### OWNER'S ACKNOWLEDGEMENT

I, \_\_\_\_\_, am the owner of property located at \_\_\_\_\_.

Through the submission of the application, I am requesting the early release of a building permit at this address subject to compliance with all City of Dallas codes and ordinances. I understand that no Certificate of Occupancy will be issued for this project until such time as a final plat on this property has been approved and recorded with the applicable County, and all other applicable rules and regulations have been satisfied. I further understand that the Sustainable Development and Construction Department, Building Inspection Division, Engineering Section may require the submittal of grading/engineering plans and necessary private development contracts for required infrastructure improvements before they release an early release request for the building permit. Lastly, as the recipient of an early release permit, I bear the entire risk that improvements may need to be modified or removed based on engineering plan review or final plat denial.
