

City of Dallas

Attention: All Visitors

Effective January 3, 2011

As we enhance security measures in and around City Hall, the parking procedures for the general public will change. Free parking for the public will remain available and will be accessed by calling ahead to the office/individual to be visited and requesting placement of a name and estimated arrival time on the list at the entry booth into the garage. When the existing free visitor parking spaces are filled, individuals will be directed to parking meters or commercial parking lots adjacent to City Hall.

*Additional parking information can be found at www.dallascityhall.com
