

September 26, 2015

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Jim & Dee Hobson

9615 Vista Oaks Drive
Dallas, TX 75243

This summer, when presented with the ever-changing list of issues from one of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house, and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House also serves as an events venue, primarily for weddings, and these funds partially off-set the cost of house maintenance and property taxes.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with the ever-changing list of issues from one of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

Four Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Alliance") has restored and preserved the Aldredge House and has operated as a good neighbor in the West End Historic District, providing a first venue for neighborhood community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially offset the cost of house maintenance, property taxes, and insurance.

On the two occasions over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, as well as changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our front yard by the City of Dallas that an application to the Board of Adjustment had been filed for an old, old legal non-conforming use status. Just three days before a scheduled neighborhood meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use. If the City of Dallas forces us to sell the house and will lose its headquarters, the neighborhood will be forced to find non-profit organizations to host their meeting space, and the people of Dallas will be forced to find a new location for the Aldredge House in the city that respects its history.

The City of Dallas has not even tried to amicably resolve the issues raised by a few neighbors and we are now willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House events be held and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has owned and operated the Albridge House and has operated as a good neighbor in the Oak Grove Historic District, providing a fine venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Albridge House has also hosted events, primarily weddings, and has made great funds to participate in the cost of house maintenance, property taxes, and insurance.

In the past few years, over the last four decades when neighbors had no concerns with the operation of the Albridge House, we have also received their feedback, neighborhood-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed for a site-specific legal non-conforming use status. Just three days before a scheduled negotiations meeting with the City Councilman Philip Kingston.

If the Albridge House loses its legal non-conforming use status, it will even to single-handedly, the DCMAF will be forced to sell the house and will lose its headquarters, the neighborhood, community and non-profit organizations will lose their meeting space, and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

We are now in the very effort to establish resolve the issue, which is a lot of effort, and we are willing to work towards a mutually agreeable solution, as endorsed by our neighbors. A new non-conforming use status that would codify how and when Albridge House is allowed to operate and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Albridge House's legal non-conforming use.

Just three days before a scheduled negotiations meeting with our City Councilman Phillip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use. The DCMSEAF will be forced to sell the house and will lose its headquarters; the neighborhood, community, and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSEAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to hear, the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the Foundation) has restored and preserved the Aldridge House and has operated as a neighborhood in the Dallas Historic District providing a safe space for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldridge House has also hosted events, primarily weddings, and has made these funds to partially offset the cost of house maintenance, repairs, taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldridge House, we have always resolved them ourselves, neighbor-to-neighbor. This summer, when presented with various forms of the neighbors, we made reasonable, significant and numerous changes in policies and procedures, as in an effort to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stumped to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status. Just three days before a scheduled neighborhood meeting with our City Councilman Philip Kinghorn.

If the Aldridge House loses its legal non-conforming use status, it will revert to single-family use. The DCMBA will be forced to sell the house and will lose its footprint on the neighborhood. Community and non-profit organizations will lose their meeting space, and the people of Dallas will lose one of the most important architectural resources in the city that is open to the public.

The DCMBA has made every effort to amicably resolve the issues raised by a few neighbors and is willing to work towards a mutually agreeable solution as evidenced by our efforts to find a new planned development district that would resolve the issue and when Aldridge House could be sold and would provide an exit mechanism through the city.

I urge you to deny the application to terminate the Aldridge House's legal non-conforming use

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Albridge House and has operated as a good neighbor in the *2900 Avenue Historic District*, providing a fine venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Albridge House has also hosted events, primarily weddings, and has used these funds to partially offset the cost of house maintenance, property taxes, and insurance.

On the one occasion over the last four decades when neighbors had any concerns with the operation of the Albridge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made a meeting arrangement and numerous changes in policies and procedures, even up to changing the terms of a contract.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to rezone our legal non-conforming use status. Just three days before a scheduled negotiation meeting with our City Councillor Phillip Kingston.

If the Albridge House loses its legal non-conforming use status, it will revert to single-family use. The DCMAF will be forced to sell the house and will lose its headquarters in the neighborhood. Community and non-profit organizations will lose their meeting space, and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMAF has made every effort to amicably resolve the issues raised by a few neighbors. We are willing to work towards a mutually agreeable solution as evidenced by our efforts to work with a new planned development district that would codify how and when Albridge House could be used. We would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Albridge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.
