Septic to Sewer Assistance Program Application

Program

The Septic to Sewer Assistance Program supports eligible plumbing and home repairs necessary to connect to the new public water/wastewater (sanitary sewer) mains as part of extending residential water and wastewater (sanitary sewer) services. The program will continue to assist eligible residential properties in the geographic areas that were previously authorized. It will cover the costs to convert a single-family home from an on-site sewer facility (OSSF) or septic system to the public wastewater (sanitary sewer) system. The funding assistance is limited to the amount needed for the scope of work as defined by the City, not to exceed the maximum allowable funding level of \$25,000.00.

Please mark each required supporting item and make sure to attach a copy with your completely filled-out application:
