**Tuesday, October 6<sup>th</sup>: Sent the following information to all the local news desks –**

### **Fire Prevention Week 2020**

**Dallas:** Annually, the week of October 9<sup>th</sup> is recognized as Fire Prevention Week; and while firefighters assume the forefront for the other 51 weeks of the year, this is the time in which the men and women of *Fire Prevention* take center stage to show how preventing fires is just as, if not more, important than putting them out.

October 4 – 10, 2020, Dallas Fire-Rescue (DFR) Fire Inspectors, in accordance with this year's National Fire Protection Association (NFPA) theme, will be out in the communities, physically and virtually, emphasizing ways to "Serve Up Fire Safety in the Kitchen", and reinforce the importance of safety and attentiveness while cooking. Officers will be using a variety of departmental resources to reiterate everything from keeping your counters clear of clutter, to creating kid-free zones, to setting cooking timers, while still emphasizing the importance of having and practicing fire drills, and ensuring you have properly working and properly installed smoke alarms in your home.

For more information on Fire Prevention Week, please visit the National Fire Protection Association's website, at <https://www.nfpa.org/Public-Education/Staying-safe/Preparedness/Fire-Prevention-Week/About>.

For more information on the educational programs utilized by DFR's Fire Educators, in addition to other useful fire safety tips, please visit <https://dallascityhall.com/departments/fire-rescue/Pages/educational-programs.aspx>. And remember, **if you are a homeowner, live in the City of Dallas and are in need of a smoke alarm(s), you can call 311 to make that request and someone will come out and install them at no charge.**

**Wednesday, October 7<sup>th</sup>: Dallas Morning News (Charlie Scudder) -** I saw on a city council memo that [battalion chief Allan Springer](#) is no longer employed by DFR. Wanted to confirm if that's the case. Do you have any more details about his departure?

**City Response** - As of Monday, September 28, 2020, Battalion Chief, Allan Springer, is no longer a member of the Dallas Fire-Rescue Department. Per department policy, DFR does not discuss personnel matters; therefore, if you are looking for more detail, please submit your request to the City's Open Records Department.

**Thursday, October 8<sup>th</sup>**: Sent the following information, and social media postings, to the local media in regard to recognition being given to two DFR paramedics –

On Monday, September 14, DFR's Rescue 10 was dispatched to a medical call at an apartment complex in far North Dallas. Upon assessing the patient, the medics identified a STEMI and immediately enacted protocols, to include activation of the cardiac catheterization lab, which led to an impressive "First Medical Contact to Balloon (catheter)" time of less than 90 minutes, and saved the life of the patient.

## **DFR and Carter BloodCare Partner for Donation Event**

**What:** Dallas Fire-Rescue/Carter BloodCare Blood and COVID-19 Convalescent Plasma Donation Drive

**When:** October 12<sup>th</sup> – 14<sup>th</sup>, from 08:00 – Noon

**Where:** Dallas Fire-Rescue Training Academy (5000 Dolphin Road, Dallas, TX 75223)

**Details:** Dallas Fire-Rescue is proud to announce that it will be partnering with Carter BloodCare in hosting a Blood and COVID-19 Convalescent Plasma donation drive, for DFR members and their families. Carter BloodCare provides 90% of the blood used by hospitals in our area, and their reserves are critically low due to the ongoing COVID-19 pandemic. Additionally, plasma donations from those who have contracted, and recovered from, the virus can be a vital part of its treatment; and with there currently being approximately 130 such members, the department is proud to step up and allow them the opportunity to help during these trying times.

The event is currently scheduled to occur Monday, October 12<sup>th</sup> – Wednesday, October 14<sup>th</sup>, to accommodate all three shifts, at the department's Training Academy, from 8:00 a.m. – Noon. To more efficiently facilitate the donation, Carter will be bringing buses, and ample staff, to collect the donations. Our goal is to fill those buses each day, so we respectfully encourage each member to consider the impact they could be making on someone else's life; whether it's been impacted by COVID-19 or some other ailment which requires blood.

**Media:** If you are interested in covering this event, you can send your photographers to get b-roll on Tuesday, October 13<sup>th</sup>, from 9:00 – 11:00 a.m. A representative from DFR (TBD) and Carter Bloodcare's Vice President of Organizational Relations, Veronica Moore, will be available to give sound on the same day, from 10:00 – 11:00 a.m.

**Monday, October 12<sup>th</sup>: All Local News Desks** - Can you provide information on a fire at a recovery center yesterday on Al Lipscomb Way? The recovery center sent us a press release indicating that this occurred, on Sunday, October 11<sup>th</sup> at approximately 10:30am, an arsonist began breaking in the windows and setting fire to the 60-bed housing unit for the [Men of Nehemiah](#) residential recovery center on Al Lipscomb Way in South Dallas.

**City Response** - On Sunday, October 11<sup>th</sup>, at 10:31 a.m., Dallas Fire-Rescue units were dispatched to a 911 call for a structure fire at the Men of Nehemiah Recovery Center, located at 1825 Park Row Avenue, in Southeast Dallas.

When firefighters arrived at the two-story apartment building, they observed thick black smoke coming from a second floor window. Firefighters were able to access the unit and declare the fire extinguished in about an hour, but not before fire made its way into the attic and through the roof; leaving behind significant damage.

Fire Investigators believe the fire was started by an individual who was inside the unit when the began. Though that person was able to make it out safely, he was APOWW-ed at the scene before being taken, by DFR, to a local hospital for evaluation.

The amount of damage left behind inhibited investigators' ability to find an exact point of origin, and the source of ignition is currently unknown. However, investigators are talking with witnesses for information to help answer more questions and determine what charges could be applied going forward.
