Active Employee Cost Compared to National Trend

- After decreasing in 2020, the national healthcare cost came roaring back in 2021. Healthcare costs will continue to grow in 2023 and 2024.
- The City of Dallas' active healthcare costs have traditionally been lower than national trend. The exception was in 2020 when national healthcare costs decreased due to the pandemic.

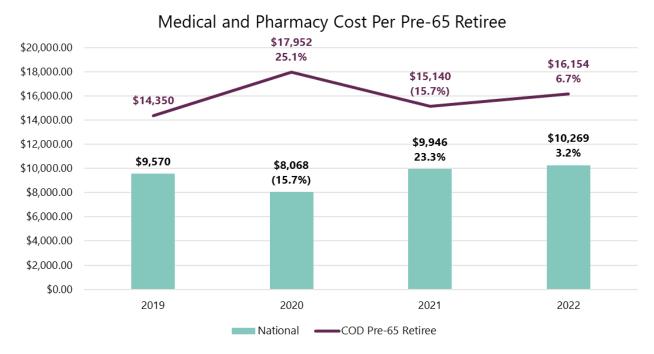

Source: Milliman Medical Index – Cost per average person was adjusted to match the City of Dallas ratio of members to employees covered under the medical plan.

Data does not include ASO Fees, Stop-Loss, and other program costs in fund 260

Pre-65 Retirees Cost Compared to National Trend

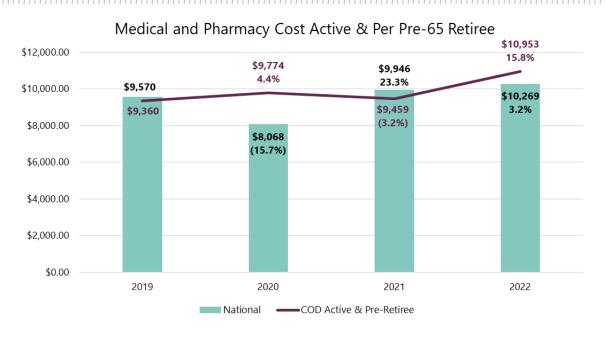

- Compared to the national average, Pre-65 retirees are ~70% more expensive over the past 4-years.
- The COVID pandemic impacted the Retiree population more than Actives in 2020, resulting in a decrease in total cost in 2021.

Source: Milliman Medical Index – Cost per average person was adjusted to match the City of Dallas ratio of members to employees covered under the medical plan Data does not include ASO Fees, Stop-Loss, and other program costs in fund 260 (Claims cost only).

Active & Pre-65 Retirees Compared to National Trend

- The City of Dallas did not have a decrease in 2020 compared to national trend and the increase in healthcare spend was realized in 2022 instead of 2021.
- When comparing the active and pre-65 retiree's healthcare trend to national trend, the City of Dallas' spend has stayed relatively consistent, but experienced higher costs in 2022 compared to national trend.

Health Premium Cost Share Philosophy

- <u>City of Dallas HR Recommendation</u>: Future contribution philosophy should be based on overall rewards strategy necessary to attract & retain talent at the level required to serve the needs of the City and its residents.
- HR recommended increase to employee contributions in previous years
 City of Dallas deferred employee contribution increases in the past, and instead, used Fund Balance to absorb costs and avoid premium increases to employees. Action was done to support retention and affordability for our employees.

Claims paid by insurance company	Claims paid with money set aside by employer
Plan managed by insurance company	Plan managed by Third Party Administrator (TPA)
More expensive	Less expensive

- The City provides subsidies for pre-65 retirees hired prior to 2010

Self Funded Versus Fully Insured

Fully Insured

(Post-65 Medicare Advantage Plan)

Insurance company incurs an annual profit or loss on each group

Plan designs are regulated and filed at a state level

Networks are pre-defined and cannot be revised to fit access needs

ACA taxes are passed on to the employer via premium rate increases

Self-Funded

(Pre-65 and Active Employee Plans)

Employer is either over or under budget each plan year

Within federal guidelines any plan design is acceptable

Custom provider networks, recruitment, and negotiations

Not subject to all ACA fees

Retiree Medical Plan Design

	Pre-65 Plan	Post-65 Plan
Eligibility	 Retiree eligible to receive benefits immediately from ERF or DPFP at separation of employment Retiree has continuous coverage from City's active medical plans at time of separation of employment 	Same as pre-65 except retiree can separate at or over age 65 or can have continuous coverage from pre-65 plan
