NEIGHBORHOOD BLOCK PARTY PERMIT REQUIREMENTS

What is a Neighborhood Block Party?
Neighborhood Block Parties are events produced by a community-based, not-for-profit organization/association requiring the temporary closure of a single block of a street within a single-family residential area.

Can I have a Neighborhood Block Party at my business or apartment complex?
Block party permits will not be granted to residents of an apartment complex or owners of a commercial property. However, if the event is moved out of an apartment complex and onto a commercial property or City park the owners may obtain a Special Event Permit from the City of Dallas Office of Special Events (www.dallasspecialevents.com).

How do I apply for a Neighborhood Block Party Permit?
Neighborhood Block Party Permits are issued through the Department of Public Works, Traffic Safety Coordinators. The City of Dallas does not charge a fee for these permits, but does require a completed Block Party Petition to be submitted ten (10) business days prior to the event. The completed petition form and supporting documents can be submitted as a Traffic Control Permit application through the Right-of-Way Permit Management System.

What are the requirements for a Neighborhood Block Party?

- A single block party cannot consist a gathering of more than 200 people. If the gathering exceeds 200 people, it is considered a Special Event and will be required to move to a City Park or commercial property outside of the residential neighborhood. Requirements and regulations are governed by the Special Events city ordinance Ch. 42A.

- Any person requesting a block party permit will need to print the appropriate City of Dallas petition form. The form can be found at (www.dallascityhall.com/streets/transportation_operations.html). No other petition form will be accepted.
