Community Development Block Grant: Timely Expenditure of Funds

Finance Committee

January 26, 2026

Janette Weedon

Director

Budget & Management Services

Chan Williams

Assistant Director

Budget & Management Services

Overview

- **Review Community Development Block Grant (CDBG) timely expenditure requirements**
- **Community Development Commission (CDC) Review**
- **Extensions and Reprogramming**
- **Recommendation**
- **Timeline and Next Steps**

CDBG Timely Expenditure Requirements

Timely Expenditure Requirements

- There are two tests to ensure CDBG funds are spent in a timely manner:
 1. U.S. Department of Housing and Urban Development (HUD) as required by federal regulations
 2. City policy as directed by City Council resolutions

HUD Expenditure Requirements

- HUD requires that CDBG funds be expended in a timely manner
 - Federal regulations limit the amount of unspent CDBG funds to no more than 1.5 times grantee's annual grant allocation
 - Failure to meet this requirement may result in a reduction of the next annual grant allocation
- Requirement is tested annually on August 2
- Test is conducted on two undisbursed amounts of CDBG funds
 - One is based on grant funds alone (unadjusted)
 - One is adjusted to include program income the City has received and reported to HUD

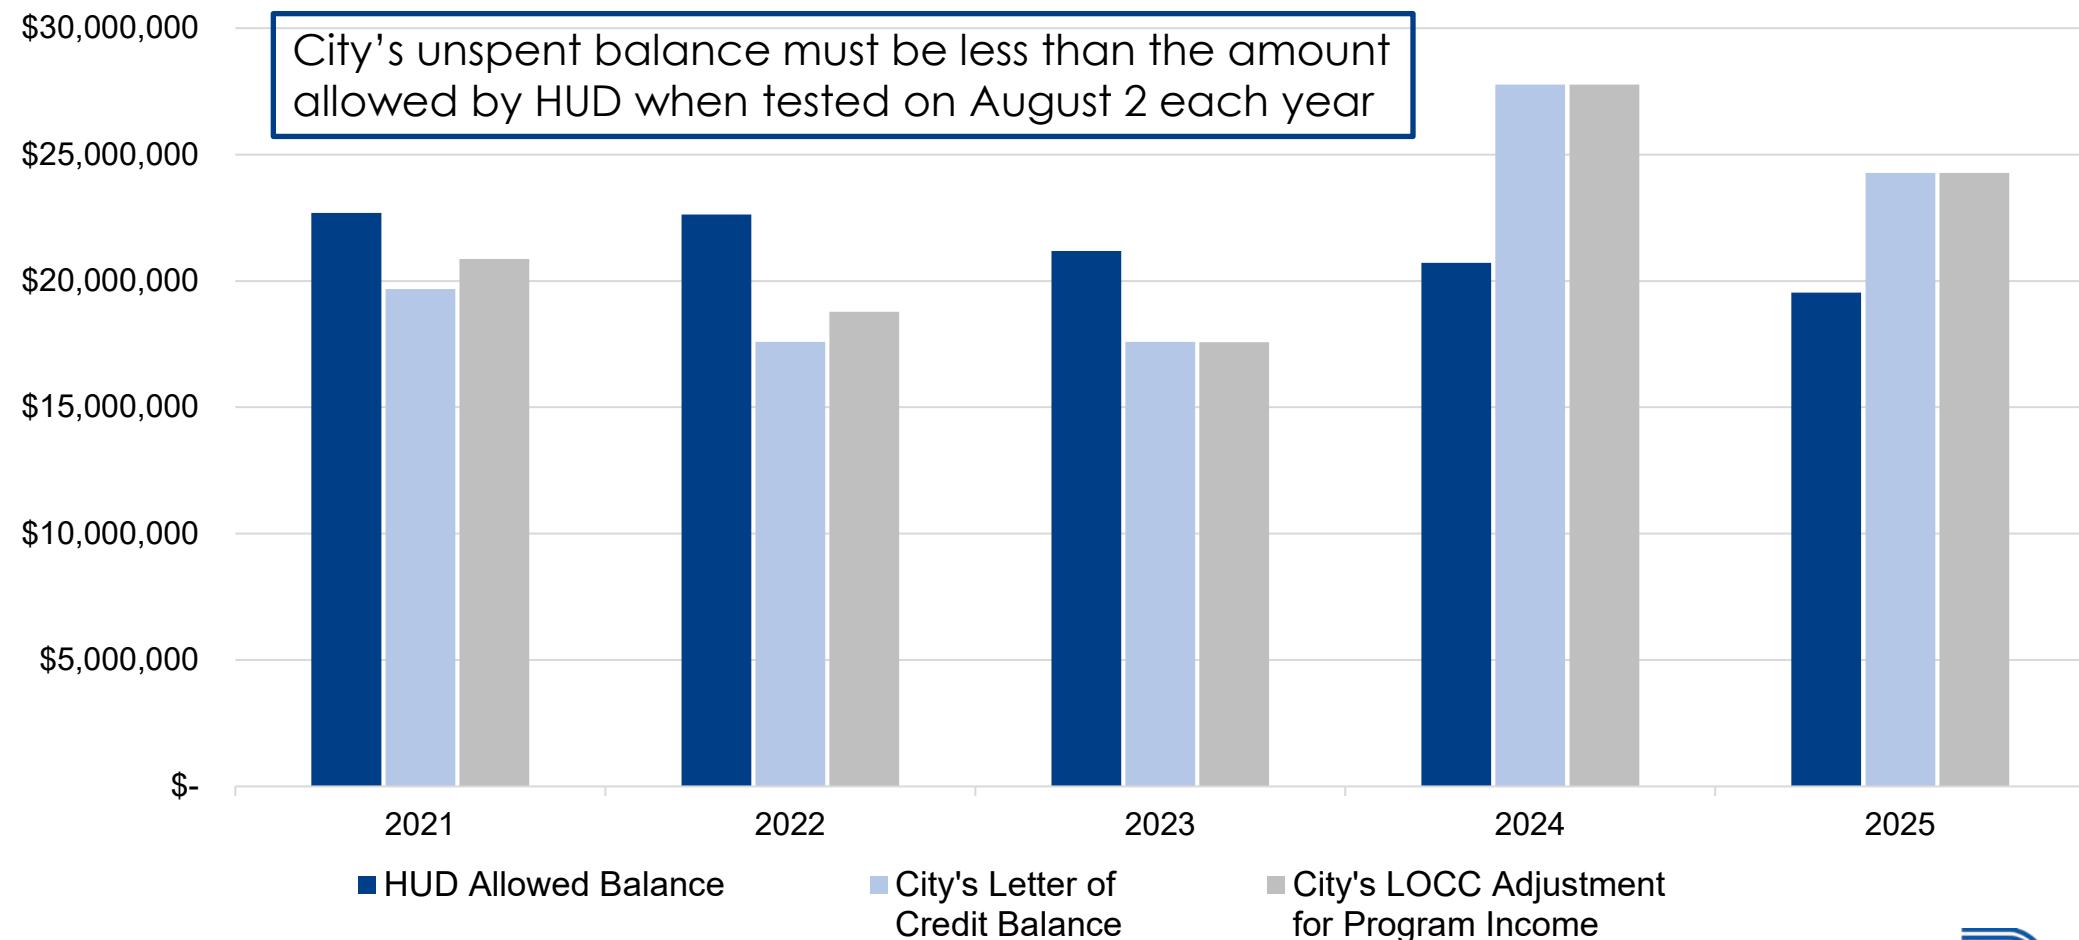

HUD Expenditure Requirements

- The City did not meet this requirement on August 2, 2025
 - Council was informed by memorandum on September 26, 2025 and HUD required the City to submit an expenditure forecast indicating the City's plan to be in compliance by August 2, 2026
 - Updates are presented to the Finance Committee monthly
 - Updates are reviewed by the CDC and submitted to HUD on a quarterly basis
 - The first update was provided to the CDC on December 4, 2025 and the Finance Committee on December 9, 2025

HUD Expenditure Requirements

- The City did not meet this requirement on August 2, 2024
 - In 2024, HUD implemented a policy change to its time expenditure requirements
 - Acknowledged that many grantees still faced continued challenges as they emerged from the pandemic
 - Previous policy was established in 2001 and loss of funds at HUD's discretion
 - New policy allows additional time for grantees to complete corrective actions, including required staff attendance at workshop and trainings prior to actual reduction of future grant allocation

HUD Expenditure Requirements

City Expenditure Requirements

- City Council established a policy on August 18, 1993 (Resolution No. 93-3001) to ensure timely expenditure of CDBG funds
 - CDBG funds must be obligated within 12 months and expended within 24 months
- On March 28, 2007 (Resolution No. 07-0992), the City Council added criteria and benchmarks to further define compliance with the policy
- City Council has authority to extend the time allowed for the expenditure of CDBG funds

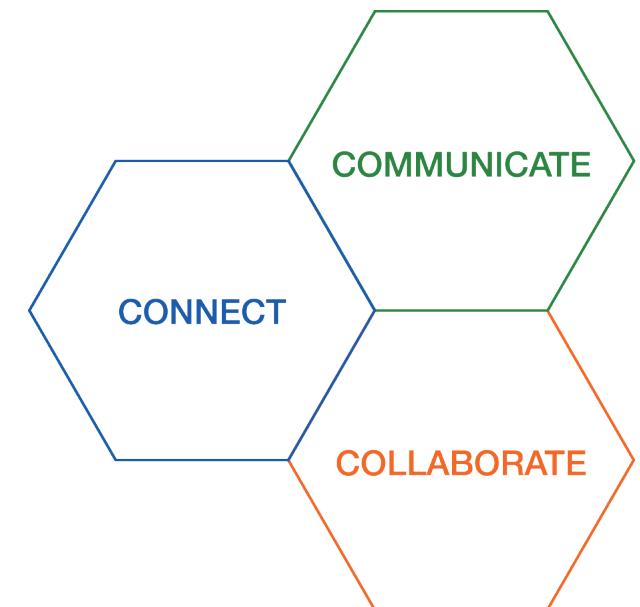

City Expenditure Requirements

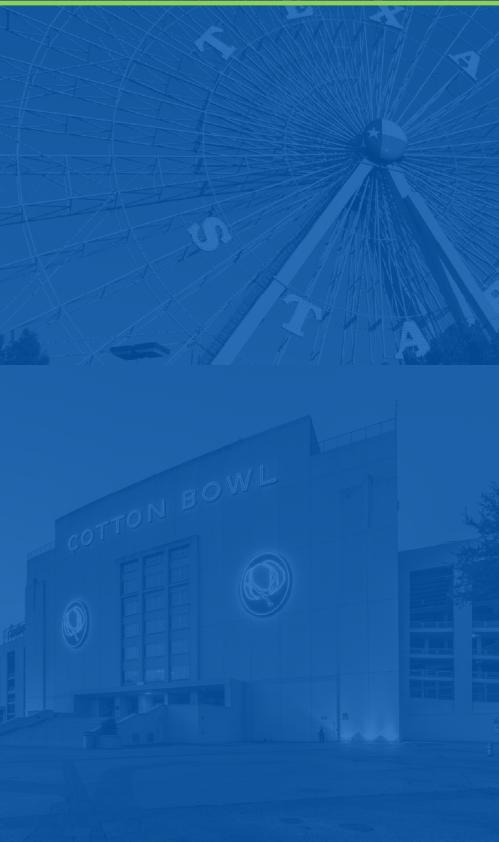

- City conducts an annual review each fall to determine the status of each project
- Unspent project funds that are not in compliance with City requirements are either recommended for an extension or reprogrammed to another eligible purpose
- Based on the most recent review:
 - Unspent funds remaining in 11 projects were recommended for extension (total \$6,706,866)
 - Unspent funds remaining in 6 projects were recommended for reprogramming (total \$2,566,661)
- See Attachment for project details

Community Development Commission (CDC) Review

Community Development Commission Review

- CDC reviewed recommendations during December and January
 - CDC Financial Monitoring Committee reviewed the City Manager's recommendation on December 9 and made no amendments
 - Extension of the City's timely expenditure policy for 11 CDBG projects and \$6,706,866 to allow additional time to complete the projects
 - Reprogramming of \$2,566,661 from 6 projects to be used for other eligible one-time shovel ready activities
 - The CDC voted to reschedule their Thursday, January 1 monthly meeting to January 8
 - CDC review and approval of the Committee's recommendation on January 8
 - List of projects provided in the Attachment

Extensions and Reprogramming

CDBG Extensions

- Staff recommends the extension of the City's timely expenditure policy for 11 CDBG projects and \$6,706,866 to allow additional time to complete the projects

CDBG Reprogramming (Annual Funds)

- To ensure the City meets HUD's expenditure requirements in a timely manner in FY 2025-26, staff recommends moving forward with reprogramming unspent funds to other eligible uses
 - Unspent Prior Year CDBG Funds - \$2,566,661 from 6 projects
- Recommend unspent funds be reprogrammed for one time use for repairs and renovations at public facilities and infrastructure projects - \$2,566,661
 - Due to HUD spending limit, funds cannot be reprogrammed to public services category (ex. Childcare, job training, youth services, etc.)

CDBG Reprogramming (COVID Funds)

- Grant term for CDBG COVID funds ends June 30, 2026
- Staff recommends moving forward with reprogramming unspent funds to other eligible uses
 - Unspent CDBG COVID Funds - \$450,000 from 2 projects
- Recommend unspent funds be reprogrammed to Emergency Rental Assistance - \$450,000

Recommendations

Recommendations

- On January 28, City Council approval:
 - Extension of the City's timely expenditure policy for 8 CDBG projects to allow additional time for completion
 - Total \$6,706,866
 - Preliminary adoption and call a public hearing to be held on March 25, 2026, for Substantial Amendment/Reprogramming Budget #2
 - Reprogram unspent prior year CDBG-Annual funds for one time use for repairs and/or renovations at public facilities
 - Total \$2,566,661
 - Projects must be completed in less than 6 months
 - Reprogram unspent CDBG-COVID funds for the Emergency Assistance Program
 - Total \$450,000

Recommendations

- On March 25, City Council approval:
 - Hold public hearing and final adoption of Substantial Amendment #2
 - Reprogram unspent prior year CDBG funds for one time use for repairs and/or renovations at public facilities
 - Total \$2,566,661
 - Projects must be completed in less than 6 months
 - Reprogram unspent CDBG-COVID funds for the Emergency Assistance Program
 - Total \$450,000

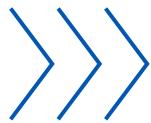

Timeline and Next Steps

Timeline and Next Steps

January 8, 2026

CDC review and recommended approval

January 26, 2026

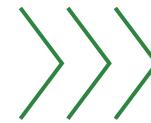

Finance Committee consideration

January 28, 2026

City Council consideration

- Extension of City's timely expenditure policy for 8 projects
- Preliminary adoption of Substantial Amendment / Reprogramming Budget #2
- Call for a public hearing

March 25, 2026

- Hold public hearing
- Final adoption of Substantial Amendment / Reprogramming Budget #2
