APPENDIX

Preservation Criteria - Busch/Kirby Building

No renovation, reconstruction or new development on the site shall adversely affect any historical or architectural feature of the resource building. All alterations, reconstructions, and additions to the exterior portions of the structure shall conform to the following criteria:

Preservation of Existing Structure1. Protected Elevations

The Main Street and Akard Street elevations of the existing resource structure are the critical facades which are the most visually sensitive portions of the building. These elevations shall be preserved and protected.

2. Surface Materials

Renovation or restoration of the protected elevations shall employ terra cotta, stone, or brick similar in color, module size, texture, and glaze to the existing materials. Any renovations or reconstructions of existing trim and detailing shall employ materials (terra cotta, stone, etc.) similar in color, module size, glaze, and texture to the existing trim and detailing.

3. Fenestrations and Openings

Any renovation or reconstruction of exposed elevations should retain all original window and door openings in their original configuration. Reflective, mirrored, or tinted glass will not be permitted. Any renovation which includes redesign of the ground story storefronts on Main and Akard Streets should include removal of the pedestrian arcade and reconstruction of appropriate storefronts in their original location and configuration. New openings will only be permitted on elevations other than Main or Akard Streets or in order to comply with health or safety code provisions.

4. Roof

The slope and configuration of the existing roof shall be maintained, and no new vertical extensions shall be allowed. The existing parapet around the perimeter and tower shall be retained.

19697

5. Embellishments and Detailing

All ornamental detailing, such as cornices and mouldings, architraves and friezes, and ornamental terra cotta, shall remain intact. Any reconstruction, renovation, or replacement of these items shall employ materials as identical in material, color, composition, size, and texture as practicable.

6. Color

No terra cotta, stone, or brick surfaces may be painted. All originally painted features, including windows, doors, frames, and trim, may be repainted the existing color under the routine maintenance procedures. It is recommended that original paint colors be determined and used where practicable, following review and approval by the Landmark Commission.

7. Lighting and Landscaping

Exterior lighting and any improvements in the public right-of-way shall be reviewed and approved by the Landmark Commission prior to commencement of work; such site features should enhance the structure and surroundings without obscuring significant views of the resource building.

8. Signs

All new signs shall be designed to be compatible with the architectural qualities of the original resource structure, and shall be approved by the Landmark Commission prior to issuance of a sign permit.

9. New Construction

Additions to the existing resource building shall be limited to the light court at the rear of the structure, shall be in harmony with the basic configuration created by the existing elevations' rhythm of fenestration, and shall comply with the requirements specified for a Central Area-1 District. Any new construction in the light court should be designed to be compatible with the original massing and architectural detail of the adjacent facade of the resource building. All new construction shall be reviewed and approved for compatibility by the Landmark Commission prior to issuance of a building permit.
