Dallas Equity Indicators

2021 Update

Amy Knop-Narbutis, Research & Data Director, Every Texan

Dr. Lindsey Wilson, Equity Officer, Office of Equity and Inclusion

Genesis D. Gavino, Resilience Officer, Office of Equity and Inclusion

Background

- Dallas was one of five U.S. cities selected for the Equity Indicators Project
- This project examined dimensions of difference:
 - Race or Ethnicity
 - Socioeconomic Status
- The first Equity Indicators report was released October 2019

Purpose

- The 2019 Equity Indicators report is a comprehensive tool launched to help Dallas measure to understand, target, and track disparities.

DR. MARTIN LUTHER KING WEEK 2020

SIMPOSIO DE EQUIDAD

Equidad se obtiene cuando cada persona tiene los recursos y servicios necesarios para prosperar en las identidades, circunstancias e historias únicas de cada persona; reduciendo las disparidades y mejorando los resultados para todos.

UN SIMPOSIO ENCENDIDO POR LOS INDICADORES SOBRE EQUIDAD EN DALLAS

14 DE ENERO
9 A.M. A 3 P.M.

Paul Quinn College | 3837 Simpson Stuart Rd. Dallas

Únase a la Ciudad de Dallas en colaboración con la Fundación de Comunidades de Texas para el Simposio de Indicadores de Equidad. Este simposio es un evento diseñado para la comunidad e institucionales sociales para elaborar estrategias juntos en reducir las disparidades en todo Dallas.

Para más información: equity@dallascityhall.com. Para confirmar su asistencia: bit.ly/EquityIndicators2020

2nd Annual Equity Indicators Symposium

Building an Equitable and Inclusive Bounce Back

Join the City of Dallas and Communities Foundation of Texas in a critical conversation on building an equitable and inclusive economic bounce back.

Friday, January 22
8:30 a.m. to noon

This event will be virtual
RSVP at bit.ly/2021EquitySymposium

The Symposium will consist of three panels:

- Business Strategies that Promote Equity
- Current State of Racial Equity in Dallas
- A Blueprint for an Equity Bounce Back

2nd Annual Equity Indicators Symposium
CURRENT STATE OF RACIAL EQUITY IN DALLAS

Cynt Marshall, CEO of Dallas Mavericks

Hon. Casey Thomas, II Council District 3 Chair of the Workforce, Education, and Equity Committee

Florencia Velasco Fortner, President and CEO of the Concilio

Dale Patroskey, President of Dallas Regional Chamber

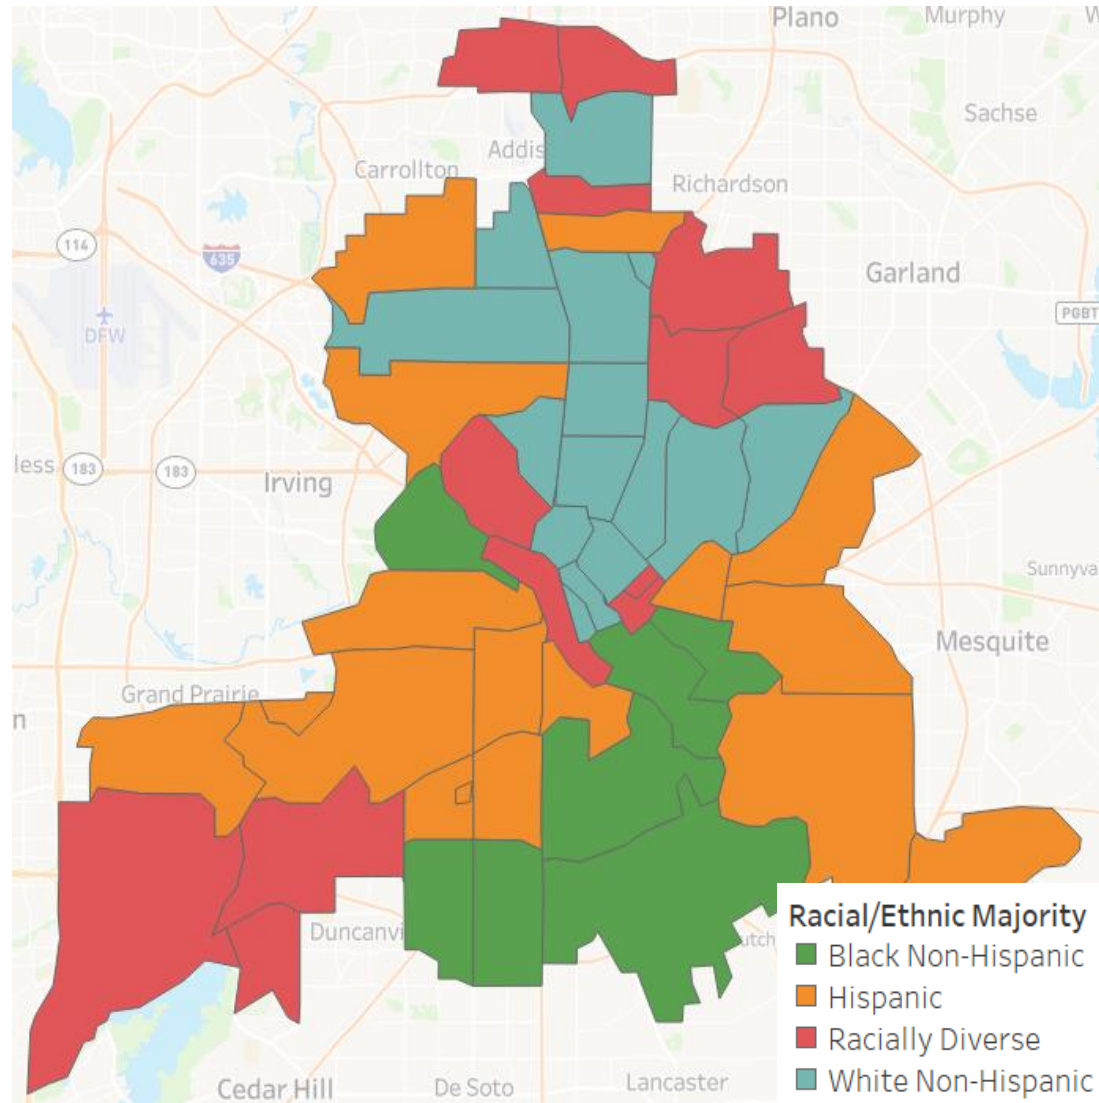

Overview

- In 2019 Every Texan (then Center for Public Policy Priorities) completed the Dallas Equity Indicators report for the City of Dallas (60 indicators mostly based off 2016-2017 data, due to data release timing, following CUNY methodology).
- This year Every Texan provided data updates to a select group of 13 indicators (chosen for relevancy to pandemic relief efforts) using 2018-2019 data, and where available, other data sources capturing 2020 pandemic experiences.
- Indicators: Business Establishments; Unemployment; Working Poverty; Evictions; Housing Cost Burden; Internet Access; Utility Expenses; Fines and Fees; Domestic Violence; Health Care Provider; Insurance; Chronic Disease; and Child Food Insecurity.

2021 Equity Indicators Update

Theme	Topic	Indicator
Economic Opportunity	Business Development	Business Establishments
	Employment	Unemployment
	Poverty	Working Poverty
Neighborhoods and Infrastructure	Access to Housing	Evictions
	Housing Affordability and Services	Housing Cost Burden
		Internet Access
		Utility Expenses
Justice and Government	Incarceration	Fines and Fees
	Victimization	Domestic Violence
Public Health	Access to Health Care	Health Care Provider
		Health Insurance
	Population Health	Chronic Disease
	Health Risk Factors	Child Food Insecurity

Economic Opportunity

Business Development

INDICATOR

Business Establishments

Employment

INDICATOR

Unemployment

Poverty

INDICATOR

Working Poverty

Indicator 1: Business Establishments Scores

Definition - Ratio

Average number of businesses in neighborhoods by racial & ethnic majority.

Rationale

Businesses in a neighborhood is indicative of the economic health of the area.

Pre-Pandemic

Racially diverse neighborhoods had the highest number of business establishments.

Post-Pandemic

Closures impact communities of color disproportionately. More business establishments in Majority-white neighborhoods than majority-Black neighborhoods in central Dallas.

Indicator 5: Unemployment Scores

Definition - Ratio

Percentage of Black & White adults aged 25-64 who are unemployed.

Rationale

Unemployment rate captures adults who are looking for work but not working.

Pre-Pandemic

Black residents had the highest unemployment rate in the baseline year & White residents the lowest.

Post-Pandemic

Black workers are disproportionately facing unemployment & most likely to still be unemployed as of March 2021.

Indicator 12: Working Poverty

Definition - Ratio

Percentage of Hispanic & White adults aged 25-64 working 30+ hours per week & living in poverty.

Rationale

Many jobs provide insufficient income to enable workers to meet their basic needs for daily living.

Pre-Pandemic

Hispanic residents who are full-time employees had higher poverty rates in the baseline year.

Post-Pandemic

Impacted jobs are likely to employ staff of color, have closed sites, reduce hours/wages, or exposed workers to higher positivity rates.

Neighborhoods and Infrastructure

Access to Housing

INDICATOR

Evictions

Housing Affordability
and Services

INDICATORS

Housing Cost Burden
Internet Access
Utility Expenses

Indicator 26: Evictions

Definition - Ratio

Eviction rates (2019) or eviction filings (2020) by neighborhood demographics.

Rationale

Evictions result in life disrupts that prevent families from finding new housing & jobs. Also impacts mental health.

Pre-Pandemic

Majority-Hispanic neighborhoods experienced eviction rates higher than other neighborhoods.

Post-Pandemic

1.14 eviction filings per week in Majority-Black neighborhoods. Only 0.24 for majority-White neighborhoods.

Indicator 28: Housing Cost Burden

*caution: wide variability

Definition - Ratio

Percentages of Black & White households with housing costs exceeding 30% of income.

Rationale

Households paying more than 30% of income on rent/mortgage payments have less income for other necessities.

Pre-Pandemic

Black households (33%) experienced the greatest housing cost burden.

Post-Pandemic

Rates fluctuated from 37% to 32% of Black households experiencing housing cost burden in 2018 & 2019.

Indicator 29: Internet Access

Definition - Ratio

Percentages of Black & White households without access to the internet.

Rationale

Internet access is a basic need for education & employment. The pandemic has only highlighted this need.

Pre-Pandemic

32% of Black & 27% of Hispanic households lacked internet access, compared to only 6% of White households.

Post-Pandemic

Still a gap compared to White households. Hispanic households were 5x more likely to lack internet access.

Indicator 30: Utility Expenses

Definition - Ratio

Percentages of household income going to electricity, gas, heating fuel, & water.

Rationale

Households paying more for utility expenses have less disposable income for other necessities.

Pre-Pandemic

Hispanic & Black households spent the largest percentage of income on utilities (4-5%), others spend less (2-3%).

Post-Pandemic

Black households continued to spend 5% of income on utilities (compared to 3%).

Justice and Government

Incarceration

INDICATOR

Fines & Fees

Victimization

INDICATOR

Domestic Violence

Indicator 30: Fines and Fees

Definition - Ratio

Average amounts of fines & fees paid by defendants for cases.

Rationale

High fines & fees may reduce low-income defendants' ability to pay for other essential needs.

Pre-Pandemic

Black defendants received the highest average fines & fees (\$369).

Post-Pandemic

Black defendants still face high fees, but Native American defendants showed even higher averages (\$402).

Indicator 48: Domestic Violence

Definition - Ratio

Number of domestic violence incidents reported in Black & Asian neighborhoods per resident.

Rationale

Domestic violence has long-term physical & psychological effects on victims, who are most often women & children.

Pre-Pandemic

Black neighborhoods reported over 13x more domestic violence incidents than Asian neighborhoods.

Post-Pandemic

Reported domestic violence rates was 13.4 overall.
Black residents 34.5
Asian residents 1.7

Public Health

Access to Health Care

INDICATORS

Health Care Provider
Health Insurance

Population Health

INDICATOR

Chronic Disease

Health Risk Factors

INDICATOR

Child Food Insecurity

Indicator 49: Health Care Provider

Definition - Ratio

Percentages of residents who report not having a personal doctor or health care provider.

Rationale

Individuals who see a doctor regularly receive preventive care & are hospitalized less for preventable conditions.

Pre-Pandemic

Hispanic residents were by far the most likely to report not having a regular doctor (47%).

Post-Pandemic

Over 1/3 of Texans reported they or someone in their household had stopped or postponed medical care.

Indicator 50: Health Insurance

Definition - Ratio

Percentages of Hispanic & White residents without health insurance.

Rationale

Lack of health insurance reduces access to preventive care & increases health care costs.

Pre-Pandemic

Increasing uninsured rates. 37% of Hispanic residents were likely to be uninsured (9% White residents).

Post-Pandemic

One million+ Texans lost health insurance coverage. Rates are likely to worsen unless Texas accepts funding for Medicaid expansion.

Indicator 52: Chronic Disease

*caution: wide variability

Definition - Ratio

Percentages of White adults & adults of color diagnosed with a chronic disease.

Rationale

Chronic diseases place a tremendous burden on a person's long-term physical, emotional, & financial well-being.

Pre-Pandemic

White residents went from being 2.7 to 1.7x more likely to be diagnosed with chronic disease than other residents (2017-2019).

Post-Pandemic

Risk factors for increased COVID-19 morbidity disproportionately affect Dallas County residents of color.

Indicator 58: Child Food Insecurity

Definition - Ratio

Percentages of Black & White households with children under 18 that received SNAP benefits in the past 12 months.

Rationale

Households that receive food assistance struggle with food insecurity, which impacts child health & education outcomes.

Pre-Pandemic

35% of Black & 6% of White households were enrolled in SNAP which widened the gap from 2017.

Post-Pandemic

Overall SNAP cases increased nearly 350,000 cases from February to September in 2020.

Texas KIDS COUNT: Health Equity for Every Texas Child

All children deserve the opportunity for a healthy life. In Texas, not all children have the health insurance, food security, and economic security needed for a healthy childhood, due to disparities rooted in systemic racism. Public policy can improve health equity for all Texas children. Policymakers should make practical changes this Legislative Session to ensure all Texas children have the opportunity to thrive.

Read the full interactive report at <https://everytexan.org/kids-count-2021>

FOOD SECURITY

Every child deserves the nutrition they need to thrive. Texas has one of the worst rates of child food insecurity in the nation.¹ Of Texas households with children, one in five did not have enough to eat in the past week, and more than one in three Black families and one in four Hispanic families experienced hunger.² Policymakers should reduce barriers to enrolling in nutrition programs such as SNAP so every Texan can access the food they need to stay healthy.

Percentage of Households in Texas Food Insecure, by Race/Ethnicity of Household Head
Source: FRAC Analysis of Current Population Survey, 2017-2019

HEALTH INSURANCE

Every child deserves affordable and accessible health care. Texas has the worst rate of child health insurance coverage in the nation—one in four uninsured U.S. children live here.³ Hispanic children are twice as likely as others to be uninsured. Policymakers should protect health and human services funding, expand Medicaid, and remove enrollment barriers so every Texan can access the health care they need to thrive.
