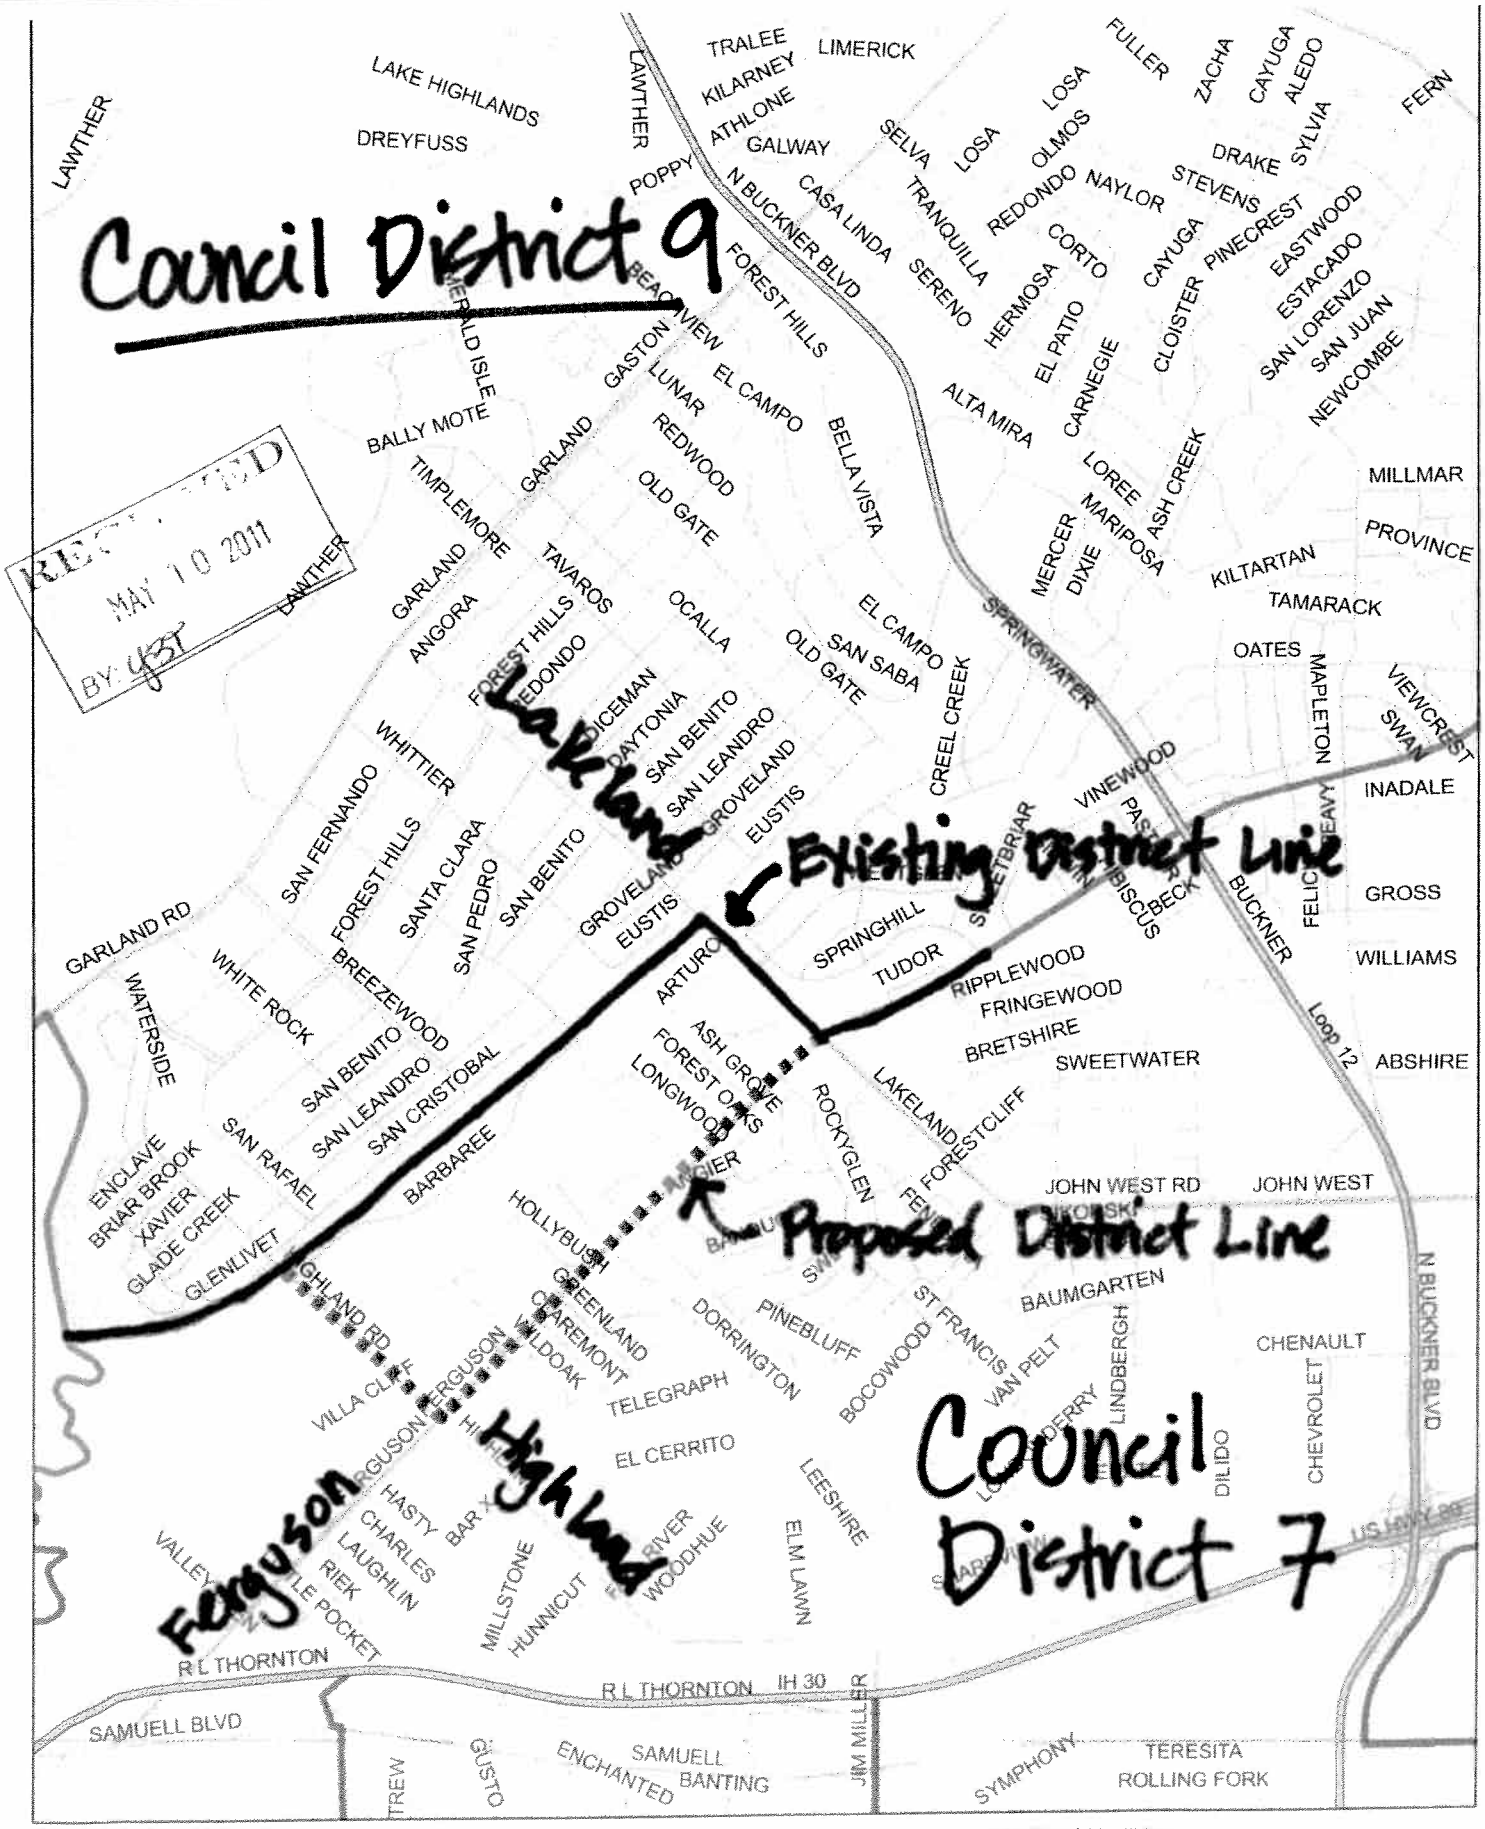

Finally, the neighborhoods of Forest Hills, Little Forest Hills and Casa Linda are a ***community of interest*** in every respect of the phrase. We are inextricably linked and therefore, we desire consistent Council representation. We respectfully request the Redistricting Committee consider restoring appropriate Council representation to our neighborhood so that we will no longer be divided from our core district.

Thank you for your time and thoughtful consideration of our request.

Very truly yours,

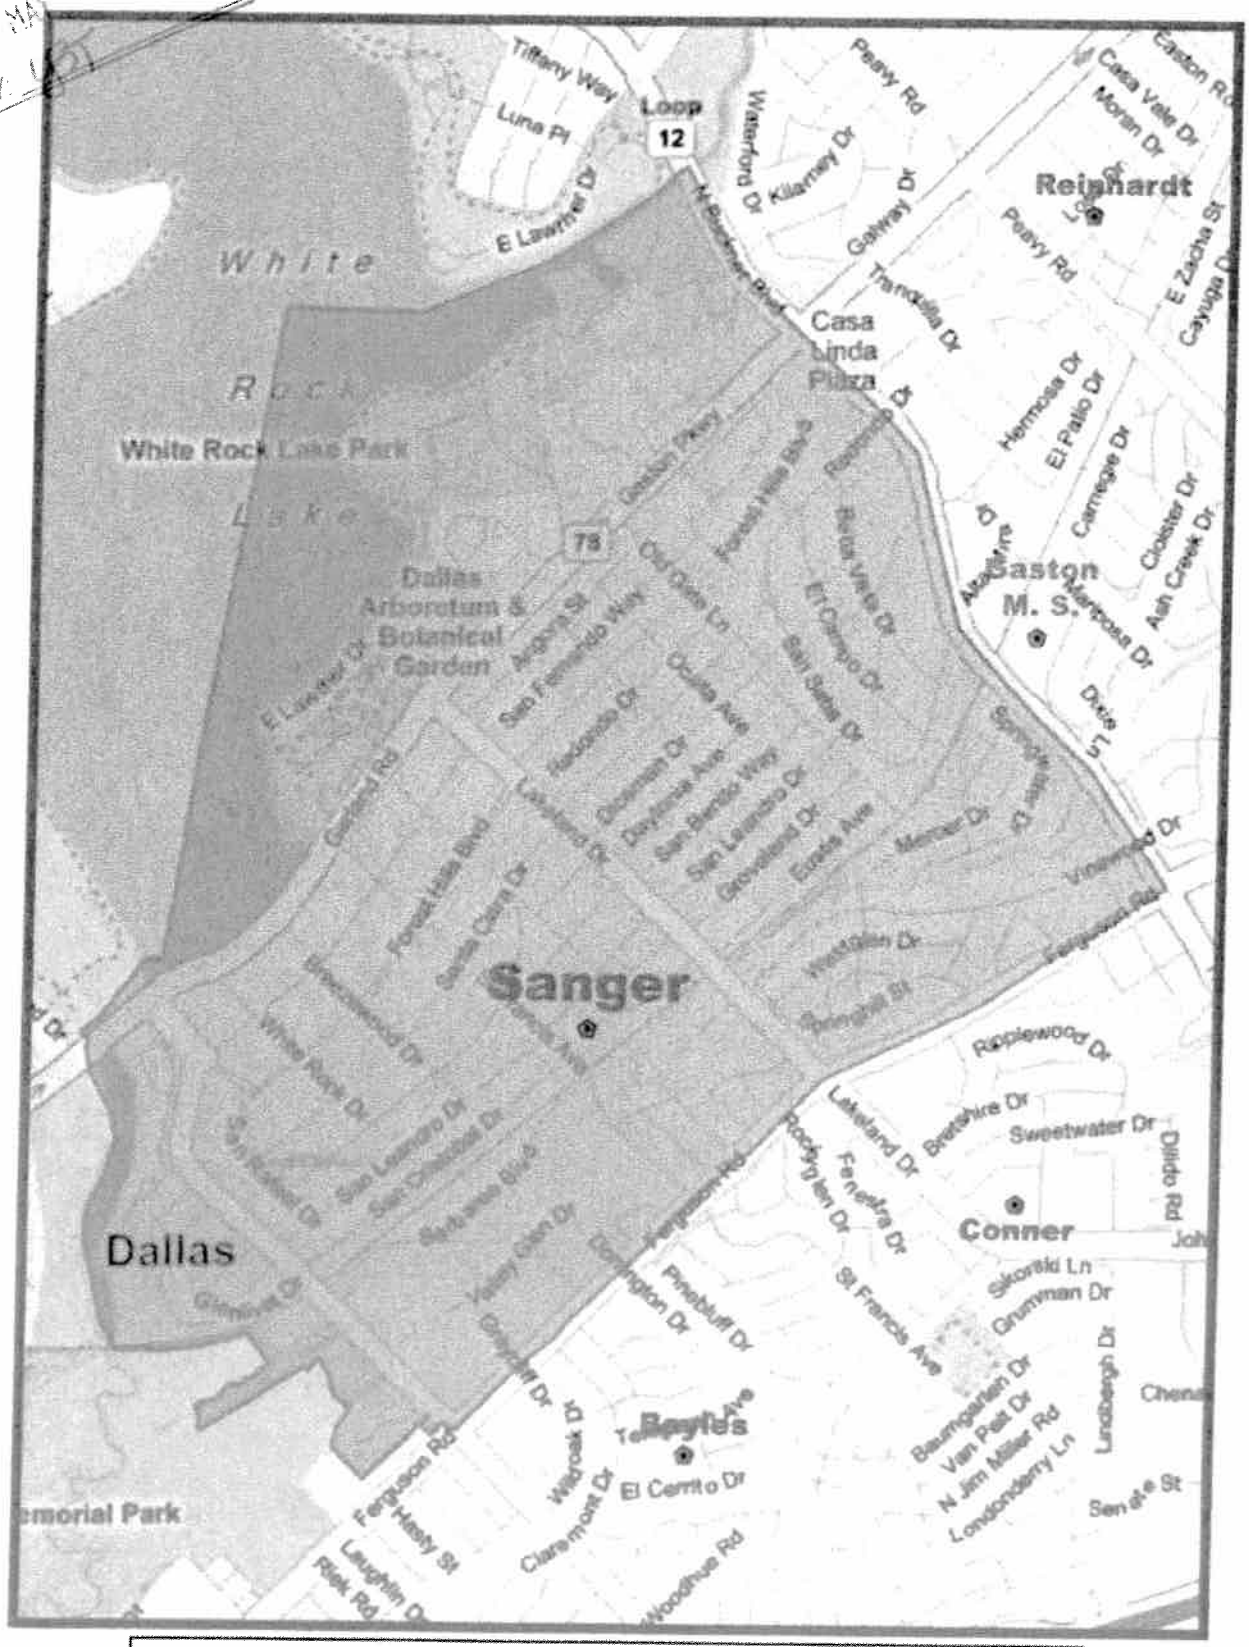

Tina Triche

Re: Submission of written testimony resulting from my live testimony given at May 5, 2011 Public Hearing at Resource Center of Dallas

Dear Madame Chair and Honorable Members of the Committee:

Thank you for the opportunity to include written testimony to supplement the record of my live testimony given at the May 5, 2011 public hearing.

You heard from several long-time members and residents of the Oak Lawn community at the hearing, including my friends and OLC colleagues Michael Milliken and Mark Shekter. As I mentioned, I have lived in Oak Lawn since 1983. I own two properties in Oak Lawn, one of which is my home. I am currently Vice President of the Oak Lawn Committee (OLC), although I am speaking on my own behalf, not as a representative of OLC. I love my neighborhood, and will continue to work to maintain its character, diversity and vibrancy while contributing to the debate and planning for future economic development in Oak Lawn.

P.D. 193 was the result of years of hard work and negotiation by members of the Oak Lawn Forum. Michael Milliken has already forwarded to committee staff a map showing the geographic boundaries of Oak Lawn Special Purpose District P.D. No. 193, along with a link to two other maps that I think are very helpful in answering the questions on which Ms. Jones asked me to elaborate. I am including with my letter a color copy of the map entitled Proposed Land Use – one of the two maps referenced but not included as a PDF to Michael's email. This color map is important because it reflects the zoning put into place by P.D. 193 at its inception.

The nature of development in Oak Lawn has changed dramatically as the re-development of downtown and adjacent areas has occurred in the past decade, yet it has occurred as predicted in the enclosed color zoning map. What has morphed in the past decade and with the implementation of the ForwardDallas! Comprehensive Plan and related

amendments, is the definition of "density." Oak Lawn has protected its pockets of low density residential while allowing increased density in a smart way. For example, we love our narrow streets and are happy to live with our parking shortage, but in new multi-family redevelopments we push for increased underground and/or screened integrated garage parking with specific off-street areas for public services such as trash pickup and moving van lanes/bays to prevent further ensnarling adjacent street traffic. We fight for anything green – trees, landscaping, pocket parks – and take it personally when developers try to circumvent our landscaping requirements or cut down what is left of our beautiful trees. In exchange for amenities on the ground – wider sidewalks, trees, plaza areas, landscaping, bike racks, trail connections, etc. – we are willing to negotiate more height with a smaller building footprint and increased density. As any architect will tell you, people don't look straight up when they walk down the street -- they look at what's around them on the ground. And we know the price of land will continue to rise, recession or not, making increased density unavoidable.

As I mentioned at the hearing, Oak Lawn has always been a laboratory for form-based zoning in the heart of the city, similar to what exists in areas of Oak Cliff and along Fort Worth Avenue. Ms. Jones raised one interesting point with me -- that what has happened in P.D. 193 seems far more aligned with what's now happening downtown, around Baylor Hospital and UT Southwestern and around Bryan Place than it is with the low density residential neighborhoods that are the heart of east Dallas and Lakewood. I agree completely with her observation. And I think that similarity will continue to grow in the foreseeable future. I think her thoughts as to combining those areas in a single district is intriguing and something you should consider but, again, please don't cut us up to get there.

All that said, I know it makes keeping P.D. 193 in one council district, rather than its current two districts (Dist. 2 and Dist. 14), tough. But I believe it's doable. Personally, I don't care what district, only that Oak Lawn be paired with similar communities of interest. Mr. Loza asked me the geographic confines of what we want to unify. Personally, I consider the area defined by Wycliff Avenue, McKinney Avenue, Maple Avenue and Kings Road back up to and across Lemmon Avenue to be the core of Oak Lawn. As I responded to Ms. Hallstead when she asked where we would move the westward boundary if it wasn't Inwood, that's a tough question to answer because unless you go all the way back to the Tollway, which I believe is too far eastward, you are jumping street-to-street.

I realize my wishes are hard to grant. But I'm hoping that the information I've provided contributes to the visualization of the "big picture" which, although it may substantially alter the landscape of Dallas's existing council districts, leads to a new map that unites communities and looks to the future, rather than institutionalizes the past.

Sincerely,

Brenda L. Marks

GROWTH OF DALLAS, TEXAS

CITY PLAN COMMISSION

HARLAND BARTHOLOMEW & ASSOCIATES
CITY PLANNING CONSULTANTS
ST. LOUIS MISSOURI

Growth Is Inevitable in a Progressive City—Stagnation breeds decay and blight, attending depreciation and loss of business. The growth of cities is one of the notable developments in the history of the United States. This map shows the growth of Dallas from a few cabins on the Trinity in 1855 to the great and imposing cosmopolitan area of today. Orderly planning to take care of the normal anticipated future growth is *absolutely* essential. This chart shows how the Park Cities as separate municipalities form a wedge in the overall pattern, prohibiting efficient planning within the area as scheduled under the Greater Dallas Master Plan. The specific improvements for the Park Cities under the plan are shown in the accompanying map.

Subject: LFH Testimony

Redistricting Committee,

My name is Max Davis. I reside at 8911 San Benito Way, Dallas, TX in District 9. My wife Denise and I have been the Co-Presidents of the Little Forest Hills (LFH) Neighborhood Association since 2008. LFH is comprised of about 950 homes.

Our neighborhood is bounded by Garland Road, Eustis Ave., Old Gate Lane and Lakeland Drive.

It is our understanding that consideration is being given to removing Little Forest Hills from District 9 and moving it to another district.

For the record, Little Forest Hills is <u>strongly</u> opposed to being removed from District 9.

Over the years, Little Forest Hills has built a strong relationship with our Councilman, Sheffie Kadane, and feel he has our best interest at heart.

LFH has a strong commitment to White Rock Lake, the Dallas Arboretum & Botanical Society, and the Garland Road Vision Initiative.

LFH lies between the neighborhoods of Forest Hills and Casa Linda Estates. We have several joint projects on an annual basis, including a Garden Tour, National Night Out activities, Fourth of July Parade and others. We feel all three neighborhoods should remain in District 9.

Little Forest Hills is a strong neighborhood, and we feel the best way to continue that tradition is to remain in District 9.

Regards,

Max Davis

LFHNA Co-President 2011

214-404-6892

Thank you Madam Chair and commissioners for this opportunity to present a community, not just of interest but a community of action as well. First as a grateful Dallas citizen, I thank each of you for your time and service.

My name is Mike Nurre, I am a resident of District 9 for the past 9 years. I am a founding board member of the Greater Casa View Alliance (GCVA but more on that in a minute), also a member of the Board of Directors of the Ferguson Road Initiative (FRI), and one of 4 neighborhood citizens who reignited the Harry Stone Crime Watch 7 years ago.

There is a primary artery in Far East Dallas that extends 5 miles from I-30 in the south north to 635 running through parts of both districts 7 and 9 and has approximately 70k residents bordering it end to end. It is Ferguson Road and often it is forgotten Ferguson or worse yet confused with Garland Road. It is Ferguson road not Garland road which is 100% commercial where Ferguson is about 30-40% retail/commercial and the rest neighborhoods bordering it.

Having seen and experienced what FRI had done over the past 15 years along Ferguson from I-30 to Buckner, we in the Greater Casa View area (now that is the area from Oates in the south along Ferguson all the way up to LBJ to the north, the Mesquite border to the east and the rail tracks to the west (near Garland Road) formed the GCVA, a coalition of 17 crimes watches and home owner associations just 2.5 years ago;

We later partnered with FRI to form an umbrella organization FRI/GCVA for the entire length of this neglected artery to promote safe neighborhoods, economic development, beautification, and by so doing try and stabilize home values, etc.

BUT-

Rather than being considered as a community of interest, GCVA has become a **community of action**.

Rather than clamoring for our own council district;

Rather than complaining that our council person does not live in our neighborhood (As a matter of fact, none of the past 3 council persons for district 9 has lived in Far East Dallas)

RECEIVED
MAY 13 2011
BY

Rather than campaigning in the press or on TV for this or that

We took plain old grass root action- it might be said that **with re-districting comes another RE word- re-sponsibility!**

ACTIONS taken-

- First in mid 2008, we formed GCVA, this coalition of 17 groups.
- Then partnered with FRI our neighbors to the south, to form umbrella organization for the entire length of Ferguson Road.
- Promoted a Homeless Initiative- accepted with "open arms" the move in of homeless who left the Bridge and even conducted a campaign to furnish 18 of these first apartments in our area.
- Worked with NE division police dept to focus on crime prevention, reduce drug sales, open prostitution, and identify drug houses, and have tried to effectuate crime reduction in our apartment areas.
- Held breakfast meetings with the pastors of the many churches along our portion of Ferguson. This is another strength of our community- churches up and down the entire Ferguson artery nearly 20 of them!
- Are holding a 2nd Town hall meeting about of a land use study for Ferguson from Oates all the way up to LBJ done pro bono by Omniplan architects. Our compadres to the south of Oates, FRI, have just completed their second land use study for one of their neighborhoods.
- None of this includes the many fantastic actions taken by the 17 homeowner/crime watches at the granular level in their own neighborhoods.

We have more to do and request that GCVA remain in the same council district.

Maybe we can also make your job easier because our lower to middle income area's demographics mirror almost exactly the recent census- 38% Hispanic 29% black, and 25% white. Unfortunately for now, most of our white population are "die in place" long term home owners.

In fact, we provide a majority of the diversity in district 9 as it is right now.

One suggestion may be to utilize major streets as lines of demarcation between Districts for example the southern boundary of current district 9 is a residential street (Millmar) and instead it could be the 6 lane Oates for example.

In closing, the takeaway is simple and straightforward: take/write this short phrase down GCVA (Greater Casa View Alliance) - a diverse community of action.

We request to remain intact. Thanks for your consideration.

Torres, Daisy

We're also sending the attached by fax to Yasmin Barnes Tolliver at the City of Dallas but, today, the West Dallas Chamber of Commerce voted to recommend to the Redistricting Commission that **ALL of West Dallas be drawn into one city council district** whatever that city council district may be.

West Dallas is a community of interest that has long been weakened by split representation at Dallas City Hall. We define West Dallas as I-30 on the south, the Trinity River on the east and north, and Dallas city limits on the west.

Thank you.

RE: West Dallas Chamber of Commerce
resolution regarding Dallas City Council redistricting

PAGES: 2 including this cover sheet

Today the the West Dallas Chamber of Commerce voted to recommend to the Redistricting Commission that ALL of West Dallas be drawn into one city council district whatever that city council district may be.

West Dallas is a community of interest that has long been weakened by split representation at Dallas City Hall. We define West Dallas as I-30 on the south, the Trinity River on the east and north, and Dallas city limits on the west.

JUN 01 2011
BY:

WEST DALLAS CHAMBER OF COMMERCE
RESOLUTION No. 2011-02

A RESOLUTION OF THE WEST DALLAS CHAMBER OF COMMERCE AFFIRMING WEST DALLAS AS A SINGULAR COMMUNITY OF INTEREST AND ADVOCATING SINGULAR DALLAS CITY COUNCIL REPRESENTATION FOR ALL OF WEST DALLAS

WHEREAS, West Dallas is bounded by I-30 on the south, the Trinity River on the east and north, and Dallas' city limits on the west; and

WHEREAS, citizens and other West Dallas stakeholders have had their voice weakened in the past by having West Dallas' City Council representation split between as many as three representatives; and

WHEREAS, the Dallas City Council's Redistricting Guidelines dictate that communities of interest should be maintained to avoid splitting neighborhoods, to recognize traditional geographic and economic centers, and to follow identifiable geographic boundaries; and

WHEREAS, divided representation for West Dallas has led to a lack of responsiveness to constituents by West Dallas' elected representatives; and

WHEREAS, due to its proximity to Dallas' reenergized urban core, West Dallas stands at the threshold for unprecedented economic development, improved quality of life, and increased contributions to Dallas' tax base; and

WHEREAS, the West Dallas Chamber of Commerce exists to enhance the economic viability of our region through actions beneficial to our region,

It is therefore resolved by the West Dallas Chamber of Commerce to strongly urge the City of Dallas Redistricting Commission to treat all of West Dallas as a community of interest from the standpoint of redistricting and that they make every effort to keep the previously defined region of West Dallas within the same district from the standpoint of drawing Dallas City Council boundaries.

Approved by a majority vote June 1, 2011
West Dallas Chamber of Commerce Board of Directors

That's great news about opening the web application back up. As for suggesting potential amendments tonight, without access to the online application, I don't have the means to make the necessary changes. Would it be possible for you to read a statement from me into the record? If so, here it is:

Commissioners:

Once again, I appreciate the opportunity to present a plan for consideration. After receiving feedback at Tuesday's meeting and from others, I believe I can improve upon my map (wPlan16). Most notably, I'm convinced I can now create eight minority districts, five of which would be Hispanic, by shifting some neighborhoods into District 2. I also would aim to encompass the Buckner Terrace Homeowners Association in one district, along with a few other minor changes.

As I've discussed with the Redistricting Office, I wanted to use the web application to tweak my plan. It's my understanding that re-opening the application is under consideration. Assuming it's brought back online, I'd greatly appreciate the chance to improve my map.

Thank you again for your time and consideration,

Sam Merten

Mayor Pro Tem Atkins,

I would like to strongly express that I do not want to be moved into District 5. I don't understand the reasoning for this kind of action. I don't live in District 5 and I did not vote in District 5.

I know you will represent District 8 well.... as always.

Wishing you the best.

Redistricting Commission Public Testimony Received on July 14, 2011 from Sandra Crenshaw

Will any of the social justice members of this commission ask to suspend the rules to accomodate the working class by suspending the rule and allow speakers to speak before the commission takes a vote and allow the public to sign in to speak by phone prior to the meeting so that they son't have to sit through the entire meeting to speak. like they do with the city council.

Secondly, if the commission is allowed to modify the maps prior to reviwing all the maps, this process could go on adnaseum as each modification becaomes a newly modified map. Has anyone considered the fiscal impact of this suggested process. Move the maps forward with any modificatins, the next map may be perfect or the next maps could be worse than the ones you have seen or the lesser of two evils so to speak. To do otherwise is a waste of time if the map cannot garner at least eight votes at the end of the day.

Please refrain from berating Bill or any other citizen, it discourages other citizens from coming forward and raisises suspcions as to why District 8 residents are questioned as to why they want to have the map drawn the way that they want to. Jones, from 13 probably 30 miles away from Keleberg tried to convince him that he didn't want to remain with eight because the district is 51 miles long or 51 square miles. This raisies suspsicions. It is valid to ask the citizens what was their mindset or to discribe the standards from which their maps are drawn but to ridicule and tell the citizerns how you want them to change their maps of views is oppressive. Ask questions but do not direct the citizens on how to change their maps. Wait until all the maps are done and then direct STAFF to make changes and make arguments to the commissioners to get them to

Redistricting Commission Public Testimony Received on July 14, 2011 from Bill Betzen

Comparison statistics for plans listed on the Dallas City Council Redistricting Plan Submissions web page (see below) as of noon on 7/14/11

Plans:			Demographics:					Compactness:		
Plan name	**Plan creator (or Commission if an update)**	**Date of presentation to Commission, or update:**	**Range of Deviation away from pop. Goal**	**Avg of Hispanic Voting Age % among 5 highest**	**5th highest Hispanic Voting Age District %**	**Avg of Black Voting Age % among 3 highest**	**3rd highest Black Voting Age district %**	**Avg indexed score* of 4 compactness scores:**	**Average district perimeter in miles**	**Miles of district boundary line erased:**
Best number is:			**Lower**	**Higher**	**Higher**	**Higher**	**Higher**	**Higher**	**Lower**	**Higher**
cPlan10	Commissioner Halstead	06/21/11	6.07%	**56.52%**	*49.01%*	**55.23%**	*51.34%*	1.29	32.98	147.56
cPlan10a	Commission	06/30/11	3.02%	**57.18%**	*49.60%*	**55.69%**	*50.16%*	1.27	33.65	138.13
wPlan24	Bill Betzen	06/21/11	2.82%	**61.74%**	*55.42%*	**59.77%**	*54.17%*	1.3	32.96	147.84
wPlan24a	Commission	06/30/11	3.94%	**61.62%**	*55.43%*	**59.93%**	*54.21%*	1.28	33.13	145.46
wPlan24b	Commission	06/30/11	5.58%	**61.72%**	*55.43%*	**59.93%**	*54.21%*	1.29	33.1	145.88
wPlan03	Bill Betzen	07/12/11	2.77%	**61.84%**	*57.83%*	**60.25%**	*55.84%*	1.35	31.62	166.6
wPlan12	Benjamin Lopez	07/12/11	1.91%	**57.87%**	*46.06%*	**56.14%**	*38.47%*	1.3	33.02	147
wPlan16	Sam Merten	07/12/11	0.15%	**60.18%**	*41.80%*	**59.58%**	*52.49%*	1.39	31.51	168.14
wPlan45	Shirley Stark	07/12/11	0.79%	**59.67%**	*52.56%*	**54.08%**	*32.28%*	1.33	33.34	142.52
Due to the fact that one "packed" district combined with other below 50% minority districts can still produce a high average percentage, the number of majority Hispanic or Black districts in a plan is given after the percentage below. **Note wPlan43 had 4 majority Black districts:**										
wPlan02	Helene McKinney	07/14/11	11.81%	**59.31%/3**	*42.05%*	**61.62%/2**	*46.82%*	1.27	33.99	133.42
wPlan43	Kieth McPhail	07/14/11	6.37%	**57.73%/4**	*40.32%*	**51.64%/4**	*50.85%*	1.17	37.12	89.6
wPlan55	Kieth McPhail	07/14/11	5.38%	**62.56%/5**	*60.16%*	**60.38%/3**	*53.29%*	1.23	36.64	96.32

* "Average indexed score" averages the four measurements for compactness selected by Dallas city staff which were indexed for their level of improvement from current 2001 district boundaries. This measures progress toward more compact districts. The higher the number is above 1, the better. If below 1, that shows worse gerrymandering and a lack of progress toward a compact district.

Redistricting Commission
City of Dallas
1500 Marilla St. L1AN
Dallas, TX 75201

Dear City of Dallas:

I currently reside in District 7, in a neighborhood southeast of Ferguson Road and North of Interstate 30. I urge you to strongly consider a redistricting plan that would include my neighborhood with other White Rock Lake communities northwest of Ferguson Road. I urge you to oppose any plan based on the old District 7 plan which does not reflect today's requirements for compactness and the need to keep area communities together.

My neighbors and I frequent the Casa Linda, Forest Hills, Lakewood, and White Rock Lake area. We rarely cross Interstate 30 into the main part of the current District 7. I personally spend most of my time around the White Rock Lake area. Our neighborhood closely resembles the Casa Linda and Forest Hills area in appearance. It is a more logical fit.

Thank you for your consideration.

Michael A. Arceri

Dear District Council,

I am writing because I am a resident of Rambling Dr, currently in District 7 in a neighborhood South of Ferguson Road and North of Interstate 30. I want to ask you to strongly consider a redistricting plan that would include my neighborhood with other White Rock Lake communities North of Ferguson Road. I urge you to oppose any plan based on the old District 7 plan which does not reflect today's requirements for compactness and the need to keep area communities together.

Help us build a stronger community and to rebuild Dallas and our neighborhood. Please form a plan to redistrict my neighborhood.

Thank you for your consideration.

Sincerely,

Amy H. Ng, M.D., M.P.H.

Sent: Tuesday, August 02, 2011 1:02 PM
To: reDallas11
Subject: Please Keep Lake Highlands intact in District 10

I grew up in Lake Highlands and benefitted from many of the wonderful attributes it naturally offers its residents - small, hometown feel in a large city, close proximity to downtown Dallas, involved parents, great schools, etc. These are the reasons I chose to move back to the area with my husband to raise our family. There are so many wonderful organizations and clubs that work very closely with the City of Dallas to improve our area, parks and way of life. By splitting the neighborhood up into 3 different districts, I'm afraid our cohesiveness will begin to breakdown and our "small, hometown" little area will begin to deteriorate. We really need to be together and work together for the betterment of our community.

Please keep Lake Highlands together in District 10 - the boundary of the LH School attendance.

Thank you,
Heather Haskins

To: reDallas11
Subject: Lake Highlands

Distinguished Committee Members,

I have reviewed your proposed redistricting maps, and would ask that you do everything in your power to keep our community under one district umbrella. I have lived in Lake Highlands since 1991, and would be greatly distressed to see our community split into two (or even three) districts. Our community is already diverse, and centered around our local high school, Lake Highlands.

If you were to split our district, much of our existing philanthropic groups and action committees would be unnecessarily fractured. Our collective neighborhood voices would be split, and as a result Lake Highlands would cease to exist as a functional community.

Please check your demographics related to District 10, and explain why our community is currently planned for a fracture.

Thank you for your consideration,

Scott Raine

To: reDallas11
Subject: District 10

To whom it may concern,

I was born in Lake Highlands In 1976 have lived more than 30 years in this area. I do not support anything that would contradict the best interest for my district. I would like to emphasize the following points (that I agree with) which were shared with me.

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- **The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost**
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Please keep me in the loop as to what is decided.

Sincerely,

Chase Leavell

Subject: Lake Highlands must remain intact

Lake Highlands is defined by the LHHS attendance boundary zones. It is a diverse community. We in Lake Highlands have common concerns and unique issues that are not important to the rest of the city. Our District 10 -- as it is now -- recognizes those issues.

It is IMPERATIVE that District 10 include the entire LHHS attendance zone.

I have noticed in several of the maps, my neighborhood (between Skillman and Abrams, south of Walnut Hill) has been lumped together with West Dallas, with East White Rock Lake (Casa Linda, Forest Hills) and other odd configurations. This is NUTS (probably predictable from government agencies but NUTS nevertheless).

My neighbors and I have nothing in common with these areas of Dallas. We like knowing our council members -- we may not always agree with him/her but at least we know they'll be at high school football games, the LH Exchange Club meetings and we can run into them at White Rock Coffee. We all have chosen to live and stay in Lake Highlands for a reason. Don't destroy that.

Please do the right thing.

To: reDallas11
Subject: Don't redistrict Lake Highlands

As a Dallas County resident and business owner, I get the bigger picture behind what you all need to accomplish from a metropolitan area standpoint. Candidly, we've worked very hard within the current framework to build one of the city's rarest communities; one where diversity coexists alongside a real community with a small town feel but one that is growing and progressing nicely.

We're asking that you please keep the LHHS attendance zone as a primary consideration as you move forward. We're incredibly supportive and The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.

Much of that is accredited to the way our elementary schools feed into some great junior highs which feed into two wonderful high schools. There is not the division you find in other districts; good competition and desire to excel for sure, but not gangland turf wars. This sense of community is formed within the local youth sports setup within our current districting and frankly, it is not only broken - it's THRIVING!

Please do not split and break up the wonderful balance we have here in Lake Highlands!

I strongly disagree with the plan to divide Lake Highlands into three parts. I have lived here for 20 years and do not want to see changes. Below are the reasons to leave things as they are:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: District 10

Ladies & Gentlemen:

My wife and I have been residents of District 10 [Lake Highlands] since 1979. We have been through good times and bad. Overly dense construction of multifamily housing and poor repair of City infrastructure. We have been active in schools and our neighborhood association in an effort to improve both. The City has imposed significant burdens on our part of Dallas, but we have managed to retain our community of interest, most recently evidenced by our joint efforts to get Trader Joe's to locate its new store in the Lake Highlands Town Center.

District 10, although very diverse in its makeup, has been cohesive for many decades, due in part to the Lake Highlands High School and the junior highs and Ninth Grade Center that feed into that school. Parent participation in school activities is very intense. From PTA to fund raisers, to game and event participation, District 10 sees itself as a mini-city with the larger City of Dallas.

Its residents have a long history of participating in the wider range of activities to promote Dallas. For example, for 14 years I served as Honorary Consul for Finland. During that time, at my own expense, I attended or sponsored scores of events to promote Dallas and its culture and economy, from visiting diplomats to sponsorship of a Finnish sculptor's exhibit at the Nasher.

I am proud to be from District 10 and Lake Highlands. That District needs and deserves to remain a cohesive unit and not be Gerrymandered from short-term political purposes. Keep our community together.

Respectfully,

Edward F. Walker

Subject: LH Redistricting

I am writing on behalf of many in Lake Highlands. We moved here about 10 years ago and we often talk about how special LH is. We have an 8 year old and 4 year old and love the neighborhood feel. We are plenty diverse and I feel it is very unfortunate we would even consider dividing up the district based on race or ethnicity at all. It is extremely diverse already and qualifies as that. I was part of the original Lake Highlands Junior Women's League and we have raised countless dollars that went towards parks and recreation centers to help add value to Lake Highlands. We continue to have exemplary schools and pride ourselves on living in Dallas County and being in Richardson ISD. We need to keep it all in one district. The schools are close to get to by walking and with the Dart rail now at the town center, it is super easy to access and carpool to get kids close and keep them that way. We have really worked harder than most to improve our district in many areas yet keep the small town feel with plenty of diversity.

It was mentioned that we have not had minority representation in District 10 since 1991. I would challenge anyone to run, it is my impression that no one has run, it is hard to unseat the position if you don't have a minority candidate running for the City Council seat. It sure it not for the lack of minorities in the area. I think it would be doing our neighborhoods a huge disservice to this area by dividing it up under the guise of "diversity". I do hope that you will hear my voice when I say that I rarely if ever have weighed in on anything to this magnitude but feel compelled to tell you how the majority of us "young LH folks" that have moved into the neighborhood feel. I pray that you consider that redistricting at this point would cause much more division than it would organically move us towards cohesiveness.

Let me know if there is another way to make my voice heard. I am a stay at home mom that is loyal to this area and want to keep the district the way it is so it can continue to grow and strive towards excellence.

Thank you for listening,

Lacey Bone

Subject: Keep Lake Highlands together as one district

Commissioners,

I live in Lake Highlands and want to see the area stay together as one council district going forward. In particular, I oppose cPlan 16, which among other things:

1] splits Lake Highlands into 3 separate council districts;
2] splits the new proposed Lake Highlands Town Center at Skillman/Walnut Hill into 2 districts;
3] splits the street I reside on (Faircrest Drive) into 2 districts
4] disrupts the long term "unity" of Lake Highlands in improving the city as a whole

Thank you for your attention to this matter. Kenneth Hogg

Subject: Dallas City Council Redistricting

As a 25 year resident of the Lake Highlands area of Dallas, I must voice my opinion that any redistricting plan that breaks up District 10 is unimaginable. The area that currently comprises D10 is a diverse and cohesive neighborhood. A failure to recognize this endangers the community that has grown and exists today. While the challenges to redistricting are many, several of the maps that are under consideration appear to maintain many of the areas served by the current council members without dividing neighborhood communities such as the Lake Highlands area. I would respectfully ask the commission to consider the following points when making a decision on how to best establish the council district lines:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Thank you,

Bryan McCrory

Subject: Plan cPlan16 - District 10 / Lake Highlands redistricting - Vote NO

Dear Commissioners:

As a homeowner of Lake Highlands, I am 100% against the lay out of District 10 as proposed in cPlan16.

It would push half of Lake Highlands to join the District 9 south of NW Highway. This breaks up the community that has been bonded by the RISD decades-long affiliation through our schools that feed all the way up to Lake Highlands High School.

Lake Highlands is already a diverse community. Just walk around the area schools.

To me it looks like redrawing a district, just to do it.

Subject: FW: District 10

Dear Commission Members'

In reviewing the submissions of redistricting maps I have become increasingly alarmed that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands-virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.

The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work.

To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.

Respectfully

Alan Walne, former District 10 Councilmember

Subject: Proposed redistricting

It has been brought to my attention that a new redistricting proposal (cPlan 16 – Garcia/Ratcliff/Love) splits the Lake Highlands area into three districts, and I'm completely opposed to that. I have grown up in this area, graduated from Lake Highlands High School, and after living in other parts of the country for several years, chose to move right back into Lake Highlands. This area is a special "small town within the big city" and splitting this apart would destroy that environment.

I recently read a quote from Commissioner Garcia stating the following: "I played football for Berkner and played at Wildcat Ram Stadium. I know the area well. We tried to minimize the impact with this plan. If I remember correctly, we kept similar socio-economic neighborhoods together." One of the incredible things about Lake Highlands is that there are multiple socio-economic neighborhoods living together in one area. This fosters support and help across these socio-economic lines. It builds the sense of community and it fosters an environment where neighbors help neighbors. If the representation is divided, the area will lose this neighborliness which makes it so special. Why do so many residents chose to move into this area, regardless of socio-economic background? It's the sense of community.

I understand that there are criteria for redistricting to include population equality, Minority Representation, and Contiguity and Impactness, but it also takes into consideration "Communities of Interest" and keeping a Community of Interest in a single district. I can't think of a better example of a Community of Interest than Lake Highlands. This is an area trying to improve the lives of everyone in this area, and splitting apart the representation for this community would devastate these efforts. I would think that a goal of our community leadership would be to improve the lives of all of the members of this community and make Dallas a great place to live. Plan cPlan16 simply doesn't accomplish this goal.

I ask that you not vote for cPlan16 for all of the reasons presented above. Thank you for your consideration.

Subject: Redistricting of district 10

I've recently learned of proposals to redefine the boundaries of District 10 (Lake Highlands), which I view with great skepticism. District 10 is currently (and historically has been) very diverse ethnically and economically and functions very well as a "liturgical community." That community integrity is born out throughout the school system and community activities. I believe any change to present distract boundaries will be a disadvantage to community and citizens of Lake Highlands. Regards, Jim Baird 9603 Viewside Dr Dallas, 75231

To The Redistricting Committee-
As a 22 year resident of Lake Highlands I am writing to ask that you keep District 10 intact as it has been for many years now. As our area strives to improve our living, working and shopping choices, it will be important to keep our community together under the leadership and focus of a single city council representative that helps us focus on specific attempts to redevelop our community, lower crime, improve our parks plan and be heard as a unified voice at city hall. This is a truly diversified neighborhood that is steadily achieving quality of life improvements for everyone here. Please keep District 10 as we know it intact. Thank you.

I currently reside in District 7 in a neighborhood South of Ferguson Road and North of Interstate 30. I urge you to strongly consider a redistricting plan that would include my neighborhood with other White Rock Lake communities North of Ferguson Road. I urge you to oppose any plan based on the old District 7 plan which does not reflect today's requirements for compactness and the need to keep area communities together.

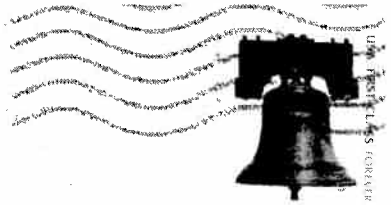

Thank you for your consideration.

Subject: redistricting Lake Highlands

To whom it may concern,
I'm writing you regarding the considerations to redistrict my neighborhood, Lake Highlands. While I understand Census logic used in redistributing representation for our area, there are other considerations that must be kept in mind. Lake Highlands, District 10 is a community that dates back to Dean Vanderbilt's tenure and was structured into a community that has come together to provide great things for this city for the last 30 years or more. First of all, the Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10. We have a small town feel, yet remain a viable supporter of Dallas as a whole.

We are a diverse district, and have a long history of diversity so I don't understand why you would want to destroy what the citizens have worked hard to build up. While the census may be interpreted in one way, you must look at the whole package. Census data is just numbers, which pales into comparison all the things the Lake Highlands community has done and continues to do to form a supportive bond. To break up Lake Highlands would be a detriment to all of the community efforts that have been established for years.

Thank you,
Karen D. Pate, a proud Lake Highlands resident

Subject: Redistricting

To those members of the redistricting committee: I am a homeowner who has lived in Lake Highlands for 26 years and raised my children here, using the public school system. I am asking that you not divide Lake Highlands area into separate districts but keep it as it is: District 10. Dividing our unique community would be a big loss for our city. Our neighborhood has been a pioneer in showing that diverse neighborhoods can work and thrive. We have made so much progress and dividing our distrcit would severely hurt this extrordinary neighborhood. Civic groups , Exchange Club, Womens League, Jr. Women's League, have all been supportive in donating sustancial funds to the Parks in District 10. This has not only benefitted homeowners but has provided many benefits to the apartment population. Let's keep District 10 in tact as it is and show our great city of Dallas how diversity can work in a positive way. Thank you, Bonnie Lochry

Subject: Please keep Lake Highlands as ONE in district 10

Hello—thank you for your efforts and hard work to redistrict our city. I am a resident of Lake Highlands, and I strongly encourage you to keep all of Lake Highlands intact, in one district. One of the main reasons we moved to Lake Highlands in 1984 was its "small town within a large city" feeling. We see neighbors at school and community events and run into them at the grocery store. We have worked as a community to make improvements to our schools and our neighborhoods. A recent effort to bring Trader Joe's to Lake Highlands brought out thousands of residents to sign a petition showing our support. We are ONE and we need to stay ONE. I fully support the Lake Highlands Area Improvement Association's efforts to bring positive changes to our community. They have outlined several areas to consider, and I have added a few notes to theirs:

- We must keep the Lake Highlands High School attendance zone intact. It provides a diverse population for our school, and we work with our apartment neighbors in very positive ways. For example, the neighborhood always responds very generously when tragedies, such as fires, strike our apartment neighbors. Rather than shunning these families, we embrace them.
- District 10 is already a diverse district and meets the "not gerrymandered" definition. The Lake Highlands community has natural boundaries that make it what it is. It is not contrived. LH is in Dallas, but its schools are in RISD, which gives us a unique position within the city.
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years. When the shopping center at Audelia and Walnut Hill began to decline, a group of neighborhood families worked together to open Highlands Café in that shopping center, and families in our neighborhood support them. Our families have opened small businesses in that shopping center and at Northwest Highway and Ferndale.
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10. These organizations give hundreds of thousands of dollars to our students and families right here in Lake Highlands.
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost. We have worked too hard for too long to have our efforts destroyed by splitting up our community.
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

PLEASE KEEP OUR NEIGHBORHOOD INTACT WHEN CONSIDERING REDISTRICTING!!!!!!!!!!

Thank you,

Ladies and Gentlemen:

It is my understanding that there are proposals to move district lines so that the Lake Highlands section of Dallas is divided into as many as 3 districts. The City of Dallas has already done much to destroy this area of Dallas. I encourage you not to take this final step. Instead, you should leave the Lake Highlands area intact in order to maximize community support and development. In over 30 years living in Dallas and Lake Highlands I have watched one mistake after another in the management of this City. Please consider a different approach to governance.

Subject: Lake Highlands - Redistricting

Redistricting Committee,
I am aware of the possibility of redistricting that would severely affect the Lake Highlands community within the city of Dallas. I've lived in LH for over 30 years, and it is a "gem" within the city of Dallas. It has a special feel that generates pride unsurpassed in any part of Dallas that I'm aware of – you can see this on tee shirts saying "Lake Highlands, Texas".

Any plans to break this area up into multiple districts would be a poor choice – it needs to all be included in District 10! Here are a few key reasons for this

- Keep the LHHS attendance zone as a primary consideration – this is one of the focal points within LH and I'd consider it to be the magnet for the community
- District 10 is already a diverse district and everyone in the community works to make it "better"
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10. We have been actively involved in this, and supported them with our time and money.
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost. We work together as "one" in LH to make it the best it can be.
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!
- The Town Center development, which has been delayed by the current economic climate, is key to future growth and quality of life development within LH, and breaking up LH into something other than District 10 would likely impact this very positive initiative.

Please do what is best for Lake Highlands – and keep us as one community in District 10.

Sincerely,
Mark Knudson

Subject: Possible Breakup up Lake Highlands

Committee Representatives,

First I would like to say thanks for your effort in making sure everyone is fairly represented in Dallas. I no doubt believe this is a difficult and important task.

As a resident of Lake Highlands in district 10, I would like to express my concern that some of the proposed redistricting plans would break up the strong community of Lake Highlands into multiple districts impacting the way this community thrives and operates. Here are some points to consider.

- Keep the LHHS attendance zone as a primary consideration as it is the heart of the community. The district should include all of LHHS, but it would be acceptable to add some adjourning neighborhoods if that is needed to balance the size of the district with other districts in the city.
- District 10 is already a diverse district and meets the not gerrymandered definition.
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost.
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Thanks for taking time to read my e-mail.

Dear Sirs,

We feel very strongly that Lake Highlands needs to be represented in one district - District 10! We are a great community within the City of Dallas and an asset to the city because of all of our neighborhoods. Note our home values continue to rise and thus we contribute greatly to the city's tax coffers. Splitting us into 3 separate districts will diminish the value of the homes and therefore lessen the amounts contributed to the city.

Thank you for your service to our great city!

Sincerely,

To the Committee:

I recently learned of several proposals that would break up District 10 into three separate districts. I am vehemently **opposed** to these proposals for the following reasons.

- One of the primary reasons we purchased our home was that our children could attend Lake Highlands High School. It appears that with some of the proposals, this would no longer be the case. Should this occur, I would most likely sell my home.
- As I understand it, District 10 is already a diverse district and meets the not gerrymandered definition.
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.
- The "small town feel within the heart of the city" that defines LH and has supported council candidates and redevelopment would be lost.

Subject: Redistricting of Lake Highlands

Commissioners:

I am writing to show my support for the CURRENT boundaries of District 10. Lake Highlands is indeed a "Community of Interest". As a small business owner (My Office, 9661 Audelia #333) and as an 18+ year resident of Lake Highlands, I feel our community encompasses and embraces all those who live in it. This is evidenced most strongly by the support of the Lake Highlands School schools, which are a part of RISD. Both of my children are currently LH students. Both are or have been active in sports, music, and drama and have many friends from all socio-economic back grounds. It is the LH spirit in our community that encourages active parental involvement in the schools, and we see diversity in the membership and leadership of various parent and student groups. Lake Highlands will continue to vote for strong leadership. And if there is a worthy candidate, he or she will be elected on merit, without regard to race.

I strongly encourage you to not break up our community by changing our boundaries.

Subject: Keep Lake Highlands In Tact As District 10 ONLY

Lake Highlands is a very defined community and should remain as a single district, District 10! I note the following for your consideration:

--Keep the LHHS attendance zone as a primary consideration.
--District 10 is already a diverse district and meets the not gerrymandered definition....do not allow it to now be gerrymandered!!
--District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years.
--The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10...you will destroy this relationship and the ability to support such causes if you split us into three districts because there will always be competing interests.
--The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost. Lake Highlands residents all want redevelopment and want very specific redevelopment and we will be heard.
--LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Please help us keep the spirit of Lake Highlands alive. The "small town" atmosphere is very important if we expect this area to survive. The City of Dallas has worked to destroy our little community for many years in the area of grossly overbuilding apartments in this area. If the city continues in this approach, it will terminate the positive improvements made in this area and the city will be left with slums and crime. Large amounts of police and tax money will be spent in just keeping the peace.

Subject: District 10 -- Lake Highlands

It is my understanding that the Redistricting Committee is considering splitting Lake Highlands into 3 districts. The "Unity Map" that Domingo Garcia proposes is anything but a unity map. Lake Highlands is already a "united", diverse community.

My husband and I raised our two children in Lake Highlands. We moved here because of the excellent RISD schools and because we wanted our children to go to school with all races and backgrounds of children. Our married children now are raising their children in Lake Highlands because of the very same reasons. We all embrace diversity or we would not live here. Our story is not unique.

With all due respect, Mr. Garcia does not understand Lake Highlands. Playing football for Berkner 30 something years ago does not give him a unique knowledge of our community. Studying the percentages of minorities does not give him a unique knowledge of our community. We are more than percentages.

As for Mr. Garcia's observation that "no minority has been elected from Dist. 10 since 14-1 was passed in 1991", yes he is correct but so what -- Every councilperson who has served Dist. 10 since 1991 has well represented **every** resident of Lake Highlands. Although no minority has run to date, Lake Highlands would have no problem electing a qualified minority who is running for the right reasons -- an appreciation for the unique "small town" community that we are and a sincere desire to represent **all** of us.

Donna Halstead<sp< span=""> does</sp<> understand and appreciate Lake Highlands because her family story is similar to our story, plus she has been a strong voice for District 10 at the Council level as well as numerous other boards and commissions throughout her years of service to Lake Highlands and the City of Dallas. At the local, Lake Highlands level, she has always initiated and championed programs for **all** residents of Lake Highlands. She is a truthful and respected leader for our community. Please listen to Donna when you are considering these very important decisions.

Mike and I do not envy the difficult decisions your committee is about to make. We appreciate your long hours of service. Having said that, please remember that Lake Highlands revolves around our schools. Diversity is already embraced here. Please do not be swayed by those who want to "fix" Lake Highlands. We are not broken. If anything, we should be replicated.

Respectfully,
Jo Baggett

To: the Redistricting Committee

From: Judy McCombs, resident of Merriman Park North, Lake Highlands

I am writing to request that strong consideration be given to keeping neighborhoods intact, especially where those neighborhoods already have a strong, tradition of healthy diversity and identity as in the Lake Highlands community.

I notice that some of the proposed redistricting maps move some of our neighborhoods (I.e. Merriman Park, Merriman Park Estates) and move them to District 9. This makes no sense. Those neighborhoods have the same concerns, interests and life-style goals as the rest of Lake Highlands and have a long history of participating in the programs and community activities unique to our area.

Thanks for the work you do.

Dear Redestricting Committee:

I am a homeowner and long time resident of Lake Highlands with two children at Moss Haven Elementary. I am a part of the Moss Haven PTA, Moss Haven Moms, and an active and consistent voter. In fact I don't miss elections.

I do however have a job so I can't come down to city hall to discuss the issue of dividing our district 10 put forth by Commissioners Domingo Garcia, Billy Ratcliff and Brooks Love, which if adopted, will cause the Lake Highlands community to be divided and possibly marginalized at City Hall.

Not OK.

This is my position and one that is echoed by my friends and neighbors –
* Keep the LHHS attendance zone as a primary consideration
* District 10 is already a diverse district and meets the not gerrymandered definition
* District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
* The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
* The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
* LH has a long history of being a neighborhood where diversity already works; don't destroy that!

I can appreciate the spirit of using all Census data to redefine and re-invigorate populations to be seen and be heard. But in all honesty, you will cut off the main supply of time, money, and resources by dividing up the map along ethnic lines.

Honestly it is also a waste of my taxpayer's dollars – "As the commission was informed by the city attorney office, courts have struck down districts being proposed based solely on race as Mr. Garcia's plan clearly is." Work on something constructive – like encouraging children in the library or mentoring versus tearing down communities. Please stop this nonsense.

Subject: Re: District 10

Dear Redestricting Committee:

We can certainly appreciate the interest of the city council to fairly and accurately draw the maps of their districts so all citizens are represented. The information presented by Commissioner Domingo Garcia (D1), Commissioner Billy Ratcliff (D4) and Commissioner Brooks Love (D14) is compelling data.

What is wholely missing is the community that this change would reduce and divide by dividing the Lake Highlands districts based on some perceived race-based advantage that would allow better representation. It seems to completely ignore the fact that not a single Hispanic or African American candidate has tried to run for City Council. It seems to ignore in entirety the success of the district to have strong schools and a strong community with exceptional current diversity!

It is indefensible solution to a problem that should be addressed but in a way that encourages those people who should be represented to actually run for office. I suspect, although I am sure we can't predict that this redistricting is simply a political tactic to harm someone in the 10th district versus save underserved populations. I strongly disagree with this decision. It also seems to be a direct affront to the many humanitarian and private non-profit groups who are organized in this community who have put time and money into many of the areas of the maps that it will divide. Have you considered how the citizens may feel if those supportive services were withdrawn? It potentially could affect a variety of services for the very populations it

Here are the main facts -

* Keep the LHHS attendance zone as a primary consideration
* District 10 is already a diverse district and meets the not gerrymandered definition
* District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
* The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
* The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
* LH has a long history of being a neighborhood where diversity already works; don't destroy that!

To: reDallas11
Subject: Keep Lake Highlands intact in District 10!

To the Redistricting Committee Members-
I want to strongly urge you to keep Lake Highlands intact in District 10! The Lake Highlands area primarily consisting of the LHHS attendance zone is a strong and diverse community that is unlike any other community in the Dallas area. Growing up in a small town myself, but looking for the benefits of large city as an adult, I have found the best of both worlds here in Lake Highlands. So I, as well as many other young professionals, have chosen this area in which to raise our young families, enjoying this vibrant "small town" communityin the middle of Dallas. REDISTRICTING THE LAKE HIGHLANDS AREA WOULD WEAKEN THIS COMMUNITY! There are many reasons to keep the area intact in District 10...

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

I am personally an active member of the Lake Highlands Junior Womens League. For the past two years I have chaired the "Run the Highlands 5K", held by the League, that has raised and given hundreds of thousands of dollars to Parks in District 10. I know first hand how this diverse community strongly stands as one unit in supporting Dallas in this district. REDISTRICTING THE LAKE HIGHLANDS AREA WOULD WEAKEN COMMUNITY ORGANIZATIONS SUCH AS THE LAKE HIGHLANDS WOMENS LEAGUE, JUNIOR LEAGUE AND EXCHANGE CLUB BY DIVIDING UP THE AREA THAT THESE ORGANIZATIONS SO STRONGLY SUPPORT!

Respectfully,
Allison Ates

Subject: Redistricting of District 10

I am a longtime resident of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides. I am also a native of Dallas having grown up in Lakewood attending Lipscomb Elementary, Long Junior High and Woodrow Wilson High schools in that area. My life in Dallas has been fortunate enough to always experience a sense of community.

In Lake Highlands we continue to enjoy that community feeling. We do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close nit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands high School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity. I remember quite well when Woodrow Wilson was integrated. It didn't need students to be bussed from other areas, because the school was already naturally integrated because of our neighborhoods. That school continues to work to this day.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and are offering support to the schools, parks and people of Lake Highlands. Please look at the scholarships provided last year by the Exchange Club of Lake Highlands and the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts.

Thank you for your consideration of my comments and request and I am so very hopeful that you will not damage an area that works so very well.

Subject: Keep Lake Highlands intact in District 10!

District 10 is now a diverse community, yet a **community of common interests** with unique concerns, as defined by our Lake Highlands neighborhood.

DO NOT CHANGE THAT.

One thing that binds us together is our Lake Highlands High School attendance zone. We know what centers us, and that we can find common ground in our kids and our strong public school sytem. **It is of the utmost importance that our district, District 10, include the entire LHHS attendance zone.**

CPlan16, proposed by Commissioners Domingo Garcia, Billy Ratcliff and Brooks Love, is anything but a "Unity Map." It would make my neighborhood. Moss Farm (bordered by Greenville Avenue on the west, Abrams Road on the east, Royal Lane on the south and Whitehurst on the north), a pimple on the northeast edge of District 13. My neighborhood appears to an afterthought in this plan, and it would have little in common with the rest of District 13, which would stretch far to the west. At City Hall, this plan would separate me from friends and neighbors and our shared interests.

I moved to Lake Highlands in part because of its small-town feel and its big-heart qualities. We welcome all kinds of people here, and we take a great amount of pride in that. We also take pride in being a contiguous neighborhood with a distinctive personality, one with an appreciation for what we have, drive to make it even better, and can-do vitality to get the job done .

Lake Highlands has a long history and many wonderful traditions that some of the proposed redistrictings threaten to undo.

Please don't ruin a great Dallas neighborhood. Do the right thing.

Subject: Plan to divide District 10

We are strongly opposed to the proposal to split the current Lake Highlands district (10) and carve it up into 3 separate districts.

As we look at our home's location in your proposal, we are placed into a district with which we have absolutely nothing in common, not in terms of schools, access, or sense of community. We have lived in Lake Highlands for over 20 years and are well aware of how much community organizations have contributed to improving quality of life for all residents of the area as now defined. When we look at your proposed map, we see a vast stretch of area which we barely even travel through in our day to day life.

We pride ourselves in Lake Highlands on having a diverse community that works together. When we look at your proposal, it appears to us that we are being gerrymandered into a district with far less diversity than we now have.

Please do not split District 10 into artificially drawn communities.

Sincerely,

Lynda and Jackson Harrell

Subject: Against Lake Highlands District 10 being changed

Hi,
I wanted to reach out given my concern that Lake Highlands might be divided into multiple districts. I have never written in but I feel very passionate that the community is not split. Both my husband and myself grew up in Lake Highlands and moved away but just bought a house to come back to the close community to raise our family. We would be devastated and reconsider our location is this were to happen, I think we are the same as many Lake Highlands alum that return to the area. This same group of people has a wonderful small town feel and donates lots of money to the city programs and parks in district 10. In this small community diversity has been embraced, our schools are very diverse and all accepting, we have done this with great success and maintained an outstanding reputation for the education program. This could complete destroy what a community has worked to build over the last 30 years, since Dean Vanderbilts council tenure, please please do not tear it apart.

Warm regards,

Lindsey Halford

Subject: Keep District 10 Intact!

Dear Districting Committee,
We are residents of Lake Highlands, a wonderful neighborhood, in Dallas, TX. We LOVE our neighborhood and our family has called this neighborhood home for over 15 years. It has come to our attention that there is a possibility of re-organizing our district, District 10. We are asking that you DO NOT agree to such an idea for the following reasons:

Keep the LHHS attendance zone as a primary consideration
District 10 is already a diverse district and meets the not gerrymandered definition
District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
LH has a long history of being a neighborhood where diversity already works; don't destroy that!
We trust that you will make the right decision for a community that has a great history of diversity and community involvement. The saying, "If it ain't broke, don't fix it!" comes to mind.
Thank you for your time and consideration.
Mike and Nichole Fiorentino

Redistricting Committee,
I recently moved my family to LH for the neighborhood and schools at the urging of my wife who grew up there. I urge you to leave it intact in District 10.
Some things to consider while reviewing the possible restricting plans:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Thank you for your prompt attention to this matter.

Subject: Keep Lake Highlands in District 10!

I am writing to request that you leave all of Lake Highlands together in District 10. Proposed maps that split the district up make me nervous and disappointed. A primary reason that I moved into the Lake Highlands area was that I loved the community aspect of the area. The residents all have common goals for the neighborhoods and work together to see growth and development. Having 3 different districts would really cause a lof of the goals to lose importance and have to be balanced by very different areas. Also, combing my neighborhood with one not in the Lake Highlands area - means our representative will have 2 completely different areas to work with. While we may just be across 75, we are a very different community and have very different issues to contend with. I echo some of my fellow neighbors who have brought up the following very valid points and I will include them in great support.

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: District 10 Considerations

As a proud member of the Lake Highlands community as well as a member of many organizations, like the Lake Highlands Junior Women's League, which supports this community, its schools, and parks through service, charity, and financial support, I am extremely concerned about the proposed redistricting of our wonderfully unique community.

My husband and I made the conscious decision to move to this special community for countless reasons. A determining factor that made us choose to establish our family in Lake Highlands as opposed to moving our financial resources and tax dollars to the suburbs was that District 10 is diverse socioeconomically - it is a true melting pot reflective of the world. Not only that but it is a community that rallies behind its people and champions causes like bringing businesses to our area, keeping Dallas safe, and offering beautiful and safe places for families and children to play, grow, and develop. We love the small town feel of Lake Highlands where you never seem to meet a stranger and our kids can go public schools rather than abandoning existing buildings and turning our backs on the jobs that public schools create.

The proposed redistricting which would needlessly splinter our tightly knit community and would affect the LHHS attendance zone is a grave mistake and is absolutely unfounded.

1. District 10 is already a diverse district and meets the not gerrymandered definition
2. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
3. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
4. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
5. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

I implore you to use your power to keep Lake Highlands intact. Do not destroy this jewel of a community and devastate the people who moved to Lake Highlands to promulgate its history of helping Dallas and its citizens!

Sincerely,
Erin Morgan

Subject: NO TO REDISTRICTING: COUNCIL DISTRICT 10

To members of the Redistricting Committee,

I understand that your commission is working to redistrict our city council districts to more accurately reflect the 2010 census. I also understand that some of the redistricting proposals being considered would split Lake Highlands into three different districts. As a native Dallasite and a resident of Lake Highlands, I urge you keep Lake Highlands intact and in Council District 10.

Lake Highlands is a diverse and successful neighborhood. District 10 is a Community of Interest where residents and neighborhood groups have worked hard to maintain and improve the area for more than 30 years. The Lake Highlands High School attendance zone acts as a solid anchor for District 10. And the small town feel throughout all of Lake Highlands contributes to redevelopment, civic involvement and interaction with our city council member.

For all of those reasons, I hope you'll keep Lake Highlands intact in District 10.

Respectfully,

Rhonda Norman

Subject: Lake Highlands, District 10

Dear Redistricting Committee:

I have been a resident of Lake Highlands since 1996. The main reason that our neighborhood has survived and thrived is because of the common bond the residents have with their schools, the local businesses and fellow residents. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years.Breaking up the neighborhood into different districts would seriously undermine our neighborhood and could jeopardize the stability that you have observed in the District 10 area. LHHS attendance zone as a primary consideration to retain as our District 10 boundary.

We are a fairly diverse area, not gerrymandered, but the main thing our residents rally to is anything dealing with adverse affects to our Richardson schools and separating into districts that do not share the same interests or neighborhood values. Splitting up Lake Highlands area into multiple districts could be disastrous to the resulting Districts as the Lake Highlands residents most likely would not align on issues like transportation, public education, taxing, bonds and parks and recreation. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.

Our neighborhood has traditionally voted and supported City action and State action that most likely immediately affect neighborhood safety, suburban living and home values. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost if redistricting divides us. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

I urge you to retain Lake Highlands in District 10 as the unity and single representation would be a benefit not only to our neighborhood, but also to our adjacent neighborhoods.

Thank you.

Subject: Lake Highlands

To Whom it May Concern,

Please keep the LHHS attendance zone as a primary consideration. Please consider the following:

1. District 10 is already a diverse district and meets the not gerrymandered definition
2. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
3. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
4. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
5. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

My husband and I moved to the Lake Highlands because of the "small town feel" of the community and for the schools. It is one of the last places inside the loop that remains affordable and you can send your child to the schools for a quality education. The other factor we love about Lake Highlands is that the schools and community are diverse with different income levels and different races. When you go to a neighborhood park or any of the schools you can witness that first hand. Another reason we love the Lake Highlands is the members of the community fight so hard to keep this area improving. For just a few examples - many of the neighborhoods use their own money to hire extra police patrols to keep crime to a minimum, we gathered over 6000 signatures to help the town center try to secure an anchor retailer like Trader Joe's, and Junior Women's League has raised money to redo some of the parks and rec centers. We absolutely love this community and will fight to keep us together. If we can get over 6000 signatures to get a grocery store to come to the Lake Highlands you better believe we will create quite an uprising if you try to split the Lake Highlands into different districts. I believe Lake Highlands if one of the most diverse areas where races and different income levels interact very well together. It should be an example to city hall of a goal to make other communities similar. Don't mess with Lake Highlands!!! It is one of the great communities in the city and please don't destroy that!

Subject: Redistricting Plan

Dear City Council Redistricting Committee,

As a Dallas resident and citizen of Lake Highlands, I was concerned to view some of the proposed plans for redistricting that would divide Lake Highlands into smaller districts. As you know, this "city within a city" has been a source of pride and diversity within our city for decades. District 10 is already a diverse district that meets "no gerrymandering" guidelines. The LHHS attendance area is of critical concern. It is absolutely imperative that our area remain intact under District 10. Thank you for your time and consideration.

Subject: Keep Lake Highlands Intact in District 10

There is no need to redefine District 10; we are already a diverse district; we have been that way for many years. Why would you destroy a success that has taken decades to build?

One would think that you would want neighborhoods in which diversity works to remain intact, as a model for other areas. We have worked hard to create a small closely-knit town in the center of a large metropolitan area; one in which we all get along and work together to improve our District, focusing on economic redevelopment and park improvement.

PLEASE... leave District 10 intact!

Don't destroy our hard work and achievements!

To: reDallas11
Subject: Redistricting Affecting Lake Highlands

I understand there is a redistricting proposal that would split Lake Highlands into three districts. I think this would be disastrous. Lake Highlands has a history of pulling together for the benefit of the area. This cohesiveness would be destroyed if we are split. It is imperative that you keep the LHHS attendance zone together as a primary consideration. Other factors should be considered as well:

- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

The small-town feel, the diversity and the sense of community were factors that influenced me to move to this neighborhood in 2000. Please don't ruin it!

Subject: redistricting

Dear Sirs,

For decades Lake Highlands has been its own little community, and at this point it should NOT be broken up into other districts. It is hard to believe that anyone would even consider such action. Lake Highlands is probably one of the most unique sections of Dallas with diversity in ethnic groups, racial groups, and socioeconomic status.
By tradition this neighborhood has always bonded to support various causes and has been active in community projects. Almost forty years ago, I moved to this area because of its reputation of having a friendly "small town" attitude with a great amount of community spirit. I have never been disappointed with my move. Why destroy a community by breaking it up into different districts!?!?!? The logic of this action is totally missing, especially when this community has worked so well together in the past.

Please reconsider your actions and think of this community as a whole. Unequivocally, all of the Lake Highlands area should remain in one district, District 10.

Sincerely,

Martha Ann Cates

Subject: District 10 Redistricting

To members of the Redistricting Committee,

I understand that your commission is working to redistrict our city council districts to more accurately reflect the 2010 census. I also understand that some of the redistricting proposals being considered would split Lake Highlands into three different districts. As a native Dallasite and a resident of Lake Highlands, I urge you keep Lake Highlands intact and in Council District 10.

Lake Highlands is a diverse and successful neighborhood. District 10 is a Community of Interest where residents and neighborhood groups have worked hard to maintain and improve the area for more than 30 years. The Lake Highlands High School attendance zone acts as a solid anchor for District 10. And the small town feel throughout all of Lake Highlands contributes to redevelopment, civic involvement and interaction with our city council member.

For all of those reasons, I hope you'll keep Lake Highlands intact in District 10.

Thank you,
Suzanne Martin

Subject: District 10 redistricting plan

To the Redistricting Committee

My name is Rick Hibbs. I am an architect, an 18 year resident of Lake Highlands, and currently serve on the Land Use Committee of the Lake Highlands Area Improvement Association.

I am writing to ask for a common-sense approach to the District 10 boundary. District 10 is currently approximately the same as Lake Highlands, which is commonly thought of as the part of Dallas that falls within the Lake Highlands High School attendance area. This should be the primary consideration for the district boundary for the following reasons:

Lake Highlands is a unique and cohesive community. All of us who live in Lake Highlands recognize the unique character of our community, and in fact purchased or rent our homes to be a part of this special area. Lake Highlands is in many ways like a small-town. It is a desirable community within the city - in many ways a model that the City should want to preserve and strengthen.

While Lake Highlands is cohesive, it is also extremely diverse, having a wide diversity of socio-economics, races and housing types. Again, one unifying aspect of the community is Lake Highlands High School, where all of the diversity of the community comes together for education and sports.

Also, there are countless organizations, including the Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League that recognize and are organized around the general boundaries of our community. Many of these have worked hand in hand with the City on programs, and have donated hundreds of thousands of dollars to Parks in District 10.

Lake Highlands is the very definition of a "community of interest." More than that, it is a "real' community with much in common. It should be represented by a single council member that can effectively represent our special neighborhood as a single unit. To break Lake Highlands into parts and allocate our single community into separate districts would defy common sense and more significantly, would deny our community appropriate unified representation to the city council.

Thank you for your consideration

To whom it may concern,
I have been a resident of the Lake Highlands district for nearly 20 years and am asking you to vote "NO" to the redistricting proposal which would split this neighbor apart.
The close-knit community which is Lake Highlands is unique and well supports its citizens of all ages. The school district is outstanding - Lake Highlands High School is a stable, productive environment for young students and its feeder schools have increasing attendance and community support. Groups like the Lake Highlands Women's Club, the Lake Highlands Exchange Club and numerous crime watch organizations have worked hard together to build and maintain exceptional community ties and a safe, supportive atmosphere.
Friends don't quite believe the small town feel evidenced by our local parades or summers at the KC pool or Recreation Center camps.
Please help keep Lake Highlands intact.
Sincerely,
Robin Korevaar

Subject: redistricting Lake Highlands

I implore you to keep Lake Highlands as ONE district. It should not be three separate districts as is proposed as a possibility following the census. District 10 is a very diverse community. The residents of Lake Highlands work tirelessly to create an atmosphere of inclusion, particularly in the public schools. Literally hundreds of thousands of dollars are raised on a yearly basis to make improvements in this community. While there are distinct neighborhoods within this district, the people of this community recognize the entire area as Lake Highlands...a small city within a city. There is one high school, Lake Highlands High School, which serves almost as a Town Hall for this community. I can see no value in subdividing this community into different districts. What is good for one part of Lake Highlands is good for all of Lake Highlands. That is the way the people of this community feel.

Dear Members of the Redistricting Committee,

We have been residents of Lake Highland for more than fifteen years and don't understand why there should be a need to redraw the District 10 boundaries. There is an undeniable spirit of community in support of the schools, parks and area activities. Families here reunite as married children return to raise their children where they grew up.

There is certainly ethnic diversity in District 10. We have attended a number of meetings with Councilman Allen and his predecessor in which minority interests are forcefully presented and heeded. The sense of community draws enthusiastic support and participation from the residents.
Why, on a whim, would the Committee feel the need to fix something that is not broken.

Respectfully,
Mr. and Mrs. Richard H. Meadows

Subject: Re: Lake Highlands District 10

It has been brought to our attention that the redistricting maps are under scrutinity and that District 10 could possibly be divided into three different areas. We have lived in Lake Highlands for 30 plus years and have enjoyed the close-knit community fell that we have here. This community and it's residents are very closely tied to the high school as well as all area schools. Many community volunteers and many programs have been started at the grassroots level to work with the apartments in our area to integrate thes residents into this community. Dividing it would most certainly negate much of this work. We have set examples for the rest of this city to follow with many of our programs. Lake Highlands and it's residents have tirelessly been working on the Town Center Project for many years to get this started, which if it were divided would be lost time and funds for this area and the city. Lake Highlands and its residents do not meet the criteria for gerrymandering therefore should not be divided. We embrace the diversity of our neighborhood as well as the "small town" feel that we have within our big city. That is what makes Lake highlands so appealing to new people moving to Dallas. We need to keep it as a whole, as it is now!

Subject: please keep the Lake Highlands district intact

Dear Redistricting Committee,

I write to ask you not to split the Lake Highlands High School attendance zone into three districts.

I am an active member of the community, having been president of my home owners' association and president of the Lake Highlands High School PTA. I know the community well, and know that being a single district has not only strengthened the community, but also the city of Dallas. There is a unity and small town feel that has encouraged all to get involved and work to improve the community.

Lake Highlands is a strong community of interest and has been for over 30 years. The community has worked together on many projects benefiting not only the community, but the city as well, including raising funds for scholarships and parks. I personally saw and experienced this as a member of the Lake Highlands Women's League.

If you were to walk through the halls of LHHS, you would quickly see evidence that District 10 is already a diverse district and meets the not gerrymandered definition. If the district were split into three separate districts, much of the momentum that has been a benefit to our city and community would be lost.

You are entrusted with an important task. Please do not split the LH attendance zone.

Yours,
Kay Morton

Subject: Redistricting

This news regarding the possible redistricting of Lake Highlands into 4 separate council districts is just one more hard hit to our community in a string of recent hits.

We need decisions for the City of Dallas that dont undermine the strength of our local community. The tax payers here are doing what we can to make Dallas an energetic, inviting community and frankly, it just does not seem we are getting the support we need to keep this area vibrant and growing.

Dividing the jewel of Lake Highlands into 4 districts would perhaps silence some of the "squeeky wheel" dynamic that City Hall seems to want to eliminate. We have some serious issues that continue to nag the area and dividing the concentrated/coordinated leadership for our community would probably exacerbate these issues, not diminish them.

Please, please find a redistricting plan that accomplishes what needs to be accomplished and maintains the current High School boundaries as our boundaries currently stand.

Thanks so much.
Sincerely,
Nancy Bludworth

Subject: Splitting Lake Highlands into 3 districts

I moved my family from Houston to Lake Highlands in 1964. We have lived here ever since. My 7 children went to Lake Highlands High School. My youngest son has fulfilled his dream by raising his 4 children here in Lake Highlands. It is a community of people who work together to achieve a safe place to raise children. We love this area. I think I express my strong support for keeping all of Lake Highlands in District 10, reflects my neighbors' desires as well. Our neighbors have a block party annually to fortify our desire to work together by knowing each other better.

I am aware that our schools meet the needs of children from many different ethnicities. I am aware of how hard the community and the teachers worked at Forest Meadow to meet the educational needs of these children and to raise it from Unacceptable to Acceptable. We worked hard to enbrace the parents and get their enthusiastic support. We donated funds to build a spray pool for the children. The children of Lake Highlands are the future. With a good education, they will be ready to be candidates for office. Do not take our concerted efforts to create this opportunity by breaking up this community based something as ephermeral as ethnicity.

Dear Sir / Madam,

I am writing about the possible re-districting of the Lake Highlands area. I want it to be understood that I and my family, all residents of the Lake Highlands area now for over 20 years, are TOTALLY against any change to or re-districting of the area. This is a gem of a community within the 635 loop. I cannot see any reason why any changes need to be made and I will oppose any of the proposed changes to this area. We already face enough issues (between over crowding of low rent apartments to a town center that has yet to be built), the last thing we need is any changes to the political districting of this area. Please vote NO to any changes. Thank you in advance

Mark Padalino

Subject: KEEP DISTRICT 10 INTACT - LAKE HIGHLANDS

To: Redistricting Committee

Dear Committee members,

I want to voice my opinion against any decision to divide Lake Highlands, District 10, into several districts. Lake Highlands has worked together as a neighborhood for the good of all the diverse groups within it for years now, and has established a positive sense of pride and community, making it a place that could be set forth as an example of how neighborhoods ought to be operated. The Exchange clubs and various Women's Leagues have a long history of working together with the city to establish and maintain parks and common areas, donating hundreds of thousands of dollars to this effort over the years. There is no good reason for dividing Lake Highlands. Diversity already exists, and much effort has been expended to make it a place where kids who have grown up here, return to set up their own families.

Please give due consideration to keeping District 10 intact. Thanks you for your careful consideration in this matter.

Subject: Lake Highlands

Ladies and Gentlemen,

- Lake Highlands is one of the most diverse neighborhoods that is distinct and recognized throughout Dallas -- and that has retained a fine sense of community.
- As much as possible, please keep our community together when you redraw the new Council Districts.
- Most of LH is in the Richardson School District, and breaking up the neighborhood will add confusion -- not cohesion.
- For many years, LH has elected Council Members who have brought strength and positive leadership to the City Council. Please don't reward our many contributions to Dallas by breaking up our community.
- **No Gerrymandering here ! ! !**

Subject: District 10

Please carefully consider the following, regarding District 10 in redistricting City of Dallas council districts:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: Keep Lake Highlands intact in District 10

Dear Redistricting committee,

It has come our attention that there is thoughts about dividing District 10 into 3 new districts. My family moved to the LH area when I was a small child and I returned to LH to raise my children. I hate to see the dynamic area change simply because of a census. Below are several reason we feel that District 10 should remain intact.

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

I hope you will consider mine and others concern before redistricting LH.

Sincerely,

Ellen Mata

Subject: Opposition to Lake Highlands Redistricting

To the Redistricting Committee:

I am writing you to inform you of my opposition to the possible redistricting of Lake Highlands. Lake Highlands has been comprised of a single district for 20 years and I would challenge any data indicating significant demographic changes within the last few years to warrant a redistricting. Our community is already a diverse district and we do not want to threaten the incredible economic momentum we have witnessed over the last 10 years. Our "small town" feel is what makes this such a wonderful place to live, and that would be threatened with a change of this manner.

Thank you,

Rob Stovall

Subject: District 10 redistricting concerns

Please keep the LHHS attendance zone as a primary consideration. Please consider the following:

1. District 10 is already a diverse district and meets the not gerrymandered definition
2. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
3. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
4. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
5. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

We moved our family into Lake Highlands because of the "small town feel" of the community and for the schools. It is one of the last places inside the loop that remains affordable and you can send your child to the schools for a quality education. The other factor we love about Lake Highlands is that the schools and community are diverse with different income levels and different races. When you go to a neighborhood park or any of the schools you can witness that first hand. Another reason we love the Lake Highlands is the members of the community fight so hard to keep this area improving. For just a few examples - many of the neighborhoods use their own money to hire extra police patrols to keep crime to a minimum, we gathered over 6000 signatures to help the town center try to secure an anchor retailer like Trader Joe's, and Junior Women's League has raised money to redo some of the parks and rec centers. We absolutely love this community and will fight to keep us together. If we can get over 6000 signatures to get a grocery store to come to the Lake Highlands you better believe we will create quite an uprising if you try to split the Lake Highlands into different districts. I believe Lake Highlands if one of the most diverse areas where races and different income levels interact very well together. It should be an example to city hall of a goal to make other communities similar. Don't mess with Lake Highlands!!! It is one of the great communities in the city and please don't destroy that!

Sincerely,

Nathan and Stefanie Spencer

Ladies and Gentlemen:

This comes with an earnest plea. Please consider keeping the district of Lake Highlands contained.....as one District...District 10. I grew up in LH in the mid '60's. I've seen a lot of change over the years. We, as a community, have engaged the changes over the years, coped and developed well. Our children and our community spirit is strong, but will be splintered with the thought of splitting our district. We need to hold on to our strong spirit...we need each other. We cherish our community.

As you prepare for the future of Dallas (Lake Highlands included), I ask you carefully to consider this part of our city and the residents' desires and needs.

As always, I would like to say "the time you give to our City is so appreciated. Thank you beyond measure. "

Please don't mess with District 10. We more than meet the guidelines for diversity and have a wide variety of housing opportunities for both the young and the elderly.

I worked at Lake Highlands High School for 15 years as a counselor and at Forest Meadow Junior High for 4 years as a counselor. I was able to personally witness the area's population and support. This geographical area is so unique to Dallas.....it is cohesive, unified, and proud. We work as a whole to support our schools and citizens (both young and old). Every year we provide a safe environment for our young to celebrate Halloween and our July 4th parade and picnic honoring our young and older veterans is known city-wide. No other area financially supports its graduates with as much money for college thanks to the LH Exchange Club and the LH Women's League. When I had pitiful children in severe need, all I had to do was pick up the phone to these organizations and ask for assistance. Never was I refused. This talk of splitting up the area into other districts smacks of the desire to ruin something in this city that actually works. Dallas already has perfected that. Let's not "fix" what is NOT broken.

Subject: Keep Lake Highlands together

Dear Redistricting Committee-

Please keep Lake Highlands in a single district. I think Lake Highland has a unique identity as a community. There is significant economic and cultural diversity which attracted our family to this neighborhood when we moved here over 20 years ago.

The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League are part of what makes the Lake Highlands strong. These organizations work diligently to address neighborhood needs. Re-districting would completely destroy the basis of these institutions.

The "small town feel within the heart of the city" that defines LH and has supported council candidates, and even raised money for the parks and other needs in the neighborhood.

So many of my neighbors went to school at Lake Highlands and have moved into the neighborhood when they returned from college. Please don't destroy this neighborhood

Subject: Proposed Redistricting May

I am a long-time resident of Dallas and live in the Lake Highlands area or District 10. I am writing to strongly encourage the committee to "Keep Lake Highlands intact in District 10." Lake Highlands is a neighborhood community within the city. It is a naturally diverse neighborhood representing all ethnicities. Below are key reasons to keep Lake Highlands in District 10.

- Keep the LHHS attendance zone as a primary consideration (the schools are the central identifier for the community and right now work well with the school district, the neighborhood and the city.
- District 10 is already a diverse district and meets the "not gerrymandered definition"
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years.
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost.
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

The city of Dallas should be committed to supporting strong neighborhoods who remain in the city and support the growth and tax base of the city. Splintering a neighborhood that is "working" and is already a diverse neighborhood does not benefit anyone. One of the reasons we remain in the city limits of Dallas is because we live in Lake Highlands.

Subject: Lake Highlands Redistricting

As a Lake Highlands resident for 25 years, and a Dallas resident for sixty years, I strongly recommend that the proposed redistricting plan be not endorsed. This neighborhood has gone from an ideal diverse community, to a heavily populated apartment community, and is now realizing what it once was and is moving toward a balanced diverse community anchored by the RISD. Diversity is easily recognizable by walking the hallways of the community schools. Lake Highlands as it is today, is a community that is drawing people to the City, rather than the suburbs. Why mess with something that is working for all.

In summary, lets keep:

LHHS and community school attendance zone as a primary consideration for districting the community.

District 10 a diverse district that meets and fulfills the not gerrymandered definition.

District 10 is a Community of Interest that has been refined to reflect that over the past 30+ years.

The Lake Highlands community working hand in hand with the City on programs. Such collaboration with the Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League has resulted in donated funds exceeding hundreds of thousands of dollars to Parks in District 10.

The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment.

Lake Highlands of being a neighborhood where diversity already works and will continue to work.

To: reDallas11
Subject: RE: Lake Highlands being split up

Importance: High

I am a longtime resident of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides. My wife and I are parents of two girls currently attending Forest Meadow Junior High and Lake Highlands High Schools. My experience in living in this area of Dallas for 27 years has been to always experience a sense of community.

In Lake Highlands we continue to enjoy that community feeling. We do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close nit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands High School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and are offering support to the schools, parks and people of Lake Highlands. Please look at the scholarships provided last year by the Exchange Club of Lake Highlands and the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts.

Thank you for your consideration of my comments and request and I am so very hopeful that you will not damage an area that works so very well.

Sincerely,
James Tobey
9100 Windcrest Drive

Subject: Redistricting

My family purchased our first home 9 years ago as newlyweds. After searching through the M streets area we found the community of Lake Highlands and knew that this is where we wanted to invest and settle down to raise a family. We have been so proud of the changes we have experienced with our LH community. I have recently started in a new role as President of the Lake Highlands Early Childhood PTA, a group that serves all preschoolers who feed into elementary schools in the Lake Highlands High School area. Many of my girls play dates are with families all over Lake Highlands. We are a strong community who should be represented by ONE council person, rather than being split up into several districts. I strongly oppose the proposed redistricting.

Sincerely,
Monique

Subject: Lake Highlands- Pls. DO NOT redistrict!

I am writing to you to plead that you do not redistricting Lake Highlands.
We moved this part of the city because it is like a small town in a big city, where neighbors help each other, children play and go to school together, & women's groups are strong and make a difference.
I have lived in different parts of Dallas my whole life, and have never seen a section of the city come together like Lake Highlands! It is amazing to watch and be a part of.
Please do not redistrict us!

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: Lake Highlands and redistricting

Dear Members of the Redistricting Committee:

It has come to our attention that several proposed redistricting maps would divide the Lake Highlands area into 3 districts. Let us urge you not to adopt a plan that divides up the Lake Highlands area. We wish to keep Lake Highlands intact in District 10. We are a well defined (geographically and societally) community unlike any other in the City of Dallas

By keeping our district intact in District 10 we are able to keep the Lake Highlands High School attendance zone in an area represented by one council person. We are already a diverse district that has been in one district for more than 30 years, representing our unique close knit community within the confines of the larger city. We have been represented by strong council persons such as Alan Walne, Jerry Allen, Bill Bladyes and Donna Halstead with a strong tradition of being advocates not only for our community but for the city of Dallas as a whole. Our community has separate and unique community service clubs that have worked tirelessly with the city to improve city facilities within our district with our own dollars. Please don't destroy our long neighborhood history by dividing us up at this time.

Sincerely,
Jack and Kathy Cleaveland

Subject: Regarding Your Plans For District 10

Dear City Council,

It has come to my attention that you want to gerrymander District 10. I would like to go on record in opposition of splitting up District 10. Lake Highlands is a good area that's been a complete district to itself for 20 years or so. I would not like to see what has been working so well for the past two decades be dismantled.

Lake Highlands has a small town atmosphere even though we are part of a bustling, vibrant city. Our location and reach are part of the appeal of Lake Highlands, which makes us feel like one as a community, and one of the major reasons why I elected to move here.

Thank you for your consideration of my vote,
Sophie Hamlin

Subject: Lake Highlands Redistricting

I have been a resident of Lake Highlands for over ten years, and my daughter has been a student at LH Elementary and LH Junior High, now entering LH High School. This is a community that works, with schools that are socioeconomically diverse and educationally successful, businesses that are oriented around the community's activities and needs, and neighborhoods that foster strong relationships and working together. I do not, then, support the proposal to break up Lake Highlands into three districts. Though part of Dallas, we are also part of Richardson through our schools and yet also recognizably our own individuated community, a unitary place with a sense of being Lake Highlands. Please do not divide us up.

To Whom It May Concern:

It has come to my attention that there is a proposed plan to change the Lake Highlands city council district into 2 or 3 possible districts. I urge you to leave Lake Highlands like it is. This community has worked very hard to maintain a small town feel while addressing problems that other parts of the city don't have. We have set up programs to include all the residents of Lake Highlands... including our LH residents in apartments. We have contributed large amounts of money to the parks department. We need a solidified representation at city hall to continue the growth and success that we have recently experienced.

Please don't destroy an area that is honestly working on its problems and contributing to the continued improvement of this city by dividing us into separate districts.

Thank you for your consideration to this matter.

Subject: Lake Highlands Redistricting

Lake Highlands is the orphan child of Dallas...We have had all kinds of decisions made for us that have ruined many neighborhoods and because we have taken most of it in good graces, we usually get more bad decisions. We have struggled, trying to keep our close- in community updated and attractive to protect home values. Indeed, we are a diverse community, but we would all like to be just Americans, and not hyphenated ones. We have come to hate out City Council because they don't know our little area and allowed thousands of apartment homes to be built some of which we are trying to be rid of. Leave us alone! We are struggling as it is to attract retail in to Town Center. Leave us alone! And doesn't Dallas love it that our schools are Richardson and still good while Dallas falters. Dallas would love to throw all their problems our way. Leave us alone and let us solve our own problems.

I am opposed to redistricting Lake Highlands. I have grown up in this neighborhood and have come back to raise a family here. The people in this neighborhood are committed to making Lake Highlands a great place to work and raise a family. The redistricting of LH would not improve things for our community.
We have an extremely diverse community and are proud of it. We meet all of the government definitions as such.

I am a member of LH Women's league and am proud of the work we have done in the community, the schools, and the partnership we have with the city, especially the Parks department. We have donated thousands of dollars to the Parks in District 10. We have a "small town" feel in the middle of a big city, and don't want all that we have worked so hard to achieve, thrown away, by arbitrarily moving district lines.

Thanks you so much for your consideration with this important issue,

Subject: Please keep Lake Highlands intact in District 10!

To Whom It May Concern,

Please keep Lake Highlands intact in District 10! My husband and I chose to live in Lake Highlands because of the "small town feel" of the community and the schools. It is one of the last places inside the loop that has affordable housing and quality public schools. Equally important is the diversity that we can see and experience within our community. Lake Highlands is a diverse community with varying income levels and ethnicities. We believe it is very important for our children to be exposed to various levels of diversity and the citizens and community within Lake Highlands tries to embrace this diversity wherever possible. You can witness this when you go to a neighborhood park, go for a walk or bike ride or go to any of the schools that fall under the District 10 umbrella.

Another reason we love the Lake Highlands is that the members of the community fight so hard to keep improving our area. We have numerous organizations (Lake Highlands Women's League, Lake Highlands Junior Women's League, Lake Highlands Exchange Club, Lake Highlands Area Improvement Association and many more) that strive to create a better community for everyone. I believe Lake Highlands is a very diverse area where races and different income levels interact very well together. Every community has its problems but the Lake Highlands community strives to address these issues wherever possible and looks to the City of Dallas when we cannot. It should be a goal for City Hall to try and encourage this kind of community support wherever possible. Lake Highlands is one of the great communities in the city and please don't destroy that!

Please keep in mind the following points:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the non gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Again, please keep Lake Highlands intact in District 10!

Thank you,
Jennifer and Trent Carter

Subject: Please keep Lake Highlands Intact in District 10

Dear Sir/Madam,

I understand that my neighborhood is up for reconsideration regarding redistricting to "reflect the 2010 census." This would then split Lake Highlands into 3 different districts.

I implore you, as the committee to leave District 10 untouched for a variety of reasons that I am listing below; however, first and foremost, why mess something up that is WORKING in a city that is begging for attention in other areas that need your help?

Below, please note the following points to consider why District 10 should indeed remain INTACT:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the 'not gerrymandered' definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Again, this is the type of community that cities strive to create, foster and keep intact. You already have that here. It is full of people with open arms, who reach out to help the many diverse groups that exist in our area. If you would stop and actually drive around Lake Highlands, you would see how diverse our neighborhoods actually are. I challenge you to do this - and then put your energies into other agenda items for our great City.

Subject: Lake Highlands

I very strongly protest and oppose the redistricting of the Lake Highlands area. Lake Highlands is already a diverse community and does not need to be further redistricted. The present configuration provides the best opportunity for the area to attract the commercial development which we strongly need for the benefit of ALL the citizens of the area. Lake Highlands currently meets all the requirements and definitions which allow the area not to be redistricted. The definitions of the area have been refined over the past 30 years. Our small town feel would be lost in redistricting, along with the corresponding development opportunities. Do not destroy what already exists in Lake Highlands.

Please keep the LHHS attendance zone as a primary consideration. Please consider the following:

1. District 10 is already a diverse district and meets the not gerrymandered definition
2. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
3. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having
donated hundreds of thousands of dollars to Parks in District 10
4. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
5. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

My wife and I were born at Presbyterian Hospital in Dallas, grew up in Lake Highlands, married post college and came back to settle here because of the "small town feel" of the community and for the schools. It is one of the last places inside the loop that remains affordable and you can send your child to the schools for a quality education. The other fact we love about Lake Highlands is that the schools and community are diverse with different income levels and different races. When you go to a neighborhood park or any of the schools you can witness that first hand. Another reason we love the Lake Highlands is the members of the community fight so hard to keep this area improving. For just a few examples - many of the neighborhoods use their own money to hire extra police patrols to keep crime to a minimum, we gathered over 6000 signatures to help the town center try to secure an anchor retailer like Trader Joe's, and Junior Women's League has raised money to redo some of the parks and rec centers. We absolutely love this community and will fight to keep us together. If we can get over 6000 signatures to get a grocery store to come to the Lake Highlands you better believe we will create quite an uprising if you try to split the Lake Highlands into different districts. I believe Lake Highlands if one of the most diverse areas where races and different income levels interact very well together. It should be an example to city hall of a goal to make other communities similar. Don't mess with Lake Highlands!!! It is one of the great communities in the city and please don't destroy that!

Subject: Keeping Lake Highlands District 10 Intact

Importance: High

To the Honorable Redistricting Commissioners:

As a very long-term resident and homeowner of the Lake Highlands area of Dallas (with two children attending Lake Highland area public schools), and resident of District 10, I urge the Commissioners to keep District 10 intact and to reject any plans to divide this vibrant and very diverse district. Community members and partners have devoted substantial efforts and resources to maintain and improve the quality of this diverse area.

Any plans to divide the district will only be counter-productive to efforts to attract redevelopment and maintain the "small town" feeling of community involvement and civic pride that have attracted such a diverse group of residents and business owners to the Lake Highlands area. This feeling and community sense of pride and involvement is reflected every year, for example, in the annual Lake Highlands 4th of July parade sponsored by the Lake Highlands Exchange Club.

I support keeping the Lake Highlands community, and District 10, intact and urge the Commissioners to do the same.

Subject: District 10 - LHHS Attendance Zones

City of Dallas

To whom it may concern:

Please keep the LHHS attendance zone as a primary consideration. Please consider the following:
1. District 10 is already a diverse district and meets the not gerrymandered definition

2. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
3. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10

4. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
5. LH has a long history of being a neighborhood where diversity already works; don't destroy that!
My husband and I moved to the Lake Highlands because of the "small town feel" of the community and for the schools. It is one of the last places inside the loop that remains affordable and you can send your child to the schools for a quality education. The other factor we love about Lake Highlands is that the schools and community are diverse with different income levels and different races. When you go to a neighborhood park or any of the schools you can witness that first hand. Another reason we love the Lake Highlands is the members of the community fight so hard to keep this area improving. For just a few examples - many of the neighborhoods use their own money to hire extra police patrols to keep crime to a minimum, we gathered over 6000 signatures to help the town center try to secure an anchor retailer like Trader Joe's, and Junior Women's League has raised money to redo some of the parks and rec centers. **We absolutely love this community and will fight to keep us together**. If we can get over 6000 signatures to get a grocery store to come to the Lake Highlands you better believe we will create quite an uprising if you try to split the Lake Highlands into different districts. I believe Lake Highlands if one of the most diverse areas where races and different income levels interact very well together. It should be an example to city hall of a goal to make other communities similar. Don't mess with Lake Highlands!!! It is one of the great communities in the city and please don't destroy that!

Thank you for your time,

Leigh Ann and Maxim Chekanovskiy

Subject: Redistricting of District 10

Dear Committee,

My wife and I live and work in the Lake Highlands area. I have my own financial consulting firm and my wife is a teacher at Wallace Elementary that feeds into LHHS. My family moved to Lake Highlands from the White Rock lake area in 1969 in order for me and my brothers to be able to attend RISD while living in Dallas.

So we have a long tenure in Lake Highlands as well as deep roots. My father still owns a home in LH. My wife's parents moved to Dallas in 1976 and chose Lake Highlands to be there community and still live here today. My wife and I moved away but came back to raise our kids here as well. By the way my oldest daughter just moved back to Lake Highlands and has taken a teaching position at Stults Rd. Elementary that is also in district 10 and feed into LHHS.

Please keep the LHHS attandance zone as it is and focus on this as it continues to be a driving force to new families wanting to make Lake Highlands their home. We are already a diverse neighborhood and it meets the not gerrymandered definition.

Many civic organizations are the forefront of the Lake Highlands landscape and continue to make it what it is today. A few of these organizations which include the Lake Highlands Exchange Club and the Lake Highlands Women's League have made significant financial contributions to LHHS the Dallas Parks in District 10.

Please do not try to fix what is not broken by dividing Lake Highlands into mutiple districts.

Thank you for your time and consideration.

Subject: Lake Highlands being split up

I am a longtime resident of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides. My wife and I are parents of two girls currently attending Forest Meadow Junior High and Lake Highlands High Schools. My experience in living in this area of Dallas for 27 years has been to always experience a sense of community.

In Lake Highlands we continue to enjoy that community feeling. We do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close nit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands High School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and are offering support to the schools, parks and people of Lake Highlands. Please look at the scholarships provided last year by the Exchange Club of Lake Highlands and the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts.

Thank you for your consideration of my comments and request and I am so very hopeful that you will not damage an area that works so very well.

Subject: DON'T BREAK UP LAKE HIGHLANDS!!!!

Many years ago the DISD decided it wasn't worth the cost to build for bus the students in the area north of White Rock Lake. Lake Highlands found a way and was annexed into the RISD. Since then it has become a highly diverse successful community with the feel of a small town. It is imperative that the Lake Highlands Community continue to be allowed to grow as a community. Leave our community within ONE district.

Subject: District 10

To all commissioners:

I just discovered that the division of the current district 10 is being considered. I would like to voice my objection to the breakup of the community of Lake Highlands. This is a community that has a strong sense of unity, cemented, on the most part, around the Lake Highlands High School attendance area. Since my husband was in the first graduating class of LHHS, and all six of my children call it their alma mater as well, I cannot imagine being removed from the district that has historically included the Lake Highlands community.

Please do not break up this community by chopping up district 10!!!

Dear Committee Member,

I am writing to urge you to maintain current boundaries for District 10 (Lake Highlands). I moved to this community several years ago in part due to its cohesion and sense of community that is primarily based around the high school. I understand the committee has multiple demands but I feel that the current boudaries satisfy many of the stated desires of the committee and that dividing the current district into segments would not serve the Lake Highlands community well. I believe that maintaining this already diverse and cohesive district will also serve the city of Dallas well since the success of the city rests in part on segments of the city remaining unified and successful.

Thank you for considering,
Travis Whitfill

Subject: Redistricting committee plans

As 50+ year residents of Lake Highlands, we have watched its progress from pioneer farming area to a vibrant contributing neighborhood. It would make no sense at all to split it into separate parts; it is a cohesive caring neighborhood.

1. Lake Highlands is an enclave that cares about education. Our biggest asset is that we are in RISD. We should always be defined by the LHHS school boundaries to which we all identify.
2. Lake Highlands pretty much has natural boundaries now which define it: LBJ, Northwest Highway, and Garland. The proposed divisions make no sense.
3. Strong neighborhoods make a good city, and there is none better now than Lake Highlands. Local clubs support LHHS graduates from many backgrounds with college scholarships earned through many hours of service. When Hamilton Park came into the highschool it brought diversity which added new dimensions.
4. Playing at Ram Stadium for Domingo Garcia does not mean that he"knows Lake Highlands". Maybe enviously. Surely he can find some better way to meddle with success.

Subject: Objection to Lake Highlands redistricting proposal

Redistricting Committee:

I am a Lake Highlands resident, and I would like to express my very strong objection to splitting up the neighborhood we all love. I cannot give you reasons in political jargon, but I can tell you that Lake Highlands residents are like family. We are like a small town within the big city. There is plenty of diversity as it exists now. We all are paying our high mortgages and taxes to keep things just as they are OR improve our area...NOT to split it up and destroy what has been years in the making. Please consider that no one I have heard from or spoken to is in favor of this proposal. So if you are working on behalf of the people, your choice should be clear.

Some additions points:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: Keep Lake Highlands intact in District 10!

Hello,

It has recently been brought to my attention that proposed redistricting efforts could split Lake Highlands into multiple districts. I feel strongly that our community is not split. My wife and I have lived in Lake Highlands for over 30 years, are proud Lake Highlands HS graduates and hope to one day send our children to LHHS as well.

If Lake Highlands is split, I'm concerned that much of what this community has worked hard to create over the past 30+ years will be lost. This includes community involvement, city donations, redevelopment efforts, city council support and the "small town" feel that makes this community one of the best places to live in the metroplex. These are the reasons I live in and support Lake Highlands and a redistricting effort would lead myself (as well as many other LH residents) to not only question the judgment of City Hall but also strongly reconsider where we live.

Keep Lake Highlands together in District 10!

Warm regards,
Mac Harrison,
Class of 2000

Subject: Keep Lake Highlands intact in District 10!

Good morning,

My name is Victoria George. I grew up in Lake Highlands. I attended Forest Meadow and graduated from Lake Highlands High School in 1997. After graduating from Texas A&M in 2001, I returned to Dallas. In 2010, I began looking to buy my first home. After looking at many different neighborhoods in the metroplex, I chose to return to Lake Highlands. LH is a very diverse community. I love the "small town feel" that defines LH. I love the fact that this community has rallied to get businesses to join the LH Town Center. I am afraid if LH split into separate districts the redevelopment plans would be lost. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10

In closing, please keep the LHHS attendance zone as a primary consideration. LH has a long history of being a neighborhood where diversity already works; please don't destroy that! Keep us intact in District 10.

Sincerely,
Victoria George

Subject: Keep Lake Highlands Intact in District 10

Members of the Redistricting Committee:

Compared to many of my neighbors and the great people I get to encounter in Lake Highlands on a regular basis, I am a relative newcomer to the area, having lived in Lake Highlands (and, therefore, District 10) for almost 7 years. I write because many of the reasons my wife and I chose Lake Highlands as our preferred choice of residence would be threatened by at least one of the proposed redistricting maps the Committee will consider on August 4, 2011. Specifically, the map designated "cPlan16" would result in the community known as Lake Highlands being divided into at least two, if not three, separate districts.

Lake Highlands is a diverse, yet closely-knit, community. Lake Highlands' sense of solidarity is grounded in the things the community shares: one high school, one city council member, and a sense of feeling like a small town in the midst of an ever-growing city. Lake Highlands has parlayed this sense of community into economic development and strong and diverse public schools.

If, however, the Lake Highlands community is split into multiple districts whose boundaries extend into area with which Lake Highlands shares much less common interests, our sense of community will be significantly undermined, and our community's interests will be significantly diluted at the representative level in the City Council.

Accordingly, I would urge the Committee to consider these points, as well as the following, and reject the proposed "cPlan16" map and any other map that would result in the splitting up of the Lake Highlands area currently embodied within District 10:

-- The Lake Highlands High School attendance zone has been a significant factor in determining the boundaries of District 10. This attendance zone roughly tracks the boundaries of what is commonly known as Lake Highlands and should continue to be a primary consideration in determining district boundaries.

-- District 10 is diverse and benefits from its diversity. As alluded to earlier, one of the primary reasons for choosing Lake Highlands for my family is the diversity and strength of the public schools in Lake Highlands. District 10 also benefits economically from its diversity. Our district supports a number of different business owned by and catering to diverse clientele.

-- District 10 is a Community of Interest that dates back to the council tenure of Dean Vanderbilt and has been refined to reflect that over the past 30+ years.

-- The Lake Highlands Exchange Club (of which I am a member), the Lake Highlands Women's League and Junior Women's League (of which my wife is a member), as well as other community organizations and individuals in Lake Highlands have worked closely with the City on programs, including donating hundreds of thousands of dollars to Parks in District 10.

-- The small-town feel mentioned earlier defines Lake Highlands and is the basis for support of council candidates who have represented Lake Highlands and the City of Dallas well over the past 30+ years, including without limitation, Jerry Allen, Bill Blaydes, Alan Walne, and Donna Halstead.

-- Lake Highlands and District 10 have a long history of being a neighborhood where diversity already works. There is no need to destroy that by carving Lake Highlands up into separate districts.

Thank you for your time and consideration of these points. I appreciate and do not envy the job of the Committee in carrying out its redistricting obligations. I only hope that this input is helpful in some measure in that endeavor.

Respectfully,

Chris Brown, Associate

Subject: Lake Highlands is ONE district

Dear Redistricting Committee,

Lake Highlands is, in every sense of the word, a single district within the Dallas city limits. Dividing us, combining us with other existing districts, especially as drawn in the cPlan16, is outrageous. The school district boundaries have defined Lake Highlands. It is not appropriate for you to redraw these lines as proposed in this plan. We want the children and parents of LHHS to feel like we are ONE community, one district. Do not ruin that for us.

We have a wide variety of race, socio-economics, and generations well represented in District 10. Dividing Lake Highlands will NOT accomplish what we in LH have been striving towards for so long: a positive redevelopment. We have come so far. Do not limit us now.

Mr. Vanderbilt's tenure defined LH as a community of interest. We have continually adapted to keep that label appropriate. Why does Mr Garcia feel that we no longer meet that criteria?

I am a former board member, and sustainer of the LH Junior Women's League. We have raised over $250,000 for our neighborhood over the past 7 years. All of it has gone directly to the heart of our neighborhood, Lake Highlands North Recreation Center, through the Dallas Parks Foundation. Other neighborhood groups, such as the Women's League, and the Exchange Club, have also worked hand in hand with City programs over the years. You have supported our support of the city programs....if you divide Lake Highlands, how can we feel anything but insignificant? How can you truly consider losing our financial and vocal support, in this poor economy? It seems counter-productive.

Mr. Garcia seems to think that he knows Lake Highlands better than those who live here. Listen to us. We CHOOSE to be here. We spend our money here, and we are working diligently to develop our neighborhood. We could easily move out to the suburbs and create whatever niche we wish. Instead, we elect to be a part of a diverse, amazing community. Please, do not threaten what we have worked so hard to build.

Please keep cPlan16 off the table. And Lake Highlands off the cutting board.

Sincerely,

Carita and Phillip Youngblood

Subject: Redistricting

Importance: High

To All city Council Members,

I would like to voice my opinion and to let it be known on the proposed "Unity Map" planned for Lake Highlands. I have lived in Lake Highlands since 1975 when I was 15 yrs old and attended our public school system, for 3 months at Forrest Meadow and then all 3 yrs. of high school at Lake Highlands High, one of the reasons my parents selected our new home in Lake Highlands was because of the schools and the wonderful community that Lake Highlands was then and continues to be to this day. I think that we should leave District 10 alone as it has been working as is for many years and my granny used to say, "If it is not broken the don't mess with it!". Who our Council Member is should be based on their qualifications and not based on redistricting decisions made by the City Council. Lake Highlands is a wonderful, diverse community that needs to be represented as a whole not by the sum of its former parts!

Thank you,

To: reDallas11
Subject: Redistricting

I just saw the proposed redistricting map and I have to say that what is being proposed for District 10 is preposterous. Lake Highlands is a gem within the city of Dallas. A community with a diverse group of residents whom all take pride in LH. The common denominator for this area is the schools and specifically Lake Highlands High School. We have several organizations in place such as the Lake Highlands Exchange Club, the LH Womens League, the LH Junior Womens League, the Lake Highlands Early Childhood PTA among others. These groups have donated hundreds of thousands of dollars and man hours back to our community which once again is centric to LHHS. This redistricting would absolutely crush all of the years of hardwork many have put into building the community you currently see. Just drive around and look at the redevelopment, the pride in ownership, the parks (such as the spray ground and rec center area that have been rebuilt in large part to big contributions by the community). All of these positives are happening because of the Lake Highlands community and the hard work of previous residents and councilmans such as Dean Vanderbilt, Alan Walne, Donna Halstead, Bill Blaydes and Jerry Allen among others. We are finally getting are due and it is this community's time to shine. Do not destroy it by redistricting.

Please do not redistrict District 10. The LH community will suffer a huge loss at the hand of our very own.

I am welcome further dialogue about this matter and hope you will listen to the residents of Lake Highlands.

Sincerely,
--

Subject: Keep Lake Highlands Intact in District 10

Redistricting Committee Members:

I'm concerned that you are considering dividing the Lake Highlands community with some of your redistricting plans for District 10. I pleading with you to not do that.

1) We need to keep the Lake Highlands HS attendance zone in tact to maintain a sense of community. Aligning political boundaries around that helps.

2) District 10 is already a compact, diverse district and meets the "not gerrymandered" definition.

3) Lake Highlands is a "close in, close knit, caring community" that feels and acts like a small town; this defines our community and sense of being.
Dividing Lake Highlands for some unknown political purpose would be like driving a knife into the heart of a thriving, vibrant community. Please don't do it.

4) District 10 is also "Community of Interest" going back to Dean Vanderbilt's Council tenure and has been refined to reflect that over the last +30 years.

5) As president of the Lake Highlands North HOA, I hear regularly from those who move into our neighborhood the reasons that they come to our community--its the small town atmosphere, the diverse and multi-generational neighborhoods, the high quality, award winning schools and caring residents.
Keeping Lake Highlands intact within District 10 will help maintain those qualities for the next generation.

Sincerely,

Win Evans

Subject: cPlan16 and Lake Highlands

Dear Redistricting Committee,

I find it appalling that the Lake Highlands community could potentially be split into three different districts. If communities of interest should be maintained in a single district, why would splitting Lake Highlands even be an option? Lake Highlands has long been a small town in the heart of the city. I find it ironic that cPlan16 is referred to as the "Unity Map". It would do the exact opposite to the Lake Highlands community.

Please keep the LHHS attendance zone as a primary consideration when creating the new redistricting map. We are a diverse district and proud of it. You do no one a service by splitting us up.

Thank you,

Sent: Tuesday, August 02, 2011 2:09 PM
To: reDallas11
Cc: Allen, Jerry; president@lhaia.org
Subject: District 10

It has come to my attention that there are several proposed redistricting plans being discussed within city hall that effect my neighborhood. I am a Lake Highlands resident and would like to note my opposition to any redistricting plan that would alter District 10 from including the entire Lake Highlands High School attendance zone. The Lake Highlands Area Improvement Association has sent an email out to residents with bullet point reasons as to why District 10 should be left in tact. I agree with them in total and have included them below for your consideration.

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Lake Highlands is a vibrant community within the City of Dallas, and deserves to be represented as such. There is currently a lot of positive momentum within the community and I fear that it would be lost with out a strong unified voice at city hall. I have copied Councilman Jerry Allen and the LHAIA on this email as well. Thanks for you consideration.

- David B. Shelton

From: Kara Altenbaumer-Price [Kara.Altenbaumer-Price@usi.biz]
Sent: Tuesday, August 02, 2011 2:02 PM
To: reDallas11
Subject: Lake Highlands

Redistricting Committee:

I am writing to oppose any redistricting that divides the Lake Highlands community into multiple city council districts. I moved to this part of Dallas six years ago because I believed in and wanted to be a part of the "small town within a city" that the Lake Highlands community has worked hard to create over the past 40 years. I also was attracted to how this extremely racially and economically diverse neighborhood has managed to embrace this diversity, yet offer an attractive place to raise and educate children close to the heart the Dallas.

I was also greatly attracted to the fierce loyalty that Lake Highlands residents have to Lake Highlands. Many of us believe in keeping our kids in local schools, attending football games at "the" high school whether our kids are playing or not, and spending our money in local businesses even if "nicer" stores exist only a few miles away. Being represented by one council member supporting common goals for the entire community helps us develop and foster this in order to keep our community strong.

Not many communities could have coped with the diversity that this portion of Dallas represents and still maintain an attractive neighborhood in which to live. Our community has done so through community activism, involvement, and investment by our residents. Having a cohesive, single city counsel district has greatly promoted this. Please do not jeopardize that by dividing us politically into different divisions.

Regards,
Kara

City of Dallas
Redistricting Committee

Dear Honorable Committee Members:

Please be cognizant of the fact that the Lake Highlands Community is a close-knit neighborhood that prizes its small town feel in the big city. This camaraderie has been in place for almost 50 years. We are a diverse group with over 73 languages spoken at Lake Highlands High School and 49% of our students are economically disadvantaged. But they are our students and we educate and nurture them to help both themselves and our community. We like nothing better than to have our students move back home after college to help sustain the Lake Highlands mystique. My wife, a Lake Highlands graduate, returned home to teach at her alma mater. Jerry Allen, one of her classmates, stayed to become our well-respected and dedicated Councilman. There is no reason to split the Lake Highlands area into separate council districts unless your desire is to tear asunder a neighborhood that works. My father always advised "if it ain't broke, don't fix it". Well, it ain't broke.

Thank you for your service.

Subject: Lake highlands redistricting

Dear Redistricting Committee,

My husband, Stratton, and I live in Lake Highlands and have a Junior at Lake Highlands High School. We've recently become aware of a proposal to split up the Lake Highlands district and strongly oppose this action. Below are some of the reasons why.

- Keep the LHHS attendance zone as a primary consideration;
- District 10 is already a diverse district and meets the not gerrymandered definition;
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years;
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10;
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost; and
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Please consider our request and make the decision NOT to change the Lake Highlands District 10.

Very truly yours,
Debbie Horres

As a long time Lake Highlands resident, I would implore you to ***maintain the Lake Highlands area*** in a single member district.

This area works hard to maintain and improve the quality of life in the area---this is good for the community **and for the City**. If you change the representation of this area you will make it more difficlut to keep the cohesion and integrity of the area and will destroy all the good that has been accomplished over the last few years.

I have personal stories about what splitting the area would do to local programs. If you are interested in the details, give me a call or email me.

Subject: Keep District 10 As Is!

To our City of Dallas Leadership,
I am writing to you to request Lake Highlands remain intact in District 10! Please keep the LHHS attendance zone as a primary consideration. Our District 10 is already a diverse district and meets the not gerrymandered definition. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years.
The Lake Highlands Exchange Club, Lake Highlands Women's League, The Lake Highlands Early Childhood PTA and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

I have lived in this neighborhood for the past 9 years and have voted in every election. I would be deeply disappointed if the Lake Highlands attendance zone is divided among three districts - that would be a major disservice to our slice of life in Dallas that we love to call Lake Highlands!!

Deeply concerned,
Tiffany Walker

Subject: Redistricting Lake Highlands

I am writing to protest the proposal to divide Lake Highlands into three separate districts. We desire to keep LH in District 10 as it has been for many years. Lake Highlands High School attendance zone should be the primary consideration for our community. Several organizations have poured money into the parks in District 10. We have worked hard to preserve the small town feeling of our neighborhood and do not want that disturbed.

Thank you for hearing our wishes in this matter.

Sincerely,

Charlotte Thompson

Subject: Redistricting Lake Highlands----DO NOT EVEN THINK ABOUT IT!

Please do not 're-district' the Lake Highlands area. This would be a case of 'fixing something that is not broken' and would be a travesty to our community! Here are some specifics that I encourage you to keep in mind in these considerations:

- **the LHHS attendance zone is a "community" as is and any changes will fragment this "community"**
- **District 10 is already a diverse district and meets the "not gerrymandered" definition**
- **District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years**
- **The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10**
- **The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment and this 'small town community' would be endangered. We may not have a town center....yet...but the Lake Highlands High School is essentially our "Town Center" and this community served by LHHS needs to be a unified one!**
- **LH has a long history of being a neighborhood where diversity already works; don't destroy that!**

Subject: Lake Highlands Redistricting

To Whom It May Concern-

I was recently made aware of the city's proposal to split the Lake Highlands area into three separate districts. As a homeowner and taxpayer, I am extremely disappointed in the city's willingness to ignore the interest of its communities in support of the political views of the Commissioner. This proposal would not benefit the Lake Highlands community, as its interest would be split and severely marginalized. The integrity of the Lake Highlands community will be significantly damaged if this proposal is passed.

If passed, this proposal would join my neighborhood community with communities on the west side of Central Expressway, thus alienating us from decisions that most affect our own area. Future representatives of this new district may be forced to pick sides between two separate communities on redevelopment projects, funding for services, and other important city management decisions.

Media reports have listed Commissioner Garcia's "pronounced goal" of achieving a "strong Minority Opportunity District" for the current District 10. This stated goal seems a bit odd to me considering the fact that Lake Highlands is already consider a "Minority Opportunity District". I strongly question the intentions of the Commissioner, who appears more occupied with race rather than the interest of the community.

I echo the sentiment that has been passed among the neighborhood organizations through Lake Highlands:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the "not gerrymandered" definition
- District 10 is a "Community of Interest" going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Separating the Lake Highlands community through redistricting makes no logical sense. Please consider the opinions provided by the individuals (taxpayers) who will be most affected by this ill-conceived proposal by revisiting the redistricting proposal to leave District 10 as it currently exists.

Thanks,

Kevin Tooker

Subject: Redistricting

The area known as Lake Highlands is a unique areas -- guess what is called a "Community of Interest." This area works together as a small town or community for the betterment of the area. That is not to say that everything that is proposed gets a "rubber stamp" but this area does have a great feeling of community.

This area has produced many civic leaders thru the years in part because of the support of the community. It would be a shame and real detriment to the city as a whole for areas such as this -- or "Communities of Interest" -- were divided into different council districts.

I urge the adoption of a map that would keep the Lake Highlands area together in one Council district.

Subject: Please keep District 10 intact

To: Redistricting Committee

Dear Committee members,

I want to voice my opinion against any decision to divide Lake Highlands, District 10, into several districts. Lake Highlands has worked together as a neighborhood for the good of all the diverse groups within it for years now, and has established a positive sense of pride and community, making it a place that could be set forth as an example of how neighborhoods ought to be operated. The Exchange clubs and various Women's Leagues have a long history of working together with the city to establish and maintain parks and common areas, donating hundreds of thousands of dollars to this effort over the years. There is no good reason for dividing Lake Highlands. Diversity already exists, and much effort has been expended to make it a place where kids who have grown up here, return to set up their own families.

Please give due consideration to keeping District 10 intact. Thanks you for your careful consideration in this matter.

Subject: Keep District 10 intact

As a 38-year resident of Lake Highlands I am concerned about possible redistricting that would break up our current District 10--primarily Lake Highlands. We are a diverse district with common interests. All in our Lake Highlands community have worked together for like-minded goals, and we want to keep that community spirit intact within District 10. We are defined by Lake Highlands High School and our well-honed "neighborhood feel" that we have nurtured over the last several decades as District 10. It is important to most throughout the district that we maintain that.

Subject: Lake Highlands Redistrict

Commissioners:

I am very distressed to learn that cPlan16 wants to breakup our community. I have lived in LH for over 20 years. People come to LH because we are a community that helps all people regardless of race or social group. Minorities benefit from scholarships to students from LH Women's League and The Exchange Club in addition to the hundreds of thousands dollars donated to parks in district 10. You are going to breakup a family that has worked hard to provide better parks and bring the "small town" feeling to the big city. The area that Lake Highlands High School draws students from should be the PRIMARY CONSIDERATION as it is currently diverse and meets the requirements so it does not have to be gerrymandered. LH has a long history of showing how diversity works....don't destroy what has worked so well for so many years.

Subject: Keep district 10 intact!

I am writing to implore you to keep district 10 intact.
We have lived in this neighborhood for years, and chose it because of it's diversity and the small town feel this area offers. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have put so much into our community and changes in the district would undermine all of our hard work.
To consider ANY redistricting based on racial lines is shameful.
The makeup of our district was sought by the many who have moved into this district, and any attempt to change the districts would be seen as a blantant attempt to interfere with a high-functioning section of Dallas and would further send solid citizens (and high-bracket tax-payers) running for the suburbs.
Please, keep the districts as they are and show that Dallas fosters success, and doesn't tear successful communities down.

Thank you,
Allan C. Richard III

Dear Committee,

I was raised in Lake Highlands and attended White Rock Elementary, Lake Highlands Junior High, and Lake Highlands High School. I graduated in 1989, attended college and some seminaryl, and then moved back to Lake Highlands from Lakewood in 2004. I have lived there ever since. My parents still reside in Lake Highlands and my brother resides in Lake Highlands. I am proud to be a resident of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides. My experience in living in this area of Dallas for most of my 44 years has been to always experience a sense of community. I have even recruited friends from church to buy in to Lake Highlands instead of Richardson or Plano because of the community. This sense is felt by all residents regardless of race or socio-economic status.

In Lake Highlands we continue to enjoy that community feeling. We do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close-knit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands High School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district, as well as the community.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and offer support to the schools, parks and people of Lake Highlands. Please look at the scholarships provided last year by the Exchange Club of Lake Highlands and the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts.

Thank you for considering my comments. I would request that you not damage or perhaps destroy an area that works so very well.

Please leave District 10 as it is. District 10 is already a diverse district. This community has managed to come together and support each other to create a small town, close community in the heart of this large city. Please don't split up our community affecting the educational opportunities and stability of our children. I took my kids out of private school to attend public here in Lake Highlands. Splitting up the distict could completely disrupt our lives!

Subject: Redistricting

To Whom It May Concern:

My husband and I have lived in our home since 1968 and are proud to be called 'Lake Highlanders'! Although Lake Highlands is a small part of the great city of Dallas, it has its own community feel and spirit. But those aren't the only things that make Lake Highlands great – one is being part of a great district within Dallas – District 10!!!

We've heard there's a possibility District 10 might be split to 'more equally align the districts with the races'. That is gerrymandering! Race is not supposed to be one of the requirements considered in mapping out districts. I believe, first of all, you need to keep the LHHS attendance zone as a primary consideration – an area that is already a diverse district. LHHS meets all the requirements, including not gerrymandering!

Our 'community' and many of its organizations have worked hand in hand over the years to assist with parks, etc. in District 10. If the district is split, the 'small town feel within the heart of the city' which defines LH would be lost.

Lake Highlands is a neighborhood where diversity already works – and has for a long time! Please don't destroy that!

Subject: Keep Lake Highlands intact in District 10

Dear Sir or Madam ,

As a 30+ year resident of Lake Highlands from Gatetrail Drive, I wan to make my strong opposition heard to any proposals being considered to split Lake Highlands into two or more different districts.

WE (District 10) are one community with significant existing diversity that already meets the nongerrymandered definition. From that standpoint, we clearly work and work well, we are not "broke", and we do not need to be "fixed".
The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's league have worked closely with the City on programs and have donated hundreds of thousands of dollars to Parks in District 10 – we are financially invested.
Most people think of lake Highlands an s one neighborhood and that sense on oneness would be lost if we are splintered as proposed.

I appreciate your listening and sincerely hope these sentiments and those similar and strongly held sentiments of my lake Highlands neighbors are heard on this point

Thank you,

Bill Healey

Subject: Please Do Not Gerrymander District 10

Dear Commissioners of the Redistricting Committee,

I understand that 3 of your members are proposing that the Lake Highlands community in District 10 be divided among 3 city council districts. I am totally opposed to this!

Lake Highlands has natural boundaries which follow the lines of the Richardson Independent School District in Northeast Dallas. We have a dozen elementary schools and 2 junior high schools which feed into the Lake Highlands High School campus. Community activities revolve around the schools. We already have a very diverse population (23% Hispanic, 32% Black, 38% White, 7% Other), and we make things work out! Our total population is 7.1% (one-fourteenth) of the total city population, which fits exactly with the 14-1 council system. The media recognize Lake Highlands as a community of interest, as evidenced by the Lake Highlands Advocate magazine and the Dallas Morning News neighborhood sections. There is no acceptable reason to gerrymander this neighborhood that already works!

I will appreciate your consideration for keeping Lake Highlands neighborhoods intact with respect to the existing boundaries of RISD and LHHS in whatever redistricting plan you adopt.

Subject: RE: REDISTRICTING

Ladies and Gentlemen:

The current District 10 - Lake Highlands Area is great the way it is. We are all very community service oriented and keeping the RISD school areas together is very important. Splitting the school area into more than one District will put a strain on the Education system - District 10 may feel differently than District 9 and it will end up hurting our community and students.

Ladies and Gentlemen, if it is not broken, don't try to fix it. You have much more important things to worry about: Budgets for one, that you don't need to be wasting precious time on something that works.

Thank you.

Subject: redistricting

Sirs:

Please keep Lake Highlands intact as a district, specifically the area covered by Lake Highlands High School attendance. It is a diverse district that already works well together. The area has contributed much to the city of Dallas. Lake Highlands is much like a small town. It does not need to be divided or gerrymandered.

Lake Highlands has already been singled out more than almost any other area for Section 10 housing and overlooked for many projects. Please do not do any more disservice to our area.

From: Kira Hartgrove [txkira@gmail.com]
Sent: Wednesday, August 03, 2011 3:49 PM
To: reDallas11
Subject: District 10

Please keep the LHHS attendance zone as a primary consideration!

Please consider the following:

1. District 10 is already a diverse district and meets the not gerrymandered definition
2. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
3. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
4. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
5. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

My husband and I moved to the Lake Highlands because of the "small town feel" of the community and for the schools. It is one of the last places inside the loop that remains affordable and you can send your child to the schools for a quality education. The other factor we love about Lake Highlands is that the schools and community are diverse with different income levels and different races. When you go to a neighborhood park or any of the schools you can witness that first hand. Another reason we love the Lake Highlands is the members of the community fight so hard to keep this area improving. For just a few examples - many of the neighborhoods use their own money to hire extra police patrols to keep crime to a minimum, we gathered over 6000 signatures to help the town center try to secure an anchor retailer like Trader Joe's, and Junior Women's League has raised money to redo some of the parks and rec centers. We absolutely love this community and will fight to keep us together. If we can get over 6000 signatures to get a grocery store to come to the Lake Highlands you better believe we will create quite an uprising if you try to split the Lake Highlands into different districts. I believe Lake Highlands if one of the most diverse areas where races and different income levels interact very well together. It should be an example to city hall of a goal to make other communities similar. Please don't mess with Lake Highlands! It is one of the great communities in the city and please don't destroy that!

Subject: Redistricting concern

My name is Lisa Hamilton and I live in Lake Highlands. I am very concerned about Garcia's plan which removes my neighborhood from the RISD. The reason my family moved to this neighborhood was so that my children could attend RISD schools. I taught for the RISD for 5 years, and I know the caliber of teachers that work there. My sons will be attending Wallace Elementary, which is a very ethnically and socio-economically diverse school. Redrawing the district lines is not going to automatically encourage ethnic diversity on the City Council. You can't vote for someone who's not on a ballot, and no candidate of diverse ethnicity has run in my district. I want to keep my neighborhood in Lake Highlands and in District 10! We can encourage diversity on the council in ways other than redistricting my neighborhood. Thank you for hearing my concerns.

To: reDallas11
Subject: Keep all of Lake Highlands in District 10

Lake Highlands must be kept together in District 10! We are all in the LHHS attendance zone and it does not make sense to have us in different districts attending the same school. We are a diverse district already and we have many great community groups who serve our whole area (The Exchange Club, LH Women's League, and the farily new LH Junior Woment's League) which have raised thousands of dollars to help our community including the parks in district 10. I do not want to lose the small town feel that is Lake Highlands. We are united right now on supporting the council and in having areas redeveloped as well as embracing and encouraging diversity in our schools. That unity and diversification would be lost if we were split into different districts. We have a long history of being a neighborhood where diversity works. You will destroy that diversity and encourage pockets of exclusivity if you split us into different districts. Please keep Lake Highlands the unified, diverse, and involved community it has grown to be!

Subject: Keep Lake Highlands intact in District 10!

Dear Redistricting Committee,

My husband, Keith, and I live in Lake Highlands and have a Junior at Lake Highlands High School and an 8th grader at Forest Meadow. We've recently become aware of a proposal to split up the Lake Highlands district and strongly oppose this action. Below are some of the reasons why.

- Keep the LHHS attendance zone as a primary consideration;
- District 10 is already a diverse district and meets the not gerrymandered definition;
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years;
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10;
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost; and
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Please consider our request and make the decision NOT to change the Lake Highlands District 10.

Very truly yours,
Paula L. Beasley

Subject: Possible Rezoning of District 10

I have a child that attends LHHS. It appears as though the rezoning of District 10 will affect our family in an adverse way. Therefore, I would like to be counted among the many, many citizens of the Lake Highlands family who are against this change.

- District 10 is already a diverse district and meets the not gerrymandered definition. We are very good on diversity, we really don't need any more.
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Thank you.

Subject: City Council Re-districting plan

Dear Committee,

I was born and raised in Lake Highlands and attended Northlake Elementary, Lake Highlands Junior High, and Lake Highlands High School. I graduated in 1987, attended college, got married, and then moved back to Lake Highlands in 1996. I have lived there ever since. My sister and her family live in Lake Highlands as well as my mother-in-law, who moved here specifically to be part of this community. I am proud to be a resident of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides.

My husband and I are parents of two girls who will attend Lake Highlands High School and Forest Meadow Junior High this Fall (a sophomore and a 7th grader) My experience in living in this area of Dallas for most of my 42 years has been to always experience a sense of community. This sense is felt by all residents regardless of race or socio-economic status. We moved here specifically because of the diversity. We had the option of moving out to the more suburban areas 7 years ago, but chose to stay here because of the "real world" community.

In Lake Highlands we continue to enjoy that community feeling. We do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close-knit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands High School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district, as well as the community.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and offer support to the schools, parks and people of Lake Highlands. I am a part of the Lake Highlands Women's League and am proud of the work we do for our community, schools, and the city. We support and embrace every school in this district and the children that attend them. We provide college scholarships each year to many graduating seniors and I would encourage you to look at the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts. We are an asset to the city of Dallas and to all who choose to live here as a whole district.

Thank you for considering my comments. I would request that you not tear apart an area that works so very well.

Ladies and Gentlemen:

This comes with an earnest plea. Please consider keeping the district of Lake Highlands contained.....as one District...District 10. I grew up in Dallas in the mid 70's. I've seen a lot of change over the years. Lake Highlands, as a community, have engaged the changes over the years, coped and developed well. Our children and our community spirit is strong, but will be splintered with the thought of splitting our district. We need to hold on to our strong spirit...we need each other. We cherish our community.

As you prepare for the future of Dallas (Lake Highlands included), I ask you carefully to consider this part of our city and the residents' desires and needs.

As always, I would like to say "the time you give to our City is so appreciated. Thank you beyond measure. "

Subject: District 10

City Council Members,

I was greatly concerned to learn of the possible redistricting of District 10. I chose Lake Highlands as the community in which to raise my family for its good schools, involved parents and sense of community. I would bet that most families in the area agree that these three attributes are what keeps us in Dallas instead of moving to the suburbs.

A possible redistricting of District 10 will threaten these key attributes and cause young families like myself to consider a move outside of Dallas. Please note the following additional points in your evaluation of this proposal.

- District 10 is already a diverse district
- Several community organizations have donated hundred of thousands of dollars to Parks in District 10
- The LHHS attendance zone must remain a primary consideration
- The "small town feel within the heart of the city" that defines Lake Highlands and has supported council candidates and redevelopment would be lost
- The Lake Highlands neighborhood has a long history of diversity that works and redistricting would destroy that

I appreciate your consideration of these points.

Thank you, Jennifer Taylor

To whom it may concern:

Please keep the LHHS attendance zone as a primary consideration. Please consider the following:

1. District 10 is already a diverse district and meets the not gerrymandered definition
2. District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
3. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
4. The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
5. LH has a long history of being a neighborhood where diversity already works; don't destroy that!

My husband and I moved to the Lake Highlands because of the "small town feel" of the community and for the schools. It is one of the last places inside the loop that remains affordable and you can send your child to the schools for a quality education. The other factor we love about Lake Highlands is that the schools and community are diverse with different income levels and different races. When you go to a neighborhood park or any of the schools you can witness that first hand. Another reason we love the Lake Highlands is the members of the community fight so hard to keep this area improving. For just a few examples - many of the neighborhoods use their own money to hire extra police patrols to keep crime to a minimum, we gathered over 6000 signatures to help the town center try to secure an anchor retailer like Trader Joe's, and Junior Women's League has raised money to redo some of the parks and rec centers. We absolutely love this community and will fight to keep us together. If we can get over 6000 signatures to get a grocery store to come to the Lake Highlands you better believe we will create quite an uprising if you try to split the Lake Highlands into different districts. I believe Lake Highlands if one of the most diverse areas where races and different income levels interact very well together. I taught at Lake Highlands Elementary from 2006-2010 and witnessed that first-hand. It should be an example to city hall of a goal to make other communities similar. Don't mess with Lake Highlands!!! It is one of the great communities in the city and please don't destroy that!

Subject: District 10

To whom it may concern,
With regards to the current City Council redistricting, please don't split up the current District 10. There really is no reason to split our diverse neighborhood into multiple districts, and many reasons to keep it in one district:

The Lake Highlands High School attendance zone should be in one district, not split up; District 10 is already a diverse district and meets the "not gerrymandered" definition; District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years; The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10;

The "small town feel within the heart of the city" that defines LH and has supported council candidates, and supported redevelopment like the Lake Highlands Town Center, would be lost

LH has a long history of being a neighborhood where diversity already works; pleasedon't destroy that

Subject: District 10

I am aware there are several proposed redistricting plans being discussed within city hall that effect my neighborhood. As a resident of Lake Highlands, I oppose any redistricting plan that would alter District 10 from including the entire Lake Highlands High School attendance zone. The Lake Highlands Area Improvement Association has sent an email out to residents with bullet point reasons as to why District 10 should be left in tact. I agree with them in total and have included them below for your consideration.

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Our family loves living in Lake Highlands because of it's vibrant community and welcoming small town feel within the City of Dallas. We believe LH deserves to be represented as such. There is currently a lot of positive momentum within the community and we fear that it would be lost with out a strong unified voice at city hall. I have copied Councilman Jerry Allen and the LHAIA on this email as well. Thanks for you consideration.

Subject: Dividing Lake Highlands

Dear Sir or Madam,

Under the category of "if it ain't broken, don't fix it" – I'm at a loss as to why anyone would consider dividing the Lake Highlands neighborhood through redistricting. Based on all the information I've been able to find, which admittedly might not be complete due to the short notice given the residents of these plans, it appears District 10 is considered a racial diverse, non-gerrymandered district. I understand that in order to make other districts meet these guidelines, some minor modifications to our district might be necessary. However, the radical plan of splitting our community into three districts appears to be nothing short of an intentional plan to destroy our community. Is it really necessary to break apart our community through this process?

Thank you for your time and consideration. I can't begin to imagine the time, effort and stress involved with a redistricting project. Your willingness to serve is greatly appreciated!

- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

PLEASE do not mistake my copying these points of concern as disinterest in this issue. the words are to the point and exactly how i and the rest of my lake highlands family feel.

please do not ruin our wonderful community by changing what we have. if all neighborhoods of dallas could be as wonderful as lake highlands then dallas would be an even better place to live for all.

thank you...debbie snider

Subject: District 10 proposed rezoning

I am a resident of Lake highlands and am imploring you to not to change the zoning of district 10. What we have here as a neighborhood is wonderful and we as a community want to remain a cohesive unit in district 10. The following points illustrate excellent reasons why we should not be subjected to changes in the current zoning of district 10:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years

Subject: redistricting and District 10

Dear Redistricting Committee members:

It is my understanding that some redistricting proposals would divide the Lake Highlands community into 3 different districts. I think that would be counterproductive for several reasons:

* District 10 is already a diverse district and meets the not gerrymandered definition
* Lake Highlands is a unique "city within a city" with a city council district corresponding to the Lake Highlands High School attendance zone (part of the Richardson School District, yet located within the city limits of Dallas!)
* District 10 is possibly the most geographically logical city council district in Dallas
* Lake Highlands has supported and encouraged redevelopment
* The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hard & cooperated with the city on programs & raised much money for parks in District 10
* It is in the best interest of the city of Dallas to preseved vibrant communities that are working
* Lake Highlands has a long history of being a neighborhood where diversity works; please don't destroy that

Thank you for your consideration of keeping Distict 10 as it stands.

Kind regards,
Sharon Ellis

From: Nicholson, Todd [tnicholson@hksinc.com]
Sent: Wednesday, August 03, 2011 10:12 PM
To: reDallas11
Subject: District 10

Please see the key points below as to why Lake Highlands should stay intact in District 10:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

You will see a mass exodus from Lake Highlands if it is split up. The community feel is why people live here.

But I'll be honest, this city makes poor decision after poor decision, and splitting Lake Highlands up into separate districts would just be another in a long line.

Sorry to be so apathetic. Help me change my mind by making a positive decision for Lake Highlands and the city of Dallas.

Sincerely,

Subject: Keep Lake Highlands intact in District 10!

Hello~

It was brought to my attention that the redistricting committee was considering redistricting Lake Highlands. Please don't let that happen!!

I have several thoughts:

District 10 is already an extremely diverse district and meets the not gerrymandered definition.
District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years.
The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.
LH has "small town feel within the heart of the city. " This defines LH and has supported council candidates, with redevelopment this would be lost!
LH has a long history of being a neighborhood where diversity already works; please don't destroy that!

Please keep the LHHS attendance zone as a primary consideration.

Regards~

Subject: Keep Lake Highlands intact in District 10

It has come to our attention that some of your redistricting proposals would split Lake Highlands into three different districts.

We are asking you to please keep the Lake Highlands High School attendance zone as a primary consideration. District 10 is already a very diverse district, and meets the definition of not gerrymandered.

District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that for well over the past thirty years.

The Lake Highlands Exchange Club, the Lake Highlands Women's League, the Junior Women's League and others have worked hand in hand with the City on programs, and have donated hundreds of thousands of dollars to parks in District 10.

If the district were divided up we would lose the small town feel within the the heart of the city that defines Lake Highlands and has supported council candidates. Also, redevelopment would be lost.

We here in Lake Highlands have a long history of being a neighborhood where diversity already works. We are asking you respectfully to please not destroy that!

Sincerely,

Subject: LH Redistricting

I have lived in Lake Highlands for 32 years.
5 kids graduated from Lake Highlands High School.
One lives down the street with a large family.
One still considers us home. We keep a room for her.
Another family leasing in Bluffview will probably move back after education is completed.
Our current City Council district and representation is just fine.
We have great continuity and council member rapport.
If you want to destroy a functioning cohesive neighborhood with an unusual inner city identity then proceed with carving us up.
Over the next years you will regret any change.
We have strong local neighbor organizations – great 4th of July parade – great "nights out".
Carve us and you kill it.

Sent: Wednesday, August 03, 2011 8:58 PM
To: reDallas11
Subject: District 10 Lake Highlands - keep intact

Dear Redistricting Commission Members:

I have read an article about the proposed redistricting of District 10 - Lake Highlands.

I am writing to voice my opinion that Lake Highlands, District 10, be kept intact.

Our community is very much identified by the Lake Highlands High school boundaries and all the maps presented, except for cPlan16, created by Commissioners Domingo Garcia, Billy Ratcliff and Brooks Love, leave Lake Highlands and District 10 intact.

cPlan 16 would divide our community and could prevent this community from continuing to be a cohesive unit, working to redevelop the property in this area, such as the Town Centre project.

Currently, District 10 is already a diverse district and meets the "not gerrymandered" definition.

District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past +30 years.

The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and Junior Women's League and other community groups have worked with the City and donated hundreds of thousands of dollars to Parks in District 10.

We have a small town feel that makes Lake Highlands a cohesive unit, with community members working to better the schools for ALL students. We have supported council candidates and redevelopment that will revitalize "dying" areas of our community.

Lake Highlands has a LONG history of being a neighborhood where diversity already exists and WORKS; let's NOT lose that.

MY particular street would NO LONGER be in District 10 and this is VERY disturbing to me, since I identify with Lake Highlands as MY COMMUNITY much more than I would identify with people who live at Forest and Midway!!!

KEEP THE LHHS attendance zone as a primary consideration and KEEP Lake Highlands, District 10 intact for the good of our community and all of its inhabitants.

Sincerely,
Rose Boos

Subject: KEEP LAKE HIGHLANDS DISTRICT 10 INTACT!!!!!

Dear Members of the Redistricting Commission,

I understand that a so called Unity Plan will be presented tomorrow that will divide a very unified community of Lake Highlands into 3 districts. I encourage you to REJECT cPLAN16 proposed by Domingo Garcia.

His argument that no African Americans or Hispanics have held a City Council office for District 10 is ridiculous since NONE have ever run for the City Council. Case in point...there is an African American who ran & won as TX State Representative in the Lake Highlands area....Stephanie Carter.

I have been a Lake Highlands resident all my 55 years, my children have all attended Lake Highlands and now my grandchildren. Lake Highlands is a very diverse, but unified community to live in. I have hosted minority girls in my home providing dinner, Bible Study & fellowship on a weekly basis. We are already a community that reaches out to all of it's members.

Please do not divide Lake Highlands into 3 districts & keep it intact. Let us continue to be represented by 1 City Council member. The high school attendance area is the heart of our community & all organizations work towards supporting the high school, as well as the schools that feed into it.

Thank you for service to the city of Dallas and listening to my concerns.

Subject: LakeHighlands redistricting

To Whom It May Concern on The Redistricting Committee:

My husband and I have lived in Lake Highlands since 1973. We have raised our family in Lake Highlands, we own our home in Lake Highlands and we value our diverse neighborhood in Lake Highlands. It has now been brought to our attention that there is a movement afoot to split Lake Highlands into THREE different districts. I would ask you the question of WHY? If something is not broken why is it that you feel the need to FIX it? Please consider the reasons below as to why there is NOT A NEED TO SPLIT THE LAKE HIGHLANDS, DISTRICT 10, INTO MULTILPLE DISTRICTS!!!!! I would ask you to respectfully consider the reasons listed below to allow District 10 to encompass the Lake Highlands High School attendance zone as a primary consideration when looking at this matter. Please consider additional reasons listed below to allow the district and neighborhood to remain intact:

District 10 is already a diverse district and meets the not gerrymandered definition

District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years

The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10

The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost

LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: DO NOT BREAK UP LAKE HIGHLANDS !!!

Dear Members of the Redistricting Committee and City Hall:

I am voicing my very strong opposition to any redistricting proposals that would divide Lake Highlands in any way. I have lived in Lake Highlands almost continuously since 1990. In fact, when I retired from military active duty (USAF, Major, Ret.), I chose to return to civilian life in Dallas, in large part, because of the "small town" feel within the heart of the city that is characteristic of this ethnically and socially diverse community.

In fact, I lived 3 houses down our street from former Council Member, Dean Vanderbilt, with whom I had many conversations about the uniqueness of Lake Highlands and District 10, not just in Dallas, but for any large major city. Dallas has regretfully had a history of neglecting or destroying our historical treasures-- whether they are buildings, neighborhoods, or communities. Leave Lake Highlands as it is, and stop this pathetic, mindless trend!

The Lake Highlands High School attendance zone should remain as it is. LHHS is a rare high school that is strong academically, strong in sports and extracurricular activities, while at the same time being culturally and ethnically diverse. You will not find that in Plano West, in Highland Park, or in west Dallas or Oak Cliff.

The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10. The residents enthusiastically support projects that better the community. This is a community that works!

DO NOT BREAK UP LAKE HIGHLANDS !!!

Sincerely,
Raul P.Rodriguez, M.D.
Cosmetic Surgeon

Subject: Redistricting Lake Highlands

Dear City Leaders,
It is my understanding that you will be evaluating redistricting soon and that the current map of Lake Highlands in Northeast Dallas could change. I grew up in Lake Highlands, and now like the many other people that grew up here, I have chosen to raise my family in this community. We are a true community. We support our local schools and businesses with the dedication and passion of a small town. Everyone knows you in Lake Highlands. The people that live around me are a wonderful mix of the original owners of their homes and new families that continue to help our community grow. Lake Highlands is already diverse and doesn't need the City to remap the area to divide a community that has such great schools and such a strong support system.

I have read that "communities of interest" will largely remain intact. In my opinion, Lake Highlands could not fit a better definition of a "community of interest". I have also read about cPlan16, proposed by Domingo Garcia, Bill Ratcliff, and Brooke Love. After reviewing this plan, I cannot think of anything that would divide Lake Highlands more and make it less diverse than it is today. It would segregate a community that is trying to build for the future. Domingo Garcia will tell you that we haven't had a minority as a City Council representative and that redistricting will allow for a more equal voice. This implies that our current representative, Jerry Allen, is not equally representing those in his district today. I would argue that Jerry Allen represents everyone of Lake Highlands equally. In fact, his goal to improve and not tear down low income housing is a prime example of this. By improving these low income areas, we will empower those members of our community to establish a voice with their representative with the city.

I believe that you met tonight...but I felt it was important to give you one more community voice.

Thanks for your consideration.

Subject: Proposed Split of Lake Highlands District 10

To the City of Dallas Redistricting Committee,

I would like to voice my opposition to the proposed cPlan16 redistricting map created by Commissioners Domingo Garcia, Billy Ratcliff and Brooks Love. My husband and I moved to Lake Highlands 12 years ago, because we had heard that is was a great place to live in Dallas, with wonderful schools. Since then, I have come to love the Lake Highlands community with its "small town" feel and I understand why so many people I know who grew up in Lake Highlands have moved back as adults, to raise their families.

We live in a section of the city, which if cPlan16 were to go through, would be redistricted to District 9. While I love the District 9 area, it is not the area I chose to move to 12 years ago, and I feel that our small area, on the northern fringe of the new District 9 would not be well represented by the District 9 Council member, no disrespect intended, but we would be a small outpost in a completely different part of town. Lake Highlands' representation within the Dallas City Council would be negatively impacted by chopping the area up into 3 different districts!

We have been excited by the recent and ongoing attempts to revitalize the area with new retail, restaurants and businesses in the area and this proposed redistricting would also negatively impact the progress that has been made.

We urge you to:

- Keep the LHHS attendance zone as a primary consideration
- Consider that District 10 is already a diverse district and meets the not gerrymandered definition
- Consider that District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- Remember that the Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- Know that the "small town feel within the heart of the city" that defines Lake Highlands has supported council candidates, and redevelopment of the area would be lost
- Know that Lake Highlands has a long history of being a neighborhood where diversity already works; don't destroy that!

Thank you for your time and attention.

Sincerely,
Elaine Glasscock

Subject: Please keep Lake Highlands intact in District 10

Dear Redistricting Committee,

I'm writing today to express my sincere desire that District 10 remain largely intact through your redistricting efforts.

My wife and I moved to Lake Highlands in 2006 after careful and diligent consideration. We were looking for a neighborhood with a strong sense of community, healthy economic conditions, great schools, and local Catholic communities. You see, at the time we were starting our family. We knew we wanted to raise our family in a welcoming atmosphere where we could set long-term roots in Dallas. We were very pleased to find Lake Highlands. This area lives up to all our criteria and more. Since that time, we have really learned a lot about Lake Highlands and its sense of community pride.

I believe that Lake Highlands has built this great community based on the diversity and history associated with District 10. This is a family-friendly area with relatively low crime, diverse community, strong economic outlook, and active community organizations. More importantly, this "small town feeling" within the bigger picture of Dallas is exactly the reason that Lake Highlands is attractive to so many people.

It would be a travesty to divide the district as suggested in some of your redistricting plans. Rather than destroy the Lake Highlands connectedness, Dallas should promote this type of community.

I urge you to make every effort to maintain District 10 aligned with Lake Highlands H.S. attendance zone.

Thank you,
John Guerra

Subject: council redistricting maps, district 10

To Commission Members:

I am particularly concerned about redistricting of District 10. Some of the proposed maps break up the existing district 10. I believe this would be very bad for community. This district should be based on the Lake Highlands High School attendance zone. It is a neighborhood that works and should be preserved. It meets the requirements for diversity, etc.
One of the reasons I moved into the district in 1968 was because it was truly a great neighborhood in all senses of the word. I worked for this district serving on City boards and commissions for almost a decade. As you make your decisions please let us preserve it.

Sincerely,

Charles Briner

Subject: Keep District 10 Intact

Hello,

I am emailing you to express my concerns that District 10 might get changed as part of the redistricting effort.

Myself and my wife are firmly against anything that will change the structure of the district. We believe that the LHHS attendance zone should be the primary consideration in deciding the shape of the district. It is already a diverse district and has a strong community of interest going back to Dean Vanderbilt's council tenure. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10. Lake Highlands has a "small town feel" within the greater Dallas and any redistricting would destroy that.

In short, Lake Highlands has a long history of being a neighborhood where diversity already works. Please don't destroy that!!!

Thanks,

Tom & Katie Fuerst

Subject: Dallas Redistricting - District 10

When I look at the map, it makes sense if it's based on race/income level.

From a Lake Highlands community standpoint, it destroys what so many groups have worked to achieve. I think it might be the end of LH Town Center. Instead of having one councilman pushing the project, it would take two since half the population would be in District 13 and the other half the current District 9.

And I think the division would pertain to other projects - schools, roads, etc. within Lake Highlands so that we would no longer be represented. Plus I think these new districts will spread the council representatives from Districts 13 and 9 too thin. I think you are making their districts too diverse.

As a community, District 10 has 1/3 of the city's Section 8 housing and we have as many apartment units as single family homes. We've worked together and been good neighbors. So if you are looking for "unity", we've got it.

My husband and I are residents of Lake Highlands.
It has come to our attention that Lake Highlands is an area that is being considered for redistricting.
We would like it to be known that we want to KEEP LAKE HIGHLANDS INTACT IN DISTRICT 10.
Please consider the following:
1. The LHHS attendance zone as a primary consideration;
2. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10;
3. The "small town" feel of LH had supported council candidates and redevelopment would be lost;
4. LH has a history of being a neighborhood where diversity ALREADY WORKS!

Thank you for your consideration in this matter,
Mark and Nancy Burroughs
9814 Cross Creek Ct.
Dallas 7243

Subject: Keep Lake Highlands and district 10

I have lived in Lake Highlands for 36 years. I taught at Lake Highland's High School for 29 years. Virtually my whole adult life has been invested in this community. Students I taught are now back buying homes to raise their families in this very special place. They are all around me. I cannot imagine why you would be taking the actions that you are to try to split this district and change one of the best neighborhoods in Dallas.

I implore you NOT to change district 10. Let us keep this little section of the city that offers so much and is loved by so many.

Sincerely,
Ginny Chambliss

Subject: District 10

Please keep Lake Highlands intact in District 10--District 10 is already a diverse district and doesn't need gerrymandering to "fix" diversification. LH has a long history of being a neighborhood where diversity already exists.

Don't destroy the "small town feel within the heart of Dallas". Our Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League have worked with the City on programs and have donated hundreds of thousands of dollars in scholarships and in contributions to the parks departments in District 10.

Subject: Lake Highlands Redistricting

Dear Sirs,

I am writing to voice my concern over the potential redistricting impact on the Lake Highlands neighborhood. The proposed split of the district to provide minorities a likelihood of winning a council seat is against common sense. Our neighborhood has worked together to support and improve conditions for all Lake Highlands residents. Splitting the district will destroy our community unity and create an us against them mentality, damaging the long term viability of the neighborhood.

Please leave our District boundaries as they are!

Dear City of Dallas Redistricting Committee:

Please keep Lake Highlands intact in District 10. The Lake Highlands community is based on the attendance zone of LH High School. It is a diverse community giving much to the city of Dallas. Its diversity is easily recognized when visiting any of our neighborhoods, schools, grocery stores, other retail, restaurants, and parks. This diversity is not contrived, but a natural evolution over many years and works to the advantage of our citizens as well as the city of Dallas. Do not destroy that which is an asset to our city for over thirty plus years.

Again, please keep the community of Lake Highlands intact in District 10.

Very truly yours,

Thomas J. and Jane D. Howell

Subject: NO REDISTRICTING PLEASE!

To Whom It May Concern:

Having been a life-long East Dallas resident and having lived directly in Lake Highlands for the past seven years, I can say with certainty that to split this district up will hurt what has been so carefully nurtured in LH for a long time. It's truly a community unto itself, and there's a lot of synergy within the community - the schools, the Exchange Club, the Women's Jr. League and more - that builds a great sense of self-identity which leads to individuals and businesses being motivated to be a part of this piece of Dallas.

In large part the community and its businesses have embraced the diversity that was originally part of this area and which was further increased through the Section 8 mandate. East Dallas residents understand this and usually realize that it enriches the culture and is an overall benefit to the community. I hope you will do everything in your power to help us maintain our current position. It is a critical issue.

Thank you.

To the redistricting Committee.

Please keep the district the way it is right now.

Thank you very much. I'm very concerned for Lake Highlands. I've been a Lake Highlands resident for 36 years.

NO REDISTRICTING – KEEP DISTRICT 10 THE WAY IT IS.

[redacted]

Perhaps one of the greatest threats to our neighborhood and our representation at city hall is deserves your prompt attention and action. As you know, every 10 years a census is taken and all elected districts are up for reconsideration. Currently, a commission has been tasked with redistricting our city council districts to more accurately reflect the 2010 census. Possible Redistricting Maps can be viewed with this hyperlink.

Some of the proposals would split Lake Highlands into 3 different districts.

We need you to make your voice heard, "Keep Lake Highlands intact in District 10!"

Please email the Redistricting Committee or fax your comments to 214.670.5798.

Key points to include are:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: Lake Highlands - District 10

Hello –

I am a resident of District 10 and live in the Lake Highlands area at 7132 Blackwood Drive.

I oppose any redistricting proposal that would divide the Lake Highlands area and weaken the strength of District 10 at the City Council.

I have lived in Dallas in the Lake Highlands area for over 25 years. The main reason I've chosen to live here and raise my family here is because of the stability found in this neighborhood. While there have been changes in residents, housing, and businesses through the years – one thing has not changed, and that is the sense of community and support for this part of Dallas.

As you consider different proposals for redistricting I strongly encourage you to maintain District 10 in its current configuration, taking into consideration the following:

- The value of the Lake Highlands High School attendance zone as a primary consideration
- District 10 is already a diverse district and meets the " not gerrymandered" definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City of Dallas on programs, having donated hundreds of thousands of dollars to parks in District 10
- The "small town feel within the heart of the city" that defines Lake Highlands and has supported council candidates and redevelopment would be lost

For Dallas to continue being a world class city we need neighborhoods that work, that support economic growth and that are stable. Lake Highlands is that type of neighborhood now, and needs to stay that way in the future.

Thank you for your consideration.

Subject: District 10

As a homeowner for the last 30 years in Lake Highlands, I have seen many changes. My parents moved to the area in 1957 and my brother and I attended the Lake Highlands schools. When I became an adult I bought my own home in Lake Highlands and my children attended and were graduates of the Lake Highlands neighborhood schools. My older son bought his own home in Lake Highlands and his children attended the Lake Highlands neighborhood schools until his job forced him to relocate out of the city.

PLEASE don't try to fix anything unless it's broken. Lake Highlands has maintained it's reputation as a most desired place to live, raise a family and continues to be an outstanding community. Kindly leave Lake Highlands alone!

Subject: cPlan 16 - Against

Dear Redistricting Commission:

I am writing to you to express my opposition to cPlan 16 for splitting up District 10 of Lake Highlands. Normally I wouldn't take the time to write letters such as this one; however, when I saw this was the plan from Domingo Garcia and he's calling it the "Unity Plan," I felt compelled to write you. After putting up with the likes of Mr. Garcia, John Wiley Price, Diane Ragsdel and Al Lipscomb for the past several years and hearing them complain about segregation, racism, etc., it's time we stand up to these type of bullies and say enough is enough. Mr. Garcia saying District 10 needs to be split up because a minority cannot win in District 10 is a very racist statement and is offensive to me. We in District 10 do not judge people base on the color of their skin but rather their character and where they stand on the issues that are important to us. Tell Mr. Garcia that District 10 has moved beyond racism by voting down his cPlan 16 and adopting a plan that keeps District 10 intact as it is. Thank you for your consideration.

Sincerely,

Subject: Lake highlands

I am very concerned with the proposed redistricting plan set forth for Lake Highlands. As a former elementary and junior high teacher, current volunteer and long time resident, I know we have a diversified and unique community. A community that has and continues to contribute to many social, scholastic and city causes. Breaking up this "small town" area of the city would not only permanently damage Lake Highlands, but would negatively impact the city of Dallas as well. Strong, close knit communities, like Lake Highlands, keep residents within the city limits and that is important to all Dallas residents.

Subject: Keep Lake Highlands intact in District 10

To whom it may concern,

I have included the points you have seen from many of my neighbors below but I would like to say that a huge disservice to the community will occur to Dallas if this breakup goes through. Any attempts to create leadership positions by the division at the expense of the tax paying citizens is not in the best interest of the community as a whole but instead a way for power brokers to increase their leverage on the body politic.

- **Keep the LHHS attendance zone as a primary consideration**
- **District 10 is already a diverse district and meets the not gerrymandered definition**
- **District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years**

Subject: Keep Lake Highlands Intact in District 10

The thought of breaking up the Lake Highlands community greatly saddens me. I am a lifelong resident of Lake Highlands – was born and raised here and am now raising my children here.

Lake Highlands is like no other community...we here it all the time. The 'small town feel' is hard to find these days but it is alive and well in Lake Highlands! People come here for our wonderful schools and all our community has to offer.

Lake Highlands' schools are top-notch! Splitting up Lake Highlands threatens the cohesiveness we have spent decades building.

I am a former member of the LH Junior Women's League and a current member of the LH Women's League. Both groups work very hard raising thousands of dollars annually to give back to the Lake Highlands community. If Lake Highlands is split, the philanthropic efforts of these organizations and others like them will be less effective.

Lake Highlands has come together as a community time and time again – there is strength in numbers!!!

Thanks for your careful consideration of keeping Lake Highlands Intact in District 10.

Amy Moseley
Lifelong LH Resident

Subject: Don't Divide Lake Highlands!!!

Dear Commissioners, As a relatively new resident to Lake Highlands (moved here Dec. 2007) I have become very aware of the wonderful diversity here, but also the pride that brings all Lake Highland residents together. Most all newcomers have moved here because of the great schools and the committment to excellence our leadership believes in. We have a great love for the community, whether you are black, white, hispanic or asian. Please DO NOT DIVIDE us!! Many people over many years have worked to keep Lake Highlands a "progressively-forward-moving" community and it would be a shame to disrupt that momentum. Please keep us ALL in District 10!!

Thank you!!--Renatta L. Rasmussen

Subject: Comments on Redistricting proposals

I am writing to strongly encourage you to keep the District 10 boundaries drawn in such a way as to continue to encompass the Lake Highlands High School attendance zone boundaries. Existing District 10 is very much a community—you can even buy hats that say "Lake Highlands, Texas." And it is a community that is extremely diverse both economically and ethnically—a community that works. Lake Highlands has strong social and support organizations that work hard to provide opportunity and advantages for all our citizens. We have been strong supports of things like the Parks Department through these community organizations.

District 10 has been a single community and a single district dating back a long time. Cutting up a single community that works would be a terrible injustice and would not achieve any goals to improve city services or representation of citizens. PLEASE do not destroy District 10 and gerrymander us out of existence. We are a community. We deserve a single district.

Thank you.

Subject: redistricting

Our family has been in the Lake Highlands community since 1975. Our children all graduated from LHHS. Over this time I have seen the community embrace all people and give tremendous support to everyone. I challenge you to find a community spirit and support in any area of Dallas area greater than ours with the exception of High;and Park and you have no control over them. The LH Exchange Club, the LH Women's League and the Junior Women's League have contributed thousands in support of parks, libraries and beautification in our area-all benefiting the city of Dallas, not to mention the thousands given to deserving graduates of LHHS-mainly minority students of all races who need and deserve a head start. Now we also have the LH Military Moms who support all our men and women in uniform. This is truly a community based on caring for everyone who resides here. With no disrespect for the council member from the Berkne rarea-I know that area and also know the community feel is not the same there. You are trying to ruin the small time feel of a wonderful neighborhood! If anyone, regardless of race wants to run from this area-let them. If they are deserving-they have just as much chance as anyone. LEAVE our area alone!

Respectfully,

Subject: Don't Split Up District 10

Dear Committee,

I was shocked to learn there is a proposal to split up District 10. Lake Highlands is already a very diverse part of the city and splitting it up would lose a lot of what makes LH a nice city within a city. The things that work in District 10 work because the groups within the district have found ways to work together for the benefit of the city.

Please don't split it into 3 pieces. That's ridiculous.

Subject: LAKE HIGHLANDS

Dear sirs,
I recently moved my family back to Texas and specifically into the Lake Highlands area for the local small town feel. Having grown up in Plano in the 80s I've seen that style of development and personally don't care to raise my small family in that type of environment.
I see there are some plans for possible redistricting Lake Highlands and splitting it into 3 separate areas.
While that might serve some political goals for shifting political power to other parts of the city I don't see how it would serve the local population here in the White Rock area.
On my block alone we have quite the melting pot of America right here. Asian, Africa, Hispanic, multiple religions, same sex couples, single moms and classic caucasian small families are living and working together right here in White Rock Villas neighborhood.
We are all here for the same thing, lifestyle.
Please don't mess with our area for the sake of city politics.
If the city is going to do anything work on projects that will help boost the local economy not divide it up as a political pie.

Sincerely,

Craig Railsback

Dear Redistricting Committee,

My husband, Kevin, and I live in Lake Highlands and have a Junior at Lake Highlands High School. We've recently become aware of a proposal to split up the Lake Highlands district and strongly oppose this action. Below are some of the reasons why.

· Keep the LHHS attendance zone as a primary consideration;
· District 10 is already a diverse district and meets the not gerrymandered definition;
· District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years;
· The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10;
· The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost; and
· LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Please consider our request and make the decision NOT to change the Lake Highlands District 10.

Very truly yours,

Subject: District 10

I was very surprised to hear about the possibility of the District 10 area being divided up between three different representatives. I felt that after 30 years of great representation, a growing diverse population base, a wonderful record of philanthropy and getting things accomplished that we would be held up as a model of what can be accomplished by working together as a community.

However, it seems that there is a proposal made by three commissioners to split the District and destroy the unity the area has enjoyed. The Lake Highlands Area has worked too hard over these many years to allow commissioners, either knowingly or unknowingly, ruin the unity and sense of community that exists in District 10.

Please make sure that cPlan16 is thrown on the scrapheap and taken to the nearest incinerator for disposal. Keep District 10 the warm, down home, special place it currently is, represented by one council person for the better of the entire area, not three council people who will not have the betterment of the area at heart.

Subject: Distric 10

Dallas City Redistricting Commissioners,
As a resident of Lake Highlands, Council District 10, I am not in favor of any redistricting plans that will affect the current boundary of district 10. Lake Highlands is in itself a strong and vibrant community. This district is quite diverse in its social-economic make up as well as its racial diversity. Past council members have worked over the years to help define Lake Highlands as a Community of Interest and it should remain so in its current boundaries. Many in Lake Highlands have donated their time and financial resources to assure that Lake Highlands keeps its small town feel within the large metropolitan city of Dallas. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
Historically, the district has used Lake Highlands High School attendance zone as the core consideration of boundaries. The boundaries should remain as the currently are in order to maintain the continuity of the redevelopment in this district.

Respectfully,

Chris Daniel

Subject: No to Plan cPlan16

To the 2011 Redistricting Committee:

I've had the opportunity to review some of the proposed redistricting options set forth by your committee and to be brief, I am very concerned at what is proposed by cPlan16 as it essentially undercuts the voice and composition of the Lake Highlands community as we've grown to know from the formulation of District 10 since 1961.

I find it rather disconcerting that this plan splits two of the more stable areas of Lake Highlands; placing one in District 13 and the other in District 9. If anything, these two areas should remain together as most public school students in this area will eventually end up going to high school together at Lake Highlands High School. Additionally both neighborhoods share common areas, facilities and activities from the YMCA, Flag Pole Hill Park, Moss Field, Lake Highlands Community Center – the list goes on.

I strongly question the logic used in redefining District 10. As well, I am sure that residents of the current Districts 9 and 13 will strongly oppose having their interests diluted by the influx of our communities' interests. We pay our taxes, we follow the laws – the effort shown in the formulation of cPlan16 is a slap in the face of not just us in District 10, but similar citizens in Districts 9 and 13 as well.

Subject: New District map

Dear Members of the Commission:

I have lived in the Lake Cliff Historic Neighborhood for two years and have found it to be one of the most stimulating and enjoyable areas in all of Dallas.

I was very surprised and alarmed this afternoon when I received an email notifying me that our beautiful neighborhood is proposed to be grouped with the neighborhoods east of I-35 in District 4. Lake Cliff is a vital part of North Oak Cliff, not East Dallas. We have abundantly more in common with our neighbors in Kessler Park, Stevens Park, the Bishop Arts District and Winnetka Heights than we do with the neighborhoods east of the highway.

All of North Oak Cliff should and needs to be put into a single district, seeking common and definable goals in line with important community projects like the Oak Cliff Gateway. Lake Cliff neighborhood is the very first that people encounter when crossing the Trinity from downtown. In addition, our neighborhood is extremely involved in various gentrification projects in the Bishop Arts District and other community projects in North Oak Cliff. Furthermore, Lake Cliff park is a vital resource and recreational venue for all residents of North Oak Cliff.

I passionately urge you to reconsider the proposed district map as it stands as of today. Our neighborhood has worked extremely hard to help open up the beauties and uniqueness of North Oak Cliff to the Dallas public at large and we want to continue to do so with the support of the council and others in positions of leadership in our city. Please don't undermine this great effort to rightly include us in North Oak Cliff.

Thank you very much for this consideration. I sincerely expect you to do the right thing for Lake Cliff Park residents and for North Oak Cliff at large.

Respectfully yours,
Hank Hammett

I am opposed to redistricting District 10 for the following reasons:.

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Subject: Redistricting Map

Commission Members:

I am a new resident of the Lake Cliff Neighborhood. I was very distressed when I received notification today that our neighborhood was to be grouped with neighborhoods east of I-35 in District 4. Lake Cliff Neighborhood has much more in common with Kessler Park, Stevens Park and Winnetka Heights than it does with neighborhoods in District 4. North Oak Cliff needs to be put together into a single district since it has common goals. In addition, our neighborhood association has been much involved with the Oak Cliff Gateway discussions and it's geographic location positions it as the first neighborhood one encounters after crossing the Houston Street viaduct from downtown.

Please reconsider the proposal to move Lake Cliff neighborhood to District 4 and instead, group us with the rest of North Oak Cliff. I believe that it would be very detrimental to everything that our association has worked so hard to accomplish if we are placed in District 4.

Thank you,
Dale Dietert

Dear Committee,

As a Lake Highlands resident for over 35 years, I urge you to keep the current District 10 in tact on behalf of the Lake Highlands community. It's a vibrant, wonderful, diverse community that is unified by our wonderful high school, no matter how young or old, or what color skin, or political persuasion. After a long drought, we are finally on the verge of experiencing much needed redevelopment due in large part to unified efforts by the community as a whole. I urge you not to divide and destroy this sense of community by splitting our district. District 10 works and is a very positive contributor to the City of Dallas.

Sincerely,
Melissa Hood

To the City of Dallas Redistricting Committee,

My name is Brad Miller, and I'm a Dallas resident living in Lake Highlands, a very passionate, close-knit community. On behalf of my neighbors, I urge you to leave the District 10 boundaries intact as they are today. District 10 is already a diverse district and meets the not gerrymandered definition. The community feel that we have, despite being part of a major metro area, would be lost as a victim of redistricting.

So I urge you, please, to leave our District 10 borders intact as they are today. Thank you.

Subject: Lake Highlands Redistricting

Sir:
This is to request that DROP any consideration of spliting Lake Highlands into separate districts. Primary of concern is to keep the LHHS (Lake Highlands High School) attendance zone as a primary consideration. District 10 is already a diverse district and meets the NOT gerrymandered definition. The is already a Community of Interest dating back over the past 30+ years. The area has a "small town community feel" with the residents taking great pride in the development and community atmosphere of the neighborhood. There is little of this type "community pride" remaining in Dallas and is something we should strive to maintain. This is attributed the single district of the area, District 10. The civic clubs in the area, the Lake Highlands Exchange Club, Lake Highlands Women's League and the Junior Women's League among others, have worked closely with the City on programs having donated hundreds of thousands of dollars to Parks in District 10. This could all be lost if the area is split into more than one district. I urge you to keep the area of District 10 intact!!

Subject: Please Do Not Gerrymander District 10

Dear Commissioners of the Redistricting Committee,

I understand that 3 of your members are proposing that the Lake Highlands community in District 10 be divided among 3 city council districts. I am totally opposed to this!

Lake Highlands has natural boundaries which follow the lines of the Richardson Independent School District in Northeast Dallas. We have a dozen elementary schools and 2 junior high schools which feed into the Lake Highlands High School campus. Community activities revolve around the schools. We already have a very diverse population (23% Hispanic, 32% Black, 38% White, 7% Other), and we make things work out! Our total population is 7.1% (one-fourteenth) of the total city population, which fits exactly with the 14-1 council system. The media recognize Lake Highlands as a community of interest, as evidenced by the Lake Highlands Advocate magazine and the Dallas Morning News neighborhood sections. There is no acceptable reason to gerrymander this neighborhood that already works!

I will appreciate your consideration for keeping Lake Highlands neighborhoods intact with respect to the existing boundaries of RISD and LHHS in whatever redistricting plan you adopt.

Dear Committee-

I have been a Lake Highlands resident for 4 years and plan to raise my family and remain in this community permanently. What attracted me to Lake Highlands is the strong sense of family and community as well as the diversity the neighborhood offers. Lake Highlands is truly one of Dallas' gems and demonstrates a success story for family, community, and diversity. In order to preserve the truly unique characteristics that this neighborhood offers it is imperative to keep Lake Highlands intact in District 10. This will ensure continuity and a strong and unified voice for the community that will allow it to continue to prosper and represent Dallas well as a vibrant community.

Thank you for your consideration,

Will Hendrickson

Subject: cPlan 16 Opposition

I am writing to voice my opposition to redistricting cPlan 16. Breaking up the city council representation for Lake Highlands is a horrible idea. I live at 9616 Trailview Drive in the heart of Lake Highlands. I love our community spirit and I appreciate the diversity our neighborhood offers. We have a wonderful school system with active parental participation. It would be a shame to divide this historically cohesive community into three council districts.

cPlan 16 seems to be splitting up current District 10 based on nothing but racial lines. Tensions between members of the minority community and white community are not a problem in District 10 to my observation. Even if there were conflicts, it will be more beneficial to our community as a whole to resolve those issues at the neighborhood level rather than escalate the ridiculous fighting we see on display at city council meetings with more race based districting.

Please keep Lake Highlands intact as you consider the redistricting plans being presented to you.

NO REDISTRICTING FOR LAKE HIGHLANDS AND DISTRICT 10

We built our home at 9336 Forestridge Dr., Dallas, TX 75238-3305 in 1963. Both of our children attended White Rock Elementary, Lake Highlands Jr. High, and Lake Highlands High School. My husband Owen and I coordinated the White Rock Valley Neighborhood Association Volunteers in Patrol for five years and continue to patrol each month. Lake Highlands and District 10 need to remain in tact for the future. It is a wonderful community of people, businesses, churches, schools, recreation, healthcare, police and fire agencies, etc. Neighbors care about each other and participate in numerous activities together throughout the entire District - parades, National Night Out, Lake Highlands High School.

We agree with the following statements:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

From: Luke Davis [oldavis3@gmail.com]
Sent: Thursday, August 04, 2011 2:26 PM
To: reDallas11
Subject: Redistricting and Lake Highlands (District 10)

Commissioners,

I submit this e-mail as (i) a Lake Highlands resident, (ii) a member of the Richardson ISD Board of Trustees since May, 2000, and (iii) a member of the Skillman TIF Board.

I strongly urge that Lake Highlands NOT be divided into two or more city council districts. Such action would be detrimental to not only Lake Highlands, but to the City of Dallas and Richardson ISD.

My wife and I are 28-year residents of Lake Highlands. Our children attended RISD schools in Lake Highlands from kindergarten through high school. I echo the comments of other Lake Highlands residents concerned about dividing Lake Highlands among several council districts. I, too, point to the "cohesive community" of Lake Highlands, the long-standing investments by Lake Highlands civic organizations in City of Dallas projects, the value of turning to a single city council member who lives in Lake Highlands, and the commitment of Lake Highlands residents to embrace diversity in neighborhoods and schools. There is no question that Lake Highlands is a "small town" with Lake Highlands High School as its epicenter. I often say to people that "unfortunately" Lake Highlands is a "unique" community – the point is that the City of Dallas would benefit from MORE communities like Lake Highlands.

I believe that my 11+ years of service on the Richardson ISD Board of Trustees provides a unique perspective to this discussion. The RISD trustees are each elected "at-large" and the RISD boundaries encompass 38-square miles within the cities of Dallas, Garland, and Richardson. I know the numerous communities within RISD and assure you that Lake Highlands is a "community of interest" under any definition. In fact, I believe it is the most distinct "community of interest" among the 4 high school attendance zones in RISD.

Proposed redistricting plans that divide Lake Highlands into 2 or more council districts would also divide schools, neighborhoods, neighbors, and communities. At least one plan I have reviewed would divide certain school attendance zones (elementary, junior high schools, and Lake Highlands HS) such that families within a single school would be represented by different city council members – that is not only confusing for residents and council members, it is not in the best interest of the City of Dallas. Moreover, there are already 3 Dallas city council members who live in and represent RISD areas. Increasing that number to 5 Dallas council members within the RISD boundaries would undermine and dilute the long-standing effective communication and productive partnerships between RISD and the City of Dallas.

I have not heard a credible argument for dividing Lake Highlands into multiple council districts – how would fragmenting Lake Highlands benefit the residents of Lake Highlands, the outstanding schools in Lake Highlands, or the City of Dallas? Put another way, "if it ain't broke, don't fix it." Lake Highlands is not broken and dividing our community is not a "fix." Lake Highlands is a vibrant community that exhibits the best of Dallas and the best for Dallas. I encourage you to focus on respecting and maintaining communities during the redistricting process. Lake Highlands is a community that deserves representation by a single council member.

Sent: Thursday, August 04, 2011 1:41 PM
To: reDallas11
Subject: Lake Highlands Redistricting

Importance: High

Greetings,

My name is Tom Buechel. I am a resident of Lake Highlands and have resided in Lake Highlands since 1969. I attended grade school in Lake Highlands and moved back to Lake Highlands after college and ended up purchasing the home in which I grew up. So I have seen first-hand the uniqueness and special character of this great area of Dallas.

I urge you to NOT redraw the districts maps in any way which divides Lake Highlands into smaller districts!! The individuals that are proposing such actions are doing so purely out of political motivations. Such an action would be harmful for such a great community as Lake Highlands. The proposals to divide Lake Highlands are not made for the betterment of Lake Highlands but simply to advance personal agendas. One only needs to read the newspapers recently to know where all the personal agendas of our politicians have left our city government – dysfunctional at best!

Some key points to remember:

- Keeping the LHHS attendance zone intact is a primary consideration. The fact that LHHS is an RISD school makes Lake Highlands special. Any redistricting which will cause any students to fall out of the LHHS attendance zone into a DISD attendance zone is nothing short of criminal. DISD is a mess and it is not fair to any student to jeopardize their ability to attend LHHS.
- District 10 is already a diverse district. While enhancing diversity is a worthy goal to be pursued, and by no means has Dallas reached racial harmony, I can tell you from having lived in Lake Highlands my whole life, our community is NOT one which is rife with racial divisiveness. Again, the proposals to divide Lake Highlands are merely efforts to advance political agendas.
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost. I have heard countless times Lake Highlands referred to in the media as the Town of Lake Highlands. I would always chuckle at that because I know Lake Highlands is not a separate town. But that depiction typifies the way the residents of Lake Highlands
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Do the right thing and keep Lake Highlands intact!!

Thank you for your service to Dallas.

Tom Buechel

Subject: District 10 Redistricting

I am strongly opposed to redistricting cPlan16, which splits the Lake Highlands community into three sections.

The residence of this community have made it what it is today with the Lake Highland Exchang Club, Women's League and Junior Women's League working together with the City of Dallas for area improvements, specifically thousands of dollars to the Parks in the existing District 10. We have done so as an entire community and breaking that community up is just not acceptable.

I wish I had time in my work day to highlight all the many reasons this plan is not good but please reference below the highlights!

Thank you!

Keep the LHHS attendance zone as a primary consideration District 10 is already a diverse district and meets the not gerrymandered definition District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10 The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost LH has a long history of being a neighborhood where diversity already works; don't destroy that!
This is one of the most critical junctures we have faced as a community and I emplore you to make your voice heard, pass this email on to your friends, neighbors and email lists.

Subject: Keep District 10 Intact

To Whom it May Concern.

As a citizen and taxpayer of Lake Highlands (Dallas) and district 10, we as a group strongly request that the city keep district 10 intact. There are a multitude of reasons:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Please take all of these reasons into consideration. We love our city and especially to keep Lake Highlands and district 10 as one voice.

Thank you!

Subject: Proposed Redistricting of Lake Highlands and District 10

To whom it may concern,

I recommend the proposed redistricting plan cPlan16 not be adopted. I believe that, if adopted, this plan would intensify racial segregation in Lake Highlands, and overturn decades of successful cultural integration in the Lake Highlands Community. Lake Highlands is already, and has been for many years, a united Community of Interest, and dividing it would represent an unwarranted, artificial and counterproductive maneuver.

I believe it is perceived by some that adopting cPlan16 would be a path to electing a minority to a council seat. I suggest that geographic racial segregation, as would result from a redistricting plan like cPlan16 for example, is never a good idea, and would lead to fragmentation of representation rather than consensus. Lake Highlands would, in fact, move backwards in time in terms of civil equality if cPlan16 were adopted. The correct way to place any candidate on the council is to propose a candidate with a productive message and then get the vote. Limiting the district geographically so that it contains over 50% minority residence is not the democratic solution, and does not provide a sufficient or compelling reason for the cPlan16 proposed redistricting.

COVER MESSAGE

Hello,

I am a residential home owner in Lake Highlands and I am voicing my concern over the proposal to split LH into three different districts. I am adamantly opposed to this proposal and anyone who votes for this proposal will NOT get my vote.

Nathan Barrett

9303 Locarno Dr

Dallas, TX 75243

August 4, 2011

To: Redistricting Committee
Fax: 214-670-5798

Please keep Lake Highlands intact in District 10.

Keep the LHHS attendance zone as a primary consideration.

District 10 is already a diverse district and meets the not gerrymandered definition.

District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30 plus years.

The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.

The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost.

LH has a long history of being a neighborhood where diversity already works; don't destroy that.

Thank you,
Camille and Ron Chalk (Lake Highlands area)

Dear Ms/Sir:
Please do not split our Lake Highlands district 10. We do many activities together and we enjoy our diversified neighborhood. We have many organizations which work together for our neighborhood. We greet our new neighbors and welcome them to our area.

I thank you for not changing our district

Sincerely,
Lee and Jackie Brummel

Dear Redistricting Committee,

I moved my family to Lake Highlands specifically because of the great schools (Wallace and Lake Highlands HS) as well as the wonderful community outreach and family atmosphere. Several of my philanthropic dollars have been spent to invest in the Lake Highlands parks, schools, and resources.

This is our neighborhood and we have a diverse wealth of residents who love our boundaries just the way they are. Things should not be gerrymandered on the basis of racial profiling. Aren't we above that?

Proud to be in Lake Highlands!

Subject: Keep Lake Highlands intact in District 10, say No to cPlan16

To the redistricting committee

I wanted share my thoughts on the redistricting of Lake Highlands, specifically cPlan16. I believe the Lake Highlands community is great and there is no need to alter what has worked for many years. During a time when so many things need to be fixed, there is no need to alter a community based on someone's social agenda. We do not need a Unity map, our District is already considered a Minority Opportunity District. It seems that Commissioners Domingo Garcia, Billy Ratcliff and Brooks Love are pushing a social agenda instead of focusing on the true issues in our communities. It is sad to see that these elected officials have not learned from the issues we see in Washington but they will when their jobs are up for re-election.

Lake Highlands is a community that has a long history of being diverse and there is no need to alter a community to fill certain racial/social/economical quotas. Instead to trying to create a problem, it seems that the city should focus on fixing the problems we already have in Dallas. If you look at LHHS, there is already a great snapshot of our community and there is no need to change the attendance zone. There may be other communities that have issues but introducing those issues to LHHS is unnecessary; redistricting Lake Highlands High School is not going to fix the issues.

I believe Commissioner Garcia definitely has a social agenda with his plan. He said in the Lake Highlands Today: "This plan will give a minority candidate the opportunity to win as an incumbent by forming coalitions across all these neighborhoods." When asked how many minorities have actually run for the District 10 council seat since 14-1 passed, Garcia responded by saying, "Probably none. The Anglo voting majority wins every time. It's a self-fulfilling prophecy."
(http://www.lakehighlandstoday.com/index.php/news/article/redistricting_2011_lh_on_the_chopping_block/)
From my point of view, it sounds like Commission Garcia wants every city council member to look like he does instead of embracing the diversity our Dallas.

I cannot believe that Commissioner Garcia would say something like "Anglo voting majority" considering this segment of the population helped in electing President Barack Obama. Our community does not see someone based on the color of their skin and it is unfortunate Commissioner Garcia views people in that light. If there is a good male/female, Anglo/Non-Anglo candidate, then District 10 would elect them. There is no need to change the community because "minority" candidates have not run in our district. Race is not an issue in our community but it seems that Commissioner Garcia wants to make it an issue. The reason people move to Lake Highlands is based on our affordable housing, diversity, safety, location and a focus on a strong public education system.

Please do not change something that has worked for over 20 years. Please focus your energy on fixing the problems other districts have in hopes of making our city better.

Sincerely

Redistricting Commission Chair Ruth Morgan Says, Look, She Has It All Under Control

By Anna Merlan
published: Thu., Jul. 28 2011 @ 3:08PM

You may want to bring a bottle of this tonight.

It must be Christmas in July or Unfair Park's birthday or something, because there are *two* Redistricting Commission meetings this week. The second one is tonight, and the main event will probably be Sandra Crenshaw's presentation of her two proposed maps. We suspect she may follow that up by expanding upon the promises she made Tuesday night to lodge formal complaints with both the Department of Justice and the city's Ethics Commission over Dwaine Caraway's being allowed to submit a map through his appointed commissioner.

In advance of that particular bit of legislative excitement, this morning we called Redistricting Commission chair Ruth Morgan -- author of *Governance by Decree: The Impact of the Voting Rights Act in Dallas* -- to see how she thinks the process is going so far. Things got a little shouty between members of the public and the commissioners on Tuesday night. So is this what she envisioned when the commission asked ordinary citizens to get involved in the redistricting process?

"This is not unexpected. It happens in these things," Morgan tells Unfair Park. "There's a lot at stake and a lot of passionate feelings about what is right." She adds, with a dry little laugh, "One might wish that the commissioners would be a little less passionate in their questioning, because at times I think it could be misinterpreted as an attack. When I talked to the commissioners later, though, that was not their intention."

Morgan reminds us that the commission has been meeting for almost six months without compensation. "They are very conscientious," she said. "When something goes on from February the 8th to the hot summer days of August, it's quite demanding on their time and energies and work. I think they should be credited with what they've been doing. They've been exceedingly responsive to the public and exceedingly responsive to trying to fulfill the guidelines as they were adopted at the beginning."

So far, there have been 22 maps presented in total, about 14 of them from the public. Was Morgan expecting more proposals? "Drawing a citywide map is very complicated and time-consuming," she said." Trying to keep in the guidelines that have been developed, it's a complicated process."

One member of the public at Tuesday's meeting described redistricting as being "like trying to nail jello to a tree," which is about the best summation of the process we've heard so far. Tonight's meeting is at 6 p.m. in Room 6ES at City Hall. It'll also be streamed over the city's website, for those not holding *Project Runway* premiere watch parties. Come for the shouting, stay because it's going to affect all of our lives for the next decade.

Ms. Crenshaw's map pulls the Kessler neighborhoods out of North Oak Cliff and aligns them with downtown and Greenville. Isn't there some baseline requirement of common sense and logic? Who are these kooks?

Robert Wilonsky 15 hours ago in reply to Tomas

In Sandra's case, a former Dallas City Council member.

Like Reply

cp 15 hours ago in reply to Tomas

Yes, there is a baseline requirement of common sense and logic- per the US DOJ, districts must be compact and must have the same population within a 10% or less deviation.

I actually like it. She basically put all of the entertainment districts into one. Any plan that doesn't put the Cedar's in with the rest of south dallas is a good map to me.

bbetzen 9 hours ago

Dr. Morgan is absolutely correct. The Dallas Redistricting meetings are going very well. The conflicts we are seeing are what happens when you make this process transparent, when you make it public. As the public begins to slowly understand the true power of redistricting, and how that power has been manipulated by politicians to select their own voters and create "impossible to loose" seats of power, the anger will spread.

Gerrymandering made possible in the "normal" redistricting process behind closed doors has created the impass we now have in Washington. Too many politicians in Washington know there is no danger they will ever be voted out no matter how much they do not do in D.C. or how bad their decisions. They have either been able to gerrymander their own districts, selecting their voters, or, if they are not from "the party" in power, they have allowed the "other party" to use their district as the dumping ground as the other party "packs" their district as part of the gerrymandering strategy. Thus the large majority of current politicans are "safe," no matter the party. They are NOT motivated to keep the voters back at home happy.

Do you really want redistricting to go back behind closed doors? It must be done in the open so that the public sees what is happening and understands better and better the manipulation that is possible in redistricting. Dr. Morgan is happy to see that happening and the truth being more visible. It is working as long as people are honestly stating what they believe is the truth. All the Dallas Redistricting Commission meetings are recorded and the videotapes are posted at http://www.dallascityhall.com/... usually within a few days of the meeting.

Yes, it is messy. That is democracy! Let's celebrate it! Then lets try to find some logical pattern about the data that is being collected on each of the 21 different full Dallas City Council redistricting plans that have been submitted so far. See the comparison chart made for all 21 of these full plans tracking 8 objective measurements for each plan. See http://dallasredistricting2011...

What do you think of the comparisons? What numbers are missing? What numbers have no meaning? Remember the 8 partial plans submitted so far are not included in this listing as they usually either had fatal errors or only covered a small section of Dallas.

Dallas City Council Redistricting Updates 7/26/11

Last nights meeting had some tense moments, but the following demographics, produced by the map below the chart, appeared to have been generally well received. (Click on chart to enlarge.)

Dallas City Council Demographics from wPlan03 updated 7-26-11

District	Total Population	Total Pop Deviation	% Pop Deviation	% Hispanic	% Black	% White	Voting Age Pop (VAP)	VAP % Hispanic	VAP % Black	VAP % White
1	66150	-458	-0.64%	69.75%	10.31%	14.08%	53618	61.97%	12.67%	23.83%
2	66106	-462	-0.53%	63.34%	18.28%	15.80%	50274	57.83%	18.63%	20.30%
3	64173	-1405	-1.42%	69.75%	10.74%	11.73%	47499	65.18%	16.11%	16.83%
4	61302	-4276	-4.57%	22.62%	64.71%	10.67%	46958	19.10%	65.35%	13.62%
5	63259	-2319	-2.58%	23.28%	54.30%	12.23%	46834	20.14%	55.45%	19.06%
6	67775	2112	2.39%	68.49%	7.26%	21.53%	43007	62.39%	7.86%	26.44%
7	66738	1181	1.39%	67.34%	18.11%	12.74%	49270	61.98%	20.54%	16.82%
8	62201	-3357	-3.82%	31.68%	63.49%	3.82%	37937	33.49%	67.29%	4.84%
9	65883	325	3.78%	49.89%	29.27%	17.74%	42980	42.89%	34.01%	20.74%
10	65804	3246	3.78%	24.03%	31.89%	37.21%	46537	20.98%	29.64%	41.81%
11	65253	-306	-2.39%	10.40%	12.47%	68.27%	45479	10.89%	13.27%	62.98%
12	65838	280	0.44%	17.59%	17.40%	54.46%	50758	15.24%	16.66%	57.24%
13	65156	-402	-0.47%	26.81%	6.89%	55.83%	49580	22.89%	8.79%	57.05%
14	65213	-345	-0.47%	28.61%	6.56%	53.34%	51263	19.18%	4.85%	57.56%

Average: 65,558 Total Deviation = 7.71% 42.91% 29.10% 25.94% 62,906 37.72% 25.94% 32.33%

Average for Hispanic Voting Age Population % in 5 highest districts = 61.87%

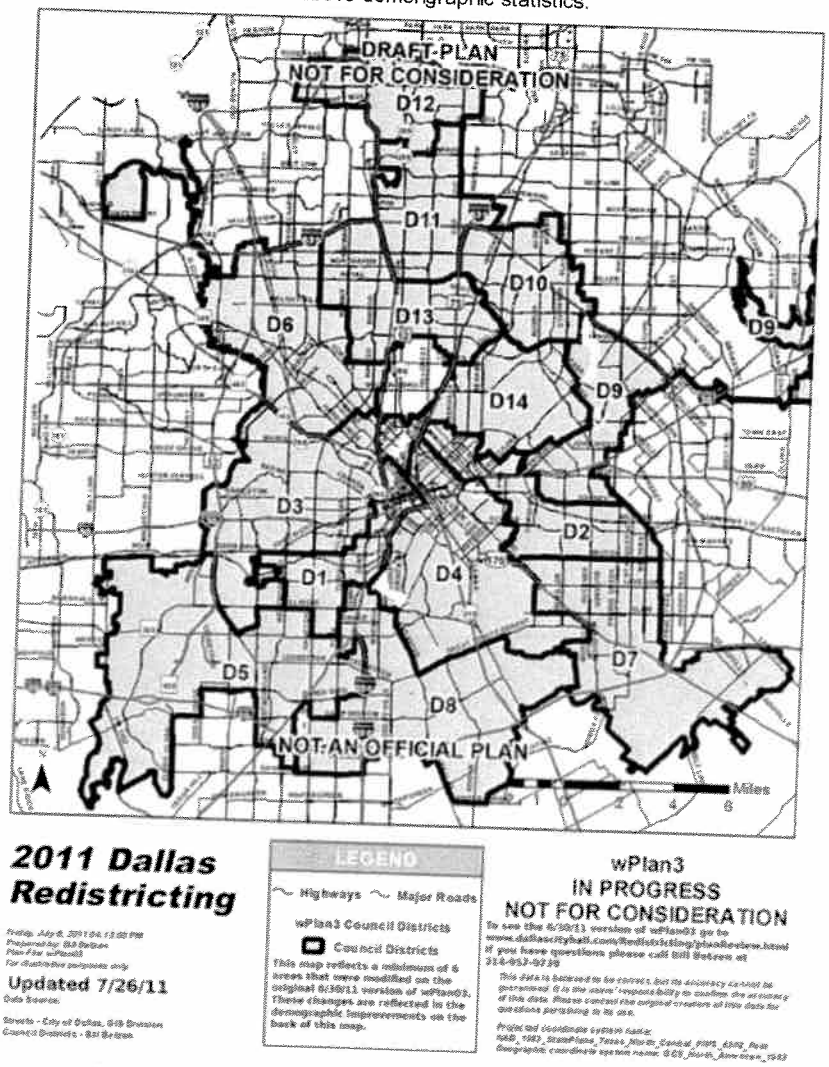

Average for Black Voting Age Population % in 3 highest districts = 62.70%

These improvements from the version of wPlan03 presented to the Redistricting Commission on 7/14/11 will require 6 improvements to be approved on wPlan03 that is now before the commission. All improvements must be approved by the commission. While the Hispanic voting age percentage improved only a little from the 61.83% achieved with the 7/14/11 version of wplan03, the Black voting age percentage improved from 60.25% to 62.70%, a very significant improvement. If you like this plan, please tell the commission. Their email address is below or you may attend a Commission meeting and testify. Their web site is below also. Your questions or comments are welcome. Bill Betzen bbetzen@aol.com

Email for Redistricting Commission: wfdallas1@gmail.com

Web address for Redistricting Commission: http://www.dallascityhall.com/Redistricting/index.htm

There are 6 places in the map below where you will find that lines have been erased with white-out and new lines have been inserted. (Click on the map to see this more clearly.) These are the 6 areas where modifications are needed to wPlan03 to achieve the above demongraphic statistics.

Please note that the above map had changes made in 6 locations to produce the significantly improved percentages, up 7 percentage points, for Black voting age

population in District 4 when compared with the version of wPlan03 presented to the Commission. This was achieved by following the requests of residents of Uptown Dallas to reunify their area of Dallas. The northern boundary of District 4 was moved south from Turtle Creek to Thomas Avenue with the result that almost 8,000 in mostly Anglo population was moved from District 4 into District 14. This necessitated 5 of the 6 corrections that were made to the original wPlan03. That original wPlan03 is in the **data base of maps being considered by the Redistricting Commission**.

This change, plus one other minor change to District 8, moved the average Black voting age population (VAP) percentage for the three majority Black districts from 60.25% to 62.70%.

Additional changes were done this morning to the western edge of District 13 in response to concerns by the District 13 Commissioner. By moving the western boundary of District 13 from Marsh to Webb Chapel the Hispanic VAP has now risen a total of 3.66 percentage points in District 6 to 66.05%. This led to a rise of half a percentage point, to 62.43%, as the average for the percentages of Hispanic VAP in the 5 majority Hispanic districts in the modified wPlan03.

No other map being considered by the Dallas City Council Redistricting Commission is even close to the level of minority representation possible with these modifications to wPlan03: **62.70% Black VAP average in 3 districts** and **62.43% Hispanic VAP average in 5 districts.** Wplan03 also continues to be **the most compact map** being considered of all the maps that also have 8 minority districts.

Eight minority districts should be the **minimum** number of minority districts in any Dallas City Council map considered, and they should be strong districts, with VAP averages above 60%, unless someone manipulates the maps to make them weak.

Dallas Redistricting 2011

This Whole Commission's Out of Order: City of Dallas's Redistricting Fun *Really* Begins

By Anna Merlan
published: Wed., Jul. 27 2011 @ 11:00AM

Wonder if Ruth Morgan's having fun right about now

OK, no one has actually studied the effects of redistricting on the human body, but after last night it seems safe to say that the longer a redistricting process goes on, the grouchier everybody gets. At the county level, we have Maurine Dickey's temper tantrum as evidence. And last night's meeting of the city's Redistricting Commission featured some yelling from the audience, some yelling from the commissioners and a few stern words from Ruth Morgan, the chair whose no-backroom-shenanigans and keep-it-civil policies are well documented.

But, first, a guest star: Mayor Mike Rawlings showed up for a redistricting meeting for the first time last night, sitting quietly at the staff table and munching on a boxed lunch. When Morgan asked if he'd like to say anything, he replied, "No, I'm just learning and listening. ... Thank you to all of you for your time."

But Mayor Mike disappeared pretty soon after it became clear that what was to be the main event of the evening, the presentation of Dwaine Caraway's not exactly street-legal map by commissioner Billy Ratcliff, was not going to happen after all. Ratcliff announced that he wouldn't be presenting the plan, as it is still "in evolution." "It has evolved from this to the plan that I'll be presenting on August 4th."

This was not thrilling news for former city council person Sandra Crenshaw. "We signed up to speak on this plan as scheduled," she said, referring to herself and Marvin Crenshaw. Morgan allowed them both time to air their grievances about Caraway's proposed map, at which point. Crenshaw said she believes it is "a violation of the code of ethics for [Ratcliff] to be advancing a map by a council member."

"This will be articulated at every public forum," she promised, and "through other means," including, she said, complaints to the Department of Justice and the city's own Ethics Commission.

The next bout of uncomfortableness came minutes later, when 24-year-old college student Randall Bryant presented his redistricting map. Donna Halstead, a commissioner fresh from her own proposed map being tabled amidst accusations from other commissioners of deliberate minority disenfranchisement, told Bryant, who is African-American, that his map was, in fact, kinda racist. Specifically, she criticized him for drawing District 10 in such a way that, according to her, "an Anglo would definitely be re-elected." But she also told him, "To look at this only in terms of the color of skin of the individuals is to be very shortsighted."

During the public comment period, former Unfair Park-er Sam Merten got up to talk about some changes he's made to his own proposal. ("Why is he speaking if he lives in Frisco?" a lady whispered agitatedly behind me. "I think he works in town," whispered her companion.) Specifically, he's moved Buckner Terrace into District 2, put all of Vickery Meadow in District 13, and all of Oak Lawn into District 14.

"The Village should be in District 13," said a slightly testy commissioner Elizabeth Jones. "People keep trying to chew my western boundary of my district." She added that Merten's map "makes a lot of radical changes that need not be made." Domingo Garcia also asked Merten, again, why his proposal signficantly alters District 2, Pauline Medrano's district.

"I didn't make this map to protect incumbents," Merten said, very, very politely. He was equally calm with commissioner John Loza, who thanked him for coming and then said, "Now I'm gonna come after you." Loza demanded to know what the Hispanic neighborhoods along Maple -- "One of which I live in" -- have in common with Turtle Creek and Uptown. Merten replied that several districts are quite diverse, pointing to District 14 as an example.

"It doesn't sound like you have an answer for me, so I'm gonna just move on," Loza said.

"I've tried to answer your questions," Merten replied.

The low point of the meeting came during Bill Betzen's presentation: He's narrowed down his three maps to just one, and told the commission, "I really do enjoy working on these maps. ...I'm getting better all the time."

But Jones became visibly annoyed with him, telling him, "You have altered the north considerably," adding that he'd made a lot of changes to District 13. "I've told you again and again," she said, at a volume that could fairly be described as shouting, "take the Village out and put it back where it belongs!"

From the audience, Crenshaw shouted back, "The public doesn't take directives from the commission! The commission takes directives from the public."

"You're out of order," Morgan told her.

"You never call your commissioners out of order," Crenshaw replied. Morgan told her that she'd be asked to leave if she didn't abide by the rules of conduct. "*That's* in order," Crenshaw replied, and was quiet for the remainder of the meeting.

Jones turned back to Betzen and said, in a normal tone of voice, that she hoped he would "allow [himself] to embrace" the changes she's recommended.

Just a suggestion, but maybe the commission and the regulars in the audience might want to embrace some deep breathing exercises instead? A stress ball, perhaps? Because this thing ain't over yet by a long shot.

Wow, these meetings actually sound fairly entertaining. Maybe they should sell tickets to the next one.

cp 20 hours ago

WTF? Why the hell should the Village be in district 13??? What does an apartment complex east of Central have in common with Preston Hollow?

And, WAY TO GO Sandra!!!

Elizabeth Bair and 2 more liked this Like Reply

Alan 20 hours ago in reply to cp

The Village is a big chunk of population density made up of renters, who don't vote. That leaves a whole council district fully controlled by Preston Hollow homeowners of vast--but low density--estates.

1 person liked this. Like Reply

KP 19 hours ago in reply to Alan

Some Villagers vote, including me. We have more in common with areas south of us than northwest of us. Heck, I don't even go north of Northwest Highway most days of the week.

Like Reply

cp 18 hours ago in reply to Alan

What does that have to do with the price of tea in China? Or redistricting for that matter?

Bill Betzen 20 hours ago

In spite of the fireworks, last night was a rather productive meeting. I've just posted to my blog, http://dallasredistricting2011... the handout I copied and gave to all the Commisioners as I spoke that led to the interaction described above. This map certainly needs more work and as you can see by my post, I have already responded to some of the District 13 Commissioners concerns regarding the western edge of District 13. I presume that will be acceptable.

However, the Villiage (between NW Hwy, Lovers Lane, Skillman and Central) has 10,205 people! Weeks ago it was demanded that it be put together. Now it must be out of District 13. What happened to the idea

of inclusiveness and diversity in our great city?

After more than an hour of focusing on this issue only the alternative has been to break it up again and only be able to move some of it into District 14. It simply will not fit without terribly distorting population numbers in other districts. I welcome others to tackle it.

2 people liked this. Like Reply

cp 18 hours ago in reply to Bill Betzen

Why does D13 need 10k people from east of Central when there are plenty of dense population areas southwest of Preston Hollow in current D6?

Like Reply

Bill Betzen 14 hours ago in reply to cp

Look at the map at http://dallasredistricting2011... and remember that compactness is a goal for the redistricting process. The first step is to find each of the 14 population centers in Dallas that represent 85,558 people. There are only 14 spots on the map for the 2010 census. It is a mathematical/geographic calculation Then you center each council district around that spot as closely as possible while also meeting Voting Rights Act criteria. This moves District 13 to take in the Village.

Yall realize that Randall Bryant is Kathy Nealy's grandson and works for her right? So where did that plan come from again?

Mountain Creek and 3 more liked this Like Reply

Bill Betzen 18 hours ago in reply to Sd214

It was rather obvious that Randall Bryant had designed the map he presented. It was a good job that showed hours of work. It was at least as good as most of the maps presented, if not better. He was a rather impressive young man who will go places in Dallas if he continues the work ethic and discipline he showed last night.

Lacpac2011 12 hours ago in reply to Sd214

Alright folks, peoples children are off limits. Mr. Bryant is married with two children and has his own business. He and his grandmother's family are long time residents of Dallas, specifically Hamilton Park to West Dallas to his home in Redbird. He mentioned at the hearing that I grilled him pretty good in private to see if the map was his creation. At least 6 commissioners equally put him to the test and he defended himself better than anything we have sitting on that council that looks like him. I still have a splitting headache trying to hold my temper as Mrs. Jones interrogated the young man like some criminal prosecutor, demanding to know "how do you make your living" and if he was a politcal consultant. "isn't it true that you get paid to work in campaigns" she yelled at him. I had promised to exercise all venues to hold reign on this renegade commission process and I was about to throw my shoe at her when I am sure the disapproval from the blacks in the audience got louder. Blacks fought to get representation and not one of the black male commissioners Ratc liff the vice chair, called Jones out of order, especially when they are unlike most boards and commissions are not required to file financial disclosures. That's right. Since Jones is so nasty to everbody, I asked the city secretary what does she do for a living whose agenda is she carrying? No public records and yet she wanted Mr. Randall to disclose his business affiliation. Seriously, I want to know how many government contracts tied to city government do Brashear and Ratcliff have and how many are tied to Willis Johnson, the former go to person for minority business opportunity, now subject of FBI investigation. Halstead was condenscing and told him that the ethnic minorities get charitable

The final plan will be drawn by Federal District Court highly unlikely that any plan will be approved without a law suit

2 people liked this. Like Reply

Bill Betzen 14 hours ago In reply to alfredo

While that was easy to see as happening for the Texas State redistricting plans approved, I think there is an excellent chance that we will avoid such a resolution for the Dallas City Council. I challenge you to find any redistricting process anywhere in the nation that is more transparent, more actively accepting input, or providing more resources to the public to use in the design the redistricting maps they want to submit. Dallas is far out in front in doing redistricting right. Will there be problems? Certainly! Could a map be chosen by the Dallas City Council against which a lawsuit is filed? Absolutely! But the chances of a successful lawsuit are going down as the quality of the maps the Commissioners have to choose from improves. Public input is critical! Study the maps and go down to the Commission meetings and let them know your opinions. The next meeting starts in 24 hours, at 6 PM tomorrow in room 6SE of Dallas City Hall. If you want to speak call 214-670-5735 tomorrow, 7-28-11, to have your name placed on the list of speakers. If you cannot call before 5 PM, then be at room 6SE before 5:55 PM to sign up to speak. Or, if you just want free airconditioned entertainment for a few hours, come on down!

BCulbreath 14 hours ago

What is wrong with these Commissioners , they forget we have term limitations in Dallas City Offices.How can you give a District a current Council Members name? How does Ms. Jones think she has authority to tell a citizen how to draw their map. Are all people taking on that Tea Party mentality, angry and mad if people disagree with them? My goodness what is happening to all people. God help us,Please people get a life love somebody.

At tomorrow's Dallas City Council Redistricting meeting I will have copies for anyone interested of a comparison of the 22 full plans listed on the Dallas Redistricting web site and either already presented or scheduled for presentation. The information on each plan that I use in making the comparison is linked from the web page at: http://www.dallascityhall.com/ .. This updated comparison will continue the pattern of providing 8 measurements with which to compare the plans. The 7/14/11 version of this list, comparing the first 12 plans submitted, can be found online at http://dallasredistricting2011... . Please let me know if you find any of the measurements confusing. I will also post the updated list to my blog at http://dallasredistricting2011... as soon as it is completed tomorrow.

Domingo, As a Member of the Redistricting Commission, You Should Really Know Better

By Robert Wilonsky
published: Tue., Jul. 26 2011 @ 2:21PM

Click to embiggen Domingo Garcia's submitted map.

Like I said Friday, when we looked at Dwaine Caraway and Carolyn Davis's messed-up maps, Anna's heading to that Redistricting Commission meeting this evening at City Hall -- *sooooo* lucky. (Tell Sandra Crenshaw that Schutze sends his warmest regards.) In advance of that wingding, I went to the commission's site this afternoon to see if anyone submitted a map since last we looked -- and sure enough, moments ago some commission members' maps went live, complete with staff analysis. Which brings us to Domingo Garcia's submission -- one of two, actually, the other a Domingo-Brooks Love-Billy Ratcliff joint with which staff has some minor quibbles.

But Garcia's solo project ain't gonna fly: Like Caraway's, Garcia's submission -- which has five Hispanic-majority districts and two African-American-majority districts -- doesn't meet a single one of the three major criteria. As in: His districts aren't compact or contiguous and actually manages to leave pieces of the city out of one of the 14 districts -- amazing. And when it comes to issues of minority representation, says the staff analysis: "While this plan includes 7 minority districts and 2 minority coalition districts, many of the districts exceed the population deviation for population equality. Because all areas of the city were not assigned to a district, additional evaluation of the plan cannot be completed."

Still, at least his submission is better than fellow commissioner Elizabeth Jones's. She could only be bothered to redraw four districts' boundaries: 10 through 14. It doesn't work like that. Not like she should know. Oh, wait. Add Donna Halstead's nixed proposal to the scrap heap, and the commission's batting a bit 0-fer at the moment.

When negotations failed with the City Attorney and the Commission under the threat of judicial action,to restrain councilmembers from directing staff and the commissions at this stage I pledged to excercise every public forum to ensure indepedent, impartial, transparent process without incumbement protection, cherrying and cutting out opponents that you see going one now with Dirty Dwayne , Dictator Donna and Gangasta Garcia being all over the map. To this end I am asking the ethics advisory committee to investigate Commissioners Donnna,Halstead, Billy Ratcliff, and Hollis Brasher where there is evidence of violations of their code ethics and responsibility to the citizens and not the citizens council and council members Please join me Thursday at city hall to let the commission know that we have drawn the line to stop corrupt gerrymandering to advance ward politics

Well, they are geting closer. They are listening to us in the East who want to get the hell away from South Dallas in voting. No offense, S.D., but our issues, our concerns, our neighborhoods are not similar. We in the far east pay taxes and have been completely ignored, divided in two, whatever, to dilute our voice. So, at least in the proposed D 7, you have part of East Dallas together, although we are still stuck to Fair Park, but that almost makes sense ...

First Dallas ISD Redistricting Meetings started 7/25/11

This evening the first Dallas ISD redistricting meetings happened. I attended the one at Bryan Adams High School. There were 14 people in attendance. I heard afterward that nobody showed up at the other meeting on the other side of Dallas at Medrano Middle School. Testimony this evening by a very articulate recent college graduate, from the New Tejas Project, about the need for both printed and online redistricting materiels in Spanish as well as English may help explain the lack of attendance at Medrano Middle School. It is located in a Dallas City Council District that is almost 70% Hispanic.

These meetings are managed by staff from Bickerstaff, Heath, Delgado and Acosta LLP who are on contract with DISD to manage the redistricting process. A court reporter attempted to record all testimony. Most of it appeared to center around questions relating to the redistricting process and differences between the four maps, and who made them. In summary the following most critical points emerged:

1. Need for more print and online materiels in both Spanish and English explaining the redistricting process, as applied within DISD, was obvious.
2. There must be public access to both online and/or computer workstation software and databases to allow redistricting maps to be drawn by the public for submission. (If a political entity like DISD does not provide such public access then only firms or individuals with the significant resources needed for such data bases and software can effectively provide usable input for map design. Demographic data from 2010 census is critical.)
3. Information on compactness of each district is very important if we are seeking to create the most efficient districts possible. No information on the compactness of the current DISD district map, or the four proposed, was available, not even district perimeter or area. It is much easier for a trustee to represent a more compact area than some of the gerrymandered districts within DISD.
4. There needs to be a public record of every meeting placed online and available. (A videotape of the meeting may also be helpful but the expense may prohibit this.)
5. The need for maps with high school attendance zones to help in redistricting process, and in generating public interest, was mentioned by several present.

This is a new process for board members as well. Two local members were present this evening, Ms. Nutall and Mr. Perrott. They were obviously working hard to facilitate the process.

As the power behind redistricting becomes better understood the redistricting process will attract increased public interest. DISD would do well to consult with the Dallas City Council redistricting staff who appear to be far ahead in the process. But how can DISD do it all for about 38% of the $650,000 the City of Dallas has budgeted for this process? A new map of more compact trustee districts, that will both preserve and produce a dedicated board to accurately reflect Dallas, is well worth the investment.

More Fun With Redistricting As We Look at Caraway and Davis's Unusable Submissions

By Robert Wilonsky
published: Fri., Jul. 22 2011 @ 4:05PM

Click to embiggen Dwaine Caraway's proposed map, or just look at it here.

The next meeting of the Redistricting Commission is Tuesday -- I know, I know, settle down. At which point, the commission will discus yet another round of submissions, among them one from none other than council member Dwaine Caraway. Only, don't expect the presentation -- which will be made by commissioner Billy Ratcliff, poor guy -- to go very far, since Caraway's proposed map fails on almost every level.

How so? Well, let's turn to the staff analysis, which says, right off the bat, that Caraway's hodgepodge of a proposal doesn't meet one of the main criteria, Minority Representation. Says staff, "This plan submission does not meet the minority representation test. This plan includes 5 minority districts and 4 minority coalition districts. This constitutes retrogression of minority representation from the 2001 District Plan," which has six minority districts. Also, for some reason the former mayor has managed to come up with only two districts (4 and 8) that are majority African-American -- as opposed to the three found in most submissions, including Sam's. Caraway's one other big problem: "The districts are not contiguous and as such boundaries could not be written."

So, fail. But not nearly as big a fail as Carolyn Davis receives for her presentation ... if that's what one chooses to call her "partial plan submission," which is being generous. Davis, you see, is only concerned with District 7, her district, not the entirety of the city. Which may work around the horseshoe, but not

with Ruth Morgan. And I'll leave it to you to look at Sandra Crenshaw's two submissions. Actually, Anna, that's all yers.

Davis is concerned with her voter "base". For some reason those Ferguson Road initiative idiots have gotten behind her and the only reason she ever wins elections. That area north of I-30 needs to be cut out of District 7 altogether. I was at a redistricting meeting where some neighbors and I heard her scold Bill Betzen saying, "Oh your plan will never work, because it draws me out of here!" Davis's brains aren't big enough to give a shit about the whole city...

1 person liked this. Like Reply

Cliff Dweller 1 day ago

In all fairness, Davis has a big target painted on her and everyone knows it. So she's trying to find a way to wiggle away from it. Can you blame her?
Not that it's going to work, but she's gotta try.

Redistricting Commission Public Testimony Received Via Email, Fax, and Mail from 11:00AM August 5, 2011 to 11:00AM August 8, 2011 Part I

Bratt, Peter

From: Joseph G Hernandez [jgh3@ntrs.com]
Sent: Monday, August 08, 2011 10:54 AM
To: reDallas11
Subject: Redistricting Maps

Good Morning Commissioners,

I would like to take an opportunity to thank you for your service, hard work and commitment to the redistricting process and the City of Dallas. There are so many maps to review and so many factors to consider that after studying all the maps available online, there are just a couple i want to point out.

I firmly believe that the following maps depict best dispersion of demographics that include family, race, ethnicity, income level, neighborhood cohesion and economic opportunity:

CPlan01.shp - by Domingo Garcia

wPlan22 - by Alex Enriquez

pPlan04cc - by Dwaine Caraway

pPlan06 - by Mark Shecter

wplan55a.shp - by Keith McPhail

Please consider keeping Wynnewood North as a part of the greater fabric that make up Oak Cliff's Steven's Park, Kessler Park, Winnetka Heights and Elmwood neighborhoods.

Thank you.

Joseph Hernandez
President, Wynnewood North NA

Dear Commission Members'

In reviewing the submissions of redistricting maps I have become increasingly alarmed that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands-virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.

The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work.

To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.

To whom it may concern:

Lake Highlands is a Community of Interest and has been a strong, vital part of the city of Dallas for decades. Our tightly-knit community has a deep, long-standing sense of tradition and is bound together by Lake Highlands High School and all of our great schools at every level. The love and affection that our residents have for the community is evidenced in part by the many great organizations throughout our area, including the Lake Highlands Women's League, the Lake Highlands Exchange Club, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA, and a host of others all actively working for the betterment of our community, and by extension the City of Dallas. Lake Highlands embraces the diversity that already exists and works in our schools and throughout our community, and Lake Highlands is already considered to be a Minority Opportunity District by the City. The map under consideration that proposes to split up District 10 would also break up the Skillman Corridor Tax Increment Financing District, The Lake Highlands Public Improvement District, and the Town Center, all of which the community has spent years working on.

I respectfully request that the Redistricting Commission withdraw this redistricting map from consideration. Thank you.

Re: Redistricting.

As a Dallas resident, I would like to encourage Board Members of the redistricting commission to keep Lake Highlands in a single District. I think the community benefits by being represented as part of one cohesive block and that the City of Dallas benefits from strong communities such as Lake Highlands. The area is already diverse in population & housing options

Subject: cPlan16

Dear Redistricting Commission,

I am writing to let you know that my family vehemently opposes the proposition being pushed forward by Domingo Garcia.

It is frightening to think that such a plan would even be seriously considered since is it so blatantly racially motivated.

Lake Highlands (District 10) is a community which, in my opinion, should be a model for others to follow. No community is without it's imperfections, but we are proud to say that our community is made up of every color, race, creed, socio-economic level and that all of our children are afforded the same opportunities to succeed because of the excellence of our schools and efforts of community leaders and organizations.

My husband and I are tax-paying, voting, 20+ year members of the Lake Highlands Community (District 10). I will tell you honestly that the idea of an outsider - Mr. Garcia - coming into "our home" and breaking up "our family" for self serving purposes is outlandish.

Please consider the whole picture and see this for what it really is. Please leave our family in tact.

Thank you for your time and consideration,
Dawn Gray

Subject: Proposed redistricting of District 10

As a resident of Lake Highlands, I am compelled to respond to the proposed redistricting plan, "cplan16", of this district. Lake Highlands is a diverse, caring community of ethnic diversity. We support our schools, our neighbors and their children. We improve properties, community parks, schools, and playgrounds as volunteers. We have built this community into one that should be commended as a prime example of how cooperation in one area works to everyone's benefit in a large city. Do not tear this community apart. It works - don't try to fix it. We love it just the way it is. A jewel in the crown of the city of Dallas.

Subject: Lake Highlands Community

To the Dallas City Council,

Having lived in the Lake Highlands area since 1964, my husband, Bill Evans, and I have enjoyed being part of this community. When we considered moving to a larger home in 1984, we chose to stay in the Lake Highlands area. We have participated in many organizations including the LH Pre-school PTA with our grandson, having our daughter honored as an outstanding student by the Lake Highland Exchange Club and scholarship recipient from the LHWL, inviting friends from other areas to the Home Tour sponsored by the Lake Highlands Women League, serving as a representative on a Mosshaven Elem.
parent and teacher committee as well as working with students at Mosshaven and White Rock Elem., having children and grandchildren participate in the July 4 parade.
In so many ways the Lake Highlands community has been an integral part of our lives and the lives of our family members. Although I have always felt that all of Dallas belongs to me and that I am part of this city, Lake Highlands, from LBJ to Northwest Highway wedged between Garland and Dallas proper, has been an area where our family has roots, friends and dreams. Together, as part of this citizenry, we strive to grow and improve this area of Dallas.

Sincerely,
Peggy Evans

Subject: Redistricting of Dallas district 10..

Ladies and Gentlemen,

I've read with interest your plans on redistricting in Dallas, principally the district I live in, #10. I can tell you that I feel there is no need for splitting this district up into several; we have our hands full with management of just one. Other important considerations include:

- District 10 is already a diverse district and not in need of any gerrymandered definition;
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years;
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10;
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost; and,
- LH has a long history of being a neighborhood where diversity already works!

Please consider the above in your deliberations and preserve the status quo in my district - it already works!

Sincerely,
MARK

Subject: domingo garcia redistricting map

Dear Sirs:

The proposal by Domingo Garcia to carve up Lake Highlands is a significant threat to the quality of life of many who consider this both a community and a valuable treasure of Dallas. Apparently Mr Garcia has spent very little time here. This redistricting would be devastating to our community and would be a massive setback to this wonderful area. I have been a proud resident of this community for 25 years. I have two childen through LHHS with one remaining. When I chose to move in 2001, I considered all the metroplex and ultimately chose to stay right here in Lake Highlands because of the school system and the community. Both of which would be dealt a serious setback with respect to this proposal. Speaking for my family, we ask that you do not consider this proposal.

Subject: Keep Lake Highlands/District 10 Unchanged

I ask the redistricting Commission to reject any plans that would split the Lake Highlands area into several districts.

I specifically urge the Commission to reject the "cPlan16" proposal, which would split Lake Highlands/District 10.

It appears that cPlan16 was created solely to promote one ethnicity of people over another -- an idea and approach we desperately need to get away from in this day and time.

Lake Highlands/District 10 has always operated in a spirit of unity and cohesiveness, and has strived to be a model for others to emulate. Splitting up that area solely to promote one ethnicity over another would destroy that community spirit, and lessen what makes Dallas great.

Subject: Lake Highlands

To each of you who represent those of us who reside in Dallas, Texas.....

It is my understanding that you are considering the "slicing & diceing" of the wonderful community that is known statewide as Lake Highlands. Some thirty years ago we moved from a lovely and very nurturing neighborhood in Ohio to the much larger and somewhat forbidding city of Dallas, Tx. We literally searched the entire city before we happened upon a most special community which appeared to be a most satisfactory replacement for that which we had left.

Lake Highlands is more than just a neighborhood...it is a community. Peopled by a tremendous diversity of ethnicity, skintone, and financial resources, it truly is a gathering of humankind ... all coming together for the betterment of each. In other words.....Lake Highlands is a true representation of our world. We can boast of an A+ educational system which is known literally around the entire country. When others discuss a move to Dallas, one of the first lessons they hear is..."check out Lake Highlands". Community wide we have come together to "fix" whatever problems occur as a result of our diversity, and we have done so for the sole reason to better the lives of each of us. The "we/they" labels I hear from other parts of the city simply are not a part of our discourse. We are neighbors...we share...we look to our future together.

I have absolutely no idea where the notion of "slice & dice" came from, but I implore each of you to not "fix" what is not broken. While we're not our own city/town such as a Highland Park, we pride ourselves on being one of best communities in the greater metropolis of Dallas, Tx. To break us apart is to tear us apart. What possible good could ever come from that. I think NOTHING GOOD. So please, I implore each of you, vote for the continuation of one of the best and most livable neighborhoods anywhere. VOTE FOR LAKE HIGHLANDS.

Thank you for your consideration,

Subject: Proposed break-up of District 10 - Lake Highlands

Dear Ladies and Gentlemen:

I am startled at hearing of a redistricting plan that would split up what is now District 10, a District that basically represents the neighborhoods known as Lake Highlands.

It is really beyond belief that after a City wide election for Mayor of Dallas that emphasized the fostering of and growth of our City's neighborhoods by all the candidates, that there now comes an apparent political move to do just the opposite, to politically destroy the voice of an important neighborhood of Dallas by splitting up District 10.

The community of Lake Highlands has worked and is working hard through our City representative of District 10 and neighborhood organizations to improve a sense of community, property values (think increased tax revenues to the City of Dallas through: increased housing AV in addition to future increased valuations associated with the creation of the Skillman Corridor Tax Increment Financing District, Lake Highlands Property Improvement District and Town Center) in addition to a focus on education and reduction of crime. All this, including the economic developments mentioned above would be in jeopardy through a diluted voice at City Hall.

I see no real reason to redraw District 10 other than to meet someones personal political agenda. If someone needs to redraw District 10 at the risk of destroying or for the purpose of destroying the political voice of and important neighborhood that continues to work hard to provide increased economic growth, living standards and improved education in the northeastern sector of the City of Dallas then we as a community called the City of Dallas are truly in great peril.

I implore you to leave District 10 intact and allow the neighborhood community known as Lake Highlands to continue to have a united voice through District 10's representative.

Sincerely yours,

Bill Morrow

Subject: Redistricting - Especially As It Might Impact the Lake Highlands Neighborhood

I am a 30+ year resident of the Lake Highlands area and understand that there is some discussion in the redistricting process about dividing up what is generally known as the Lake Highlands area. I don't know why redistricting needs to address a neighborhood as distinct and cohesive as Lake Highlands

My kids grew up in this area and the Lake Highlands schools have drawn the community together for many years. We have a wonderful sense of community largely though the schools but also through many other community and civic groups including the YMCA, Lake Highlands Exchange Club, Lake Highlands Women's League, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA, and a large number of other groups, homeowners' associations and other neighborhood groups that have worked tirelessly to improve the Lake Highlands area.

My understanding is that there is a proposal to split up District 10, which would also break up the Skillman Corridor Tax Increment Financing District, The Lake Highlands Public Improvement District, and the Town Center, all of which the community has spent years working on.

I would encourage those overseeing the redistricting process to take whatever steps necessary to leave the Lake Highlands area intact in terms of its representation in Dallas city government. This has been a wonderful neighborhood to live and raise our kids and I would hate to see anything done to separate the various neighborhoods with our Lake Highlands community. I don't think it's broken, so there should be nothing to fix.

For what it's worth, I am part of the Moss Haven Alliance Against Crime.

Thanks for listening.

Please keep Lake Highlands/District 10 intact. I strongly oppose cPlan16 because it would split Lake Highlands. We are a family community with a real feeling of togetherness which should not be changed by redistricting.

Thank you,
Kathy Westfall

Subject: Lake Highlands

When a community works tirelessly for the good of its citizens it is undeniably a "Community of Interest" and is a vital part of the entire Dallas community. Lake Highlands has demonstrated that it represents a diverse group of people, and maintains organizations like the Exchange Club and Lake Highlands Women's League that devote 100% of their efforts to encourage the youth of Lake Highlands to succeed -- and they do. We should not be re-districted into separate districts that change how we will be represented at City Hall. I am requesting that you reject proposed plan cPlan16, and choose a plan that retains unified recognition and representation for the Lake Highlands community.

Subject: keep District 10 intact

I am writing in strong opposition to breaking up District 10 and the Lake Highlands community. Lake Highlands is a strong diverse community in Dallas. The citizens of District 10 work tirelessly with our elected officials to make Lake Highlands a wonderful community for all of it's citizens. The Unity Map that is being pushed by Councilman Domingo Garcia is especially counter productive to LH. Please listen to the citizens of the communities this gerrymandering will affect and keep Lake Highlands and District 10 intact.

Subject: Keep the Lake Highlands Community Intact

Dear Commission Members:

I am writing to you on behalf of the Board of Directors of the Lake Highlands North Homeowners Association to urge your support of a redistricting map that keeps the Lake Highlands community intact within a single Council district and to reject the cPlan16 that divides this community among three council districts.

Our homeowners association lies in the heart of Lake Highlands with our east boundary, Audelia Road; south boundary, Walnut Hill Lane; west boundary, White Rock Trail; and north boundary, Church Road. Lake Highlands High School is located across Church Road directly north of the neighborhood; and the Northlake Elementary School, the Audelia Road Library and Lake Highlands North Recreation Center are located within our association boundaries. Our neighborhood contains 505 homes and the homeowners¹ association boasts over 80% household voluntary participation.

Our Board strongly believes that keeping the Lake Highlands community intact in any redistricting plan is critical to the long-term viability of this community and for the City of Dallas for the following reasons:

·Lake Highlands has been ³a community of interest² for decades and therefore should be maintained in a single district.

·Lake Highlands is ³a close in, close knit and caring community² that feels and acts like a small town, informally known as ³Lake Highlands, Texas² This quality draws newcomers to live in Dallas (i.e. Lake Highlands) rather than the suburbs and provides an economic benefit to the City of Dallas, as well as, revitalization to neighborhoods inside the 635 Loop.

·Lake Highlands is already a diverse community as reflected in its schools, neighborhoods and community organizations.

·Lake Highlands has a community spirit unmatched in other areas as evidenced by the many volunteer organizations such as the Lake Highlands Exchange Club, Lake Highlands Junior Women¹s League and many others that work toward creating a better, stronger Lake Highlands and in turn, the City of Dallas.

In summary, we urge you to support a redistricting map that keeps the Lake Highlands community intact.

Thank you for your service to the City of Dallas and our neighborhood.

Sincerely,

Win Evans, President
Lake Highlands North Homeowners Association

Subject: NO REDISTRICTING OF DISTRICT 10!!!

Ladies and Gentlemen of the Dallas City Council:

In Lake Highlands we continue to enjoy a community feeling. We do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close nit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands high School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity. I remember quite well when Woodrow Wilson was integrated. It didn't need students to be bussed from other areas, because the school was already naturally integrated because of our neighborhoods. That school continues to work to this day.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and are offering support to the schools, parks and people of Lake Highlands. Please look at the scholarships provided last year by the Exchange Club of Lake Highlands and the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts.

Regards,
A.L. Still

Subject: Do not Split us up!

Dear Commission Members'
In reviewing the submissions of redistricting maps I have become increasingly alarmed that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands-virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.
The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work.
To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.

Respectfully,

Janna Gardner, Executive Director

Subject: redistricting: keep Lake Highlands together!

I want to express my concern about the possibility of Lake Highlands being split into two or more zone in the redistricting plan that has been proposed.

Lake Highlands is a community bound together by tradition and by Lake Highlands High School where so many kids attend.

The Lake Highlands Women's League, the Lake Highlands Exchange Club, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA -- and a host of others -- are a vital part of our Lake Highlands community fabric. These groups are actively working for the betterment of our community, and by extension the City of Dallas.

Lake Highlands embraces the diversity that already exists **and works** in our schools and throughout our community, and Lake Highlands is already considered to be a Minority Opportunity District by the City.

The map under consideration that proposes to split up District 10 would also break up the Skillman Corridor Tax Increment Financing District, The Lake Highlands Public Improvement District, and the Town Center, all of which the community has spent years working on.

Please reconsider. Please redraw the map so that Lake Highlands can remain intact, as District 10.

Thank you for your consideration of this important matter.

Sincerely,

Mary Fisher-Warrick
12139 Larchgate Drive, in the Woodbridge Development

Subject: Redistricting

Please consider the following items as you consider changes to the current plan:

1. Keep the Lake Highlands High School attendance zone as a primary consideration.

2. District 10 is already a diverse district and meets the current regulatory requirements.

3. District 10 is currently a Community of Interest and has been for many years.

4. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League, and others have worked with the City of Dallas on programs and have contributed many resources to Parks in District 10.

5. We moved to Lake Highlands years ago from the Denver area because of the "small town feel" within the heart of Dallas. This "small town feel" defines how Lake Highlands has supported city council candidates and redevelopment. This would be lost if redistricting occurred.

6. Lake Highlands has a long history of being a neighborhood where diversity works.

7. District 10 is currently a diverse area - don't break it.

Subject: Lake Highlands

Dear Dallas City Council:

Through different sources I've heard that there's discussion about breaking up Lake Highlands into several different areas/districts (not sure what exactly). Please hear me out.

My family moved here in 1964, when Lake Highlands was just getting started. Much of it was still farm land. We and the other families grew up here, and I'd like to think we helped create the small-town, family feel that envelopes Lake Highlands.

As an adult, my husband and I searched the city for the "perfect" neighborhood. After more than a year of looking, we realized that **Lake Highlands is still THE BEST place in Dallas**! We are a strong, vital part of Dallas, yet feel like our very own small town. We love it this way, and breaking it up may take away all that we've worked for over the past 40+ years.

People move to Lake Highlands specifically for the 'community feel'. **Just ask our new neighbors that moved in last year.** They had been waiting for a house to open so they could live here (we are in the Moss Farm Alliance homeowner's association).

LH traditions are legendary - have you ever been to a Wildcat football game? The tight bond among all residents can be felt every time the Cats take the field.

.

LH residents pour their time and money back into the community through a variety of organizations, including the Lake Highlands Women's League, the Lake Highlands Exchange Club, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA, to name a few. All organizations actively work for the betterment of our community, and by extension the City of Dallas.

LH is considered a Minority Opportunity District by the City, and we embrace the diversity that exists and works well in our schools and communities.

It's my understanding that the map under consideration that proposes to split up District 10 would also break up the Skillman Corridor Tax Increment Financing District, The Lake Highlands Public Improvement District, and the Town Center, all of which the community has spent years working on.

I - we - implore you to not break up Lake Highlands. We have worked hard ever since I was a little girl to make Lake Highlands the community that it is today. **We do not want our district to be divided.**

Thank you,
Tami Cannizzaro, Proud Lake Highlands resident and Wildcat alumni

Subject: cPlan16 Redistricting

Redistricting Committee :

In regard to the idea of splitting up Lake Highlands from District 10 , we feel someone is misinformed on the diversity of our community . All residents that are qualified to vote , can express their views and vote for whom they choose .

Lake Highlands is a proud and unified community , and satisfied with our total balance and want to stay as District 10 , as we have in the past .

It seems to me the only reason for splitting up District 10 as it is now , is for certain election results . In the past we have been fairly equal in our voting , so why change ?

We strongly oppose cPlan16 because it would split up Lake Highlands.

It would compare to putting West Dallas into East Ft Worth , for no reason at all .

Subject: District 10

I am writing you this email to voice my love and concern for this fabulous place my family and I live in, called Lake Highlands. I grew up in Dallas, attended Trinity Christian Academy, and heard od Lake Highlands through friends. After graduating with a Masters in Education, I was hired to teach 4th grade at White Rock Elementary in 1997. At the time my classes were roughly 60% minority, 40% home owners. What I experienced in this neighborhood is what made my husband and I determined to move to this neighborhood, it was the diversity! The homeowners treated the children from the apartments just like they treated their own children. The outreach and inclusion I witness was nothing like I have ever seen.

I have lived all over Dallas as judas was a developer, we even lived in McKinney for a short time in the late 70's, where I experienced that small hometown feeling. Lake Highlands is the only other place I have felt that same "hometown" feeling. This is a community where you actually know you neighbors. I can drive all over LH and I promise that my arm is tired at times from waving. Not tooling ago my husband was unemployed, and we would find gift cards for groceries left anonymously in our mailbox. I seen people pull funds together to take care of a family for Christmas. Another family got a child a scholarship to go to Pine Cove for a week with their child. And yes, these families they are helping are minority. My point is this community takes care of each other no matter race, religion, or economic status. I am a member of the Lake Highlands Junior Women's League (Just one of several organizations whose mission is to help the WHOLE community), and we have raised thousands of dollars to better our parks and recreation facilities for the use of all that live in our area.

Lastly I feel like I should just simply state that I whole heartily do not want our community split! My husband and I chose Lake Highlands to raise our three children because we saw an incredible opportunity for our children to attend school from K-12 with child both like and unlike themselves and how those differences should bring us together NOT divide us!

Sincerely, Angela and Bryan Ponce

Subject: re-districting Lake Highlands

One of the plans you are considering would divide our Lake Highlands district into 3 separate districts. I have lived 34 years in this district arriving in Dallas, Texas in 1977, my children attended Lake Highlands schools, one is employed in this area, I shop in the area and serve on the board of my homeowners association. I have no plans to leave the area.

Below are strong reasons I believe you should consider leaving Lake Highlands as one district.

* Lake Highlands is a Community of Interest and has been a strong, vital part of the city of Dallas for decades
* Our tightly-knit community has a deep, long-standing sense of tradition and is bound together by Lake Highlands High School and all of our great schools at every level
* The love and affection that our residents have for the community is evidenced in part by the many great organizations throughout our area, including the Lake Highlands Women's League, the Lake Highlands Exchange Club, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA, and a host of others all actively working for the betterment of our community, and by extension the City of Dallas
* Lake Highlands embraces the diversity that already exists and works in our schools and throughout our community, and Lake Highlands is already considered to be a Minority Opportunity District by the City
* The map under consideration that proposes to split up District 10 would also break up the Skillman Corridor Tax Increment Financing District, The Lake Highlands Public Improvement District, and the Town Center, all of which the community has spent years working on.

Thank you for your attention to a very difficult challenge placed before you and hope the committee will vote favorably not to split up District 10.

Subject: Please keep Lake Highlands as a single council district

It is my understanding that your Commission is considering a re-districting proposal that would break Lake Highlands into as many as three separate
Council districts.

As a thirty year plus residents of the Lake Highlands community, my wife and I strongly oppoose any redistricting plan that would destroy the community affinity among Lake Highlands residents that has grown over the years. This affinity has been developed and maintained in spite of the city allowing the encroachment of a large number of low and subsidized rent appartment complexes. If the purpose of redistricting is to provide for more diversity among races and economic status of citizens, it is difficult to see how one community could have more diversity than currently exists in Lake Highlands! In spite of these challenges, it is truly amazing that Lake Highlands has been able to maintain its consistenly strong community identity.

In addition, as we are sure that you are aware, the Lake Highlands cummunity is, at long last, seeing positive results from years of efforts to improve the economic base of our community as evidenced by such developments as Town Center on Skillman. This development has been faciltated by the Skillman Corridow Tax Increment Financing District and the Lake Highlandds Public Improvment District. It seems to us that breaking up Lake Highlands into multiple districts at this point, considering the economic development progress and community affinity that has been achieved over the years, would be a disservice to both Lake Highlands and the city as a whole!

We understand that you as a Commission have been given a difficult task. We hope that this input will help you make a sound decision regarding Lake Highlands that will allow Lake Highlands to retain its strong community identity.

Subject: redistrict of Lake Highlands and District 10

My husband and I are opposed to the redistricting of Lake Highlands. We have lived in our home for over 42 years and find that it is a wonderful area to live. Through the years we have seen parks and area's maintained so that all people can play and enjoy the facilities . These things were done by the residents of Lake Highlands, not the city. We are a community that cares about each other and do not see the need to break us apart. There is a saying we all grew up with " If it's not broke, don't fix it". Leave Lake Highlands alone and please concentrate on area's that need help and does not have everyone working together to improve their community and taking care of their needs. We have become a diversified community and becoming more diversified because families want to be a part of a community that cares about each other and will work to improve their community.
Thank you

Subject: Redistricting Commission

To the Redistricting Commission:

The Lake Highlands area of Dallas is a unified community like no other in Dallas. The children and grandchildren of long-time Lake Highlands residents are moving back to the community in which they grew up. To choose this time to divide Lake Highlands is clearly wrong.

cPlan16 would divide Lake Highlands for the sole purpose of creating more Hispanic districts. This is pure racism and would divide a community that has been united for decades.

Kill cPlan16 and keep Lake Highlands in one district.

Expecting your support,

Dr. Lenox Carruth

Subject: Re: Lake Highlands Redistricting

while I appreciate the problems you face with redistricting because of population, I strongly urge you to
leave the boundaries of District 10 out of your considerations for change.

Please keep in mind that "change" does not infer "improvement." And that destroying community unity
is not a Good Thing.

I would like to make the following points
Our tightly-knit community has a deep, long-standing sense of tradition and is bound together by Lake Highlands
High School and all of our great schools at every level.

Examples of our unity include our turnout at the Mayoral Debates and the rally to bring Trader Joe's to the Town Center
and our annual 4th of July parade that rivals any other observance in Dallas.
The love and affection that our residents have for the community is evidenced in part by the many great
organizations throughout our area, including the Lake Highlands Women's League, the Lake Highlands Exchange
Club, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA, and a host
of others all actively working for the betterment of our community, and by extension the City of Dallas
Lake Highlands embraces the diversity that already exists and works in our schools and throughout our community,
and Lake Highlands is already considered to be a Minority Opportunity District by the City

As a homeowner since 1964 I resent the fact that the Dallas Redistricting Board is considering changing the look of Lake Highlands. We have enjoyed our diversity, welcomed all newcomers to our area, and have quietly added to Dallas and the area by many means over the years. We have given and given without expecting nor receiving any acknowledgment or kudos from the Board in the past, and now you think it is your right to encroach your beliefs on us. Now because we have caused no problems, minded our business and taken care of our area and have provided and donated to many causes for years you now see fit to change us. That is uncalled for and does not depict the true meaning that encompasses our area. I believe that the Board could find many other items benefiting Dallas homeowners than this. This redistricting is not called for nor acceptable.

Subject: redistricting of district 10

I am a longtime resident of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides. I am also on of the many folks who grew up in Lake Highlands and have chosen to return to raise my family in Lake Highlands. Being a lifelong Dallasite, I have always been fortunate enough to always experience a sense of community. I too have had the privilege to teach in RISD for the past 20 years.

In Lake Highlands we continue to enjoy that community feeling. We do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close nit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands high School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and are offering support to the schools, parks and people of Lake Highlands. Please look at the scholarships provided last year by the Exchange Club of Lake Highlands and the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts.

Thank you for your consideration of my comments and request and I am so very hopeful that you will not damage an area that works so very well.

Subject: Lake Highlands -- 1 district only !

I think former Councilman Alan Walne's letter below says it all.

The feedback that I am getting from my neighborhood is that it would be a real disservice to the Lake Highlands area for it to be split up into 2 or 3 districts. This is an area that works well as it is. Why mess with a good thing?

Joan Quiett, President

Lake Ridge Estates North Neighborhood Association

Dear Commission Members

In reviewing the submissions of redistricting maps I have become increasingly alarmed that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands-virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.

The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children- because there is a strong feel of community and union. We make diversity work.

To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.

Respectfully

Alan Walne, former District 10 Councilmember

Subject: Proposed redistricting of District 10 - Lake Highlands

Sir/Madam:

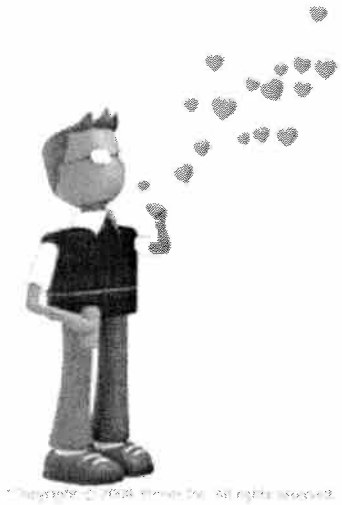

We have been advised that there are plans to break up District 10 (Lake Highlands) into three separate districts. We hope that you do not proceed with this plan. I have lived in five major cities (Chicago, Green Bay, Cincinnati, Houston, Dallas) and never enjoyed the neighborhood I lived in as much as I have Lake Highlands. I moved into the area 31 years ago and my wife and I have owned a residence here for 28 of those years. There is a little bit of everything and everyone in our district. The schools are good, the marketing is excellent, the churches and hospitals are near, and above all, those that live in Lake Highlands take pride in the maintenance of not only their personal properties, but those around them. Please allow us to maintain the integrity of our neighborhood.

Sincerely,

Subject: City of Dallas Re-districting

To whom it may concern:

We were shocked and greatly concerned to hear recently that the Re-districting Commission is considering a plan that would break up the Lake Highlands area into different districts. We moved to the Lake Highlands area in 1973 because of what a tight knit community it was. It was like a small town within a big city even 38 years ago as it is now.

We have watched our area grow and thrive. Our children attended public schools all the way through graduation from Lake Highlands High School. I know that as many of their friends have graduated from college and married they have moved back to this area because of its wonderful qualities. Not only do we live in the area, but we shop and dine here. We are delighted with the new DART station and know that as the economy improves the area will grow with it.

We have always had strong representatives to the City Commission that well represent the desires of it residents. We hope and pray that you will keep our district as one unit and not break it up.

Respectfully,

Richard K Williams

Subject: Redistricting

Dear Ms. Tolliver,

I understand that you are the staff coordinator for the redistricting commission. I would appreciate your sharing this email with the commission.

I appreciate how difficult it must be to draw a redistricting map that is satisfactory to all segments of this wide and disparate city. As a member of the City Plan Commission representing District 12 for almost five years, I also appreciate the long hours and dedication it takes to be a civic volunteer, and I thank you for your service. When I heard that the commission was considering a map in which the Prestonwood neighborhood, where I have lived since 1992, would no longer be a part of District 12, I wanted to write you and give you some additional information.

Within in months of moving into Prestonwood, I became active in the Concerned Cotton Belt Coalition, a group of neighbors who worked closely with our past council members Max Wells, Sandy Greyson, and Ron Natinsky to ensure that concerns of the neighbors would be heard as development of the Cotton Belt rail line proceeded. For those of you unfamiliar with the Cotton Belt, it is a 26 mile long rail corridor owned by DART, extending from DFW airport to North Central Expressway, that cuts through the heart of Far North Dallas, crossing 8 intersections in our neighborhoods, with homes backing up to both sides of the tracks. The line is part of the DART system's 2030 plan, but plans are underway to create a public/private partnership to help finance the line so that construction can begin much sooner. The Coalition sent representatives to Austin to lobby, has met with Congressman Pete Sessions, and is well known at DART. The Prestonwood neighborhood, with 1027 homes, is the largest neighborhood in the Coalition, with the most homes impacted by the Cotton Belt rail line. The Coalition has been successful in keeping our concerns at the forefront because all of the affected neighborhoods are in the same council district. If the affected neighborhoods were to be split between council districts, the impact of our citizens on our council member is diluted. We are at a very critical juncture right now; in fact on Monday night there will be a DART meeting concerning the Environmental Impact Study that has been proceeding along the Cotton Belt. It is imperative that all Dallas neighborhoods affected by the Cotton Belt be in the same district. Ensuring that the Cotton Belt is implemented in accordance with the Natinsky Plan (the compromise plan for responsible development along the corridor adopted by the Dallas City Council after 14 years of negotiations) is the major development issue affecting District 12 for the foreseeable future. Splitting our Coalition between council districts could severely weaken our strength at a time when we must be united.

I thank you for your time and consideration.

Sincerely,

Sally B. Wolfish

RE:Lake Highlands proposed change
FROM:Susan Thomas

As the old saying goes "If it ain't broke don't fix it". I have lived in the Lake Highlands area since 1993. My husband grew up in Lake Highlands. It is an excellent example of an community existing within a large city. I have been a member of the LHENA for many years and have watched the board members work countless hours on continuing efforts to meet the needs of all persons in District 10. They welcome anyone to attend meetings and provide input for making our neighborhood a better place to live. They keep us updated on crime, business development and continuing improvements provided by the many organizations within district 10. From what I read in the Advocate and other publications all of the homeowners associations work in this same manner. Another old saying "Strength in numbers". If District 10 is broken up you will have smaller fractured areas with fewer resources. Please be thoughtful and diligent when considering this change.

Subject: Redistrict Proposals for Distict 10

Importance: High

I am opposed to splitting up the current District 10 that encompasses the attendance zone of Lake Highlands High School(LHHS). I have lived in Lake Highlands(LH) most of my life, attended LHHS and both of my daughters attended LHHS. What has kept me in LH is the sense of community unlike any other area in Dallas and the suburbs. Our community has a long-standing sense of tradition and is bound together by LHHS. This is what has kept me and most of the residents of LH from the flight to the suburbs.

The love and affection that our residents have for the community is evidenced in part by the many great organizations throughout our area, including the Lake Highlands Women's League, the Lake Highlands Exchange Club, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA, and a host of others all actively working for the betterment of our community, and by extension the City of Dallas.

LH embraces the diversity that already exists and works in our schools and throughout our community, and Lake Highlands is already considered to be a Minority Opportunity District by the City.

The cPlan 16 map under consideration that proposes to split up District 10 would also break up the Skillman Corridor Tax Increment Financing District, The Lake Highlands Public Improvement District, and the Town Center, all of which the community has spent years working on.

Please allow us to keep our little town intact!

Subject: Redistricting Committee

Attention: Redistricting Committee

My name is James David Gray and I am the President of the Oaks on the Bend Homeowners Association. We are a condominium complex that consists of 250 units and we are located at 7340 Skillman Street.

Our board and homeowners have received news of the possibility of the redistricting committee splitting Lake Highlands and have viewed some of the proposals that would split Lake Highlands into 3 different districts. Oaks on the Bend would like our voice heard as a strong opposition to any of these options.

Being as Oaks on the Bend is located right on Skillman street, our organization as well as the community has spent years working to support the Skillman Corridor Tax Incitement Financing District, The Lake Highlands Public Improvement District, and the Lake Highlands Town Center, in which splitting Lake Highlands would in our opinion have a negative impact.

Lake Highlands is already one of the most diverse districts in the greater Dallas area and deserves to remain united as one community. That old saying "If it aint broke don't fix it".

Lake Highlands is also bound together by Lake Highlands High School and the proposed new Lake Highlands Town Center. This two very strong landmarks should be considered as the epicenter of the district not divided or even cast to the outskirts of one district or another.

We understand that the commission is comprised of a large group of people who are charged with the very difficult task of taking this 10 year census information and working to layout new district boundaries that work for the greater good for all. We at Oaks on the Bend would just like our opinions and concerns recognized and considered before any decisions are made.

Thanks again for all you do.
Sincerely;

James David Gray
President - Oaks on the Bend Homeowners Association.

Subject: District 10

Splitting up District 10 would be a travesty for our Lake Highlands community. We are a multi-cultural area with our residents representing a wide range of socioeconomic status. One of the positive components of living and raising a family in Lake Highlands is the diversity that 'is' our community. In Lake Highlands, we feel that our children are growing up outside the 'bubble' in our little slice of real life.

Please do not modify the boundaries of District 10.

Subject: Keep Lake Highlands intact in District 10

We enjoy in Lake Highlands and District 10 a very strong sense of community. The primary reason I live in this area is for the excellent schools as part of RISD as I have 3 children in school. Two at White Rock Elementary and one at Lake Highlands HS. I am Dallas native and feel very fortunate to have found this area of the city and want my children to continue to experience the strong sense of community that Lake Highlands offers.

In Lake Highlands we do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close nit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands High School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district.

District 10 is a diverse community and has been so for many years. It is unnecessary for the Council District to be changed to create diversity, because it already exists in our community. We welcome and feel blessed by that diversity.

Lake Highlands also has numerous Civic Organizations that are committed to serving the community and offer support to the schools, parks, and people of Lake Highlands. Please take note of the scholarships provided last year by the Exchange Club of Lake Highlands and the broad diversity of those students.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not destroy that community by dividing our District and neighborhoods into several districts.

Thank you for your consideration of my comments and request and I am very hopeful that you will not damage an area that works so very well.

Sincerely,

I respectfully submit my opinion that I would not want the Lake Highland District divided into thirds via redistricting . My husband and I have lived here for over 30 years and have raised three children in Lake Highlands schools. This community is united by Lake Highlands High School. Although we have great diversity of differing people, we are united in our love for Lake Highlands. It behooves us to continue to be in one district, NOT DIVIDED.

Thank you,

Subject: Re-districting commission - letter request

Dear Re-districting Commission:

I would like to please take a few moments to make my opposition to this potentially very harmful proposal. I live in the Woodbridge neighborhood, and I oppose the redistricting of District 10 because of the following:.

- Lake Highlands is a Community of Interest and has been a strong, vital part of the city of Dallas for decades
- Our tightly-knit community has a deep, long-standing sense of tradition and is bound together by Lake Highlands High School and all of our great schools at every level
- The love and affection that our residents have for the community is evidenced in part by the many great organizations throughout our area, including the Lake Highlands Women's League, the Lake Highlands Exchange Club, the Lake Highlands Junior Women's League, the Lake Highlands Area Early Childhood PTA, and a host of others all actively working for the betterment of our community, and by extension the City of Dallas
- Lake Highlands embraces the diversity that already exists **and works** in our schools and throughout our community, and Lake Highlands is already considered to be a Minority Opportunity District by the City
- The map under consideration that proposes to split up District 10 would also break up the Skillman Corridor Tax Increment Financing District, The Lake Highlands Public Improvement District, and the Town Center, all of which the community has spent years working on
- Also, please note which HOA or neighborhood group you lead, and how many residents/homeowners are represented by such

Thanking you for your consideration,
Rick Cohen.

Subject: redistricting

Dear Commission Members,

My husband, Jeff, and I live in Lake Highlands and have raised four children in its public schools. Our youngest son, Nick, is currently enrolled as a junior at Lake Highlands High School. I am concerned that some of the redistricting proposals will redefine District 10 with no consideration for the special community or "home town feel" that is present in Lake Highlands. I strongly oppose such redistricting. Lake Highlands (which is basically all of District 10) is a unique community which has a small town feel within the heart of a large city. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city (with a majority minority), and we make it work because we are a community, and we work together for the good of all in the neighborhood.

The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands High School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work.

To carve up Lake Highlands would be a huge mistake. Please consider our request and make the decision NOT to change the Lake Highlands District 10.

Sincerely,

Crysta Jones

Subject: Fw: Lake Highlands Re-Districting Proposal - PLEASE ... only 1 high school in Lake Highlands!

The current District 10 alignment has worked well for many, many years, mainly because of the common bond shared throughout the district - Lake Highlands High School. Our district is blended culturally and ethnicly, in main part because we are a single high school district. That translates in a small town feel throughout, without turf disputes or fighting over which high school is better.

As a council you are charged with making the best possible decisions for our neighborhood communities, and dividing up the Lake Highlands High School into more than one attendance zone should run counter to your charge.

PLEASE ... only 1 high school in Lake Highlands!

Subject: Fw: Redistricting - Lake Highlands Area

From:Jeri Johnston jerijohnston@sbcglobal.net
Date: Friday, August 5, 2011, 10:42 AM

The area of Dallas known as "Lake Highlands" is a community in its own right and should be recognized as a "Community of Interest" by the 2011 Redistricting Commission.

This Community , the current District 10, has experienced significant demographic and economic changes that have improved the sense of Community within "Lake Highlands". It has become more diverse, in terms of economic measures, ethnicity and age, yet all its members are encouraged to feel that they have their place and voice in the activities that are available within this wonderful community .

I urge you to put forth a redistricting plan that maintains the area of Lake Highlands as represented by a single city council member, rather than any plan that splits our community among several districts and several representatives. We especially ask that you **NOT support cPlan16** because this plan, rather than Unifying, fragments a community that has heretofore remained, and promises to continue to remain, one with a very strong sense of COMMUNITY.

Subject: District 10

To the Redistricting Committee:

I am sending this email to support retaining the current boundaries for District 10. I oppose any attempt to break up the Lake Highlands community into different council districts.

My family has resided in Lake Highlands (District 10) for 21 years. When we moved from California in 1990, we looked at houses all over the northside of the Dallas area (Coppell, Plano, Richardson, North Dallas, and Lake Highlands) before we finally settled on a home in Lake Highlands. We were initially attracted to Lake Highlands and have remained in Lake Highlands for the following reasons:

1. Strong schools: I am a big believer in public schools, and the academic reputation of the Lake Highlands schools and RISD was a key consideration in our decision to move here. And, it has been a key consideration in our decision to stay and raise our sons in LH.
2. Strong sense of community: Lake Highlands is like a city within a city. It is a unified group of neighborhoods, and the glue that holds those neighborhoods together are the schools that feed into Lake Highlands High School. Even the private schools in Lake Highlands contribute to that "glue" because their graduates frequently go on to attend LHHS. The civic groups within Lake Highlands, such as the Exchange Club of Lake Highlands and the Lake Highlands Women's League, serve to reinforce that sense of community. Community leaders in Lake Highlands have rallied local support to make substantial improvements to our community as evidenced by the development of the Lake Highlands Town Center within the Skillman TIF and by the local marketing campaign to bring Trader Joe's to the Lake Highland's Town Center.

Breaking up representation of Lake Highlands and District 10 within the Dallas City Council is ill advised. Please keep the unified representation of the Lake Highlands community on the Dallas City Council.

Doug Rabe
9923 Capridge Drive

Dear Commission Members'

In reviewing the submissions of redistricting maps I am outraged that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands-virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way.

Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.

The Lake Highlands Jr. Women's League, I which I'm a former member, has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League are two very worthy organizations that have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work here in Lake Highlands.

To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.

Respectfully,

Ellen Bryant

President

Town Creek Homeowners Association

Redistricting Committee —

Please leave Lake Highlands alone.

Change for change sake is a waste of time.

1. We are diversified —
2. We have worked together to keep the area productive for the city.
3. Our schools are close by + supported by the area.
4. We don't complain to the city regarding problems - We work out solutions.

The less interference from those outside the area (who don't understand the problem) the better.

* We don't want to be political pawns for this committee or the City Council.

Larry + Dorothy Ferguson
45 year residents + taxpayers

Fax : (214) 670-5798

Redistricting Committee:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works.

Please don't destroy that!

Craig and Kay Wheeler, 10110 Ivygate Circle, 75238

Redistricting Commission Public Testimony Received From Bill Betzen and Randall Bryant

Redistricting Commission Documents Received from Randall Bryant August 4, 2011

August 4, 2011

Dr. Ruth Morgan – Chair
City of Dallas
Redistricting Commission
1500 Marilla Street
Dallas, TX 75201

Madam Chair Morgan:

I would like the record to reflect the following comments made by Commissioner Elizabeth Jones of District 13 on August 2, 2011:

1. Under Commissioner Jones' own testament, she stated, "I have asked and quite frankly it's only been of young people, people typically under the age of 30 if not 25 education just as a matter of reference, and also because we had testimony from people from Eastland College that they were working with the GIS program and as you know UT Dallas also has GIS programs, so my curiosity when I see someone drawing maps or taking a proactive interest in our process it's always to ask whether they are doing that in concert with our Universities. So realistically I was not trying to in anyway challenge our young man capabilities, in fact I was very impressed, with what Mr. Bryant presented to us."

This however is false, I have notated in Exhibit A all questions asked by Commissioner Jones to each map presenter that has appeared before this commission and not one has been asked that question.

2. Under Commissioner Jones' own testament, she state, "My raising of the issue of Mr. Bryant's political background came from two things. Number one in his own testimony he pointed out that he had learned about the city through active political grassroots and other related work. He was very clear in stating that. The second is that he did not reveal to us even though I asked him if he was a paid political worker the nature of that work and differentiating that all of us would have the opportunity to do it as a matter of our personal right a democracy versus somebody who is a paid political advocate that was my point.

After reviewing my quite hostile dialogue with Commissioner Jones' I did in fact state that I have ran Phone Banks and Walk Programs and that I have been paid to do so, however I have never been paid as a Political Consultant. For her to continue to insinuate that I did not reveal the nature of my work is a complete lie.

3. ...Mr. Bryant is related to Kathy Nealy and I don't want to, I mean there is an investigation going on I don't, we don't and none of us know what's going on really. But as a matter of public record that is a material fact. And that is something that needs to

be disclosed. So I did not want to be the one raise something that I didn't have an answer to. I did not know his relationship, he never revealed it to us, but it is a matter of public record.

For the past year I've had the pleasure of sitting on a City of Dallas Board, the South Dallas Fair Park Trust Fund Board and I am registered with the company I work for as a Lobbyist with the City of Dallas. In those capacities yes my professional and personal information is a matter of public record. However, as a citizen of the City of Dallas, in the capacity of authoring and presenting a map for my vision of our great city, my education, professional and personal information is not a matter of public record for material fact, and should not be disclosed.

Although I have been quite disappointed in the actions taken by some Commission members, rest assured that I have not been discouraged.

Sincerely,

Randall Bryant
District 5 Resident

August 2, 2011

00:06:50 - 00:10:17

I have asked and quite frankly it's only been of young people, people typically under the age of 30 if not 25 education just as a matter of reference, and also because we had testimony from people from Eastland College that they were working with the GIS program and as you know UT Dallas also has GIS programs, so my curiosity when I see someone drawing maps or taking a proactive interest in our process it's always to ask whether they are doing that in concert with our Universities. So realistically I was not trying to in anyway challenge our young man capabilities, in fact I was very impressed, with what Mr. Bryant presented to us.

That being said, so that indeed the motion being said is not correct relevant to the facts and the evidence of the record. The second point I would just raise for purposes of this commission, is that you know when I heard the discussion I guess I was somewhat taken back. We as a body have to ask questions and sometimes they are questions that are uncomfortable. My raising of the issue of Mr. Bryant's political background came from two things. Number one in his own testimony he pointed out that he had learned about the city through active political grassroots and other related work. He was very clear in stating that. The second is that he did not reveal to us even though I asked him if he was a paid political worker the nature of that work and differentiating that all of us would have the opportunity to do it as a matter of our personal right a democracy versus somebody who is a paid political advocate that was my point. And that was the point that I tried to make sure he understood and he answered. I was somewhat challenged that Commissioner Hasan would take issue with that, because that's a matter of disclosure and it is something that this body has a right to know. I think that even more directly it had come to my attention that Mr. Bryant is related to Kathy Nealy and I don't want to, I mean there is an investigation going on I don't, we don't and none of us know what's going on really. But as a matter of public record that is a material fact. And that is something that needs to be disclosed. So I did not want to be the one raise something that I didn't have an answer to. I did not know his relationship, he never revealed it to us, but it is a matter of public record.

Subject: Redistricting Plans

I am writing to let you know how I feel about proposed redistricting plan cPlan16 and what it would do to my home district, District 10. **I strongly object to the adoption of this plan .**

My family has lived in Lake Highlands for 30 years. District 10 is currently, and has been for many years, an area that considers itself a true community that reflects and appreciates its diversity. Lake Highlands High School's enrollment shows that diversity with 39.1% African Americans, 21.9% Hispanics, and 35.9% Anglos (2009-2010). The community prides itself with organizations that embrace the community's diversity with its very active Lake Highlands Exchange Club and Lake Highlands Women's League, both of which have spent hundreds of thousands of dollars providing college scholarships to students of all ethnicity and income status and supporting the maintenance and support of the local recreation center, just to name a couple of examples. These organizations helped pay for a new water park at the recreation center enjoyed by persons of all color and therefore enhanced city property at no cost to the City. The community has its own parade on July 4. People in the area attend high school football games even when they don't have kids at the school because there is a huge sense of pride in the community --just the sort of thing our city council should be looking to create with its districts--people who care about where they live and have enough pride in it to support it with their time, money and improvement efforts. This is what happens in Lake Highlands and would be destroyed by breaking District 10 into several pieces as would happen if this plan is adopted.

We have the population equality already and we are clearly a community of interest. How many Districts have their own street signs such as are in Lake Highlands, or have T-Shirts that say something named after their community like " Lake Highlands, Texas"? We are a strong community that is a true asset to the City of Dallas. Please don't destroy what has been built over 50 years with a poorly thought out and divisive plan such as has been presented with cPlan16.

Thank you.

Subject: Do Not Divide Lake Highlands!

To whom it may concern-

I am writing you as a concerned Lake Highlands resident and voicing my adamant opposition to the proposed redistricting efforts currently being reviewed by City Hall. Primarily, Commissioner Garcia's supposed "Unity Map" also known as cPlan16. As a resident of Lake Highlands, I could not be more concerned, and quite frankly outraged, that our government leaders would even entertain such a proposal.

To call this a "Unity Map," is an insult to the collective intelligence of all parties involved. This proposal is a product of politics and race. Period. One led by a Commissioner who is less concerned about the greater good of an entire community and more concerned about garnering votes. How many 4th of July parades has Mr. Garcia attended? How many Wildcat football games has he attended? How often does he frequent Highlands Cafe or play at one of our parks or attend our Homeowners Association Meeting? I would ask the same of Mr. Love and Mr. Ratcliff.

Scratch that. I already know the answer.

You have undoubtedly received hundreds of emails explaining the long history of diversity this area has enjoyed. I have no doubt that these emails have included the fact that our area organizations, such as the Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.

I'm sure our fine residents have spoken of our small town feel, the caring, pride and ownership we feel towards this area and the efforts many of us have made to spur economic development, civic pride and improving the community any way we can.

This is not about "keeping others out." It's about embracing and supporting the close-knit community that has been building itself up for over 30 years. It's about ensuring that those who care most about the betterment of this community, the ones who know it best, the ones who have built it and continue to build it are heard.

But above all else, I implore you to keep the attendance zone of Lake Highlands High School as the primary consideration point for this effort. The strength of our schools is due in large part to the involvement of our parents. Parents who love this community. Parents who are involved. Who know each other, watch each other's kids, take them to school, etc. This is yet another benefit and result of having a close-knit community. Expanding it does not diversify, it isolates.

Lake Highlands is a community. A diverse one at that. A community loved and defined by those who live here. And as one of those residents, it is appalling that those qualities that this entire city so desperately needs would be ignored and cast aside for an expansion that does nothing but divide businesses, friends, neighbors and classmates.

The proposed areas in question (Little Forest Hills in particular) are wonderful areas. My wife and I had both of our sons while living in that area. We spent almost 10 years there. But, speaking from experience, it's no Lake Highlands.

There is a difference between a collection of people who live in the same area and a "community." Perhaps Commissioners Garcia, Love and Ratcliff are unaware of this fact. Judging by their current actions, it's clear that they are. I can find no other explanation as to why a group of supposed "leaders of the community" are so intent on casting a blind eye to a vocal majority in order to appear "diverse" and "unified" to their constituents.

Do not divide Lake Highlands. Unless you and the rest of the commissioners take some sort of satisfaction in killing the spirit of a community that is one of the few bright spots in this city. So, instead of finding ways to extinguish these sparks, perhaps all involved should look for ways to encourage it and look to the surrounding areas to follow the example.

I appreciate your time and consideration in this matter.

To: reDallas11
Subject: Lake Highlands redistricting
Importance: High

We are strongly opposed to the cplan16 Mr. Garcia has proposed to the redistricting commission. It is totally opposite from unifying – he is out to destroy Lake Highlands. We have literally grown up in Lake Highlands, as have our children. We are now retired. We celebrate the diversity of our community, and there are many civic organizations that work tirelessly to improve the quality of life for all the citizens of Lake Highlands. The fact that Mr. Love is serving on the commission is CLEARLY a conflict of interest. He is chief-of-staff for Mr. Garcia's wife, Dr. Elba Garcia.

Subject: Redistricting

Dear Dallas Redistricting Committee,

My wife, Rachel, and I moved to the Lake Highlands 4 years ago because we greatly appreciated the unique feel of the community in a big city like Dallas. We felt at home with the diversity in the district while at the same time feeling adequately represented by city and state officials. We are currently deeply concerned about proposals to split Lake Highlands into three different districts. Lake Highlands is a strong community that has a local, small-town feel with "real" people. It offers a unique option to Dallas residents seeking to live in the city, but wanting a low-key, down-to-earth lifestyle. Many Lake Highlands organizations have worked closely with the city to improve parks and other aspects of district 10. By breaking up the district, the unity of Lake Highlands as exemplified in these organizations, will be fractured as well as the example of how diversity can work in a big city.

We ask with all earnestness for you to please keep District 10 intact.

Respectfully,
Stephen and Rachel Breeding

As a resident of Eastwood Hills, I currently reside in District 7, South of Ferguson Road and North of Interstate 30. I urge you to strongly consider a redistricting plan that would include my neighborhood with other East Dallas/White Rock Lake communities North of Ferguson Road.

I urge you to oppose any plan based on the old District 7 plan which does not reflect today's requirements for compactness and the need to keep area communities together.

Thank you for your consideration.

To: reDallas11
Subject: Keep Lake Highlands intact in District 10

Dallas Redistricting Committee:

I don't know if this decision has already been made but I want to make it clear that my desire is to keep district 10 intact and NOT split it up among other adjacent districts. I see no reason legitimate reason to break up our community's representation and dilute our interests with other areas who do not have vested interest in Lake Highlands neighborhoods. It is difficult enough to maintain priorities for our neighborhoods and our current representation / district seems to be drawn appropriately.

Please pass this along to any & all appropriate persons who will be making this important decision on behalf of the voters and property tax paying members of the Lake Highlands Community.

I would like a reply to this email please.

To: reDallas11
Subject: Approve of Plan C-16

Approve of Plan C-16

Certain states have had a history of racial barriers to voting. These practices have been carried on to local levels like city council districts. One barrier has been outdated, gerrymandered or other malformed voting districts that disenfranchise voters via packing, stacking or other means.

Due to the rapid increase in Latino population, city council representation has come to lag their new numbers.

Forty-two percent of the people in Dallas are Hispanic or Latino, but they now hold only three city council positions. A correct number of government representatives should contain at least five members of the city council from this group.

Dallas's redistricting committee has the ability to remove barriers to representation that Hispanic or Latino people have faced.

I urge the commission to enact a redistricting plan that has districts arranged in a configuration that would permit the Hispanic/Latino electorate to choose one of their representatives on Dallas' city council.

The correct plan should distribute the population so that there would be five opportunity districts for Latinos. It is time to repeal taxation with no representation for Latinos in Dallas, now in 2011. Approve of Plan C-16; it would accomplish what this city needs to best serve all of Dallas.

Subject: Opposition to the "Unity" Map (cPlan16)

From: Valerie Hill/Chris Wilmoth [mailto:hillmoth@yahoo.com]
Sent: Tuesday, August 09, 2011 7:35 PM
To: reDallas11
Subject: Opposition to the "Unity" Map (cPlan16)

To Whom It May Concern:
As a Lake Highlands resident and parent I strongly oppose the proposed Unity Map (cPlan16). This plan does not take the needs or best interests of our thriving community into consideration, but only serves a personal political agenda. The whole reason we looked for and purchased our home in Lake Highlands was because the schools in District 10 were so strong and provided a quality education. It turns out we got that and so much more from our decision. This is a very close and supportive community. People constantly remark that living in Lake Highlands feels like living in a small town snuggled down inside the big city. People that grew up here may move away for college and first jobs, but a large majority of them find their way back here to purchase homes and raise families. This is an extremely stable neighborhood where home prices have held stead for the most part when other areas of the city plummet. When meeting with the design planners for the Town Center the presenters told attendees that Lake Highlands has something very special and very rare, something they have not seen in other large cities and we should consider ourselves very lucky. Tearing Lake Highlands apart in the name of "unity" when that is exactly what we have now will turn out to be detrimental to the very things that make Lake Highlands one of the jewels of Dallas.

Sincerely,

Valerie Hill

Sent: Tuesday, August 09, 2011 3:09 PM
To: reDallas11
Subject: FW: Lake Highland Re-districting

Dear Redistricting Committee Members:

I have been a City of Dallas resident and taxpayer since 1973. In that time, I've lived in several different neighborhoods in this city, but *none* have impressed me more than my 15 years as a resident of Lake Highlands. This area is profoundly defined by the economic and geographical walls of LBJ on the north, Plano road on the east, NW. Highway and White Rock Lake on the south, and west to the Greenville Ave. It's a bedroom community of medium income homeowners, with a strong connection through neighborhood churches, schools, and volunteer organizations. And we benefit from a huge parent-teacher commitment to the schools feeding into Lake Highlands High School. As a result of these very real boundaries and neighborhood focus, Lake Highlands is not just a "neighborhood" but is uniquely "its own small town". All of the residents of Lake Highlands would agree with this assessment.

Splitting this coherent group of homeowners into different districts would be a great disservice to the city, and to our neighborhood. Our neighborhood is ethnically and politically diverse, and we share very strong values of family, community, and cooperative urban life. Lake Highlands hosts dozens of Boy Scout, Girl Scout, Little League, and YMCA youth programs that reach thousands of NE Dallas youth, many of whom upon graduation from college, marry, and bring their spouses back to Lake Highlands to raise their new families in our neighborhood. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.

I urge you to keep District 10 intact.

Regards,

Subject: Lake Highland Re-districting

Dear Redistricting Committee Members:

I have been a City of Dallas resident and taxpayer since 1976. In that time, I've lived in five different neighborhoods in this city, but *none* have impressed me more than my 15 years as a resident of Lake Highlands. This area is profoundly defined by the economic and geographical walls of LBJ on the north, Plano road on the east, NW. Highway and White Rock Lake on the south, and west to the Greenville Ave. "greenbelt". It's a bedroom community of medium income homeowners, with a strong connection through neighborhood churches and volunteer organizations, and huge parent-teacher commitment to the schools feeding into Lake Highlands High School. As a result of these very real boundaries and cultural focus, Lake Highlands is not just a "neighborhood" but uniquely "its own small town".

Splitting this coherent group of homeowners into different districts would be a great disservice to the city. District 10 is *not* gerrymandered in any way. It is ethnically rich and politically diverse in its opinions, but is joined by shared middle-class values of family, community, and cooperative urban life. Lake Highlands hosts dozens of Boy Scout, Girl Scout, Little League, and YMCA youth programs that reach thousands of NE Dallas youth, many of whom upon graduation from college, marry, and bring their spouses back to Lake Highlands to raise their new families in our District. Lake Highlands High School has many faculty who grew up in Lake Highlands and have come back to serve Lake Highlands as teachers. The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10.

I urge you to keep District 10 intact.

Subject: Lake Highlands redistricting

Please do not divide the Lake Highlands area into different districts. We are a very unique community with much diversity. The community organizations work to support the LH area. Much of the community life revolves around the schools in the LHHS attendance zone. Breaking apart our representation would negatively impact the many projects supported by the people of this community including the LH Town Center. Thank you for your consideration.

I'm opposed to the cPlan16. This does not meet the Mayor's goals and appears to be solely self-serving by Domingo Garcia. Using Northwest Highway and a boundary makes sense from not only the schools, but geographically as well. The proposed boundary seems to have no rhyme or reason.

Caleb Thornhill, Lake Highlands

Subject: Redistricting 2011 - Keep District 10 intact!

Dear Sir or Madam. I am writing to day to express my concern regarding a possible redistricting Plan that will split the Lake Highland neighborhood into 3 different districts. I believe for many reasons it is important to keep District 10 in tact as it currently is. Some of these reasons inlude:

- The Lake Highlands High Scool Attence Zone should be kept in tact.
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Thank you

Subject: Don't split of district 10 - Lake Highlands!

Dallas Redistricting Committee:

I don't know if this decision has already been made but I want to make it clear that my desire is to keep district 10 intact and NOT split it up among other adjacent districts. I see no reason legitimate reason to break up our community's representation and dilute our interests with other areas who do not have vested interest in Lake Highlands neighborhoods. It is difficult enough to maintain priorities for our neighborhoods and our current representation / district seems to be drawn appropriately.

Please pass this along to any & all appropriate persons who will be making this important decision on behalf of the voters and property tax paying members of the Lake Highlands Community.

I would like a reply to this email please.

Subject: Keep District 10/Lake Highlands Intact

To whom it may concern,
I was pleased to read in Lake HIghlands today that emails supporting the Lake Highlands community by opposing re-districting were shared in the first meeting about cPlan16. I am writing to request an update on the situation and to reiterate my belief that Mr. Garcia's plan, while perhaps written with the best interest of West Dallas citizens in mind, is potentially very destructive to our northeastern Dallas community.
I appreciate the Lake Highlands residents who are able to address this issue in person at this time, and hope to be able to more fully participate in this discussion when I return from business out of town.
Thank you,
Robin Korevaar

Subject: re-districting Lake Highlands

Dear Re-districting 2011 Commissioners:

Thank you for your service on the Commission. We recognize that the re-districting process you are charged with is a very difficult, detailed , and arduous task, and you are to be commended for your service to the City of Dallas.

As president of the Lake Highlands Area Improvement Association (LHAIA), I am writing to address a re-districting map currently under consideration by the commission that would take the unprecedented step of separating Lake Highlands into three separate city council districts and impact our representation at City Hall in an extremely negative manner. The LHAIA and its membership, which consists of approximately 34 separate homeowner's associations, crime watch groups, and other neighborhood associations throughout Lake Highlands, and together represents the vast majority of homeowners in the area, is overwhelmingly opposed to this proposal, known as cPlan16. The LHAIA has received more feedback on this issue than virtually any other in the short amount of time since cPlan16 came to light, and every single person or group we have heard from is vehemently opposed to this radical re-mapping of our district. Indeed, at your meeting I attended on the evening of Thursday, August 4th, a 4-5" stack of paper was introduced at the beginning of the meeting by the commission's chairman, and she noted that the paper represented copies of emails sent to the commission, "all but 4 or 5 of which are from District 10". I can all but guarantee the commission that virtually every email received from Lake Highlands is adamantly opposed to cPlan16, and I believe the commission would be wise to pay heed to such a loud voice of dissent from the residents who would be impacted by this plan.

Lake Highlands has long been recognized as a strong, vital part of the City of Dallas, and is an area with a tightly-knit, small town feel and a strong sense of community that is not typically found in large, urban areas. Lake Highlands has usually been defined by the same boundaries as the attendance zone of Lake Highlands High School, and this fantastic school is one of the cornerstones of the community and one of the things that brings its residents together, as well as the great schools at all levels throughout Lake Highlands. Lake Highlands boasts a number of strong, community-wide organizations, like the Lake Highlands Exchange Club and the Lake Highlands Junior Women's League, that have worked hand in hand with the City of Dallas on a number of charitable programs to enhance and improve the quality of life in Lake Highlands , including donating hundreds of thousands of dollars to parks in District 10.

Lake Highlands has been an established neighborhood for years, yet boasts a diverse group of residents of all races, ethnicities, age groups, and income levels. As you are aware, Lake Highlands is a minority-majority district, and is a living-breathing example of a place where diversity not only exists but works quite well at all levels throughout the neighborhood, and is already considered to be a **Minority Opportunity District** under the City and the commission's own definition.

To cite the own words of the commission and the City of Dallas, one of the objectives of the commission states that "**communities of interest shall be maintained in a single district**". I think this is the credo that's been applied to the drawing of district lines around Lake Highlands for decades, and is part and parcel of the reason we've managed to keep our community intact in terms of city council representation for such an extended period. If in fact the city's own words about keeping "communities of interest" are meaningful, then Lake Highlands ought to be at or near the top of the list of such areas.

For decades, Lake Highlands has largely maintained and refined its status as one City Council district, and allowing this map further consideration would tear apart decades of work. In addition, the map under consideration that proposes to

split up District 10 would also break up the Skillman Corridor Tax Increment Financing (TIF) District, The Lake Highlands Public Improvement District (PID), and the Lake Highlands Town Center, all of which the community has spent years working on to create, and all of which are still in their early stages or have yet to come to fruition, and it is imperative that all three need remain in one district to make sure that they can continue to grow and re-vitalize our area.

Great cities start with great neighborhoods, and I urge the commission to help keep Lake Highlands a great part of the City of Dallas by keeping our representation on City Council intact.

Regards,

Scott Wynne,
President, Lake Highlands Area Improvement Association

Dear City Manager Suhm and Members of the Dallas City Council,

Thank you for your continued service to the City of Dallas and the citizens. We greatly appreciate your dedication especially given the challenges of the past few years and the difficult decisions you have faced.

In terms of the various options for districting that you are seeking to determine, we ask that you PLEASE do not split up Lake Highlands as it currently stands. Lake Highlands is a great example of diversity and community spirit. There are many improvements that have been made in the past ten years and we fear the changes in boundaries of our district would create a negative impact and likely reverse the progress Lake Highlands has been striving to develop.

Thank you for your time and consideration.

Sincerely

Rich & Becky Paterik

Subject: Re-districting

To whom it may concern,

I recently read an article from Lake Highlands Today about a potential breakup of the current District 10. I am a current resident of District 10 and find this very troubling. I am originally from a small town outside of Wichita Falls and moved to Dallas after graduation from Texas A&M. I can account from both my experiences from my hometown and my time in college that community involvement is what makes that community. The amount of community within my neighborhood of Moss Farms is simply amazing. I often hear from people from my hometown their misunderstanding of Dallas. They feel it's a city where there is no community involvement, crime on every corner and traffic on every street. From taking a quick glance through the Dallas Morning News I can see why, but that's not my feeling of Lake Highlands. My mother-in-law had those same feelings when we moved into Dallas, but since staying with us several times and meeting our neighbors and community she now feels differently. From the first day my wife and I moved into our home we have thoroughly enjoyed our Moss Farms neighbors and Lake Highlands community. We enjoy each other and look out for each other. I love being apart of the Moss Farms Alliance Against Crime. We are a strong community that has involvement from every homeowner in the area. I feel a sense of pride within all of Lake Highands and feel the need to support my community. I will often choose restaurants such as Mi Cocina and Picasso's in lieu of other restaurants just to show my support.

I truly believe Lake Highlands is a very unique part of Dallas and to break that up would be a disaster.

Subject: Comment on City Council Districts

Dear Members of the Commission,

Ten years ago I had the opportunity to serve on the Redistricting Commission that created the current district structure. It was a challenging and rewarding experience, and I thank the current commission members for agreeing to serve.

Back then, we worked very hard to ensure that Lake Highlands could continue to thrive, as it had for over 20 years, through the cooperative efforts of the City of Dallas, RISD, and a large number of community organizations.

Hopefully the Commission will recognize the importance of the LH community to the City of Dallas and develop a plan that allows it to continue.

I am 62 years old and have lived in Dallas all my life. I have lived in Lake Highlands for 32 years. I lived in Parkdale(east Dallas) for 21 years and Pleasant Grove for 9 years.
I am sick and tired of Politicans trying to draw District lines so that miniorities can win a seat on the City Council. Leave the districts like they are. Wherever people live they live and that is life. Stop trying to dictate what races are on the City Council. Some districts are white, some black, some hispanic and some Asian. Stop it now!!! Grow up and accept things for how they are.

Councilman,

I have been a proud resident of Lake Highlands since 1981; when I moved to Dallas we could have lived in any area but my husband and I decided Lake Highlands was the **community** we wanted to live in and raise our children. This is a wonderful area with a small town feel in the midst of a large city and we want to keep it that way. We ask that you please keep district 10 intact and not split it out into multiple districts. We are a **united community** and do not feel that dividing Lake Highlands into separate districts is in the best interest of the fine people in this area.

Regards,

Kimberly Creason

I cannot attend on the 20th. PLEASE vote for the cPlan05 or wPlan03. The worst possible thing for Dallas would be to approve the Domingo Garcia Plan. It will ruin Dallas for 10 years until the next redistricting plan comes around. We can't afford the financial burden that the Domingo plan will impose on us in this economy plus its makes absolutely NO sense! Thank You for reading this.----Dan Sefko, 55 year resident of Dallas

Re: District 10

To the City of Dallas Re-Districting Commission,

We understand that among the re-districting plans put before the commission, one exists that will split District 10 into 3 parts. We would like the commission to reject that plan.

We have many reasons for wanting District 10 to remain intact, but we wish to present only the most compelling to the commission: District 10 works.

Please, reject any plan to break our district into parts that could change what we believe is a good working part of the City of Dallas. Thank you for your consideration.

Sincerely

Tom & Dee Blakeney

Subject: cPlan16- OPPOSED

To Whom it may Concern:

I am writing to express my strong opposition to the cPlan16 "unity plan" proposed. I do not believe that this encourages any sort of unity in our community at all. This plan is racially driven and geared specifically toward the Hispanic population, and in my opinion, reverse racism. The entire community feels that they have zero control over this redistricting and it is not something that should be considered at this time. Please leave District 10 intact. This is a highly desirable area and community exactly the way it is. Please do not fix what is not broken.

Thursday, August 11, 2011

Ruth Morgan, Chair
Billy Ratcliff, Vice Chair and Members of the Redistricting Committee
Dallas City Hall
6ES
1500 Marilla St. Dallas, TX 75201

First and foremost I would like to thank each of you for your hard work in remapping this city, the final maps that are being considered are the results of long hours analyzing data, that you felt is in the best interests of all citizens of Dallas. we know there can only be 1 map.

After reviewing the final maps for consideration there is only one map that the neighborhood can support that is the map CPlan16 which was prepared by Commissioners Garcia, Ratcliff, and Love. With this map we can begin to **revitalize** our communities and neighborhoods without sharing funds with council districts that stretch from part of the city to another. These commissioners did an outstanding job and putting the part of current Council District 7, some parts of District 4 and District 5 in East Oak Cliff, and consolidated all to the new Council District 4, with includes the most eastern part (Joppa Community) with no ties to no Council District across the **RIVER!!!!!**

On behalf of the residents of Cedar Crest Country Club Estates, we ask this commission to consider map CPlan16 as the map of the New Dallas 2011-2021.

If any questions please don't hesitate to contact me. mikeking@inbox.com

Sincerely

The Dallas Redistricting Commission

To The Dallas Redistricting Commission:

I am a long time (since 1969) resident of Lake Highlands and my principal residence is at 9809 Church Circle, Dallas 75238. I implore the Commission to not do anything that would negatively impact the compact nature of our District, which has historically centered around Lake Highlands High School. We have a relatively unique, though diverse, neighborhood and with the TIF in place hope soon to have our own Town Center. The division of the District would in my opinion negatively impact the potential for significant tax revenue which will be generated by the anticipated development at Skillman and Walnut.

Yours truly,

Subject: Redistricting Lake Highlands

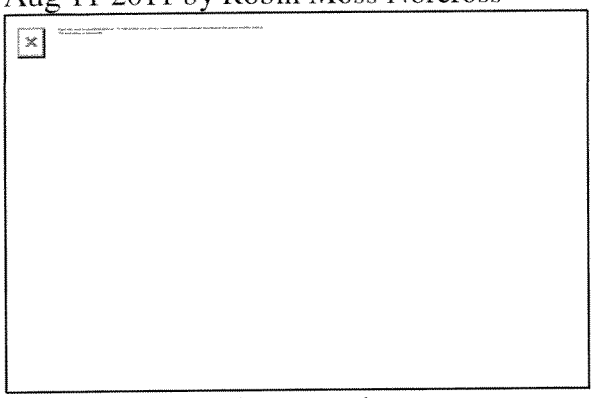

To Whom it May Concern,
I agree wholeheartedly with the letter written by Mr. Alan Walne below. Please consider Lake Highlands a unified community & do not break it up in the proposed redistricting.
Concerned Lake Highlands Resident,
Jennifer Meisenheimer
9130 Locarno Drive 75243

Dear Commission Members'
In reviewing the submissions of redistricting maps I have become increasingly alarmed that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands-virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.
The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work.
To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.
Respectfully
Alan Walne, former District 10 Councilmember

Editorial: District 10 and its diverse community of interest
Aug 11 2011 by Robin Moss Norcross

The boundaries of community
Lake Highlands has a very rich and long history of cultural diversity.

The earliest residents of what we now call Lake Highlands were Plains Indians who traveled the creeks in our neighborhood.

Those of us who grew up here in the late 50's and early 60's remember what they left behind; an abundance of arrowheads along those creeks.

The second earliest residents were the freed Caruth family slaves who called "Little Egypt" home, roughly at the intersection of Northwest Highway, Ferndale and Shoreview.

When I moved to 9841 Buxhill Drive in Lake Highlands on Christmas Day in 1960, they were my neighbors.

My first summer here, the kids in the neighborhood would head outside after supper to enjoy a popsicle or two.

We could hear the singing from Little Egypt and would beg someone's dad to pile us in a station wagon and head that way.

Clearly, they were having way more fun than we were, and we delighted in their merriment!

Later that year on Halloween, it was reported from the families on Lanshire (the street that backed to Little Egypt) and the Little Egypt neighborhood kids trick-or-treated together.

One such group was said to humorously sport white face on a black kiddo and black face on a white kiddo – much to everyone's delight.

This was 1960 and our neighborhood not only embraced its diversity, but delighted in it!

The State Historical Marker at McCree Cemetery notes the final resting place of several Little Egypt matriarchs and patriarchs, along with members of the Peters Colony that settled what would later be known as

Lake Highlands, as well as North Dallas, Richardson and Garland.

Perhaps the first ethnically diverse cemetery in Dallas?

These are our Lake Highlands roots, and we have continued to embrace everyone who chooses to live in our community including their their race, ethnicity and culture.

Most of us who call Lake Highlands home do so because we wanted our kids to grow up in the real world – one that embraces the richness that variety enables.

All of us pulling together, primarily to support our children to make the unique contribution that is their destiny. Does it work?

Yes it works, judging by the multitude of LH grads who return each year to buy homes and continue the tradition.

I guess if we have faltered in any way it was to not beat our own drum about what was happening here.

We just thought it was normal; a neighborhood simply being a neighborhood and encouraging every member to be the best they could be.

The Exchange Club of Lake Highlands, the Lake Highlands Women's League and the Wild For Cats non-profit groups give hundreds of thousands of dollars each year to ensure that the most deserving children in Lake Highlands have the opportunity to make their education dreams come true.

Rest assured, they do not disappoint.

Lake Highlands may very well be the first and most successful ongoing, diverse neighborhood in Dallas.

Keeping Lake Highlands and District 10 intact is a no-brainer.

In short, Lake Highlands and District 10 are a huge success, which also means the potential for an **increased tax base** for the city is inevitable.

I encourage everyone to let the 2011 Redistricting Commission know where you stand on the city's redistricting process.

Lake Highlands is a true community of interest and one that deserves and demands an intact district and unified representation – for all of us.

Sincerely,

Robin Moss Norcross

Subject: partition of District 10

Members,

I read with alarm that an idea to separate council district 10 is progressing with the Comission. I am firmly opposed to such an idea and can only surmise the intent behind such a plan.
The district in question in already diverse among the population and income levels. The current area has been well represented by one council member because the area speaks as one voice. Separating the area into a multitude of districts will permanently harm the future development and advancement of the area as resources will be spread thin among competing districts.

I ask you to reject any plan that proposes to break up district 10.

Respectfully,

Tom Nowak

Cc: Laura Hoag
Subject: Keep District 10 intact - Lake Highlands is one community

Keep District 10 (Lake Highlands) unchanged for the following reasons:

- Keep the LHHS attendance zone as a primary consideration
- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that!

Thank you.

Subject: District 10 redistricting plan

To: Redistricting committee
I recently read an article stating that district 10 may be divided by a new plan to redistribute the Dallas city council seats. I would like to request that district 10 remain as it is. The community support is very strong and there are many organizations within Lake Highlands that support the entire community as a whole. It is a very diverse community, yet cohesive in its community support. Please leave the district such that is it the Lake Highlands High School attendance zone. This allows the community to support each other and the minorities within it.

To: reDallas11
Subject: Opposition to redistricting: District 10

Dear Commission Members:

I have looked at the recent redistricting submission that would carve up the current District 10, and am very concerned about the fracture this will cause within the Lake Highlands community. On face value, it appears this redistricting proposal has no basis in considering the vast amount of community interest or "small-town" feel that is strongly evident within Lake Highlands. The residents of Lake Highlands have a strong tradition of community ties, despite the fact that we exist within the boundaries of a huge city. This tradition has flourished due to the district staying together and maintaining close supportive roles even with the considerable diversity that exists within its boundaries! Our community has a rich history in supporting a vast array of schools and community organizations, including all the feeder schools into Lake Highlands High School, the Exchange Club of Lake Highlands, the Lake Highlands Women's League, and the Healing Hands Community Health Clinic…just to name a few!

To slice and dice this long-standing community, and to divide the strong supportive district, is unjustified, and would be a harsh disservice to its hardworking and dedicated citizens. I implore you to **keep all of Lake Highlands within a single district** – for the good of its residents and for the greater good of the city of Dallas.

Respectfully submitted,

Carrie B. Patton

From: Greg Duval [gregduval@sbcglobal.net]
Sent: Thursday, August 11, 2011 2:57 PM
To: reDallas11
Subject: Redistricting Input

Redistricting Commission:

I wish to share my thoughts about the redistricting options before you. My family lives in District 10 and has since 2000. We choose to live in Lake Highlands because of the small town feel that is a direct result of the common high school that serves all. Most of my friends from years gone by are living in northern suburbs or perhaps Rowlett or Rockwall. They live there for the affordability of housing and quality of schools. Those are strong magnets for sure. However, we have elected to live here and embrace the diversity of Lake Highlands. We feel that the diversity is indeed a look at the real world as opposed to some bubble that might exist in suburban life.

We love our RISD schools. Our PTA's work very hard to raise money to insure all kids at the school have access to all supplies, field trips, etc. Both me and my wife serve as mentors for minority kids and enjoy reading with them and supporting them in every way with regard to school just as we would our 4th grade daughter. We would hate to see the small town feel and the "all for one and one for all" mentality to be eliminated by a redrawn map.

We are very active at our church too. Our church, which is mostly white, has been providing an on site ministry at multiple apartment complexes so that those who live in LH area apartments but cannot get to a church site can still attend church and kids can still enjoy Vacation Bible School.

I am very active with the LH Exchange Club. Our club is celebrating its 50th anniversary this year. For at least the past fifteen years we have given our college scholarships to deserving students, most of them based on financial need. The club makes college dreams possible for many kids - over $100,000 every year.

I am not one to make a bold promise/threat of "if this happens I will move," etc. But, this is a very important issue to me and my family and if we are made to give up our sense of community then the basis for why we stay in the city of Dallas with our young family will have been lessened. It will be an intentional step by city government to eliminate one of the very strongest communities in the entire city. That would be a bad statement on the future of the city.

Bottom line is District 10 (aka Lake Highlands), as it currently exists and is represented, is very diverse and is successful because our community speaks with one voice. We all help one another because we all know another - through schools, churches and community events. If you were to divide our community into two or three districts then we would lose one of the very things that makes LH work - a sense of community. I understand the need and desire to create compact districts across the city. I simply would argue that to dis-assemble an existing community district so to make one in other areas of the city is not the best solution. Many districts are seeking to be more community based (geographically compact too). Why take that away from District 10?

Please keep all of the Lake Highlands High School attendance zone in District 10

Thank you -

Greg Duval

The Dallas Redistricting Commission

To The Dallas Redistricting Commission:

I am a long time (since 1969) resident of Lake Highlands and my principal residence is at 9809 Church Circle, Dallas 75238. I implore the Commission to not do anything that would negatively impact the compact nature of our District, which has historically centered around Lake Highlands High School. We have a relatively unique, though diverse, neighborhood and with the TIF in place hope soon to have our own Town Center. The division of the District would in my opinion negatively impact the potential for significant tax revenue which will be generated by the anticipated development at Skillman and Walnut.

Yours truly,

G. Ward Beaudry

Subject: concerns re: Unity Map

I am concerned that the Unity Map splits the extremely cohesive community of Lake Highlands into three districts. Lake Highlands is a successful "majority minority" neighborhood which has built its identity and its civic-minded organizations around its RISD-operated public schools and their attendance area. Why fragment an area of the city that is so proud of its identity and so committed to making our neighborhood great for all its residents? The Unity Map tries to bring together communities of interest in other parts of the city. Why not Lake Highlands?

August 11, 2011

Redistricting Commission
City of Dallas
1500 Marilla St. L1AN
Dallas, TX 75201

Redistricting Commission:

As a soon-to-be resident of Eastwood Hills, (I close on 2930 Green Meadow Drive, 75228 in days), in District 7, South of Ferguson Road and North of Interstate 30, **I strongly urge you to consider a redistricting plan that would include my neighborhood with other East Dallas/White Rock Lake communities North of Ferguson Road.**

I believe that my move into the area is a good example of exactly why such redistricting is in order. Similar to many in my age cohort, I am a longtime Dallas resident relocating from a more urban Dallas area to the more family-oriented East Dallas area after having children. Living in Eastwood Hills, my family will be accessing Lakewood, Casa Linda, White Rock Lake, and Lake Highlands retail, amenities, and public areas daily while living in an affordable area of Dallas. I feel strongly that creating a cohesive, compact, and community-focused district in East Dallas is vital to ensure a community that supports the needs of my lifestyle and family, and my vote will support this belief.

I strongly urge you to oppose any plan based on the old District 7 plan which does not reflect today's requirements for compactness and the need to keep area communities together.

Thank you for your consideration.

Subject: No! to redistricting District #10
Attachments: Dear Commission Members.docx

Dear Council Members,

In addition to the many fine points made in Alan Walne's letter – which I have attached here as reference – I would like to make the following supporting points:

~ Lake Highlands property taxes as based on the unique mix of single-family homes and multi-occupant dwellings. Splitting the district will lower appraisal rates in many areas and negatively impact revenue to the City of Dallas

~ Lake Highlands schools – for the most part – are in RISD. Splitting the district would make the case for more schools being absorbed into DISD, resulting in higher enrollment for private/parochial schools.

~ Lake Highlands home sales/values have held steady/slightly increased over the past three years – the only area within the LBJ loop that has not seen significant fluctuations in pricing.

I encourage you to reject the proposed redistricting plan for District #10.

Regards,
Marcia

Dear Commission Members'

In reviewing the submissions of redistricting maps I have become increasingly alarmed that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands- virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.

The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work.

To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.

Respectfully

Alan Walne, former District 10 Councilmember

Subject: cPlan16- AGAINST

Dear City of Dallas Redistricting Commission,

I am against the "Unity Map."

My wife and I moved out of Highland Park to be in Lake Highlands 3 years ago. We moved here because of the community and the diversity already in place. We felt our children, with our involvement, could receive a more well rounded education in a reasonably diverse environment. The division of Lake Highlands would be a horrible step in the wrong direction for this community and for Dallas.

Lake Highlands is a jewel within Dallas. Increased saturation of communities within Dallas, like Lake Highlands, for racial and political purposes will increasingly threaten the safety of those already in such communties, threaten the quality of education of the children in those communities and depreciate the land value of those communities. All of which are steps in the wrong direction, for Dallas. We have seen, first hand, the negative affects Robin Hood has had on our stronger communities. Do not replicate this negative affect by dividing outstanding neighborhoods, like Lake Highlands. There must be better solutions.

Any politician who is behind this plan will lose my support for the rest of his or her political career.

Scott Dahlberg

Subject: Opposing Lake Highlands Re-districting

To whom it may concern,

I am writing to voice my opposition of the proposed re-districting and how it could affect the school districts. I am a concerned Dallas city resident currently living in the Lake Highlands area. When my wife and I heard about the possibility of re-districting the Lake Highland Schools into DISD we became upset. We purposely moved to this area for the schools. Another reason we moved into this neighborhood is because we know many families in the area who are proud of the community and the schools. This community pride will most likely change as many families will move if the school districts change to DISD.

If the change in school districts does happen my wife and I will strongly consider moving to another area outside of the city limits with better schools. This would be really unfortunate because we like our community and neighborhood. It is one of the few areas in the Dallas city limits with this pride. I feel the city of Dallas has made many poor decisions that have hindered the development and growth of the city and hope that this is not another poor decision.

Subject: Please vote NO to the District 10 Redistricting Project by Domingo Garcia

Dear Dallas City Council;

Please do not support any plan by Domingo Garcia to re-district Lake Highlands District 10. Please do not support any bill that would tear apart Lake Highlands.

We moved to Lake Highlands from Dallas Lockwood Meadows addition, where we had lived for 33 years to get our grandson into Lake Highlands High School. For 33 years we paid Dallas School Taxes never using the DISD school system. All of our children went to catholic school from Kinder to 12th. grade. In 2005 we decided to move to Lake Highlands knowing that we would be able to use the LHHS public school/Richardson school district. Now, that it is time for me to use the public school system, I read where this Mr. Garcia wants to pull us into the DISD. Please! Please! Do not allow that to happen. If he is so worried about diversity, let him visit LHHS and see for himself how much diversity we have there.

Please do not vote for this District 10 Redistricting Project.

Subj: Map Amendment Process Recommendation

Dear Honorable Commissioners,

It is awfully late for this to be recommended, but after watching the agony past midnight last night, it is very possible it may only be worse next week. Others also seem to have that fear. It is obvious you are agonizing over these maps to find and create the best. The following recommendations are made seeking to help the process go more smoothly. While some of this is already being done with some recommendations, consistency will help the process significantly.

1. Every amendment to a map should have a reason behind it. It needs to be expressed in detail. If a community of interest is the reason, it should be described in detail, boundaries given, and the representatives of the community of interest who communicated their concerns named if at all possible.
2. The area to be moved should be named by street boundaries.
3. If the change creates an imbalance beyond 5% in any district then the corrections needed must be included in the recommendation before it can be voted on.
4. Changes in demographics must be known before the vote. That vote will cover the entire package of initial move and corrections to be in the one package change.
5. If the above can all be done in writing, maybe by filling in a form, the process will go much more smoothly.

This will require additional planning by each member making a recommendation. Without such advanced planning work included in each recommendation, the meetings could go on well past midnight next time. The quality of the final maps will suffer, if for no other reason than the ultimate fatigue that is only human. The huge volume of work the Commission is valiantly undertaking will be less productive without such efficiency.

It would be an honor to help any commissioner form any recommendations they may want to work on. I am available over this weekend, or at any other time. It can all even be done by email, or I would be glad to meet with my computer and show how changes may affect a map.

The ideal situation would be if every commissioner could access each of the final maps in the online application that is available, such as the one I used for wPlan03. If I could have access to the cPlan05a and cPlan16a online, I could quickly tell anyone what their changes would do to the final map. Without that, I can still report on population & demographics in any given area for the "c" plans, and give more detailed analysis on details to wPlan03a which I am able to work on online.

It is hoped this may help. It is an honor to be a part of this groundbreaking process. Dallas is leading the way!

Sincerely,

Bill Betzen

Sent: Friday, August 12, 2011 8:26 PM
To: reDallas11
Subject: District 10 redistricting issue

To Whom It May Concern:

Thank you for the opportunity to voice my displeasure that city government is contemplating carving up the Lake Highlands area. I moved to Lake Highlands in 1992 for the purpose of my children and at that time future children to have the opportunity to attend schools within the Lake Highlands attendance zone. We moved to the area so our children could be raised in a school district that had not only racial diversity, but also socioeconomic diversity. My sons have had the privilege of attending school, playing sports, being in band and being a Lake Highlands Wildcat Wrangler with children from anglo, latino, african american & asian back grounds. Children and their families of all back grounds are embraced by the Lake Highlands community and those that come from lower socio-economic back grounds are given every opportunity to be successful.

I am extremely disappointed and offended by Mr. Dominguez's comments regarding the below quote.

"I know change is difficult. I know change isn't always liked by a lot of people, but change is coming," Garcia said during the commission meeting on Tuesday, August 9th.

"The main political issue, and it has been for a long time, is many of the people in residential District 10 want to destroy as many apartments in the upper portion [of District 10] and get rid of as many black and brown people as they can."

Lake Highlands pride is deep and cares for all citizens. I personally started a charity medical and dental clinic in the the Lake Highlands community 4 years ago to assist those that live at 200% of poverty that had no other means to receive health care. Not only has the Lake Highlands community been supportive of my organization, but they have pulled out their check books and raised hundreds of thousands of dollars to assure our friends and neighbors have access to medical and dental services. The Lake Highlands Women's League and Exchange Club work tirelessly to raise money for college scholarships for ALL children. The Wild for Cats campaign has raised money to fund a program that helps ALL students have the opportunity to attend college.

Mr. Dominguez - with all due respect, the Lake Highlands community is not color blind. Our community is caring, compassion, encouraging and tenacious. Come get to know us. You might want to move here. We would love to have you.

Respectfully submitted,
Janna R. Gardner, Executive Director
Healing Hands Ministries Medical and Dental Clinic

Sent: Wednesday, August 17, 2011 11:08 AM
To: reDallas11
Subject: Division of District 10

I am a longtime resident of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides. I am also a native of Dallas having grown up in the Love Field area attending Obadiah Knight Elementary, TJ Rusk Junior High and North Dallas High schools. My life in Dallas has not always known a sense of community as I have these past 26 years.

As a member of the Exchange Club of Lake Highlands, we do not separate ourselves from the larger community of the City of Dallas, but we know the wonderful experience of having a close nit community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands High School attendance zone into two or more Council Districts. For a district as diverse as ours, this would make absolutely no sense and can only do harm to the children of the district.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and are offering support to the schools, parks and people of Lake Highlands.

Lake Highlands is a community with a strong feeling of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that already works. Please do not take that away by dividing our District and neighborhoods into several districts.

Thank you for your consideration of my comments and request. I am hopeful that you will not take one person's plan to action that would damage an area that works so well.

COMMENTS: Councilwoman Margolin, I own my residence on Chapel Downs Drive. I understand that redistricting my residence from District 13 to District 6 is being considered. I am unable to attend the meeting Saturday, Aug. 20 in council chambers as I must work. But I wanted to voice my opposition to this proposal. I do not want to be redistricted to District 6. I want my residence to remain in District 13. I hope my wishes as a tax paying homeowner will be considered and taken seriously. I appreciate your service to our community and specifically to our district. Thank you for your time. Stephanie Funti

Subject: District 10 Redistricting

My family and I are 14 year residents of Lake Highlands and District 10. Our community has been blessed with excellent schools as part of RISD and being within the City of Dallas and all that provides.

In Lake Highlands we really enjoy the community feeling, but do not separate ourselves from the larger community of the City of Dallas. Upon moving to the Dallas area we were drawn to Lake Highlands because of the strong, diverse community pulled together by a strong school system.

I believe that it is critical not to separate the Lake Highlands High School attendance zone into two Council Districts. That makes absolutely no sense and can only do harm to the children of the district and the community as a whole.

District 10 is a diverse community and has been so for many years. We do not need the Council District being changed to create diversity, because it already exists in our community and we welcome and feel blessed by that diversity.

Lake Highlands has numerous Civic Organizations that are committed to serving the community and offer support to the schools, parks and people of Lake Highlands. Please look at the scholarships provided last year by the Exchange Club of Lake Highlands, the Women's League and the broad diversity of those students.

Lake Highlands is a community with a strong since of pride of a small town within the heart of a larger city. We have a strong sense of community and a commitment to diversity that has proven to work so very well. Please do not harm us by dividing our District and neighborhoods.

Thanks,
Truitt

Dear Ms. Tolliver,
I just called and got your voice mail. I am certain you are busy. The only reason I called was to let you know that I was involved in an online pod-cast radio show on redistricting yesterday. You can find it online at http://lakehighlands.advocatemag.com/2011/08/lake-highlands-podcast-better-know-a-redistrict/. I don't know if this should be shared with Commissioners as I have no idea of how large their audience is. I strongly encouraged people to attend Commission meetings, and especially the 2 PM meeting on Saturday.

I thought I should let you know.

Subject: Keep District 10 intact

Hello, Dallas Staff:

I have looked at the various plans and feel that C PLan 05a is the right one for District 10. I would like to see the current borders remain intact. The Doming Garcia Plan C Plan 16 destroys the integrity of District 10, with the Lake Highlands Twon Center and Lake Highlands High School as anchors for the district.

Subject: Lake Highlands Redistricting.

I am a 40-year resident of the Lake Highlands community. All my children attended Lake Highlands schools. It has been remarkable how Lake Highland has grown into a close-knit community over the years.An now young people are moving in which revitalze our community. We have numerous organizations in Lake Highlands that have significant impact on our quality of life. All this revolves around having a single representative in government that hear our needs and responds. Without that we are divided and our quality of life goes down. Dallas suffers.

Lake Highlands doesn't need to be integrated. We already are! The community has embraced integration and improved on the lives of the less fortunate in our community. A prime example happened several years ago when a Lake Highlands student who showed exceptional talent but had basic needs at home. People in our community embraced him as role models and helped him financially which allowed him to go to college and graduate. There was no government program or intervention, it was just a sense of community. There are many, many more examples like that.

These events would not happen if our community is ripped apart by redistricting. It is clear to me that these community "assets" are much more important that an individual politician trying to get one more vote in the government arena. I hope this is equally clear to each of you as well. We are more than Zip code boundaries--we are a vibrant cohesive community that contributes massively to Dallas' progress.

I respectfully request that you dismiss any redistricting plan that doesn't leave Lake Highland intact.

Respectfully submitted,

Joe Curtis

Subject: Redistricting for District 8

We the Arden Terrace Neighborhood Association have come to a decision that we want to remind in District 8. Our Councilman, Councilman Atkins has done a tremendous job in our district. We have seen great improvements and are looking forward to more. He has been an asset and a jewel to our district. He has been a hands on Councilman, one that you can depend on.

If you must redraw the line, then we suggest that you do it in Pleasant Grove. But please don't bother with District 8 in Oak Cliff.

Thanks in advance for your consideration.

Subject: Opposition to Redistricting Plan WPlan 03C

Dear Commission:

As a resident of the Wynnewood North neighborhood, a long-established neighborhood that has been a part of the North Oak Cliff community for over sixty years, I would like to express my strong objection to proposed redistricting plan WPlan 03C. This plan moves three neighborhoods, Wynnewood North, Wynnewood Heights and Beckley Club from a district composed of a family of neighborhoods with which they have strong economic and historic ties to a district where no such ties exist. The proposed move would essentially turn these three neigborhoods, neighborhoods which were bastions of stability when Oak Cliff was going through hard times, into the orphan tail of a district whose primary territory and focus is well east of I-35E, and which does not share the goals and concerns of the three neighborhoods that WPlan 03C moves into District 8.

I strongly urge you to reject WPlan 03C.

Very truly yours,
Mary Ann Jenkins

Subject: Redistricting: Suppport plan 5 or 16

Suppport plan 5 or 16
Please do not vote for plan 3

Of the three redistricting plans currently being considered, Wynnewood North neighborhood would be wrongly excluded from the "North Oak Cliff" if plan 3 is adopted. This plan would group our neighborhood with neighborhoods very different than ours, and we want to continue to be *in the same district as* ***similar "Communities of Interest" in North Oak Cliff***.

Plans 5 and 16 both have a better division of districts to **keep North Oak Cliff unified**, where plan 3 juts into North Oak Cliff just far enough to take out our neighborhood. I do not feel that we would have as much in common with the rest of district 8 from that plan as we would with neighborhoods immediately adjacent to us, which is what plans 5 and 16 are able to preserve. I have lived in a couple of North Oak Cliff neighborhoods and have many friends in North Oak Cliff. Aside from being geographically more cohesive, we have much **more in common with our neighbors and community events and participation** here in North Oak Cliff than with the neighborhoods grouped by plan 3.

Please vote for plan 5 or 16, to **keep North Oak Cliff unified** with similarly interested, geographically adjacent neighborhoods.

Subject: redistricting

I would like to try and persuade the powers that be to choose redistricting Plan#3. Having lived in this area all my life, we have done our best to bring our neighborhood back to its former glory days. This is a transitional neighborhood that could go either way. I have noticed many young couples with children starting to return to this area because the homes are well built and affordable. I used to live in Old East Dallas and was there when it began its turn around and I see the same future for Parkdale. We need the city to be proactive and develop this area. I never drive south to do any of my shopping or activities. To group us with a district that has nothing to offer us would be tragic for us. Our homes have large lots with beautiful trees and we are close to downtown, easy access to the freeway and on the Green line, which we support and use daily. We have so much to offer and yet we keep getting grouped with Pleasant Grove and South Dallas. These areas need developing also but the homes are not nearly as attractive to prospective buyers as those in our area. We are a very active community and I see we are getting more proactive everyday. The mayor said he wanted neighborhoods to have more community spirit then please vote for Plan#3. Our neighborhood is wonderfully diverse with all ethnic groups represented equally. That is the kind of place I want to live and hope you will keep it that way for us. Thank you for your consideration.

To: reDallas11
Subject: redistricting- District 7

To: Honorable Sirs and Madams of the Redistricting Commission

My name is Casie Pierce and I reside at 6047 Parkdale. Due to scheduling conflicts I have unfortunately been unable to attend most of the redistricting commission meetings. However I have been following the discussions and studying the maps on the City of Dallas website.

I live in Parkdale in District 7 and I am a former long-term President of our active neighborhood association, Parkdale/Lawnview Association of Neighbors. I resigned from the board last year to run for City Council but am still very involved in the goings-on in the neighborhood and larger community. I am also our precinct chair and my precinct and the two adjacent ones voted heavily for me during the last City Council election. So I am what could be considered a community opinion leader in our little section of Dallas.

I am writing to express ***favor for redistricting map number 3***.

It is my opinion that the district 7 representation in proposed map number 16 remains largely unchanged from its current configuration (along with districts 8, 3, 14 and 2, which do not appear to be contiguous nor compact at all). Oddly, this map places Parkdale, seemingly intentionally, outside of district 7 and into a new district 5 and appears to be drawn specifically to keep the voters of district 7 unchanged in order to serve the sole purpose of preserving current incumbency. In a word, to someone who has been involved and active on all manner of civic endeavors over the past 11 years, and who ran for city council and won my area precincts, this map makes no sense whatsoever other than to preserve current voting patterns and/or punish those who are not interested in keeping politicians happy. This is not about politics, this is about what's right and this map appears to be the hot-button political one, and not just in southeast Dallas but all over the city.

In map number 5, a very large geographic portion of its district 7 is located along the uninhabitable parts of the Trinity River floodplain and the Great Trinity Forest, leaving at least half of the population area west of I-45. This map also chops up Pleasant Grove which is something that I know the community leaders in that community do not want. While on paper it may look like a compact and contiguous district, the reality is far from it. Parkdale has nothing in common with East Oak Cliff; nothing. There isn't even an easy way for the residents of Parkdale to travel to the good shopping areas of East Oak Cliff. We just don't share many common characteristics at all and we rarely go there, not because we don't want to, but because it's inconvenient. And isn't the purpose of redistricting to keep neighborhoods of interest together? This map does not achieve that goal.

Our neighborhood is geographically due east of downtown Dallas. Parkdale is technically not, nor has it ever historically been located in Pleasant Grove. Map number 3's southern border for which Parkdale is located (a new district 2) is Bruton (which was the historic northern boundary of Pleasant Grove when it was its own community before annexation). The eastern border remains at its current location in district 7, the Mesquite border, and it stays south of I-30, all the way west along Haskell and up northeast into Old East Dallas (where we share many historic and architectural features with parts of the Hollywood Heights and Mount Auburn neighborhoods). This map appears to do the best job of utilizing barriers such as major roads and highways, and connecting people who have the most in common. It also creates one district that forms a seamless Pleasant Grove, not unlike the historic borders of the town of Pleasant Grove. Not only does this map the make the most

sense for southeast and east Dallas, it also makes sense for the rest of the city (districts 1, 3, 4, 5, 8 and amazingly, even 14). This map best represents neighborhood cohesiveness.

There will be at least one representative from Parkdale signing up speak for Saturday's meeting and that person will largely reflect what has been written in this letter (although this is more than a three-minute speech, which is why I wanted to submit this). Thank you all for your service and your time, I understand how volunteering for these things can the at times a thankless and trying job, but I also understand the desire to spend your free time doing those things that make our city a better place for all. I hope you all will consider my comments.

Kind regards.

Casie Pierce

To: reDallas11
Subject: Redistricting Lake Highlands

Importance: High

To whom it may concern:

I am extremely concerned about the proposed plans to redistrict LH and slit the representation 3 ways. Lake Highlands is a vibrant, diverse and unique community that is committed to maintaining our area as it is. The proposal goes against what makes LH outstanding: very good schools, commitment to education, investment in the community, welcoming of diversity, etc.

I move from San Antonio to Dallas 4 years ago and specifically targeted Lake Highlands because it was one of a kind. This would be the gravest of mistakes if this were passed.

Please come to a logical conclusion and support the actual people of our community by voting down this plan.

Thank you,

Josh & Shannon Stapp

Subject: Proposed Dallas Redistricting

Since 1991 the community of Lake Highlands has been represented on the Dallas City Council by a sole councilmember. The proposed redistricting plan cPlan16 would put at risk our community's ability to be fully represented in a cohesive and efficient fashion, and would tear apart the foundation that so many neighborhoods, community groups, and Lake Highlands citizens have worked so hard to build for over almost two decades; our Lake Highlands neighborhood, its viability and its integrity are at risk. We are a united community, based upon our strong commitment to our public schools, our dedication to the growth and improvement of our neighborhoods, and our efforts to support the development and economic growth of Lake Highland's businesses. United together, we have helped Lake Highlands become a thriving community that by default serves to better the city of Dallas as well. Our excellent schools, close-knit neighborhoods and diverse local businesses draw families and business owners to Lake Highlands, and therefore to Dallas . The map put forward by Commissioner Garcia draws boundaries based solely on race and ethnicity and completely ignores the fundamental building blocks that form the bedrock of this community; it would tear apart Lake Highlands as an entity, and erode the enormous progress made. We strongly believe City Hall should stand by its comment that "where possible, communities of interest shall be maintained in a single district." Lake Highlands has always been clearly defined and meets every conceivable definition of a Community of Interest. Please keep Lake Highland's District 10 intact.

Subject: Redistricting District 10

I was born and raised in District 10 and I am writing in protest of the redistricting plan, especially in regard to splitting District 10. My father still lives in the house in which I was raised. My sister and I are both graduates of Lake Highlands High School and we both still live in the District. The two of us have raised 5 kids in this community who have all graduated from Lake Highlands High School. This is a divers yet strong neighborhood that needs single representation.

I am the Past President of the Exchange Club of Lake Highlands an not only have we given over a million dollars to graduating senior. Roughly half of these scholarships have been to working and at risk students. The Exchange Club has also given thousands of Dollars to the Parks Department and other City programs and redistricting the area would be a travesty and wrong. The strong sense of pride in community is something to be honored and respected.

It would be irresponsible to split this District and disrupt the Lake Highlands High School attendance zone. Whoever represents this very diverse area needs to represent all of the families in the area and not just a portion of them. We are a community with a lot of pride and small town feel in the middle of the City of Dallas. We are a benchmark for how communities should be and work. A quick examination of the diversity of our schools would prove that we are a community about bringing the best out of all people regardless of race and creed.

A history of the district reveals that this Community has been singularly represented going back to Dean Vanderbuilts council and it needs to say that way. Don't destroy this community that has been in the making for years.

Exchange Club of Lake Highlands
Board of Directors Meeting
August 16, 2011

A monthly meeting of the Board of Directors (the "Board") of the Exchange Club of Lake Highlands (the "Club") was called to order by President Bryan McCrory at approximately 6:49 p.m., on Tuesday, August 16, 2011, in Dallas, Texas.

WHEREAS, a discussion was held concerning a proposal to divide District 10, City of Dallas, which comprises the Lake Highlands community, into three districts for governance by the Dallas City Council;

WHEREAS, the Lake Highlands community is currently a single-member district, being District 10 of the City of Dallas;

WHEREAS, the Lake Highlands community is a diverse community, comprising persons of many races, backgrounds and socio-economic groups;

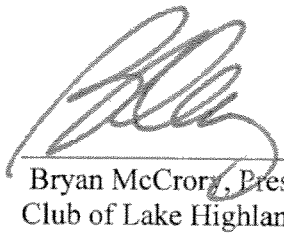

WHEREAS, despite is diversity, Lake Highlands is a cohesive, closely-knit community;

WHEREAS, the Board, on behalf of its approximately 161 members and families, believes the Lake Highlands community is best served by a single City Council member;

WHEREAS, the Board believes that dividing District 10 into multiple City Council districts is not in the best interests of the community, does not promote diversity within the community, and is, in fact, harmful and divisive to the community at large;

NOW, THEREFORE, BE IT RESOLVED, that upon a motion duly made, seconded, and voted on, and such vote being unanimous by the members of the Board, the Club does hereby oppose all efforts to divide District 10 into multiple districts, and the Club hereby favors that District 10 be preserved as a single-member district; and it is

FURTHER RESOLVED, that any member of the Board, be, and hereby is, authorized, empowered and directed, for and in the name and on behalf of the Club, to appear before the Dallas City Council and any subcommittee thereof for purposes of opposing any measure to divide District 10 into multiple districts.

Bryan McCrory, President of the Exchange Club of Lake Highlands

Subject: cPlan16 - Say NO!

cPlan16 – Say NO!

I am against the split of District 10. Breaking District 10 will only drive the cost of city government up as we will need to have additional administrators to manage the two or more Districts.

In this time of budget short falls and money being tight we should not be adding any additional costs to the City, the printing costs, new district maps and the thousands of additional administration fees are for what purpose? District 10 has worked well as is for years, so why do we want to change it? It is needless and I am against it.

I am Patrick Laurie of 9915 Wood Forest Dr, 75243 Dallas TX.

Why would someone not living in District 10 want to split it? The only motivation that comes to my mind is for personnel gain!!

JUST SAY NO to the splitting Lake Highlands!!!

This e-mail is being sent to members of the 2011 City of Dallas Redistricting Commission and members of the City of Dallas City Council for your information. Since both the Commission and Council will be taking action on redistricting, I wanted you hear my request.

My name is Tommy Hines. I currently serve as president of the Northwest Dallas Improvement League in Council District 13. Like many others, I attended the Public Forum this past Saturday, August 30th. I was one of the group of 60-70 citizens that was allotted 30 seconds to state my request. Uncertain as to how articulate my presentation was last Saturday, I wanted to put my request in writing..

The boundries for the Northwest Dallas Improvement League are Royal Lane on the South, Cromwell Drive on the East, LBJ Freeway on the North and Josey/Dennis Road on the west. The bottom line of our request is that all of the above boundries be place in Council District 13.

None of the current plans grant us that request! The remaining plans zig-zags in and out of other districts, especially along LBJ Freeway and up and down Josey and Dennis Road.

Once again, we are requesting that the area from Royal and Cromwell, north to LBJ Freeway, west on LBJ Freeway to Josey Lane, and south down Josey and Dennis Road to Royal and east on Royal Lane to Royal and Cromwell be place in Dallas City Council District 13.

Over the past years, we have tried to function in two or three council districts as well as within one council district and our experience shows that we functioned better when all of us are in District 13. We know Ms. Margolin and Ms. Margolin knows all of us!

Thnak you!

Subject: Regarding the proposed redistricting plans

To Whom it May Concern,

I am very concerned over the proposed redistricting plans that appear to be moving forward. It is my understanding that the redistricting commission is strongly considering Plan 16. The concern I have regarding this plan is that it will bifurcate my neighborhood. The Parkdale/Lawnview Association of Neighbors (PLAN) has work for many years to improve our neighborhood by participating in many programs offered by the city as well as performing our own community actions.
I fear that splitting our community will make it more difficult for PLAN to continue our neighborhood improvement projects.

In addition, PLAN has partnered with Buckner Terrace and other surrounding neighborhoods all of which are currently in District 7.
Please consider editing Plan 16 so that Parkdale can remain in District 7 along with Buckner Terrace, and the other neighborhoods with which we have formed a strong working relationship due to our common membership in the current District 7.

My support is with Plan 3, but if plan 16 is passed, please keep Parkdale bound by White Rock Creek on the West, Military Parkway on the North, Bisbee on the East and Scyene on the South in District 7.

Thank you for your consideration,

Subject: Keep Parkdale United, and in District 7

Dear Commissioners:

I am a resident of Parkdale, which currently falls within District 7. I am emailing to plead with you to do all that we can to keep Parkdale intact and within District 7.

Under the current Plan 16, the Parkdale neighborhood is split. We are asking that you help us become reunited by bringing Parkdale back into District 7. In order to keep District 7 a black majority district, we propose a very small land swap that involves moving the boundary lines of the new District 7 eastward from White Rock Creek over to Bisbee. The updated line would simply be moved east along Military, then south along Bisbee until Scyene is reached.

This is a very small change to Plan 16. It will require only small compensating changes to be made further eastward (such as the pockets south of Forney and Military) to swap land that is predominately Hispanic into the new District 5.

As is, Plan 16 currently splits the Parkdale neighborhood at its northwestern corner (at the old wooden bridge over the train tracks) and removes Parkdale Lake from the Parkdale neighborhood.

Parkdale is an example of a racially mixed area of black, brown and white members working on civic projects together on Lawnview Ave together with Buckner Terrace HOA, Pecan Heights neighborhood, Creekside and others in District 7. We have been looking forward to working on other District 7 projects such as the *White Rock Creek Trail* that is to run north from Scyene to I-30. While we are a small neighborhood, we have a history of active residents working in District 7 which we hope to continue going forward.

Thank You,
Jonathan Boarman

Subject: Map 16 change request

To Whom it may concern,

If you must go with map 16, please consider keeping the Parkdale neighborhood together by moving the lines of the New District 7 eastward from White Rock Creek over to Bisbee, so the line would come south from Military to Scyene along Bisbee. The new plan not only breaks apart our neighborhood but also removes Parkdale lake from Parkdale. Please consider these small changes to allow Parkdale to stay as a single neighboorhood in the new District 7.

Thank you for your time,

Leanne Barker

Subject: KEEP PARKDALE IN DISTRICT 7

Dear Commisioners

The Preferred map 16 that the city is considering has disadvantaged our neighborhood in the following manner
1) Our neighborhood has been separated from Parkdale Lake.
2) Lawnview Avenue (from I-30 to Scyene) will cross two districts.
- Lawnview Avenue (from I-30) is a major arterial entry point to our neighborhood
- Lawnview Avenue is already experiencing increased traffic flow, from I-30 to Scyene.
- Improvements will become necessary from I-30 to Scyene Road, and the light rail station.

I hope you will consider these comments and extend the lines of District 7 to Brisbee Road at the East, And Scyene Road to the south.

Kind regards
Peter Hartman

Re:Redistricting Plans as Presented in Public Forum on Saturday, August 20, 2011

After hearing the pros and cons and examining the three plans as presented, I would be willing to support Plan 3 if a small adjustment were made. That would be to keep the western boundary for District 13 at Dennis Road and to keep all the residential homes to the west of Webb Chapel between Walnut Hill and Forest Lane in District 13.

This area more closely resembles the neighborhoods to the east. There is nothing to the west of these homes but commercial and industrial property. At present plan 3 puts this area in District 6. We seldom travel to District 6. We, who live in this area, shop, vote,worship, and conduct our daily business in District 13. District 13 neighborhood leaders work together to keep our entire area safe. We worked successfully to have the area in question restored to District 13 ten years ago after it had been carved out and inserted into District 6. We wish to remain in District 13. We have good representation by Ann Margolin on the City Council and we would like to retain that relationship and the cohesiveness of our community.

Therefore, I am requesting that you consider making this small change to plan 3.

I absolutely agree with the above statement.

Subject: Support Pla 5 - Oppose Plan 16
Attachments: Plan 16.doc

Hello Madam Chair,

Attached is my statement in opposition to Plan 16 which I presented at the August 20, 2011 Public Forum on Redistricting. I am oppose to Plan 16 and support Plan 5.

I have also included my statement below, in the event that staff is not able to open this attachment.

Emma Rodgers - 214.769.0981
esrodgers1@gmail.com

Plan 16 – Redistricting Public Forum - 08.20.11

Good Afternoon Madam Chair, I'm Emma Rodgers,

I live in District 5 at 1322 Woodburn Trail– Dallas, TX 75241 in the Singing Hills Neighborhood.

As a resident of District 5 for the last 40 years, I urge you NOT to support Plan 16 because:

- It will NOT preserve the current cohesive community

  I have lived, worked, worshipped and played in for

  the last 40 years of the 41 years I have lived in Dallas.

- It prohibits continuity in our community

- It will disrupt the working relationships neighborhood organizations, such as Glen Oaks, Twin Oaks, Singing Hills and other HOAs have worked successfully together for years.

- It does NOT represent a strong community of interest.

– It will NOT keep the community intact because it splits our community.

– It will NOT provide a strong district

- It will dilute a strong neighborhood core thus weakening the voices and vote of a cohesive community.

- It does not provide a convenient way to organize for influence

- It weaken the voices of a number of citizens who work together for the common good

- It does not permit political cohesiveness

- It is not the best map to meet the legal requirements of the Voting Rights Act

- It will not protect the voting power of the African Americans.

We absolutely oppose the Map 16. However, if you do decide that this is the map that you will adopt, we ask that you revise it so that the area bounded by:

- Redbird Lane on the North
- Polk Street on the East
- Camp Wisdom on the South
- Marvin D. Love Freeway / Highway 67 on the West will be included in District 4, in order to keep from splitting a neighborhood that includes about 1700 people.

I strongly oppose Plan 16, I support Plan 5.

I ask that this commissioner support Plan 5.

Emma Rodgers – 08.20.11 – Public Forum

Plan 16

Good Afternoon Madam Chair, I'm Emma Rodgers,
I live in **District 5** at 1322 Woodburn Trail– in Singing Hills.
As a resident of **District 5** for the last 40 years, I urge you **NOT** to support **Plan 16** because:

■ It will NOT preserve the current cohesive community I have lived, worked, worshipped and played in for the last 40 years of the 41 years I have lived in Dallas.

- It prohibits continuity in our community

- It will **disrupt the working relationships neighborhood organizations, such as Glen Oaks, Twin Oaks, Singing Hills and other HOAs have worked successfully together for years.**

- It does **NOT** represent a strong **community of interest.**

– It will **NOT** keep the community intact because it splits our community.

– It will NOT provide a strong district

■ It will **dilute** a strong neighborhood core thus weakening the **voices** and **vote** of a cohesive community.

- It does not provide a convenient way to organize for influence

- It weaken the voices of a number of citizens who work together for the common good

- It does not permit political cohesiveness

- It is not the best map to meet the legal requirements of the Voting Rights Act

- It will not protect the voting power of the African Americans.

We absolutely oppose the Map 16. However, if you do decide that this is the map that you will adopt, we ask that you revise it so that the area bounded by:

- Redbird Lane on the North
- Polk Street on the East
- Camp Wisdom on the South
- Marvin D. Love Freeway / Highway 67 on the West will be included in District 4, in order to keep from splitting a neighborhood that includes about 1700 people.

I strongly oppose Plan 16, I support Plan 5.
I ask that this commissioner support Plan 5.

Sent: Monday, August 22, 2011 10:36 AM
To: reDallas11
Subject: Opposition to Plan 16

To the Dallas Redistricting Council:

This e-mail message ts submitted to oppose Plan 16 as submitted on Saturday August 20, 2011.

The basis for the opposition is that plan divides communites of interest (Singing Hills, Redbird area, Bar Harbor, Elder Oaks, Twin Oaks). The plan destroys a strong African-American community that has a history of common interests in social, economic, religious, and political arenas. It also weakens the community's representation by dividing the community among three representatives.

Again, I am among a number of people who oppose Plan 16.

However, if you decide that map is the one you will adopt, we ask that the map be revised so that the area bounded by Marvin D. Love Freeway (Highway 67) on the West, Redbird Lane on the North, Polk Street on the East, and Camp Wisdom on the South be included in District 4 so that the neighborhood is not split up.

Thank you for your consideration.

Sent: Monday, August 22, 2011 10:27 AM
To: reDallas11
Subject: redistricting map 16

To: Members of the redistricting commission

My name is Casie Pierce and I reside at 6047 Parkdale. It has come to my attention that the redistricting commission is favoring map 16 as its final choice. I am sad to know this as I believe that it does a very large disservice to the southeastern part of the city. If this is the only and final choice, our neighborhood- Parkdale- is split between two districts, 7 and 5. This is unacceptable! Even the Dallas Morning News admonished the commission for not taking an nonobjective and apolitical view to seriously consider the fairest of the the three final maps, map 3.

Please consider moving all of Parkdale into district 7 by drawing the northeast corner of D5 a little to the west toward Bisbee. That will keep all of Parkdale in D7; as it is now, the northwestern segment of our neighborhood and Parkdale Lake is cut away from the rest of Parkdale. On paper, it appears that you tried to use White Rock Creek as a natural boundary, but only part of the way. Ideally it would be better if all of Parkdale, all the way up Lawnview toward Samuell could stay in one single district. I can't understand why this map uses only part of Forney Road as the northern boundary of D5; why not go all the way? Our neighborhood is dissected. Please consider these few tweaks to keep us all in one, single council district.

Thanks You.

Casie Pierce

August 22, 2011

To the Members of the Redistricting Commission,

On behalf of the 200+ residents of Dolphin Heights located south of Hatcher in East Dallas, I am sending this letter to you in **support of Plan 3**. This map honestly includes us in East Dallas as we should and always have been in East Dallas.

We **oppose Plan 5** because it will split our community into two districts; we do not want that to happen.

We **oppose Plan 16** because it would include our community in District 7 which is Southern Dallas. With all due respect to Councilmember Davis—we admire her—but we do not belong in the Southern Dallas District 7. Map 16 would include us back into a southern Dallas district.

We respectfully ask the Redistricting Commission to further consider Map 3 because it is the most logical map.

Thank you for all your efforts and consideration of our recommendation for **Plan 3.**

Subject: redistricting maps

Please consider for the western boundaries of District 13 from the old map. At least make Brockbank the western boundary between Walnut Hill and Royal. Our small neighborhood belongs with our neighbors east of Webb Chapel rather than with the commercial businesses just west of us.

Thank you,
Dave & Judy Scott

Subject: Parkdale Neighborhood

Redistricting Commission,

I am writing you on behalf of my neighborhood, Parkdale Heights, we are currently a part of Dist 7, Carolyn Davis' Council Dist., and we have worked with her for many yrs now with great success. We have reviewed the 3 selected maps and had a representative at the Saturday meeting to speak on our behalf. Our desire as a neighborhood is to remain a part of D7 not only because we have worked extensively with this district on bettering our neighborhood and the surrounding areas, but also because as map 16 is currently drawn it cuts our neighborhood into different council districts and separates us from Parkdale Lake, which is a part of our park area and our neighborhood's natural boundary. On a map it may look as though Parkdale could be joined with Pleasant Grove; however, if you come down here and look you will realize that geographically we are completely separated from Pleasant Grove by natural barriers as well as major roads (Scyene, Jim Miller) and we are directly in line with Fair Park, as Military changes names to Haskell and flows directly with the rest of the Fair Park area. We have a very strong neighborhood association that has spent countless time working to keep and restore our area for it's historical significance which gives us far more in common with D7 than the proposed new D5. Parkdale is a part of the old Peacock Military Academy and has direct ties to everything that is physically surrounding us. Parkdale has never been tied to Pleasant Grove in any way and we have no ties with it's neighborhoods nor it's leaders, we do not even seem to have the same desires for our area as they do and I feel that all our hard work will be lost if map 16 remains as is. Our desire is to move the proposed boundaries of the new district 7 on map 16 South to Scyene and East to Bisbee to keep our area in one Council District. We have no desire to leave district 7. Please help us with this matter as it is of GREAT importance to those of us who call Parkdale home. Thank you for your time and consideration. Sincerely Cheryl Grayson 6343 Parkdale Dr. , Dallas, Tx , 75227 214-207-3417

Subject: redistricting mao

My name is Timothy Boss, I live at 3633 La Vern Ave. in the Parkdale neighborhood, 75227. I understand that based on the Saturday meeting that plan16 has the momentum to be passed. I would like to request that you please consider keeping us in District 7. This way we will not be cut off from our NW corner of Parkdale and Military. The boundary could easily be moved eastward from White Rock Creek over to Bisbee where it runs N-S from Military to Scyene. Also, please, keep us tied in with Parkdale Lake and the White Rock Creek Greenbelt. We have already been working with Ms Davis on the extension of the White Rock Trail, and we would like to remain part of that portion of the city. With plan16 as it is now, we just seem to be getting pulled further away from the hub of the city and the many exciting new developments on the horizon. Thank you for your time and consideration, and your hard work invested in a difficult task.

Regards,

Timothy Boss

Re: Redistriciting Plans as Presented in Public Forum on saturday, August 20.,2011.

After watching the explanations of the three plans for redistricting as presented on the above date, we would be willing to support Plan 3 if the following adjustment was made. Keep the western boundary for District 13 at Dennis Road and keep all residential homes to the west of Webb Chapel between Walnut Hill and Forest Lane in District13.

This area more closely resembles the neighborhoods to the east. there is nothing to the west of these homes but commercial and industrial property. At present plan 3 puts this area in District 6. We seldom travel to District 6 and we, who live in this area, shop, vote, worship and conduct daily business in District 13 and not in District 6. District 13 neighborhood leaders work together to keep our entire area safe. We worked successfully to have the area in question restored to District 13 ten years ago after it had been carved out and inserted into District 6. We wish to remain in District 13 and work with our councilwoman , Ann Margolin, as we have in the past.

All of the plans currently under review should respect the cohesiveness of a neighborhood and our ability to interact with each other and our representative to produce continuing positive results for our area and therefore the city of Dallas.

Therefore, we respectively request that you consider making this small, but important, change to plan 3 and include it in plan 5 and plan 16. Thank you.

Subject: Dallas Redistricting 2011

I am convinced, after sitting in the redistricting public forum meeting for three hours last Saturday afternoon, that my neighborhood would be better served by being included as part the new district D9, as shown in the Redistricting Map Plan ID : wPlan03c, than any other of the proposed plans. Therefore please consider Plan 3 in your decision and separate my neighborhood from D7, which has it's own set of problems.

I would also like to recommend that in future public meetings, that a large map showing the current districts be presented for all to see. It is not obvious, to those outside of their own districts, what changes are being proposed by the different plans.

Bill and Ms. Tolliver,

With regard to Plan 3, 5, and 16 I would like to remove the gerrymandering and keep our neighborhood intact. As for leadership, the voters of District 13 will see to it that we always have strong and active leadership that represents our needs. The 2001 map was pretty close to perfect for our area.

The area I am referring to is NOT Dennis Road. While I can appreciate the desires of the citizens to our north, I don't have a dog in that hunt. My dog is looking at the area SOUTH of Royal Lane. Please make Brockbank the western boundary SOUTH of Royal to Walnut Hill. We want to remain in our neighborhood district rather than being placed in a commercial district.

Thanks, Dave and Judy Scott

Subject: Re: redistricting maps

Dave & Judy,

Remember, while you did not mention your council representative, these maps will last longer than any office term limitations, 10 years vs only 8. We need to be working on maps that are of high enough quality to last much longer than any current office holder. Hopefully they will also last much longer than just 10 years. The major redistricting challenges we faced this year due to excessive gerrymandering, especially on the south side of Dallas where I live, have made this an exceptionally painful redistricting. We have made progress, just not as much as could have been made. That will leave us with more challenges in 2021. The 2021 redistricting will should not be as painful as this year has been. Compared to the 2011 Redistricting, the 2021 Redistricting will only be "tweaking," but not without some still painful changes due to work left undone this year.

We need to always be working on good leaders to take the current leaders places once their term limitation is reached. For Ann that means that by 2016 the campaign will begin for her replacement in 2017. This map will last till 2021, and hopefully MUCH longer if it is truly compact and centered. See the posting at http://dallasredistricting2011.blogspot.com/2011/07/critical-role-of-population-centers-in.html for an explanation of the value of a district that is centered.

Gerrymandering is one of the easiest-to-correct contributing factors to the corruption and less than active leadership we are suffering from throughout our nation. **Your district has a dynamic leader. I am certain she understands what I am speaking of.**

Plan 3 focused on the goals of districts that were centered, the least gerrymandered, and with as few residential streets as possible used as boundaries. Sadly it was voted out of the running last night by the Commission. I think the other two plans remaining have the Dennis Road boundary you request. They are definitely big improvements over the currently gerrymandered districts.

Thank you very much for writing.

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Leonard Adkins

My Address is: 2435 Telegraph Ave; Dallas TX 75228

I live in far East Dallas, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!" Thank you!

Bratt, Peter

Re: Map 3

August 23, 2011

Gary Griffith,

I was pleasantly surprised to see you at the City Council Redistricting meeting at the Edna Rowe School. I was chairman of the Buckner Terrace Homeowners Association for three years in the 1990s. I served on the City Landmark Commission twice, once in the1990s and the second time when I was appointed by Leo Chaney when he was the District 7 Councilperson. I also served six years on the Dallas County Historical Commission During all these years I have seen how other sections of Dallas have thrived and the southern section of the city has suffered.

There have been studies made (I have seen them) of the number of vacant properties with taxes and fees accumulating so that not even a non profit wants to accept them - millions of dollars of unpaid taxes. There has been publicity recently about the City now noticing the difference between North and South Dallas.

As the records show many of the areas of South Dallas have vacant lots, trashed out structures, even in the Historic Districts the burned out houses were left for six or seven years before being demolished. I would turn in complaints, only for them to be ignored. It looks like it was planned destruction from City Hall. As the residents were able they moved away to De Soto, Lancaster, or Duncanville. Now the city is trying to find out who owns the vacant houses and lots.

One half of Buckner Terrace, east of Jim Miller, is in District 7 and all of the above has burdened our addition.. A person needs to drive a long distance across the Trinity River bottom and pick up another section of this gerrymandered District 7.

I built my 3000 sq,ft. house in 1986 at 4322 St. Francis and put it up for sale in December 2009. My family all lived in Richardson and Sachse and Murphy and thought I needed to be closer to them. Since 2009 the realtors showed the house to forty people. It cost me $10,000.00 to keep the utilities on, maintain the yard, pay the taxes and insurance. The most anyone offered to pay down was $5000. They kept saying lower the price, I refused – the house did not sell and I have now registered it for rental to kin folks. The house was appraised for the Tax roll at $169,000 and I am not selling it for $139.000, and spending $11,000 to pay the agent and closing costs to make a deal!. I was told if this was farther north it would sell for $250,000.

If we get the council districts right (and legal) this time, I believe some of this will change. Buckner Terrace does not need to be divided so any certain person can run for office. Something is drastically wrong when the eighth largest city in the United States is divided by Highway I 30 All of us have been paying for this illegal division since single member districts were established. Fix it now!

Subject: Redistricting

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Louise Southworth
My Address is: 2222 Babalos Lane, Dallas, TX 75228
I have lived in far East Dallas since 1984, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs. (Quite frankly, I have always felt I lived in a "stepchild" type area as far as representation on the City Council – our council person doesn't have a clue what life is like in our area.)
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"

Thank you!

PS. The citizens of Far East Dallas have made significant investments of time and money to stabilize, revitalize and increase the property value of our neighborhoods. Having lived in the area for the past 25 years, I can personally attest the area has suffered unduly over these years from the boom and bust fluctuations of the housing market. I own my home outright, and intend to stay. We need your help to prevent yet another set back due to adverse redistricting.

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: __William E. Wills
My address is 8412 Moorcroft Dr., Dallas, Texas 75228

I live in far East Dallas, a long forgotten and underserved area,
I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"
Thank you!

Subject: Save Redistricting Plan 3

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is James Bagley
My Address is: 8139 Barbaree Blvd, Dallas, 75228

I believe you eliminated the wrong plan from the final three. As I understand your voting procedure, each Commission member chose a first, second, and third choice and then eliminated the plan with the fewest number of first choices. This process eliminated the plan that was the second choice of the largest number of Commissioners.

I live in far East Dallas an we strongly support Redistricting Plan 3 so we are upset that it was the one put back in inventory.

We support Plan 3 because it preserves communities with similar interests and it uses highways, major streets, railroad tracks, and creeks as boundary lines for Council districts.

Thank you,
James Bagley

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!" Thank you!

Subject: I strongly support Redistricting Plan 3

Dear Madam Chairman and Honorable Members of the Redistricting Commission:
My name is: Robert DeVilbiss
My Address is: 8134 Barbaree Blvd Dallas TX 75228

I live in far East Dallas, a long forgotten and underserved area,

: I strongly support Redistricting Plan 3 for the following reasons

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"
Thank you!

Bobby DeVilbiss

Subject: City of Dallas Redistricting

Dear Madam Chairman and Honorable Members of the Redistricting Commission:
My name is: Ruben Casso
My address is: 2355 St. Francis Ave.

I have heard Plan 3 has already been eliminated from consideration even though it is still on the City Redistricting website as a viable option.

I live in far East Dallas, a long forgotten and under served area,
I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

Please DO NOT eliminate Plan 3 from consideration.

I strongly oppose Plan 16 because:

- Plan 16 does not preserve communities of similar/like interests and needs
- Several Districts on Plan 16 are vast in area making it difficult for Council Members to be adequately responsive to variable local/neighborhood needs
- Several districts on Plan 16 are are very disjointed and not compact.
- Does not provide for more than one minority coalition District
-

Subject: Support of Plan 5 Redistricting2011

My name is Lois Lilly and I reside at 2215 Sea Island, Dallas TX 75232.

I am writing in **support of Redistricting Plan 5.** The Plan provides Districts that are more compact and it maintains the cohesive relationships of similar communities.

I am opposed to Redistricting Plan 16 because it is not compact nor does it address the contiguity of communities.

Lois Lilly

Subject: Plan 3 Support

:
Madame Chair and Members of the Redistricting Commission,

Please reconsider Plan 3 as it is the most logical for the City as a whole. I support it because it will give all of us in far east Dallas the opportunity to better participate in city government.

I am concerned that you voted to move forward with the map of Plan 5 that had the least support at your forum. It would seem that the ranking system of voting eliminated consideration of a reasonable plan.

Please consider what the Mayor said about putting the interests of the citizens ahead of political agendas.

Thank you for your service to the City of Dallas. I truly understand the time and effort you all have put into this process.

Sincerely,
Ann Bagley

Subject: Redistricting

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Sean Stevenson
My Address is: 8215 Barbaree Blvd Dallas,Tx 75228

I live in far East Dallas, a long forgotten and underserved area, I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"

Thank you!

Amy de Noyelles
2529 Materhorn Drive,
Dallas, TX 75228

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

I live in far East Dallas, a long forgotten and underserved area.

I strongly support Redistricting Plan 3 for the following reasons:

· It meets the criteria for compactness of the districts.

· Preserves communities of similar/like interests and needs.

· Provides eight minority districts.

· Provides two minority coalition districts.

· Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts.

I oppose Plan 5 because:

· It does not provide for more than one minority coalition district.

· The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area, making it difficult for council members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations.

· Plan 5 does not preserve communities of similar/like interests and needs.

· Drawn council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

· The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed.

· In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for council members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations.

· Plan 16 does not preserve communities of similar/like interests and needs.

· Does not provide for more than one minority coalition district.

· Drawn council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"

My Name is James Marsh ... I live in the Enclave at Grover Hill Gated community my address is 2921 Coteau Way Dallas Tx 75227
It's in far East Dallas a long forgotten and underserved area...
I Strongly Support Restricting Plan 3 for the following reasons...
/ it meets the criteria for compactness of the District
/Preserves Communities of similar / like interests and needs
/ Provides Minority district
/ Provides two minority District
/ uses highways, major streets, railroad tracks, and creeks as boundary lines for each council District...

I SRONGLY OPPOSE Plan 5 & 16

I want to wrap up by saying ... This is my first house. I bought it 6 years ago yesterday. When I bought this house there were so many plans for this area Ferguson Road Project **(Never Completed),** Strong chance for Cowboys Stadium Downtown or Fair Park **(No go from OLD Bitter mayor),** Liquor Store and Club clean up on Samuel **(Voted in ... Nothing done) ... I could keep going. This is a well maintained family based gated community. The only problem we get no respect, left out or forgotten ...**

Subject: Redistricting

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Robert Richie

My Address is: 8266 Barbaree Blvd., Dallas, Texas 75228

I live in far East Dallas, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"

Thank you!

My name is: J. E. Smith

My Address is: 8235 Claremont, Dallas 75228

I live in far East Dallas, a long forgotten and underserved area, and object to all of the plans. We need cohesive districts so that a council member can represent districts where the residents have something in common. It puts such a burden on the council members to represent so many factions in their districts. I'm tired of the gerrymandered districts that were designed to create minority representation, and plans 5 and 16 clearly do just that, except for North Dallas. Why does North Dallas always get a free pass? We are a diverse community that doesn't need irregularly shaped districts to create equal representation. Even Plan 3, which is the least gerrymandered plan, has the inner city chopped up like mincemeat! You need to go back to the drawing board.

- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!" Thank you!

Subject: Ferguson Road Initiative supports Plan 3!!!!

August 23, 2011

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is Vikki J. Martin and I am the President of the Ferguson Road Initiative. We are a grassroots organization dedicated to the complete restoration of far East Dallas. Our physical address is 7229 Ferguson Road, Dallas, TX 75228. Our mailing address is included on this letterhead. We represent more than 73,000 residents.

As you have heard our representatives say at the City Redistricting forums, for much too long the citizens of far East Dallas have been forgotten and underserved. By far, the best Plan, not only for our residents, but the entire City of Dallas, is Plan 3. *We are most disappointed that you have elected to send this plan to inventory.*

The **Ferguson Road Initiative is strongly supporting Plan 3** for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

The Ferguson Road Initiative opposes Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

The Ferguson Road Initiative strongly opposes Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

We urge you to reconsider Plan 3 as it is the best map for the entire City of Dallas. Please "put citizens first and politics second!" Thank you!

Sincerely,

Vikki J. Martin

Subject: Redistricting Plan

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Sharon Diaz

My Address is: 3006 Green Meadow Dr, Dallas, TX 75228

I live in far East Dallas, a long forgotten and underserved area. This neighborhood is a culturally diverse area with citizens from many socio-economic strata. I urge you to respect this diverse and unique community by implementing a Redistricting Plan that preserves the integrity of the neighborhood with all it's diversity and uniqueness. Because of the demographics of the area, I must support a plan that allows for more minority districts and for more than one minority coalition district. Additionally, there are many citizens in this area who rely on public transportation and will find it a hardship to attend community meetings and may well be effectively shut out of the process. We chose to stay in this area because of the unique mix of cultures and do not support any plans that dilutes that by drawing arbitrary lines that are confusing to citizens and extend beyond the neighborhood.

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!" Thank you!

Yasmin Tolliver, Project Manager

Redistricting Commission reDallas11@dallascityhall.com

Redistricting Plans were Presented in Public Forum on Saturday, August 20, 2011

Although my home was not threatened for removal from District 13, I live in District 13 and certainly support the desire of those homeowners where there is possibility that their homes would be put in District 6. It is absolutely true that these homes are part of a community - my community - and we fight the same code issues, the same crime problems, and the same concerns. We have been blessed to have wonderful representation on Dallas City Council in all the years I have lived in the area - since 1972. We are a community.

It is my understanding that Plan 5 and Plan 16 are now being considered, and I would like to request that you keep the current western boundary for District 13 at Dennis Road and to keep ALL the residential homes to the west of Webb Chapel between Walnut Hill and Forest Lane in District 13.

This area more closely resembles the neighborhoods to the east. There is nothing to the west of these homes but commercial and industrial property. At present plan 3 puts this area in District 6. We seldom travel to District 6. We, who live in this area, shop, vote, worship, and conduct our daily business in District 13. District 13 neighborhood leaders work together to keep our entire area safe. We worked successfully to have the area in question restored to District 13 ten years ago after it had been carved out and inserted into District 6. We wish to remain in District 13. We have superb representation by Ann Margolin on the City Council, and we would like to retain that relationship and the cohesiveness of our community. I worked on the NWDIL for 17 years, and during that time, we did succeed in bringing the neighborhood together under the umbrella of District 13. We all deserve the right to the pursuit of happiness, and being placed in District 6 disrupts rather than serves any positive purpose.

Therefore, I request on behalf of my neighbors that you consider making this small change to either Plan 5 or Plan 16, whichever is chosen, and allow them to stay in District 13.

Thank you.

Subject: Changes Request to Map 16 and 5 and speakers request 8/23/11

Importance: High

Good afternoon,

My name is Yolanda F. Williams and I have attended all but one of the redistricting meeting and voice my concerns regarding the above maps. For May 16 "'we" the citizens in Pleasant Grove does not want to be in District 7 AKA Southdallas or District 4, or 8 AKA Oak Cliff District. We are requesting the following changes be made to Map 16:

The residence South on what was known as Loop 12 South streets off Pememberton Hill named: Anthler, Atha, Olusta, Stoneport, Capestone, Greek Grove, etc are in Pleasant Grove and we have always been connected. Our voting precint has always been E.B. Comstock. Our neighborhood consist of Seniors, African American, Caucasian and Hispanic and everyone have been residing in their homes in Pleasant Grove for over 30-40 years. Pleasant Grove starts South of Loop 12 cross of South Buckner. North Jim Miller is part of Buckner Terrace and "we" want them remain in that area and they consider themselves in East Dallas. If Pleasant Gtrove is going to have their own representative than "we" refuse to be a part of South Dallas and Oak Cliff. No disrespect to those district we just want to remain in Plesant Grove. The constituents suppors this and we are all in agreement. I amm requesting that they draw the lines on Map 16 and take those residence out of District 8 and District 7 and place them in the District 5 area where they belong in Pleasant Grove.

Map 5 needs to be totally revamp and once again "We" the residence in Pleasant Grove will not and does not want to be a part of South Dallas or Oak Cliff.

We have called in and submitted the speakers name regarding these requested changes.

Thank you,

Yolanda Williams

Re: Redistricting Plans as Presented in Public Forum on Saturday, August 20, 2011

After hearing the pros and cons and examining the three plans as presented, I would be willing to support Plan 3 if a small adjustment were made. That would be to keep the western boundary for District 13 at Dennis Road and to keep all the residential homes to the west of Webb Chapel between Walnut Hill and Forest Lane in District 13.

This area more closely resembles the neighborhoods to the east. There is nothing to the west of these homes but commercial and industrial property. At present plan 3 puts this area in District 6. We seldom travel to District 6. We, who live in this area, shop, vote, worship, and conduct our daily business in District 13. District 13 neighborhood leaders work together to keep our entire area safe. We worked successfully to have the area in question restored to District 13 ten years ago after it had been carved out and inserted into District 6. We wish to remain in District 13. We have good representation by Ann Margolin on the City Council and we would like to retain that relationship and the cohesiveness of our community.

Therefore, I am requesting that you consider making this small change to plan 3.

Subject: Keep Parkdale in District 7

I am a resident of Parkdale, and grew up in South Dallas. I would like to see all of Parkdale remain in District 7 moving the eastern bpindary line to Bisbee, which would include more African American residents. This is a multi-cultural community with participation in neighborhood affairs by all. Moving the boundary east to Bisbee keeps the Parkdale neighborhood intact. The historic neighborhood consists of similar and same style housing stock. Visually, it is a neighborhood with connecting streets. Please keep it a part of District 7 with minor changes to the eastern boundary extending to Bisbee. Thank you for your attention.

– Baba Dioum

Plan 16

Good Afternoon Madam Chair, I'm Candace Rodgers, I live in **District 5** at 1322 Woodburn Trail– in Singing Hills. As a resident of **District 5** for the last 23 years, I urge you **NOT** to support **Plan 16** because:

It will NOT preserve the current cohesive community I was raised in Singing Hills , went to R.L. Thornton Elementary School, and made life long friends in Singing Hills. Living in Singing Hills taught me the true meaning of the statement "It takes a Village to raise a child."

- Plan 16 prohibits continuity in our community.

  It does **not permit political cohesiveness!**

- It is not the best map to meet the **legal** requirements of the Voting Rights Act

- It will not **protect** the **voting power** of the African Americans.

I strongly **oppose** Plan 16, I **support** Plan 5.
I **ask that this commissioner support** Plan 5.

Subject: Plan 16 "KEEP PARKDALE IN DISTRICT 7!!!"

Dear Commissioners,

As residents of Parkdale and members of the Parkdale Neighborhood Association we are sending this e-mail to request/plead that Parkdale be kept w/District 7. Under Plan 16 you are splitting up Parkdale which will be devastating to us as residents and to our Neighborhood Association that has worked hard to unite our community. Looking at the district that we will be assigned to it does not make sense. The area we would be grouped with has no motivation to improve their area or work together as a community to improve and make their area a better place to live like we do here in Parkdale in District 7.

Update Plan 16 to keep Parkdale in District 7. Our simple request as a neighborhood and Assocation is:

- *Request that the lines of the new District 7 be moved eastward from White Rock Creek over to Bisbee (so the line would come south from Military to Scyene along Bisbee).*
- *We are kept with* District *7 that is attached with Buckner Terrace and East Dallas*

  rather than the proposed plans that would put us at the top of the

  district that would travel down to Pleasant Grove and beyond.

To learn more about PArkdale please visit www.parkdaledallas.org Thank you for your time, Charles & Yadira Cheatham 5816 Rich Street (214) 769-5265

Subject: District Line should be Grand Avenue on the south end of D-2. Not the Dart Rail Line.

Gentlemen::

I live at 2425 South Cesar Chavez Blvd. Apt. 9, Dallas, Texas 75215. (China Alley Lofts) I would urge you to put our little sliver of land between Grand Ave, and the rail road Tracks east of I- 45 into the new D 2 district and take us out of the Carolyn Davis District. This neighborhood has a large number of former industrial properties that have been converted to residences that need to be represented by a council member who takes an interest in urban living. We have the former American Beauty Mill, and several other large properties that have been converted to multi-family urban lofts in this little sliver. We need a council member who wants to make us part of the urban fabric of downtown Dallas. A member who will build the farmers market, add bike lanes,and fight for the things we would like to have in central Dallas.

Thank you,

Thomas Hooper.

Subject: Beckley Club Estates Neighborhood - currently in District 4

Redistricting Committee:

My name is Alicia Quintans, and I have lived at 227 North Shore Drive for 20 years, which is in a neighborhood called Beckley Club Estates, currently in District 4.

BCE is a small Oak Cliff neighborhood with a rich history, originally developed in 1925, consisting approximately 100 homes. Our neighborhood is one of 23 represented by the Old Oak Cliff Conservation League. Our Homeowner's Association participates in Crime Watch, and National Night Out. BC homeowners are active in the Oak Cliff community and support local businesses and restaurants, all of which are within cycling distance.

My neighbors and I have reveiwed the three proposed redistricting maps, and prefer Plan 5 for our neighborhood. Plan 5 helps us retain our neighborhood and groups us with like-minded voters.

Plan 16 leaves us in a similar situation as today. We are not represented well within the current District 4, and our circumstances and concerns are different than the average District 4 voters. We would like to have a voice within another North Oak Cliff District, where we spend the majority of our lives.

Plan 3 would devastate and divide our neighborhood into Districts 7 and 8.
Boundaries of BCE:
Beckley Club Estates (BCE) is bordered to the north by the Santa Fe Railroad (North Shore Drive), to the west by the Kings Gardens subdivision (South Beckley Avenue), to the south by the Trinity Heights subdivision (Seevers Avenue), and to the east by the Cedar Oaks subdivision (Edgemont Avenue and Appian Way). Streets within the boundaries are North Shore Drive 100-200 block; South Shore Drive 100-200 block; Appian Way 100-300 block; Seevers Avenue 1300-1600 block; Ramsey Avenue 1400-1600 block; Crestwood Drive 200 block; Edgemont Avenue 302 through 307; and South Beckley Avenue (east side) 1400-1600 block.

We also maintain a website with historic information:
http://www.beckleyclub.com/

As the map is finalized, please consider grouping our neighborhood as a whole into a North Oak Cliff District.
Thank you for your time and support.

Sincerely,
Alicia Quintans, AIA

Dear Comissioners,

Update Plan 16 to keep Parkdale in District 7!!

Please move the lines of the new District 7 eastward from White Rock Creek over to Bisbee (so the line would come south from Military to Scyene along Bisbee).

As is, Plan 16 currently splits the Parkdale neighborhood at its northwestern corner and removes Parkdale Lake from the Parkdale neighborhood. Please, keep our lake with our neighborhood!

Thank You
Craig Stewart

To: reDallas11; Davis, Yolanda
Subject: parkdale re-districting

To Whom It May Concern:

I am definitely against redistricting plan 16 which would split up my neighborhood of Parkdale.

If Plan 16 were updated to keep us in District 7, move the lines of District 7 eastward from White Rock Creek over to Bisbee - line would come south from Military to Scyene along Bisbee.

Currently, Plan 16 splits Parkdale neighborhood at it's NW corner and removes Parkdale Lake from our neighborhood.

Subject: Redistricting

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: _Jan Gebhard_____

My Address is: __3014 Rambling Dr., Dallas, TX 75228_____ (Street Number & Name, City & Zip)

I live in far East Dallas, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs

- Does not provide for more than one minority coalition District

- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!" Thank you!

Sincerely,

Jan Gebhard

Subject: Save Plan 3!!!!!

Dear Madam Chairman and Honorable Members of the Redistricting Commission:
My name is Rory Moore. My address is 8816 Sweetwater drive,Dallas, TX 75228.

I live in far East Dallas, a long forgotten and underserved area.

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!" Thank you!

- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas.
We urge you to "put citizens first and politics second!"
Thank you!

Subject: Redistricting Plans

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

Our names are: Sidney W. & Georgia King

Our Address is: 9009 Sorrento St. Dallas, Texas 75228-4451. We have lived at this address for 47 years which is in far East Dallas, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!" Please, for the sake of the City, think of the people and not the poiticians!!!

Thank you!

Subject: Redistricting Plans

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

First, I want to thank each of you for your service on the Redistricting Commission. I know each of you have put a lot of time and consideration into your appointment.

I am writing to ask you to put Plan 3 back into the inventory for the following reasons:

- When a "**Ranking System**" is used for determining the top two positions then each rank should be determined by the majority of votes within each "Ranking System" Level. (In this case 3 Plans, 3 "Ranking System" Levels)
- Ranking Level 1 *(first place)* apparently had the majority of the Commission's Votes (total of 10) for Plan 16.
- Ranking Level 2 *(second place)* apparently had a unanimous majority of the Commission's Votes (total of 15) for Plan 3 and therefore should have been left for consideration.
- Ranking Level 3 (third place) apparently had a majority of the Commission's Votes (total of 10) for Plan 5 **and therefore should have been the plan returned to inventory.**

I know that each of you have the City's best interest in your heart, but I am having trouble understanding your reasoning for selecting Plans 16 and 5 for consideration simply because these two plans both had some votes at the Ranking System of Level 1 especially when there was a clear a decisive majority vote (2/3rds) to be exact for Plan 16. What happened to the majority votes at the 2nd and 3rd levels within the Ranking System?

Plan 3 could very well be the best Plan for the next ten years because it became the "Compromise Plan" when each of you, as a Redistricting Commissioner, unanimously voted it as your second choice.

Once again, I want to thank you for your service to the City of Dallas and ask you to please reconsider Plan 3 as the next redistricting Map for Dallas.

Sincerely,
Susan Walker

Subject: Redistricting

My name is Tony Rios, I live at 5239 Clover Haven Dallas, Texas. This is in far East Dallas. I strongly urge you to keep Plan 3 in place. My neighborhood is in the often divided Buckner Terr Homes area. Plan 3 keeps us in one area. It also includes my neighborhood in single family homes area similiar to mine in the new District 9. The area is contiguous and easily identifiable to middle income neighborhoods. Plan 16 is all over the place and does not represent my community. As a former candidate for District 7 City council I found the vast area was dissimiliar in many aspects. Plan 16 effectively eliminates challenges from non black citizens to the city council. Plan 16 is politically designed. Plan 3 on the other hand makes more sense from apoltical standpoint.

To: reDallas11
Subject: redistricting Parkdale

I wish to speak on behalf of our neighborhood Parkdale and express our desire to keep us in the district where Parkdale lake is located and for which it was named. We also have a bond with the Buckner Terrace neighborhood which no major roadway separates us from. It makes more sense to follow the direct cut off of Scyene Road which has been the dividing line between our neighborhood and Pleasant Grove for more than my 50 years of living here. This helps to keep our neighborhood strong and does not detract from the Pleasant Grove neighborhood in the least. Thank you for your consideration. Terri Holmes

- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:·

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please **DO NOT inventory Plan 3** as it is the best map for the entire City of Dallas.
We urge you to "put citizens first and politics second!"

Thank you!
Todd Morrill

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Lee Ann Wilson

My Address is: 2341 Bragalos Ln (Street Number & Name, City & Zip) Dallas Tx 75228-4516

I live in far East Dallas, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas.

We urge you to "put citizens first and politics second!"

Thank you!

Subject: Redistricting to eliminate Plan 3 is bad idea

Dear Chairman and Honorable Members of the Redisttricting Commission:

My name is Charles R. Smith and my address is 5825 N. Jim Miller Dallas, Texas 75228.
I live in far East Dallas , a somewhat forgotten and underserved area. I strongly support Redistrictionl Plan 3 for several reasons: It meets the criteria for compactness of the Districts, preserves communities of similar interests, and uses highways, major streets, the railroad tracks, and creeks as boundary lines for each of the council districts.

However, Il opposte Plan 5 because: It does not provide for more that one minority coalition district, the districts are not compact and the numbered districts 3,5,& 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations. I attended one last week that was one of maybe 4 or 5 meetings that Caroly Davis held. Plan 5 does not preserve communities of similar interests, and the drawn Council bourndaries are not clear and well defined.

I am strongly opposed to Plan 16 because: Plan 16 does not preserve communities of similar interests and needs, does not provide for more than one minority coalition District, and the Council boundaries are not clear and well defined.

Please do not toss out Plan 3 as it is the very best map for the entire City of Dallas. And, let's put us citizens first and Dallas politics second. If you would like to contact me my number is 214/ 641-6533. Thank You !! Charles R. Smith

Subject: Redistricting.....Go for MAP 3

Hi. I want to please put my hat into the ring for MAP 3....in which you were going to put back into inventory....Please do not do this ... this is the most fair map.

I live in Far East Dallas and we have long been forgotten and treated like a stepchild in our area.

Please do not go with map 16... it seems so unfair and the council person has long distances to travel.. It also looks partial to more rich areas. I think this map looks gerrymandered and the districts are not compact in size. They do not provide community of like interest.

Map 5 is ok.... not as good as Map 3.....

This is so important for the next 10 years... I have lived here in the area all of my life.
I hope politics are set aside and fairness is the way you will vote.

Thanks for your consideration.

reDallas11@dallascityhall.com

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Nayna Walker

My Address is: 2547 Dorrington Drive, Dallas, TX 75228

I live in far East Dallas, A LONG FORGOTTEN AND UNDERSERVED AREA.

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is: Mel Renfro

My Address is: 8211 Hunnicut Rd, Dallas, TX 75228

I live in far East Dallas, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs

Subject: Redistricting- FOR PLAN 3

Dear Madam Chairperson and Honorable Members of the Redistricting Commission:

My name is Ed Snyder and I reside at 8041 Fall River Dr., Dallas, Texas 75228.

I live in far East Dallas, a long forgotten and underserved area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT reject Plan 3 as it is the best map for the entire City of Dallas. I urge you to put citizens first and politics second!

Thank you,

Ed Snyder

To: reDallas11
Subject: Option 05b

To Whom it May Concern:

I am a City of Dallas resident, living at 6026 La Vista Dr. I believe most of these options are deeply flawed, splitting districts ON La Vista (a small residential street) when Live Oak (a large main artery) is only a few blocks away! But, of the three options presented, Option 05b is clearly the best. Option 16b, which appears to be the choice of the commission is clearly the most gerrymandered of the maps, splitting up MANY more neighborhoods than just mine! Please do what is right for Dallas and not just the vocal minority that showed up to the last commissioners' meeting.

Thank you for your time.

Subject: District 10 Lake Highlands

- District 10 is already a diverse district and meets the not gerrymandered definition
- District 10 is a Community of Interest going back to Dean Vanderbilt's council tenure and has been refined to reflect that over the past 30+ years
- The Lake Highlands Exchange Club, Lake Highlands Women's League and Junior Women's League and others have worked hand in hand with the City on programs, having donated hundreds of thousands of dollars to Parks in District 10
- The "small town feel within the heart of the city" that defines LH and has supported council candidates, and redevelopment would be lost
- LH has a long history of being a neighborhood where diversity already works; don't destroy that

Subject: Redistricting Plan

Dear Madam Chairman and Honorable Members of the Redistricting Commission:

My name is:Matthew Christy

My Address is: 8447 Suncrest Dr., Dallas, TX, 75228

I live in far East Dallas, a long forgotten and under-served area,

I strongly support Redistricting Plan 3 for the following reasons:

- It meets the criteria for compactness of the Districts
- Preserves Communities of similar/like interests and needs
- Provides eight minority districts
- Provides two minority coalition Districts
- Uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

I oppose Plan 5 because:

- It does not provide for more than one minority coalition District.
- The districts are not compact and the numbered districts 3, 5, & 6 on Plan 5 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 5 does not preserve communities of similar/like interests and needs
- Drawn Council boundaries are not clear and well defined.

I strongly oppose Plan 16 because:

- The numbered Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed
- In addition, Districts 2, 3, 6, & 7 on Plan 16 are vast in area making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations
- Plan 16 does not preserve communities of similar/like interests and needs
- Does not provide for more than one minority coalition District
- Drawn Council boundaries are not clear and well defined.

Please DO NOT inventory Plan 3 as it is the best map for the entire City of Dallas. We urge you to "put citizens first and politics second!"

Thank you!

Subject: Lake Highlands redistricting

Dear Commission Members'

The following eloquently expresses our own feelings regarding any redistricting of our area:

In reviewing the submissions of redistricting maps we have become increasingly alarmed that District 10 is being carved up with no considerations for community of interest or "home town feel". Lake Highlands-virtually all of District 10- is a unique entity within a very large city. We have been able to develop and maintain a hometown feel by bringing the District together in a very complicated but not so complicated way. Lake Highlands High School services almost all residents of District 10. The District is among the most diverse in the city and we make it work because we work together for all in the neighborhood. Audelia Creek and Thurgood Marshall Elementary Schools were created through partnership with the City of Dallas and the Richardson School District achieved by the District 10 council members because of the common interest of the voters of the District.

The Lake Highlands Jr. Women's League has worked with the Dallas Park and Recreation Department to install a pavilion and spray ground with hundreds of thousands of dollars donated privately through the efforts of the council members and voters of the district. The Lake Highlands Exchange Club and Lake Highlands Women's League have awarded over a hundred thousand dollars in scholarships a year for many years now to deserving students from Lake Highlands high School of all backgrounds but predominately at risk children-because there is a strong feel of community and union. We make diversity work.
To carve up Lake Highlands would be a travesty and something that would do irreparable harm. Please keep the Lake Highlands attendance zone in one City Council District.

Thank you,
Martha and Bill Gray

Dallas, Texas 75201-6390

RE: Redistricting

Dear Mayor Rawlings:

As an advocacy organization for the folks living along the Ferguson Corridor; and consideration of those living in far East Dallas; we very much appreciated hearing your words on August 20 about putting **people in front of politics.** We look forward to seeing this principle in action for Dallas. With this in mind, we want to urgently address the current situation regarding redistricting, where we feel this principle is being undermined. Specifically, it appears that Plan 16 d is being promoted over other plans for political reasons, despite serious deficiencies. Plan 3, still in consideration by the commission as late as August 20, adheres to the "2011 Redistricting Guidelines", approved by City Council on April 13, 2011 - Resolution No. 110921, more closely in that it:

- meets the criteria for compactness of the Districts;
- preserves Communities of similar/like interests and needs;
- provides eight minority districts;
- provides two minority coalition Districts ; and
- uses highways, major streets, railroad tracks, and creeks as boundary lines for each council districts

However, Plan16 d is deficient and fails to adhere to the Council's Guidelines in Resolution No. 110921 for the following reasons:

- shows Districts 2, 3, 6, 7, 13, and 14 on Plan 16 are not compact and are disjointed;
- makes Districts 2, 3, 6, and 7 vast in area thereby making it difficult for Council Members to attend multiple community meetings as well as increasing city expenses for additional town hall meeting locations;
- does not preserve communities of similar/like interests and needs;
- does not provide for more than one minority coalition
- does not clearly and well define the Council Districts; and
- is not neutral to the incumbents.

The Ferguson Road Corridor is a well defined community of interest as exemplified by the Ferguson Road Initiative (FRI), a collective community of 35 neighborhoods and crime watches. FRI has been the recipient of two Department of Justice *Weed and Seed* grants making it a unique Dallas community. Plan 16 d erodes the Ferguson Road Corridor by transferring the area north of Ferguson Road into District 9 while leaving the area south of Ferguson Road in District 7. It basically guts our community and makes it difficult to coordinate capital improvements that will benefit our area.

The Guidelines clearly state that the configuration of districts "shall be neutral as to incumbents". We are concerned that some of the proposed districts in Plan 16 d are not "neutral" to the incumbents, but are rather configured to protect them. At the meeting on Tuesday, August 23, 2011, a majority of the commissioners thanked the submitter of Plan 3 and several of them actually stated that while they appreciated his work—the selection for the final two Plans in consideration (16 d and 5) was *"political."*

We are concerned that there have been a number of ex parte discussions between current Councilmembers and the Redistricting Commission providing direction into the maps as well as making public comments in the Commission's public hearings that could be considered attempts at undue influence.

Obviously, other communities may have interests that are threatened or protected by one Plan or another. In Plan 3, we see an honest attempt to adhere to the guidelines in a way that is acceptable to us. In Plan 16 d, we see **politics in front of people**.

Thank you for your attention to this. We believe redistricting is important to the future of Dallas, but needs your active leadership to succeed. The Redistricting Committee for FRI would very much like to meet with you on this matter. I will be contacting your office to set up a meeting.

Sincerely,

Vikki J. Martin, President
Ferguson Road Initiative

Subject: Redistricting

Dear Dallas City Council,

Our names are Mel & Liz Renfro. We reside at 8211 Hunnicut Rd, Dallas, 75228.

As citizens of Dallas and proud residents of far East Dallas, we oppose Redistricting Plan 16. Mel, a former Dallas Cowboy, has participated in many fund raisers throughout the city of Dallas. Liz, a life long native of the Ferguson Rd area is also a Real Estate agent for William Davis Realty.

We respectfully ask that you reconsider the Plan 3 Redistricting Map. This map better represents the demographics of the City and our community. We have been working through the Ferguson Rd Initiative and as individuals very hard to bring up the values of our properties, and feel that by putting us in Plan 16 would lower our values as well as affect the already slow market.

Please put people before politics!

Sincerely,

Mel & Liz Renfro

Subject: Dallas Redistricting Plan

To Mayor Mike Rawlings, Dallas City Council members, and Redistricting Commission members:

I have been a resident of Wynnewood North for over 10 years, and I am asking for you to support a redistricting plan that keeps Wynnewood North in one of the North Oak Cliff districts, either District 1 or District 3.

I believe our neighborhood has strong connections to the Bishop Arts District, the Old Oak Cliff Conservation League, and the Rosemont Early Childhood PTA, all of which are tied to North Oak Cliff. The interests of our diverse neighborhood reflect, in my opinion, the interests of the North Oak Cliff area. The Wynnewood North Neighborhood Association works very hard to improve our area and supports the businesses in North Oak Cliff.

I believe our interests will be better served if Wynnewood North remains in one of the North Oak Cliff districts, and that our neighborhood will receive better representation at City Hall if included in either District 1 or District 3. Please support a plan which keeps Wynnewood North tied to the North Oak Cliff area.

Thank you.
Ron Horick

September 23, 2011

Dear Mayor Rawlings and Dallas City Council Members,

Attached please find the chart made from data on the City of Dallas web site for the 11 Dallas City Council Redistricting Maps now before the people of Dallas for discussion 3:00 PM Saturday. A copy of this chart and letter are also online at http://dallasredistricting2011.blogspot.com/ . They will also be handed out at Saturday's meeting to facilitate discussion.

This chart clearly shows which plan stands out as being the most compact with the maximum minority representation. That is the version of wPlan03c submitted by Mayor Rawlings.

Average district perimeter in Mayor Rawlings map is only 32.64 miles. It is the most compact.

Minority representation, measured as the average minority voting age population percentage for each minority group in their majority districts, is also best in Mayor Rawlings wPlan03c map. It provides an average Black voting age population of 63.07% from three districts. The next closest map, the Jasso/Griggs map, weighs in at only 60.14%. For Hispanics, this same wPlan03c map provides 62.53% average Hispanic voting age population in 5 Hispanic majority districts. The next closest map is the Jasso/Griggs/Alonzo/Koop/Margolin map with a 61.60% average.

Like Councilman Caraway said Thursday morning, **"The numbers will make the decision!"** One weak district in a map can make all the difference. The wPlan03c map spells a much brighter future for Dallas if we can finally have a city council that truly reflects our city! The potential for a **9th minority member on the Dallas City Council** is certainly greatest with wPlan03c, submitted by Mayor Rawlings, due to the existence of **two minority opportunity districts, both of which are stronger that all the other maps with 8 minority majority districts.**

If wPlan03c by the Mayor is accepted, Dallas will eliminate over 150 of the 609 miles of boundary lines now surrounding our 14 City Council Districts. These are the miles that have gerrymandered our Southside of Dallas for 20+ years. **Once gone, such a painful cleanup as we are now facing will not need to be repeated.** Future redistricting will only involve normal movement of lines due to population changes. It will be easier for City Hall to respond to voters. Voters will find it easier to stay in contact with their Council person who will no longer live 10+ miles away. Council members will be more visible in their community. Less travel time and expense will be needed.

Please give wPlan03c submitted by Mayor Mike Rawlings your vote.

Your questions about this chart are welcome. I would be honored to come to any of your offices at any time to work toward improvements on any map for the future of Dallas. (I am retired.)

Honored to be of service to you and our city, and praying the attached chart will help,

Bill Betzen

Dear Redistricting Commission,

I've lived in Wynnwood North for over 20 years. The thought of choosing a redistricting map that would exclude Wynnwood North form North Oak Cliff is appauling. A change like this could change the value of my home. Splitting our neighborhood or separating our neighborhood from North Oak Cliff. As a community and neighborhood we've work very hard to protect and build up this area. Separating us from the rest of the pack (North Oak Cliff) is like separating us from the heard to be picked off by those with different concerns for their neighborhood.

Please, vote to keep Wynnwood North as part of the North Oak Cliff District.

Subject: Bad maps

In reviewing the redistricting maps submitted, there are two that are very detrimental to the North Oak Cliff community and my neighborhood in particular:
Map w03c (Rawlings)
Map c Plan 16d Amendment 2 (Caraway, Davis & Atkins)

Both of them take Wynnewood North out of the North Oak Cliff community (District 1 & 3). As an essential, active Oak Cliff neighborhood, it is important we continue to be involved with like-minded communities that share the common goal of continuing to develop and grow the North Oak Cliff region. Please choose one of the maps that integrates both Wynnewood North, the Parks at Wynnewood apartments, and Wynnewood Village into the North Oak Cliff community (District 1 or 3).

Subject: Redistricting Plans - Wynnewood North Neighborhood Association

Dear Redistricting Commission:

Because our neighborhood (Wynnewood North) is active in the growth and improvements in our North Oak Cliff area, we support the following City Council plans:

cPlan 16D Hill Amendment
cPlan 16D Jasso/Griggs Amendment
cPlan 16D Rawlings Amendment
cPlan 16D Jasso/Griggs/Alonzo/Koop/Margolin Amendment

All of the above plans keep us joined and represented with our neighborhoods of the Old Oak Cliff Conservation League.

Respectfully yours,

John and Gail Ridgley

REDISTRICTING

I am writing to express opposition to Plan 16d with Rawlings amendments. The map splits up the Cedars neighborhood into 3 districts. I understand why every council member would want us in their district, but this is not the solution! It cuts across boundaries of the TIF, PD317, the Neighborhood Association and police districts. This neighborhood, immediately south of the CBD, has an area of only 1-1/2 square miles. Please do not destroy our representation on Council as proposed on this map.

Subject: Keep Wynnewood North in District 1 or 3

Dear Mayor Rawlings, Members of the Dallas City Council, and Members of the Redistricting Commission:

I am a resident of the Wynnewood North Community in North Oak Cliff. Please understand that it is CRITICAL to the history and cohesion of Wynnewood North to remain in either District 1 or 3 with neighborhoods of like interests, character, architecture and historical value. As one of the original neighborhoods established with the Old Oak Cliff Conservation League, we have worked hard over the years to build a strong level of community capital.

North Oak Cliff has made great improvements for its residents and our city's economy and will continue to do so—so long as we remain with North Oak Cliff.

I urge you to avoid excluding Wynnewood North from the North Oak Cliff community when redistricting.

Thank you,

Mike Sims

Subject: Redistricting

Hello Mayor Rawlings and Dallas City Councilmembers,

Attached is my presentation at the City of Dallas *Special Called City Council Meeting.*on Saturday, September 24, 2011. I am in support of the 2011 Redistricting Map offered by Councilmember Vonciel Jones Hill. Thank you for providing an opportunity for the citizens of Dallas to voice their support of the various versions of Map 16. I hope that you will be able to develop a composite map that will provide for four African American seats on the Dallas City Council.

Forever forward,

Emma - 214.769.0981

esrodgers1@gmail.com

The ultimate test of a moral society is the kind of world it leaves its children. - Dietrich Bonhoeffer

Good afternoon Mr. Mayor and Councilmember. I am Emma Rodgers. I live in District 5 at 1322 Woodburn Trail – Dallas, TX 75241.

I am her in support of the **Hill Amendment** to **Map 16** because it:

- **Retains** the **fundamental core** of **District 5**, which is a strong African American district.

- It **keep** together communities of similar interest: Pemberton Hills – Singing Hills – Red Bird – The Woods

- It does not divide contiguous neighborhoods such as Bar Harbor and Elder Oaks from Red Bird

- And lastly, **Map 16** allows for **four African American Council seats**, thus bringing the redistricting plan for the City of Dallas into better compliance with the Voting Rights Act.

I'm in **favor of compact districts**.

I am **not in favor** of any map that only allows for three African American districts.

Please note that the citizens of Dallas need to be reminded that the four current African American City Council members will not be council members in 2013 when the Dallas redistricting plan is scheduled to become effective. As a consequence, my support of the Hill Amendment is not an effort to protect Councilmember Vonciel Jones Hill seat in District 5 or any of the other council members' seats.

Thank you.

RE: Redistricting Dallas City Council Districts 2011

Ms. Tolliver:

I reside at 2206 Elderoaks Lane, in the Elderoaks neighborhood located in the "Red Bird" area of Dallas. I am writing to express my opposition to any proposed redistricting map that is configured to separate the Elderoaks neighborhood from the "Red Bird" area and attach it to neighborhoods in North Oak Cliff.

My opposition is based on the fact that such a configuration does not appear to comply with the 2011 redistricting guidelines applicable to the Dallas City Council redistricting process. In particular, I note that North Oak Cliff communities and the Elderoaks neighborhood have distinct and unique **"community and economic interests."** As an example, redevelopment of the Camp Wisdom corridor and, in particular, the Southwest Center Mall, may be of great interest to residents of the Elderoaks neighborhood. However, those issues may not be as critical to residents of North Oak Cliff, whose **"community and economic interests"** might be more directly impacted by development in areas contiguous to their neighborhoods. In fact, Elderoaks and North Oak Cliff may have competing **"community and economic interests."**

Further, Elderoaks has a **"history and tradition of working together"** with other communities in the " Red Bird" area, but not with North Oak Cliff communities. Finally, attaching Elderoaks to North Oak Cliff raises a question of whether such a plan satisfies the 2011 redistricting criteria of "compactness" and "contiguity.

Thank you for your consideration of my comments. Please forward this letter as appropriate.

Sincerely,

David W. Smith

RE: 2011 Redistricting Dallas City Council Districts

Ms. Yasmine Tolliver:

I reside at 6840 Talbot Parkway, in the Elderwoods Subdivision in City Council District 5, in Dallas. I am vehemently opposed to any proposed redistricting map that is configured to separate the Elderwoods, Elderoaks and Wynnewood Hills neighborhoods from the "Red Bird" area and current District 5, and attach it to neighborhoods in North Oak Cliff.

My opposition is based on the fact that such a proposed configuration does not comply with the 2011 redistricting guidelines applicable to the Dallas City Council redistricting process. Specifically the Elderwoods/Elderoaks/Wynnewood Hills communities versus the North Oak Cliff communities have very unique, distinct and different **"community and economic interests."** By way of example, redevelopment of the Camp Wisdom corridor and, in particular, the Southwest Center Mall, is of great interest to residents of the Elderwoods/Elderoaks/Wynnewood Hills communities, whereas further development of the North Oak Cliff community, specifically, the Fort Worth Avenue and Methodist Hospital areas, is, I am sure, of paramount importance to North Oak Cliff. I have no interest in the further development of North Oak Cliff. My communities, Elderwoods/Elderoaks/Wynnewood Hills, are at the forefront of my concerns. Correspondingly, I am sure my community concerns are of little importance to North Oak Cliff. It should be very clear that the Elderwoods/Elderoaks/Wynnewood Hills communities have opposed and competing **"community and economic interests"** to the North Oak Cliff community. Further, the Elderwoods/Elderoaks/Wynnewood Hills communities have a **"history and tradition of working together"** with the other communities in the " Red Bird" area, but not with any North Oak Cliff communities. Attaching the Elderwoods/Elderoaks/Wynnewood Hills communities to North Oak Cliff raises a genuine issue as to whether such a plan satisfies the 2011 redistricting criteria of "compactness" and "contiguity, in addition to issues of Voting Rights Acts violations by the City.

Please meaningfully consider my comments, and pass them on to the Redistricting Commission and City Council. I will remain hopeful that this is not another attempt to dilute the voting strength and rights of residents of the Elderwoods/Elderoaks/ Wynnewood Hills communities.

Please ensure that my letter is distributed to members of the Redistricting Commission, as well as the Dallas City Council.

Respectfully,

Evelyn Conner Hicks

Dear Mayor Mike Rawllings:

I'M DRAWING THE LINE My Precinct Delivered ___Votes for You.

Plan: ____Keeps my Community Together and Gives US a Voice

Name: Joyce Foreman Precinct #: 3538 Telephone: 214 372-1331

Community of Interest: SW Dallas Zip code:75232

Mr.Mayor,

I live in the current district 5 in the Red Bird area of Dallas. This is one of the strongest voting areas for African Americans and I am asking you to keep us together.While I understand the needs to redistrict I am somewhat baffled with the idea that African Americans need a 60 % threshold to be called a safe district. I do not believe that is true for whites or blacks but for Hispanic districts. If you factor in voting age, Hispanic surnames and registered to vote, white and blacks can easily win districts with less than 50% in their district. In fact it could be considered as cramming.

I am asking you as the leader of our city to insure that there are 4 black districts and to make sure that there are 4 Hispanic districts. I truly believe in inclusion and sharing the pie, but anything less than 4 African American districts would be unacceptable.

Your map bc seems to get us close to where we should be and I hope that you continue to work with all of the council to ensure fair representation for all.

God bless

Joyce Foreman

RE: Redistricting

Dear Mayor and Dallas City Councilmembers:

I, the undersigned am a resident of voting age in the city of Dallas, Texas. I am writing to voice opposition to any Dallas City Council redistricting proposal that decreases African-American representation from four to three city council seats.

For many generations, African-Americans were forefront in a nation-wide struggle for the right and privilege of all people to have a voice regarding their government. Even to this very day, that influence serves as a global model others use in their own struggle for justice and parity. Unfortunately, however, for African-Americans in Dallas; the effect of proposed Council redistricting negates those hard-fought triumphs and gains.

Today, Dallas enjoys world-class status; due in part, to the contributions and sacrifices of the African-American community. Yet, today, the voice of the African-American community in Dallas is in jeopardy—threatened with reduced representation; and, resulting in the disenfranchisement of those who collaborated and helped make that status a reality.

Mayor and Council, the African-American communitiy needs and seeks your cooperation in setting aside the Redistricting Committee's recommendation for reduced representation. Further, Mayor and Council, we need and seek your cooperation in redrawing a redistricting map that retains no less than four (4) African-American Council Districts.

Respectfully,

I agree there should be no less than four (4) African-American Dallas Council Districts:

RE: Redistricting

We, the undersigned are residents, of voting age, in the city of Dallas. We oppose any Dallas City Council redistricting proposal that decreases African-American representation to less than four council seats. diminishes the African-American voice is an effort to disenfranchise the community. Mayor and Council, the African-American community seeks your cooperation in setting aside the Redistricting Committee's recommendation, for reduced representation. And, we ask you only consider redistricting maps that retain no less than four (4) African-American council districts.

I/we agree there should be no less than four (4) African-American Dallas Council Districts:

TO: Mayor and Dallas City Councilmembers:
RE: Redistricting

We, the undersigned are residents, of voting age, in the city of Dallas. We oppose any Dallas City Council redistricting proposal that decreases African-American representation to less than four council seats. Any proposal that diminishes the African-American voice is an effort to disenfranchise the community. Mayor and Council, the African-American community seeks your cooperation in setting aside the Redistricting Committee's, and any other recommendation, for reduced representation. And, we ask you only consider redistricting maps that retain no less than four (4) African-American council districts.

I/we agree there should be no less than four (4) African-American Dallas Council Districts:

TO: Mayor and Dallas City Councilmembers:
RE: Redistricting

We, the undersigned are residents, of voting age, in the city of Dallas. We oppose any Dallas City Council redistricting proposal that decreases African-American representation to less than four council seats. Any proposal that diminishes the African-American voice is an effort to disenfranchise the community. Mayor and Council, the African-American community seeks your cooperation in setting aside the Redistricting Committee's, and any other recommendation, for reduced representation. And, we ask you only consider redistricting maps that retain no less than four (4) African-American council districts.

I/we agree there should be no less than four (4) African-American Dallas Council Districts:

RE: Redistricting

We, the undersigned are residents, of voting age, in the city of Dallas. We oppose any Dallas City Council redistricting proposal that decreases African-American representation to less than four council seats. Any proposal that diminishes the African-American voice is an effort to disenfranchise the community. Mayor and Council, the African-American community seeks your cooperation in setting aside the Redistricting Committee's, and any other recommendation, for reduced representation. And, we ask you only consider redistricting maps that retain no less than four (4) African-American council districts.

I/we agree there should be no less than four (4) African-American Dallas Council Districts:

Subject: Redistricting Plans

Dear Ms. Tolliver:

I live at 1939 Elderleaf Drive, in the Elderoaks neighborhood in the Red Bird area of Dallas. I am writing to oppose any proposed redistricting map that separates the Elderoaks neighborhood from other surrounding Red Bird neighborhoods, including Elderwoods, and Wynnewood Hills/Bar Harbor, and any map that groups these neighborhoods with those in North Oak Cliff. My opposition is based on the fact that the North Oak Cliff neighborhoods are sufficiently dispersed geographically to cause them to have community and economic interests distinct and unique compared to the Red Bird neighborhoods. For example, the economic development of the Camp Wisdom corridor, especially the Southwest Center Mall, is of great importance to the residents in my neighborhood, but may not be as critical to residents of North Oak Cliff who understandably would be more concerned about economic development of areas closer to their homes. Although many times their interests may align, the community and economic interests of the North Oak Cliff neighborhoods may compete with those of Elderoaks and the Red Bird neighborhoods by virtue of the fact that the city does not have unlimited resources. Finally, the Elderoaks neighborhood has historically and traditionally worked with other communities in the Red Bird area. For these reasons, I oppose any map configured to separate the Red Bird area neighborhoods or one that places them in the same council district as the North Oak Cliff neighborhoods. Thank you for your attention, and please forward this email as appropriate.

Sincerely yours,

Demarron Berkley
1939 Elderleaf Drive

RE: Redistricting

Dear Mayor and Dallas City Councilmembers:

I, the undersigned am a resident of voting age in the city of Dallas, Texas. I am writing to voice opposition to any Dallas City Council redistricting proposal that decreases African-American representation from four to three city council seats.

For many generations, African-Americans were forefront in a nation-wide struggle for the right and privilege of all people to have a voice regarding their government. Even to this very day, that influence serves as a global model others use in their own struggle for justice and parity. Unfortunately, however, for African-Americans in Dallas; the effect of proposed Council redistricting negates those hard-fought triumphs and gains.

Today, Dallas enjoys world-class status; due in part, to the contributions and sacrifices of the African-American community. Yet, today, the voice of the African-American community in Dallas is in jeopardy—threatened with reduced representation; and, resulting in the disenfranchisement of those who collaborated and helped make that status a reality.

Mayor and Council, the African-American communitiy needs and seeks your cooperation in setting aside the Redistricting Committee's recommendation for reduced representation. Further, Mayor and Council, we need and seek your cooperation in redrawing a redistricting map that retains no less than four (4) African-American Council Districts.

Respectfully,

Linda Wheeler — Printed Name

Dallas Redistricting War of 2011 - Part 3

Presented to the Dallas City Council By Richard P. Sheridan, P.E. - Professional Engineer - Activist -
www.RichardPSheridanPE@Gmail.com October 10 , 2011

This is Battle 10 maybe in the Redistricting war. Its a war like all wars, the pursuit of wealth, and power, the power to decide where our tax dollars go, or if a Mosque is built, if a highway will blight our Trinity Park, if our homeless are adequately taken care of, or a certain lifestyle is going to be promoted or not. I heard three very significant statements during the redistricting process.

1. Gromer Jeffers with the Dallas Morning News stated that Redistricting is about Gerrymandering to keep the incumbent in power. I would add to that, keep the political party in power, of keep a particular race in power.

2. One of the Redistricting Commissioners members stated to me, "Mr. Sheridan, you don't know your District. Do you know what kind of people live in the area of District 13 East ? They're refuges." I'm from New York. New York is the land of refugees, millions of people seeking shelter from the storm of their home countries, people in need of support and nurturing during their emotional plight. This is what America, Our Nation has been about. Helping those in need, as God has given us the supply, the bounty, we must be of service to the less fortunate in the world, and in our Districts.

3. A very well known contributor to the redistricting process just stated to me, "It is quite clear that the Redistricting map that was just voted on by the City Council reflects the continued control of Dallas by the 28% minority white community. It also shows the intent to maintain tensions, ill will, separation between the Black and Brown/Hispanic communities."

There has already been talk of Justice dept filings against the City of Dallas for alleged Redistricting Process violations. Lulac, The NAACP. as well as Sandra Crenshaw may all be filing cases with the Jusice3 Dept.. I will announce to you that I will file a two count case. First, the I allege that there were clear violations of the people's right of free speech during the Recall Process. Second, I allege that there was a clear violation in not placing the District 13 East section into District 10 creating a Black minority opportunity district.

Unfortunately we are not at Martin Luther Kings Promise land yet where a City Council Candidate would be voted for based on the content of his or her character instead of the color of his or her skin. That's what this redistricting work, and this redistricting war is all about. Many people want to vote for someone of the same color or race, because of the distrust of one race, of one color for another. `But this redistricting process today is not that simple. There's also the situation when two of the three races get together and plot against the other race. Let's also recognize that were not just dealing with race. We are also dealing with political parties, in this case, the Republican party...or it it the Democratic party?

Lets look at the big picture of elections to possibly make us even more angry. Elections have sunk to two forms of vote fraud. 1. Spending as much money as possible and projecting big enough lies to get people to vote for someone or something that they wouldn't have had they been told the truth. 2. Ballot fraud, and voting machine fraud. Seven people of a well known political family have just been indicted for ballot fraud. If we look at what has happened in Dallas since the last redistricting 10 years ago, has the average Black, Hispanic, or White citizen been best served, or have the special interests, and special wealthy people been best served? The big picture says that it doesn't really matter what map we wind up with, or the number of Black or Hispanic City Council members, because our votes really don't matter any more. The new way to win elections is not through redistricting, not through spending a lot of money and lying to voters, or mail in ballot irregularities. The new way to win elections is through voting machine vote fraud. Joseph Stalen stated, "I care not who votes, I only care about who counts the votes." So in summary, if we don't go back to the Constitutional paper ballot, and eliminate the theft of elections by electronic voting machines, all this work is a total waste of time.
