

Memorandum

CITY OF DALLAS

DATE February 6, 2026

TO Honorable Mayor and Members of the City Council

SUBJECT **Library Regional Model – Committee Data Request**

On Tuesday, January 20, 2026, staff presented the proposed Library Regional Model to the Quality of Life, Arts, and Culture Committee. During the committee meeting, Council Members asked to see additional data.

Primary data sources include the American Community Survey and Dallas Public Library operational and usage data. The Office of Data Analytics and Business Intelligence published a white paper to provide an overview of the data sources, and analytical methodologies used. The data tables requested can be viewed as a part of the White paper [here](#) and are also attached below this memo.

Service First, Now!

A handwritten signature in blue ink, appearing to read 'Brita Andercheck'.

Table A1: Table A1 represents the raw data values for community need, library coverage and library usage variables for libraries included in the analysis (Dallas Central Library and NorthPark Bookmarks locations are not included in the analysis). Data comes from the 2023 United States Census Bureau - American Community Survey. Drive Time is derived using the ESRI ArcGIS Online, Generate Travel Areas tool. Library metrics were collected and provided to the Office of Data Analytics and Business Intelligence by Dallas Public Library staff.
