Summary – Trends, Comments, Recommendations

Trends

- **What You Need to Know About Variants**

Top Things You Need to Know

1. New variants of the virus are expected to occur. Taking steps to reduce the spread of infection, including getting a COVID-19 vaccine, are the best way to slow the emergence of new variants.
2. Vaccines reduce your risk of severe illness, hospitalization, and death from COVID-19.
3. COVID-19 booster doses are recommended for adults ages 18 and older. Teens 16–17 years old who received Pfizer-BioNTech COVID-19 vaccines can get a booster dose if they are at least 6 months post their initial Pfizer-BioNTech vaccination series.

Recommendations

Objective: Assisting with determining employee population vaccination percentage

Action Item: Partner with US Wellness on overall numbers

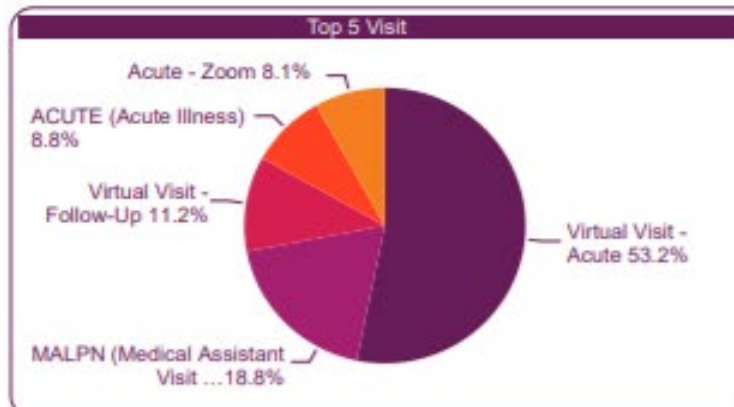

Objective: Continue to monitor COVID-19 status and assist City of Dallas Employee community in their concerns

Action Item: Provide onsite walk-through and recommendations for workspace, as needed

Resource Updates – Toolkit, FAQs, LearningZen

- **COVID Toolkit for Leaders and Employees**

- Updated Power Point deck for Supervisors, Managers and Employees on 01/10/2022
 - Reflects post-vaccine incentive and Qleave information
 - Updated a few of the FAQs to match
 - Overviewing updates on Leader call on 01/11/2022

FAQs – Key updates:

- Removed outdated questions for ease in continued use and updated sections as needed

Last version dated: 01/10/2022

Latest version of FAQs dated: 01/10/2022

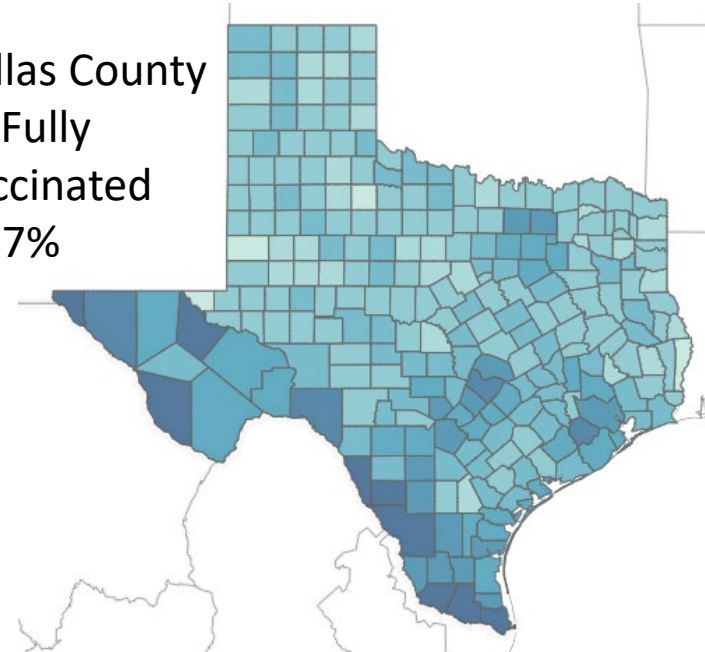

Risk and Vaccine Tracking – Dallas County

Percentage of Population Vaccinated for COVID-19

Dallas County
5+ Fully
Vaccinated
61.7%

- 7-Day Totals, Rates, Percentages and % Change in Last 7 Days: Cases: 1,416.61 per 100k; Percent Positive: 38.44%; New Hospital Admissions 1,090
- Many employers are considering the factors above as they plan for scaled and full return to the workplace in 2022. Ideally, factors would be low or moderate as numbers vaccinated increase. Some are also tracking fully vaccinated employees to consider individual departments that have reached herd immunity numbers, targeting at least 60%.
