

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

Dear Members of the Dallas Board of Adjustment

For forty years, the Dallas County Medical Society Alliance and Foundation have restored and preserved the Aldridge House and has operated as a good neighbor in the historic Historic District, providing a nice venue for neighborhood, community, and non-profit events throughout Dallas for meetings and events.

Since its inception, the Aldridge House also serves as an events venue especially for weddings, and these funds partially offset the cost of house maintenance and property taxes.

In the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldridge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with the ever-changing list of issues from one of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status... just three days before a scheduled negotiation meeting at our City Councilman Phillip Kingston.

If the Aldridge House loses its legal non-conforming use status, it will revert to single-family use. The DCMIAF will be forced to sell the house, and will lose its headquarters, the neighborhood, community and non-profit organizations will lose their meeting space and the people of Dallas will lose one of the most important architectural landmarks in the city that is open to the public.

DCMIAF has made every effort to amicably resolve the issues raised by a few neighbors, but now that we are to work towards a mutually agreeable solution as outlined by the city, we need a new planned development district that would codify how and when Aldridge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldridge House's legal non-conforming use

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has owned and preserved the Albridge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a low venue for neighborhood, community, and nonprofit organizations throughout Dallas for meetings and events.

Since its inception, the Albridge House also serves as an events venue, primarily for weddings, and these funds partially offset the cost of house maintenance and property taxes.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Albridge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with the ever-changing list of issues from one of the neighbors, we made immediate, significant and numerous changes in policies and procedures so as to change the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our front yard by the City of Dallas that an application to the Board of Adjustment had been filed to remove our legal non-conforming use status. Just three days before a scheduled negotiations meeting with the City Councilman Philip Kingston.

If the Albridge House loses its legal non-conforming use status, it will revert to single-family use; the DCMSA will be forced to sell the house, and will lose its headquarters; the neighborhood, community, and nonprofit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural landmarks in the city that is open to the public.

DCMSA has made every effort to amicably resolve the issues raised by a few neighbors, but more than willing to work towards a mutually agreeable solution as evidenced by our previous work on a new planned development district that would equity buy and when Albridge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Albridge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Albridge House and has operated as a good neighbor in the West End Historic District, providing a first-class neighborhood community and new kinds of conveniences throughout Dallas for meetings and events.

Since its inception, the Albridge House has hosted events, primarily weddings, and has used these funds to partially offset the cost of house maintenance, property taxes, and insurance.

At the same time, we have been very responsive to neighbors' concerns with the operation of the house. We have always been open to reasonable requests for changes to the house, and have worked with neighbors on some of the most difficult issues, such as the removal of trees, changes to parking and procedures, even up to changing the terms of existing contracts.

In spite of our conciliatory and good-faith efforts, we were stunned to find a sign on the yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to rezone our legal non-conforming use status. Just three days before a scheduled negotiation meeting with the City Councilman, Mr. Kingston.

If the Albridge House loses its legal non-conforming use status, it will revert to single-family use. The DCMA will be forced to sell the house and will lose its headquarters, the neighborhood community, and non-profit organizations will lose their meeting space and the people of Dallas will lose one of the most important architectural treasures in the city that is open to the public.

We have been working in good faith to reach a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Albridge House could be used and would provide an enforcement mechanism through the city. I urge you to deny the application to terminate the Albridge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status... just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has owned and preserved the Aldridge House and has operated as a good neighbor in the Oak Lawn Historic District, providing a nice venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldridge House has also hosted events, primarily weddings, and has used these funds to partially offset the cost of house maintenance, property taxes, and insurance.

Over the course of the last four decades when neighbors had any concerns with the operation of the Aldridge House, we have always received them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate and significant changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to rezone our local non-conforming use status. Just three days before a scheduled negotiations meeting with the City's Councilman Philip Kingston.

If the Aldridge House loses its legal non-conforming use status, it will revert to single-family use. The DCMAT will be forced to sell the house and will lose its headquarters in the neighborhood. Community and non-profit organizations will lose their meeting space, and the people of Dallas will lose a historic and important architectural landmark in the city that is open to the public.

As a result of our good-faith effort to amicably resolve the issues raised by a few neighbors, we have been unwilling to back towards a mutually agreeable solution, as evidenced by our application to the Board of Adjustment. We would cordially bow and when Aldridge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldridge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation have restored and preserved the Albridge House and has operated as a good neighbor in the Historic District, providing a free venue for neighborhood, community, and non-profit organizations to meet in Dallas for meetings and events.

Since its inception, the Albridge House has also hosted events, primarily webinars, and has used these funds to partially offset the cost of house maintenance, property taxes, and insurance.

Over the past decade, over the last four decades, when neighbors had any concerns with the operation of the Albridge House, we have always resolved them amicably, neighbor-to-neighbor. This is the spirit in which we operate. In the past, we have made immediate efforts to address concerns, in policies and procedures, even up to changing the terms of existing contracts.

In spite of our best intentions and good-faith efforts, we were stunned to find a sign in front of the house that an application to the Board of Adjustment had been filed. This was a **legal non-conforming use status**. Just three days before a scheduled negotiation meeting with City Councilman Philip Kingston.

If the Albridge House loses its legal non-conforming use status, it will revert to single-family use. The house will be forced to sell the house and will lose its headquarters in the neighborhood. The house and non-profit organization will lose their meeting space and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

In the past, we have made every effort to amicably resolve the issues raised by a few neighbors. We have been trying to work towards a mutually agreeable solution, as evidenced by our willingness to work with the city and the Board of Adjustment. We would like to see a new planned development district that would codify how and when Albridge House would be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Albridge House's legal non-conforming use

Dear Members of the Dallas Board of Adjustment:

For four years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has owned and operated the Albridge House and has operated as a good neighbor in the 2600 West District. The Foundation provides a nice venue for neighborhood community and neighborhood organizations throughout Dallas for meetings and events.

Since its inception, the Albridge House has also hosted many primarily weddings and has used these funds to partially offset the cost of basic maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when we, indeed had any concerns with the operation of the Albridge House, we have always resolved them amicably, neighbor-to-neighbor. The issues when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of our lease contracts.

In spite of our concessions and good-faith efforts, we were unable to find a sign in our yard posted by the City of Dallas for an application to the Board of Adjustment had been filed to resolve our legal non-conforming use status. Just three days before a scheduled negotiation meeting with our City Councilman Phillip Kingston.

If the Albridge House loses its legal non-conforming use status, it will revert to single-family use. The DMZ will be forced to sell the house and will lose its headquarters in the neighborhood. Community and non-profit organizations will lose their meeting space and the 2600 West District will lose one of its most important architectural residences in the city that is open to the public.

DMZ has made every effort to amicably resolve the issues raised by a few neighbors. We are more than willing to work towards a mutually agreeable solution as evidenced by our application for a new planned development district that would codify how and when Albridge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Albridge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has restored and preserved the Aldredge House and has operated as a good neighbor in the Swiss Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Aldredge House has also hosted events, primarily weddings, and has used these funds to partially off-set the cost of house maintenance, property taxes, and insurance.

On the rare occasion over the last four decades when neighbors had any concerns with the operation of the Aldredge House, we have always resolved them amicably, neighbor-to-neighbor. This summer, when presented with concerns from some of the neighbors, we made immediate, significant and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to revoke our legal non-conforming use status...just three days before a scheduled negotiations meeting with our City Councilman Philip Kingston.

If the Aldredge House loses its legal non-conforming use status, it will revert to single-family use: the DCMSAF will be forced to sell the house and will lose its headquarters; the neighborhood, community and non-profit organizations will lose their meeting space; and the people of Dallas will lose one of the most important architectural residences in the city that is open to the public.

DCMSAF has made every effort to amicably resolve the issues raised by a few neighbors and are more than willing to work towards a mutually agreeable solution, as evidenced by our application for a new planned development district that would codify how and when Aldredge House could be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Aldredge House's legal non-conforming use.

Dear Members of the Dallas Board of Adjustment:

For forty years, the Dallas County Medical Society Alliance and Foundation (the "Foundation") has owned and preserved the Albridge House and has operated as a good neighbor in the South Avenue Historic District, providing a free venue for neighborhood, community, and non-profit organizations throughout Dallas for meetings and events.

Since its inception, the Albridge House has also hosted events, primarily weddings, and has used these funds to partially offset the cost of house maintenance, property taxes, and insurance.

Over the past few years, the Albridge House has had significant conversations with the neighborhood and the City of Dallas. We have always received them amicably, neighbor-to-neighbor. The Albridge House has presented with concerns from some of the neighbors, we made immediate, significant, and numerous changes in policies and procedures, even up to changing the terms of existing contracts.

In spite of our concessions and good-faith efforts, we were stunned to find a sign in our yard posted by the City of Dallas that an application to the Board of Adjustment had been filed to reclassify the Albridge House as a legal non-conforming use status. Just three days before a scheduled neighborhood meeting with our City Councilman Philip Kingston.

If the Albridge House loses its legal non-conforming use status, it will revert to single-family use. The DCMAF will be forced to sell the house and will lose its headquarters in the neighborhood. Community and non-profit organizations will lose their meeting space, and the City of Dallas will lose one of its most important architectural treasures in the city that is open to the public.

The DCMAF has made every effort to amicably resolve the issues raised by a few neighbors. We have more than willing to work towards a mutually agreeable solution, as evidenced by our negotiation for a new planned development district that would codify how and when Albridge House will be used and would provide an enforcement mechanism through the city.

I urge you to deny the application to terminate the Albridge House's legal non-conforming use.
