

# PLUMBING PERMIT APPLICATION CHECKLIST

CITY OF DALLAS

## REQUIRED DOCUMENTS FOR PLUMBING PERMIT

By checking each requirement you are stating that you have supplied correct and complete information. In the event that the required information is not contained in the submitted documents, you will be notified of the deficiency. Failure to supply the additional requested information within five (5) working days after notification may result in your application being delayed and eventually discarded. A new application, the original application, complete plans, and a new checklist will be required for re-submittal for plan review. This resubmittal will be treated as a new application and will be processed in the order of receipt.

**GENERAL: Two sets of plans and all plans must be legible, drawn to scale and dimensioned. The following is a list of typical plumbing code requirements and may not be a complete plan review checklist, nor is it intended as a design specification or instruction list for untrained persons. This checklist is based on the current Dallas Plumbing Code.**

### 1. SITE PLAN

- Size and location of sewer with slope or grade indicated with calculated fixture units.
- Size and location of water service lines with calculated fixture unit loading. Indicate size of water meter and available water pressure at service.
- Identify and provide separate irrigation meter or provide complete irrigation plan.
- Identify the type and location of all backflow prevention devices.
- Size and location of gas line with calculated BTU demand.
- Identify all easements

### 2. DRAINAGE PIPING

- Architectural overlay with drainage piping layout.
- Riser diagram of DWV system
- Fixture unit calculations for entire system
- All pipe sizes clearly indicated
- Show location and type of all fixtures
- Calculations (with occupant load) for minimum fixture requirements

### 3. WATER PIPING

- Architectural overlay with water piping layout
- Riser diagram of water piping system
- Fixture unit calculations for entire system
- All pipe sizes clearly indicated
- Identify the type and location of all backflow preventors

I, \_\_\_\_\_ have read the above information and acknowledge that all required documents have been provided.
