*Sexual Assault for 2014 reflects UCR new definition
 ** Previous Year Low prior to 2007

*In January of 2012, the United States Attorney General announced a revised definition of the offense of rape for the Uniform Crime Report (UCR) Summary Reporting System. This change signifies a major step in ensuring that rape incidents are more accurately reflected in crime statistics. The original definition of a rape offense was "The carnal knowledge of a female forcibly and against her will." The new definition accounts for all forms of rape, regardless of the victim's gender, relationship to offender, or the method of the rape. It now includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity or because of age. Texas Department of Public Safety Uniform Crime Report Bureau officials directed all Texas law enforcement agencies to report these crimes using the new definition beginning in January 2014. This change will create the need for local law enforcement agencies to explain the anticipated uptick in rape statistics.
