CITY OF DALLAS

DATE October 21, 2022

TO Honorable Mayor and Members of the City Council

SUBJECT **Housing Policy Update**

Since my update last week, Community Equity Strategies (CES) conducted two city-wide strategy sessions on October 14th and 15th. CES is ramping up publicity for the critical follow-up community-wide strategy session on November 5th. The November 5th session will build on the community stakeholder input provided at the October 14th and 15th sessions.

I included a brief description below of the November 5th session and registration links (in English and Spanish) for you to share with your networks. Our goal is to build a robust community input session with stakeholders throughout Dallas as we work toward the final stages of developing the new housing policy framework.

## **An Equitable Framework for Housing Policy and Progress Measurement**

A series of community conversations and strategy sessions resulted in defining how the City should take action to increase housing equity. In this session, community members will help review the work done to date in creating measurable goals the City should use in determining whether any progress is being made in increasing housing equity. During the course of the day, we will have breakout sessions enabling participants to take deeper dives into strategies communities will use to support equitable housing development, prevent displacement of long-time residents from redeveloping neighborhoods, improve infrastructure and opportunity in historically marginalized neighborhoods, create mixed-income areas across the entire city, and more.

## **Un Marco Equitativo para la Política de Vivienda y la Medición del Progreso**

Una serie de conversaciones comunitarias y sesiones de estrategia dieron como resultado la definición de cómo la Ciudad debería tomar medidas para aumentar la equidad en la vivienda. En esta sesión, los miembros de la comunidad ayudarán a revisar el trabajo realizado hasta la fecha en la creación de objetivos medibles que la Ciudad debería usar para determinar si se está logrando algún progreso en el aumento de la equidad en la vivienda. Durante el transcurso del día, tendremos sesiones de trabajo que permitirán a los participantes profundizar en las estrategias que las comunidades usarán para apoyar el desarrollo de viviendas equitativas, evitar el desplazamiento de los residentes de mucho tiempo para reconstruir los vecindarios, mejorar la infraestructura y las oportunidades en los vecindarios históricamente marginados, crear áreas de ingresos mixtos en toda la ciudad, y más.
