(3) Accessory uses. As a general rule, an accessory use is permitted in any subdistrict in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

only: (B) In this subdistrict, the following accessory use is permitted by SUP

-- Pedestrian skybridges.

(4) Yard, lot, and space regulations.

(Note: The yard, lot, and space regulations in this paragraph must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this paragraph and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.

(i) No minimum front yard.

(ii) If a structure is located on a lot having frontage on Akard Street, an additional 15-foot "urban form" front yard setback is required for that portion of the structure above 54 feet in height.

(B) Side and rear yard. No side and rear yard is required; however, if a side or rear yard is provided, it must be a minimum of 10 feet.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio.

(i) Maximum floor area ratio is 2.5 in a structure with 50 percent or more of its total floor area restricted to residential use and 50 percent or more of its ground floor area restricted to retail and personal services uses; and

(ii) in all other cases, maximum floor area ratio is 2.0.

(E) Height. Maximum structure height is:

(i) 90 feet for a structure with at least 50 percent of its total floor area restricted to residential uses and 50 percent or more of its ground floor area restricted to retail and personal services uses; and

(ii) 54 feet for all other structures.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading.

(A) In general. Except as provided in this article, consult the use regulations (Division 51A-4.200) for the specific off-street parking and loading requirements for each use. Consult the off-street parking and loading regulations (Division 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(B) Tandem parking. For single family, duplex, and multifamily uses, tandem parking is permitted.

(C) Multifamily. One off-street parking space per bedroom per dwelling unit is required; not less than one space nor more than two spaces are required for each dwelling unit.

(D) On-street parking credit. Required parking for nonresidential and multifamily uses may be reduced by one space for every parking space in the street right-of-way abutting the use. To receive credit, parking spaces must be marked per city regulations and must be approved by the director of public works and transportation.

(i) An on-street parking space may not be used to reduce the required parking for more than one use (i.e. it cannot be counted more than once as a space for a use), except that an on-street parking space may be used to reduce the combined total parking requirement of a mixed-use project.

(ii) An on-street parking space that is not available to the public at all times of the day may only be counted as a partial parking space in proportion to the amount of time that it is available. For example, a parking space that is available to the public only eight hours per day will be counted as one-third of a parking space ($8 \div 24 = \text{one-third}$). The total of the limited availability parking spaces will be counted to the nearest whole number, with one-half counted as an additional space.

(iii) If the director of public works and transportation determines that on-street parking in the street right-of-way abutting the use, approved in accordance with Paragraph (5)(D), has become a traffic hazard and prohibits the on-street parking, the on-street parking credit will be treated as a delta credit.

(E) Pedestrian amenities parking reduction.

(i) Parking for uses on a lot that are located within 1,500 feet of a Dallas Area Rapid Transit (DART) light rail station may be reduced by 40 percent if enhanced pedestrian amenities are provided.

(ii) To qualify,

(aa) the enhanced pedestrian amenities must be located within the pedestrian amenities area on the lot or on the parkway abutting the lot receiving the reduction, and

(bb) the enhanced sidewalk must provide the shortest walking pathway to the DART light rail station.

(iii) See Section 51P-317.112.1(c) for enhanced pedestrian amenities regulations.

(F) Subdistrict 2B.

(i) The off-street parking requirements for a lot with a legacy building may be reduced by 20 percent if the following standards are met:

(aa) Additional landscaping, including site trees, street trees, and other plantings are provided that meet the spirit and intent of the landscaping regulations of Section 51P-317.111(b)(7);

(bb) Except as provided in this subparagraph, each street facing facade that is within 15 feet of a right-of-way or a future right-of-way has a minimum of 30 percent transparency for the first 15 feet above the adjacent ground surface. If an existing legacy building facade has less than 30 percent transparency, a minimum of 50 percent of the facade may be enhanced with murals, sculptures, or other art work; and

(cc) The site with the legacy building or the legacy building is located within 1,500 feet of a Dallas Area Rapid Transit (DART) light rail station.

(ii) This provision may not be combined with the pedestrian amenities parking reduction of Subparagraph (E).

(iii) For purposes of this this subparagraph, TRANSPARENCY means the total area of window and door opening filled with glass, expressed as a percentage of the total facade area by story.

(G) Subdistrict 2C.

(i) For parking purposes, Subdistrict 2C is considered one lot.

(ii) A five percent parking reduction may be applied when a minimum of three parking spaces are designated as rideshare parking. Signs must be prominently displayed at each rideshare space. Each rideshare sign must:

(aa) illustrate or describe the rideshare space and the location of the main use;

(bb) be constructed of weather resistant material;

(cc) be no less than 30 inches wide and 24 inches long; and

(dd) contain clearly legible letters in a color that contrasts with the background material of the sign.

(iii) The off-street parking requirements for a lot with a legacy building may be reduced by 50 percent if the following standards are met:

(aa) Additional landscaping, including site trees, street trees, and other plantings are provided that meet the spirit and intent of the landscaping regulations of Section 51P-317.111(b)(7); and

(bb) Except as provided in this subparagraph, each street-facing facade that is within 15 feet of a right-of-way or a future right-of-way has a minimum of 30 percent transparency for the first 15 feet above the adjacent ground surface. If an existing legacy building facade has less than 30 percent transparency, a minimum of 50 percent of the facade may be enhanced with murals, sculptures, or other art work. For purposes of this this subparagraph, TRANSPARENCY means the total area of window and door opening filled with glass, expressed as a percentage of the total facade area by story.

(iv) Except as provided in this paragraph, remote parking is permitted if the requirements of Division 51A-4.320, "Special Parking Regulations," are met. An agreement authorizing remote parking may be based on a lease of the remote parking spaces in lieu of a remote parking agreement only if the lease:

(aa) is in writing;

(bb) contains legal descriptions of the properties affected;

(cc) specifies the special parking being provided and the hours of operation of any use involved;

(dd) is governed by the laws of the state of Texas;

(ee) is signed by all owners of the properties affected;

(ff) is for a minimum term of three years; and

(gg) provides both the owner of the lot occupied by the main use and the owner of the remote parking lot shall notify the building official in writing if there is a breach of any provision of the lease, or if the lease is modified or terminated.

(v) An agreement authorizing remote parking based on a lease is not required to be filed in the deed records.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations.

(A) In general. This subdistrict is exempt from compliance with Article X of Chapter 51A, except that Article X requirements for street trees, site trees, parking lot trees, parking lot screening, garbage storage screening, and off-street loading screening, apply in this subdistrict, as modified in this paragraph.

(B) Street trees. The city arborist recommends the list of trees set forth in the street tree subparagraph of the landscaping regulations for Subdistrict 1 as being most suitable for planting in this subdistrict, and the city strongly encourages the use of these trees as street trees. It is the responsibility of the property owner to apply for and obtain a parkway landscape permit before locating street trees in the parkway. For more information regarding the parkway landscape permit requirement, consult Section 51P-317.112 of this article.

(aa) Plant the trees in the parkway along the frontage of the lot, in addition to required street trees, with the written permission of the building official.

(bb) Make a payment into the Cedars Open Space Fund.

(ii) Cedars open space fund. The department of development services shall administer a city account to be known as the Cedars Open Space Fund. Funds from the Cedars Open Space Fund must be used only for acquiring park and open-space property, and for the purchase, planting, and maintenance of landscaping on public property in Subdistrict 3A. The amount of the payment required for each site tree not planted is calculated by using the formula for appraising the value of a two-inch tree, as derived from the most recent edition of the Guide for Establishing Values of Trees and Other Plants published by the Council of Tree & Landscape Appraisers, unless another publication is designated by the building official, and adding the cost of planting and maintaining a two-inch tree for two years.

(E) Subdistrict 2C. For legacy buildings, the following improvements may count as a design standard:

(i) A minimum of 30 percent transparency.

(ii) A minimum of 50 percent of the structure facade is enhanced with murals, sculptures, or other art work.

(8) Additional provisions.

(A) Screening from residential. Lots containing uses permitted with RAR must have solid screening on the sides of the property that have residential adjacency.

(A) Front yard. No minimum front yard.

yard.

- (i) Except as provided in this subparagraph, no minimum front

(ii) For a shared access development in Subdistrict 3B, minimum front yard is five feet. Cantilevered roof eaves, steps, stoops, and balconies may project up to five feet into required front yards.

(B) Side and rear yard.

(i) Except as provided in this subparagraph, no side or rear yard is required; however, if a side or rear yard is provided, it must be a minimum of 10 feet.

(ii) For a shared access development in Subdistrict 3B, if a side or rear yard is provided, the 10 foot minimum setback is not required.

(iii) For a legacy building in Subdistrict 3C, if a side yard is provided, no minimum setback is required.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. Maximum floor area ratio is:

(i) 4.5 for a structure with at least 50 percent of its total floor area devoted to residential uses and 50 percent or more of the ground floor area is restricted to retail and personal services uses; and

(ii) 4.0 for all other structures.

(E) Height. Maximum structure height is:

(i) 270 feet for a structure where at least 50 percent of its total floor area devoted to residential uses and 50 percent or more of the ground floor area is restricted to retail and personal services uses;

(ii) 55 feet for a residential development in Tract 1 of Subdistrict 3B; and

(iii) 90 feet for all other structures.

(F) Lot coverage.

(i) In Subdistrict 3A, a lot in this subdistrict with frontage on Lamar Street or Belleview Street is permitted 100 percent lot coverage if the owner of the lot provides and maintains enhanced pedestrian amenities in the enhanced pedestrian amenities area for that lot. See Section 51P-317.112.1(c) for enhanced pedestrian amenities regulations.

(ii) In Tract 1 of Subdistrict 3B, a shared access development is considered one lot for the purposes of determining lot coverage. The maximum lot coverage for Tract 1 of Subdistrict 3B is 85 percent.

(iii) Maximum lot coverage is 80 percent in all other cases.

(iv) Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading.

(A) In general. Except as provided in this article, consult the use regulations (Division 51A-4.200) for the specific off-street parking and loading requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(B) Tandem parking. For single family, duplex, and multifamily uses, tandem parking is permitted.

(C) Multifamily. One off-street parking space per bedroom per dwelling unit is required; not less than one space or more than two spaces are required for each dwelling unit.

(D) Shared access developments in Subdistrict 3B.

(i) In general. Except as provided in this subparagraph, two off-street parking spaces are required per dwelling unit.

(ii) Guest parking. A 0.25 parking space is required per dwelling unit. These spaces may cross lot lines.

(iii) On-street parking. A minimum of 23 on-street parking spaces must be provided as shown on the development plan for Tract 1.

(iv) Accessory uses. No parking is required for accessory uses, such as a sales office, accessory community center (private) or fitness center, provided the accessory use is principally for the residents.

(E) Office showroom/warehouse use. In Tract 2 of Subdistrict 3B, one parking space is required for each 3,160 square feet of the use.

(F) Alcoholic beverage manufacturing in Subdistrict 3C. Off-street parking for food service preparation and seating areas must be provided at a ratio of one space per 100 square feet of floor area.

(G) On-street parking credit. Required parking for nonresidential and multifamily uses may be reduced by one space for every parking space in the street right-of-way abutting the use. To receive credit, parking spaces must be marked per city regulations and must be approved by the director of mobility and street services.

(i) An on-street parking space may not be used to reduce the required parking for more than one use (i.e., it cannot be counted more than once as a space for a use), except that an on-street parking space may be used to reduce the combined total parking requirement of a mixed-use project.

(ii) An on-street parking space that is not available to the public at all times of the day may only be counted as a partial parking space in proportion to the amount of time that it is available. For example, a parking space that is available to the public only eight hours per day will be counted as one-third of a parking space ($8 \div 24 =$ one-third). The total of the limited availability parking spaces will be counted to the nearest whole number, with one-half counted as an additional space.

(iii) If the director of mobility and street services determines that on-street parking in the street right-of-way abutting the use, approved in accordance with Paragraph (5)(G), has become a traffic hazard and prohibits the on-street parking, the on-street parking credit will be treated as a delta credit.

(H) Pedestrian amenities parking reduction.

(i) Parking for uses on a lot that are located within 1,500 feet of a Dallas Area Rapid Transit (DART) light rail station may be reduced by 40 percent if enhanced pedestrian amenities are provided.

(ii) To qualify,

(aa) the enhanced pedestrian amenities must be located within the pedestrian amenities area on the lot or on the parkway abutting the lot receiving the reduction, and

(bb) the enhanced sidewalk must provide the shortest walking pathway to the DART light rail station.

(iii) See Section 51P-317.112.1(c) for enhanced pedestrian amenities regulations.

(I) Remote parking.

(i) Remote parking may be located within a maximum walking distance of 1,300 feet from the use served by the remote parking if there are enhanced pedestrian amenities in the enhanced pedestrian amenities area connecting the lot to the remote parking lot. See Section 51P-317.112.1(c) regarding enhanced pedestrian amenities.

(ii) For a legacy building in Subdistrict 3C, there is no limitation on the percentage of required parking spaces that can be provided by remote parking or other special parking.

(J) Loading docks. For a legacy building in Subdistrict 3C, uses may share loading docks.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations.

(A) In general. This subdistrict is exempt from compliance with Article X of Chapter 51A, except that Article X requirements for street trees, site trees, parking lot trees, parking lot screening, garbage storage screening, and off-street loading screening, apply in this subdistrict, as modified in this paragraph.

(B) Street trees.

(i) In general. The city arborist recommends the list of trees set forth in the street tree subparagraph of the landscaping regulations for Subdistrict 1 as being most suitable for planting in this subdistrict, and the city strongly encourages the use of these trees as street trees. It is the responsibility of the property owner to apply for and obtain a parkway landscape permit before locating street trees in the parkway. For more information regarding the parkway landscape permit requirement, consult Section 51P-317.112 of this article.

(ii) Shared access development in Tract 1 of Subdistrict 3B.

(aa) One large canopy street tree must be provided for each 25 feet of street frontage, excluding points of ingress and egress, with a minimum of two street trees required. Street trees may be located within the front yard or parkway if all private licensing requirements of the city code and charter are met. In this subparagraph, parkway means the portion of a street right-of-way between the projected street curb and the front lot line or corner side lot line. If the director determines that a large canopy tree would interfere with utility lines, a small street tree from the list in Section 51P-317.111(a)(7)(B) may be provided.

(bb) Except as provided in this item, street trees must be provided in accordance with the requirements for street trees in a shared access development in districts other than single family districts. If the director determines that a large canopy tree would interfere with utility lines, a small street tree from the list in Section 51P-317.111(a)(7)(B) may be provided.

(cc) On Cockrell Avenue, McKee Street, Wall Street, and Beaumont Street, all street trees must be planted within a four-foot wide planting area that is adjacent to the curb and planted between one-and-a-half and three feet from the back of the projected street curb.

(dd) All street trees must be planted within 12 months of issuance of the first building permit for each phase.

(C) Parking lot trees. A parking lot may not contain more than 60,000 square feet of paved area uninterrupted by a row or cluster of trees.

(D) Site trees.

(i) In general. Except as provided in this subparagraph, no site trees are required in these subdistricts for a lot with frontage on Lamar Street or Belleview Street

or if the lot has 100 percent lot coverage and the owner of the lot provides and maintains enhanced pedestrian amenities (see Section 51P-317.112.1(c)) along the frontage of the lot.

(ii) Shared access development in Tract 1 of Subdistrict 3B. One site tree must be provided for every 4,000 square feet within the shared access development. Site trees must be evenly distributed throughout the shared access development. The trunk of any site tree must be located at least two-and-one-half feet from any pavement. Site trees must be a species listed in Section 51A-10.134.

(iii) Alternate methods of compliance. In all other cases, the site tree requirements of Division 51A-10.125, "Mandatory Provisions," of Article X apply with the following additional provisions. If a property owner in these subdistricts cannot plant all of the required site trees on the lot, the property owner may comply with one of the following two requirements for up to a maximum of 50 percent of the required site trees:

(aa) Plant the trees in the parkway along the frontage of the lot, in addition to required street trees, with the written permission of the building official.

(bb) Make a payment into the Cedars Open Space Fund.

(iv) Cedars open space fund. The department of sustainable development and construction shall administer a city account to be known as the Cedars Open Space Fund. Funds from the Cedars Open Space Fund must be used only for acquiring park and open-space property, and for the purchase, planting, and maintenance of landscaping on public property in Subdistrict 3A. The amount of the payment required for each site tree not planted is calculated by using the formula for appraising the value of a two-inch tree, as derived from the most recent edition of the Guide for Establishing Values of Trees and Other Plants published by the Council of Tree & Landscape Appraisers, unless another publication is designated by the building official, and adding the cost of planting and maintaining a two-inch tree for two years.

(E) Nonpermeable coverage.

(i) A lot in this area with frontage on Lamar Street or Bellview Street may have a maximum of 100 percent non permeable coverage if the owner of the lot provides and maintains enhanced pedestrian amenities along the frontage of the lot. See Section 51P-317.112.1(c) regarding enhanced pedestrian amenities.

(ii) Maximum nonpermeable coverage of a lot is 90 percent in all other cases.

(F) Additional landscaping requirements for a shared access development in Tract 1 of Subdistrict 3B.

(i) In Subdistrict 3B, all of Tract 1, including both sides of Beaumont Street, are considered one lot with regard to landscape requirements.

(ii) Landscaping may be completed in phases. Each phase must be indicated on a landscape plan submitted with the construction documents. All landscaping in a phase must be complete prior to final inspection of the last structure built in that phase.

(iii) A minimum of 15 percent of the shared access development must be designated as landscape area. Permeable pavement does not count as landscape area.

(iv) Tree grates are prohibited.

(8) Additional provisions.

(A) Minimum sidewalk width.

(i) All lots with frontage on Lamar Street or Belleview Street must have a sidewalk along the Lamar Street or Belleview Street frontage with a minimum unobstructed width of seven and one-half feet.

(ii) All other lots must have a sidewalk along the street frontage with a minimum unobstructed width of six feet.

(B) Shared access development in Tract 1 of Subdistrict 3B.

(i) Shared access easement drives must be provided as shown on the conceptual plan for Subdistrict 3B (Exhibit 317E) and the development/landscape plan for Tract 1 in Subdistrict 3B (Exhibit 317F).

(ii) All street and drive pavement widths must be measured perpendicularly from the edge of the pavement to the opposite edge of the pavement.

(iii) Beaumont Street must have a minimum right-of-way width of 50 feet with a minimum pavement width of 33 feet. On Cockrell Avenue and McKee Street, minimum pavement width is 20 feet and minimum right-of-way width is 59 feet as shown on the typical street section for Subdistrict 3B (Exhibit 317H).

(iv) Minimum visibility triangles are required at all driveways and intersections with public streets. At all driveways and intersections, visibility triangles must be 10 feet by 10 feet for interior intersections of shared access easement drives, 20 feet by 20 feet for shared access easement drives at street intersections; 30 feet by 30 feet at the intersection of Wall Street and Beaumont Street and at the intersection of Beaumont Street and Cockrell Avenue; and 45 feet by 45 feet at the intersection of Cockrell Avenue and McKee Street.

(v) A minimum of six feet must be provided by plat between each group of single-family structures. No more than eight single-family structures are permitted per group.

(a) Private license granted.

(1) The city council hereby grants a revocable, non-exclusive license to the owners, or with the written consent of the owner, to the tenants (“property owner”) of all property in this district for the exclusive purpose of authorizing compliance with the parkway landscaping requirements of this article. A property owner is not required to pay an initial or annual fee for this license, although a fee may be charged for issuance of a parkway landscape permit in accordance with the Dallas Building Code, or Subsection (b) of this section. This private license shall not terminate at the end of any specific time period, however, the city council reserves and has the absolute right to terminate this license at will, by resolution passed by the city council, any time such termination becomes necessary. The determination by the city of the necessity for such termination shall be final and binding and the city shall become entitled to possession of the premises without giving any notice and without the necessity of legal proceedings to obtain possession whenever in its judgment the purpose or use of this license is inconsistent with the public use of the right-of-way or when the purpose or use of this license is likely to become a nuisance or a public safety issue. Upon termination of the license by the director, each property

owner shall remove all improvements and installations in the public rights-of-way in a manner satisfactory to the director of public works and transportation.

(2) A property owner is not required to comply with any landscaping requirement if compliance is made impossible due to the property management director's revocation of a landscape permit or the revocation of the license granted herein affecting landscaping.

(3) Upon the installation of landscaping in the public rights-of-way, the property owner shall procure, pay for and keep in full force and effect commercial general liability insurance coverage with an insurance company authorized to do business in the State of Texas and otherwise acceptable to the city, covering, but not limited to, the liability assumed under the license granted herein, with combined single limits of liability for bodily injury and property damage of not less than \$1,000,000 for each occurrence, \$2,000,000 annual aggregate. Coverage under this liability policy shall be on an "occurrence" basis and the city shall be named as additional insured. All subrogation rights for loss or damage against the city are hereby waived to the extent same are covered by this liability insurance policy.

(4) Each property owner shall be responsible for maintaining the landscaping in good repair and condition and to keep the premises safe and from deteriorating in value or condition, at no expense to the city, and the city shall be absolutely exempt from any requirements to make repairs or to maintain the landscaping. The granting of a license for landscaping under this section does not release the property owner from liability in the installation or maintenance of trees or landscaping in the public right-of-way.

The application must be in writing on a form approved by the director and accompanied by plans or drawings showing the area of the parkway affected and the planting or other amenities proposed.

(2) Upon receipt of the application and any required fees, the director shall circulate it to all affected city departments and utilities for review and comment. If, after receiving comments from affected city departments and utilities, the director determines that the construction and planting or other amenities proposed will not be inconsistent with and will not unreasonably impair the public use of the right-of-way, the director shall issue a parkway landscape permit to the property owner; otherwise, the director shall deny the permit.

(3) A property owner is not required to comply with any parkway landscaping requirement of this article if compliance is made impossible due to the director's denial of a parkway landscape permit.

The application must be filed at least 180 days before the deadline in Subsection (b). If a fee is required, the application shall not be considered filed until the fee is paid. Failure to timely file a complete application for extension shall constitute a waiver of the right to contest the reasonableness of the deadline in Subsection (b).

(d) Upon the filing of a complete application for extension, the board shall, in accordance with the law, determine whether it is necessary to extend the compliance deadline for the nonconforming use. The board shall consider the factors listed in Section 51A-4.704(a)(1)(D) in determining whether to grant the request for extension.
