

FILE NUMBER: Z167-396(AR)

DATE FILED: August 3, 2017

LOCATION: Generally bounded by Pickwick Lane on the west, the alley north of Northwest Highway on the north, Baltimore Drive on the east, and Northwest Highway on the south

COUNCIL DISTRICT: 13

MAPSCO: 25 T

SIZE OF REQUEST: Approx. 12.6 acres

CENSUS TRACT: 77.00

REQUEST: A City Plan Commission authorized hearing to determine proper zoning on property zoned Planned Development District No. 15 with consideration being given to appropriate zoning for the area including use, development standards, and other appropriate regulations.

SUMMARY: The purpose of this authorized hearing is to provide for appropriate land use and development standards; to promote pedestrian activity; and to provide guidelines to ensure compatibility with existing and future residential development.

STAFF RECOMMENDATION: Approval, subject to staff's recommended conditions.

PRIOR CPC ACTION: On April 18, 2019, the City Plan Commission held this case under advisement.

PLANNED DEVELOPMENT DISTRICT No. 15:

PLANNED DEVELOPMENT DISTRICT No. 15 EXHIBITS:

<http://www.dallascityattorney.com/51P/exhibits.html#a15>

BACKGROUND INFORMATION:

- On April 23, 1947, the City Council passed Ordinance No. 4040 which established a C-2 District in the area that would become PD No. 15.
- On March 29, 1965, the City Council passed Ordinance No. 10962 which established the Comprehensive General Zoning Ordinance and converted the established C-2 District to PD No. 15.
- On September 4, 1973, the City Council passed Ordinance No. 14241 which amended the development plan and conditions of the PD.
- On November 30, 1977, the City Council passed Resolution No. 77-3605 which amended the development plan of the PD.
- On September 17, 1980, the City Council passed Ordinance No. 16683 which amended the PD to allow for certain limited uses.
- On September 7, 2017, the City Plan Commission initiated an authorized hearing on property zoned Planned Development District No. 15 to consider appropriate zoning for the area.
- On April 26, 2018, a Community Meeting was held by the City and hosted by City Council Member Gates to review existing zoning, the authorized hearing process, next steps, and to gather input from members of the community. Approximately 200 people attended.
- On May 25, 2018, a 12-member Steering Committee was appointed by City Council Member Gates.
- Between June 28, 2018, and January 7, 2019, staff met with the Steering Committee during 11 meetings to discuss proposed changes for the area. An average of 11 of the 12 Steering Committee members attended the meetings. An average of 47 community members and interested parties attended the meetings.
- On February 19, 2019, a Community Meeting was held by the City and hosted by City Council Member Gates to present the proposed zoning amendments. Approximately 235 people attended.
- On February 21, 2019, as part of the City Plan Commission Bus Tour, the City Plan Commission toured the authorized hearing area.
- On March 7, 2019, City staff briefed the zoning case to the City Plan Commission.
- On March 11, 2019, the zoning case scheduled for March 21, 2019 was postponed by the opposition under Section 51A-4.701(e)(5) of the Dallas Development Code.

Zoning History: There has been one zoning case and one Board of Adjustment case in the vicinity within the last five years.

1. **BDA145-014:** On March 18, 2015, the Board of Adjustment Panel B granted a special exception to provide an alternate landscape plan for property at 6405 Bandera Avenue.
2. **Z134-250:** On November 10, 2015, the City Council approved Planned Development District No. 946 for multifamily uses. PD No. 946 is located approximately 0.15 miles west of the area of request on the northeast corner of Preston Road and Northwest Highway.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing Dimension and ROW
W Northwest Highway	Principal Arterial	6 lane divided, Variable width ROW
Pickwick Lane	Local Street	2 lane undivided, 50' ROW
Baltimore Drive	Local Street	2 lane undivided, 60' ROW

Traffic:

On May 20, 2019, a traffic study commissioned by the Preston Place Condominium Association for the area of request and surrounding area was submitted to the City. The Engineering Division of the Sustainable Development and Construction Department has reviewed the traffic study and generally agrees with the findings and recommendations.

The traffic study and accompanying documents can be viewed at the following link: <https://dallascityhall.com/departments/sustainabledevelopment/planning/Pages/pdd15.a.spx>

Comprehensive Plan:

The forwardDallas! Comprehensive Plan was adopted by the City Council in June 2006. The forwardDallas! Comprehensive Plan outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The proposed zoning meets the following goals and objectives of the comprehensive plan:

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

- Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics. Acknowledge the importance of neighborhoods to the city's long-term health and vitality.

ECONOMIC ELEMENT

GOAL 2.5 FOSTER A CITY OF GREAT NEIGHBORHOODS

- Policy 2.5.1 Promote strong and distinctive neighborhoods to enhance Dallas' quality of life.
- Policy 2.5.2 Ensure that existing and future residential areas are appropriately linked in order to enhance economic development and urban design benefits.

URBAN DESIGN ELEMENT

GOAL 5.1 PROMOTE A SENSE OF PLACE, SAFETY, AND WALKABILITY

- Policy 5.1.1 Promote pedestrian-friendly streetscapes.
- Policy 5.1.3 Encourage complementary building height, scale, design and character.

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

- Policy 5.2.1 Maintain neighborhood scale and character.

ENVIRONMENTAL ELEMENT

GOAL 6.1 PROTECT DALLAS WATER QUALITY AND WATERSHEDS

- Policy 6.1.1.7 Consider shared parking and other parking reduction strategies to minimize unnecessary paved areas.

The proposed zoning changes meet the vision of the forwardDallas! Comprehensive Plan by strengthening existing neighborhoods, promoting strong and distinctive neighborhoods, promoting pedestrian-friendly streetscapes, and encouraging building height, scale, design and character. The recommended changes focused on allowing appropriate land uses and regulations to ensure compatibility with existing and future development.

Neighborhood Plus Plan:

The City Council adopted the Neighborhood Plus Plan in 2015 which identifies gaps in affordable housing in the Dallas area.

Neighborhood Plus Plan's recommended policies include:

- **Policy 4.3** Enhance neighborhood desirability by improving infrastructure, housing stock, recreation and safety.
- **Policy 6.1** Raise the quality of rental property through better design standards, proactive and systematic code enforcement, and zero tolerance towards chronic offenders.
- **Policy 6.2** Expand affordable housing options and encourage its distribution throughout the city and region.

Area Plans:

Comprehensive Area Plans are adopted by City Council to establish land use and development policy in specific areas and are intended to guide future zoning and land development decisions.

Northwest Highway & Preston Road Area Plan:

The *Northwest Highway and Preston Road Area Plan* was approved by City Council on January 25, 2017. The *Plan* was comprised of seven study areas and approximately 1,370 acres. The area of request is located within Zone 4, Multi-Family Neighborhoods. In Zone 4, the *Plan* envisions "a renewable, multi-family enclave giving preference to owner-occupied condominium units and senior living facilities" (pg. 24).

Zone 4 Recommendations of the *Plan* include the following land development policies:

- (1) Zone 4 should remain residential in nature, and retail and office development should be limited to the existing commercial area at the southeastern corner of the zone. Zone 4 is envisioned as a renewable, multifamily enclave giving preference to owner-occupied condominium units and senior living facilities. (pg. 18, 24)
- (2) Current zoning will be changed as this area is redeveloped, permitting increased height as a tradeoff for reduced lot coverage. Up to four-story structures would be acceptable in return for smaller building footprints that would preserve open spaces. Highest density developments are to be concentrated along the Northwest Highway frontages. The two existing high-rise residential structures would continue to be the only such buildings in the zone. (pg. 9, 18, 24)

(3) New developments should meet City codes for on-site parking for residents and visitors, and underground parking would be greatly preferred whenever feasible. (pg. 18)

(4) New developments should include greater landscaping and open space, and pedestrian-friendly amenities. (pg. 24)

The proposed zoning changes comply with the Zone 4 policy recommendations Nos. 1, 3, and 4 by allowing residential uses only (except for the limited non-residential uses currently permitted), meeting City code for parking requirements, permitting underground parking, and including provisions for landscaping, open space, and pedestrian-friendly areas.

The proposed zoning changes partially comply with the Zone 4 policy recommendation No. 2 in that increased height is permitted in exchange for reduced lot coverage and taller heights are permitted along the Northwest Highway frontage. While the proposed changes do not limit structures to a four-story height limit, smaller footprints are required in exchange for increased height. Additionally, the proposed changes include open space requirements and density bonuses in exchange for additional open space. The two existing high-rise structures (Preston Tower and Athena) would continue to be the tallest structures in the PD as the proposed changes limit the height that would not exceed the existing structures.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The area of request is located within Category D of the MVA.

Surrounding Land Use:

	Existing Zoning	Land Use
Site	PD No. 15	Multifamily, Vacant
North	MF-1(A)	Multifamily
East	MF-1(A)	Multifamily
South	N/A City of University Park	Church, Single-family, Duplex
West	MF-1(A)	Multifamily

STAFF ANALYSIS:

General Overview:

Planned Development District No. 15 was primarily developed with multifamily uses in the early to mid-1960's. By 1966, five of the six properties within PD No. 15 were developed as multifamily uses including two high-rise towers (Preston Tower and Athena) and three low-rise condominiums (Royal Orleans, The Diplomat, and Diamond Head).

In 1973, the City Council approved an amendment to PD No. 15 to allow the development of a 20 story, 125 unit high-rise apartment building and adjoining 5 story parking garage on the remaining undeveloped property. Additional changes to the 1973 amendment included limiting the density in the PD to the density of the existing structures plus the density of the proposed 125 unit tower to a maximum density of 52.4 dwelling units per acre and implementing a development plan as part of the PD regulations. The approved development plan showed the building footprint, number of units, and number of floors for the existing and proposed multifamily structures.

The proposed 20 story tower was ultimately never developed and in 1977, the City Council approved an amendment to revise the development plan for the undeveloped site to provide for a three story, 60 unit apartment building with parking facilities provided underneath the building. The revised plan limited the density to the existing structures' density plus the density of the proposed 60 unit apartment building as shown on the plan. In 1979, the remaining undeveloped property in the PD was developed (Preston Place) to the specifications of the 1977 zoning amendment.

In 1980, the City Council approved an amendment to revise the PD conditions to allow limited non-residential uses on the first and second floors of Preston Tower and clarify that only Multiple Family-3 (MF-3) uses, excluding the allowable limited non-residential uses in Preston Tower are permitted in the PD. Additional regulations clarifying parking and Certificate of Occupancy requirements were added as part of the amendment. Lastly, in 2010, a minor amendment to the development plan was approved by the City Plan Commission to revise the on-site parking and loading areas for Preston Tower.

On March 3, 2017, a fire destroyed the 60 unit Preston Place multifamily structure. Due to the existing zoning regulations in PD No. 15, the Preston Place property could only rebuild to the specifications shown on the approved development plan. Any change in building footprint, number of units, height, or other development standards listed in the PD conditions or shown on the development plan would require a zoning change. However, a request for additional units in a zoning change would be limited to the 66 available units based on the density cap of 52.4 dwelling units per acre which is a total of 660 dwelling units for the whole PD. Based on the development plan, there are 594 units currently permitted with the number of units shown for each property. To modify the existing density cap, all properties within the PD would be required to submit a joint zoning change application. Due to the challenges associated with the existing zoning regulations for the burned down Preston Place property, an authorized hearing was called to determine proper zoning for the area.

The first community meeting for the authorized hearing was held in April 2018 to review existing zoning, the authorized hearing process, and next steps. Following the community meeting, a Steering Committee was appointed by the Council Member. Staff held eleven Steering Committee meetings from June 2018 to January 2019 to review the current zoning of the area, the intent or direction of possible changes, and to develop proposed zoning amendments. Steering Committee meetings were typically held once every two weeks and focused on discussing and coming to a general agreement on proposed amendments to the PD. Additionally, one of the Steering Committee meetings was set up to provide a public forum to give community members the opportunity to give their input and recommendations directly to the Steering Committee for their consideration. Following the ninth Steering Committee meeting, no general agreement amongst the Steering Committee members had been reached regarding proposed amendments. During the tenth Steering Committee meeting it was determined that the Steering Committee had reached an impasse. Staff had been unable to garner a general agreement or progress forward towards one with the Steering Committee and discontinued the Steering Committee meetings in order to develop a proposal. Staff developed the proposal based on input received by the Steering Committee, community, and developers throughout the authorized hearing process and taking into account the *Northwest Highway and Preston Road Area Plan*, City staff subject matter expert recommendations, and best practice from other Planned Development Districts to determine appropriate zoning for the area.

On January 7, 2019, a final Steering Committee meeting was held to present the staff proposal to the Steering Committee. On February 19, 2019, the second Community Meeting was held to present staff recommendation, next steps, and to take public comment.

Creation of Subareas:

The proposed amendments call for the creation of two subareas: Subarea A and Subarea B. Subarea A encompasses the Preston Tower property and Subarea B covers the remainder of the PD. The purpose of creating the two subareas is to continue to only allow permitted non-residential limited uses in Preston Tower as referenced in the existing PD conditions.

Development Plan:

The existing development plan would be removed in the proposed amendments and would be required to be replaced upon redevelopment for each property. However, a new development plan would not be required for interior remodel of an existing structure, sidewalk construction, or landscaping improvements.

Main Uses:

Allowable main uses in the proposed amendments include single family, handicapped group dwelling unit, multifamily, retirement housing, church, local utilities, and tower/antenna for cellular communication limited to a mounted cellular antenna. These

main uses comply with the Area Plan in keeping the PD primarily residential. Other non-residential main uses allowed are standard main uses in multifamily zoning districts. Additionally, the mix of residential uses to be allowed is based on Steering Committee discussion.

Limited Uses:

Limited uses will continue to be permitted in Preston Tower as referenced in the existing PD conditions.

Northwest Highway Setback:

The minimum setback from Northwest Highway is 70 feet in the proposed amendments. The existing development plan shows a 100 foot build line. However, porticos and parking structures encroach into the setback which does not contain a consistent sight line at the ground level. Furthermore, blocks to the east and west of the PD do not have a consistent setback from Northwest Highway. A 70 foot setback from Northwest Highway will allow for additional developable area for the redevelopment of properties while maintaining a reasonable consistency with the existing structures which are likely to remain (Preston Tower and Athena).

Perimeter Setbacks:

The minimum setback from Pickwick, Baltimore, and the north alley is 20 feet in the proposed amendments. The existing development plan shows a 20 foot setback for the north alley which will remain the same. The 20 foot setback for Pickwick and Baltimore was determined through Steering Committee discussion to allow adequate room for sidewalks and landscaping on the perimeter of the PD.

Interior Setbacks:

The minimum setback from an interior property line that runs east/west is 40 feet. The minimum setback from an interior property line that runs north/south is 20 feet. The existing configuration of the structures and driveways in the interior of the PD has privately owned driveways with property lines at the centerline of the majority of the private driveways. The purpose of creating interior setbacks is based on the property owner configuration within the PD where private driveways act as streets. The intent of the interior setback distance is to ensure adequate space for walkable pedestrian areas throughout the PD based on Steering Committee discussion.

Urban Form Setback:

An urban form setback of an additional 20 feet for the portion of the structure over 45 feet in height is required along Northwest Highway and any interior property line that runs east/west to maintain and promote the pedestrian areas in the PD and concentrate height (if provided) to the center of the property. Urban form setback is a standard requirement in many other multifamily Planned Development Districts and in the MF-3(A) District.

Tower Spacing:

Tower spacing of an additional setback of one foot for each two feet in height for the portion of the structure over 45 feet in height from Pickwick, Baltimore, and interior

property lines that run north/south, up to a total setback of 30' is required. Tower spacing is to maintain and promote air and light space between structures and concentrate height (if provided) to the center of the property. Tower spacing is a standard requirement in many other multifamily Planned Development Districts and in the MF-3(A) District.

Density:

The proposed maximum base density is 90 dwelling units per acre. The MF-3(A) District which has many similarities to the existing conditions in the area of request has a maximum density of 90 dwelling units per acre.

Density Bonuses:

The proposed amendments allow for the area of request to have higher densities than the MF-3(A) District if certain provisions are met to obtain a density bonus. The density bonuses were included to allow flexibility for meeting the desired number of units provided either an open space density bonus or a mixed-income housing density bonus are met. An additional five dwelling units per acre is allowed over the base density if an additional five percent of the building site is reserved as open space for the open space density bonus. An additional 10 to 30 dwelling units per acre is allowed over the base density if the specified percentage of residential units are set aside for mixed-income housing. If both the open space density bonus and the mixed-income housing density bonus are utilized to the maximum extent, the maximum dwelling unit density is 125 dwelling units per acre. If the density bonuses are fully utilized, the maximum dwelling unit density remains less than the maximum dwelling unit density for a MF-4(A) District which is 160 dwelling units per acre.

Height:

The proposed amendments allow for a maximum height of 240 feet in the southern half of the area of request and a maximum height of 96 feet in the northern half of the area of request. The Residential Proximity Slope (RPS) also applies in the proposed amendments. Currently, the existing high-rise towers (Preston Tower and Athena) are constructed above the RPS emanating from the Single-family District north of the PD. The proposed amendments would limit any new construction by the RPS which would limit the height to be less than the height of the existing high-rise towers. The Area Plan states that RPS should apply to any new development and that taller heights should be concentrated along Northwest Highway. The proposed amendments allow for taller height along Northwest Highway to remain visually consistent with the existing high-rise structures. Additionally, the height limitation on the northern half of the PD will also remain visually consistent with the existing mid-rise structure on the back half of Preston Tower.

Lot Coverage:

The base lot coverage is 65 percent in the proposed amendments. However, to permit taller heights, lot coverage must be decreased to achieve the maximum allowed height in the northern and southern halves of the PD. For example, in the northern half of the PD, lot coverage is 65 percent for structures less than or equal to 60 feet in height. To attain the maximum allowable height in the northern half of the PD, lot coverage decreases to 55 percent and an additional percentage of open space must be provided. The intent of

these amendments is to follow the statement in the Area Plan that increased height would be permitted as a tradeoff for reduced lot coverage. Additionally, the reduced lot coverage for increased height would include an increase in open space which was an important discussion item from the Steering Committee, community, and in the Area Plan.

Parking and Loading:

Required off-street parking refers to the City Code requirements for each use and must be located in an aboveground or underground parking structure in the proposed amendments. If the required off-street parking is provided as an aboveground parking structure, the parking structure must be screened or wrapped to be visually consistent with the main structure. The intent of the required parking regulations was developed through Steering Committee discussion and the preference listed in the Area Plan for underground parking. Additionally, surface parking is only allowed as parallel parking with four foot wide bump outs to allow for street parking that will enhance the pedestrian environment in the area.

Loading:

Service, loading, and garbage storage areas must be enclosed within a main structure. This amendment was developed as part of Steering Committee discussion to screen or enclose these items.

Landscaping:

Landscaping must be provided in accordance with Article X, the Landscape and Tree Conservation Regulations. Additionally, a landscape buffer must be provided along Northwest Highway to enhance the existing buffer on the southern boundary of the PD.

Pedestrian Zones:

The proposed amendments include pedestrian zones for all interior property lines that run east/west and in the area between 50 feet and 65 feet from Northwest Highway. The pedestrian zones include a minimum number of trees, benches, and street lamps included to enhance the pedestrian environment throughout the PD. Throughout Steering Committee and community input and discussion, the creation of pedestrian friendly areas and greenspace was a priority in the proposed amendments.

Open Space:

A minimum of five percent of each building site must be reserved for open space in the proposed amendments. Open space areas must be located between the exterior structure facade and the property line to ensure that required open spaces are located in the pedestrian realm of the PD. Additional open space must be provided if a property utilizes the open space density bonus or develops a property with taller heights in exchange for reduced lot coverage which requires additional open space. Throughout Steering Committee and community input and discussion, the creation of pedestrian friendly areas and greenspace was a priority in the proposed amendments.

Design Standards:

Design standards similar to Article XIII, Form Districts and other multifamily-based PD's were included in the propose amendments to ensure compatible development in the area of request and to promote a pedestrian-friendly environment. The proposed design standards include building transparency requirements, required pedestrian building entrances, maximum blank wall area, prohibiting highly reflective glass, and visibility requirements for non-required fences.

PROPOSED CONDITIONS

ARTICLE 15.

PD 15.

SEC. 51P-15.101. LEGISLATIVE HISTORY.

PD 15 was established as a C-2 district with special deed restrictions by Ordinance No. 4040, passed by the Dallas City Council on April 23, 1947. Ordinance No. 4040 amended Chapter 165 of Title XLIII of the Code of Civil and Criminal Ordinances of 1941. The district created by Ordinance No. 4040 was converted to PD 15 by Comprehensive General Zoning Ordinance No. 10962, passed by the Dallas City Council on March 29, 1965. Ordinance No. 4040 was amended by Ordinance No. 14241, passed by the Dallas City Council on September 4, 1973; Resolution No. 77-2960, passed by the Dallas City Council on October 5, 1977; Resolution No. 77-3605, passed by the Dallas City Council on November 30, 1977; and Ordinance No. 16683, passed by the Dallas City Council on September 17, 1980. (Ord. Nos. 3251; 4040; 10962; 14241; 16683; 24637; Res. Nos. 77-2960; 77-3605)

SEC. 51P-15.102. PROPERTY LOCATION AND SIZE.

PD 15 is established on property located on the north side of West Northwest Highway between Pickwick Lane and Baltimore Avenue. The size of PD 15 is approximately 14.2 acres. (Ord. Nos. 14241; 24637)

SEC. 51P-15.103. DEFINITIONS AND INTERPRETATIONS.

(a) Unless otherwise stated, the definitions and interpretations in Chapter 51A apply to this article. In this district,

(1) **BLANK WALL AREA** means any portion of the exterior of a building that does not include a material change, windows or doors, or columns, pilasters, or other articulation greater than 12 inches in depth. Blank wall area is measured horizontally on each story.

(2) **MASSAGE ESTABLISHMENT** and **MASSAGE** mean a massage establishment or massage as defined by Chapter 455 of the Texas Occupation Code, as amended.

(3) **PORTICO** means an open-air structure attached to a building that consists of a roof supported by columns.

(4) **TATTOO OR BODY PIERCING STUDIO** means a business in which tattooing or body piercing is performed. **TATTOOING** means the practice of producing an indelible mark or figure on the human body by scarring or inserting a pigment under the skin using needles, scalpels, or other related equipment. **BODY PIERCING** means the piercing of body parts, other than ears, to allow the insertion of jewelry.

(5) **TRANSPARENCY** means the total area of window and door opening filled with glass, expressed as a percentage of the total facade area by story, except that structured parking transparency is not required to be filled with glass.

(b) Unless otherwise stated, all references to articles, divisions, or sections in this article are to articles, divisions, or sections in Chapter 51A.

(c) This district is considered to be a residential zoning district.

SEC. 51P-15.104. EXHIBIT.

The following exhibit is incorporated into this article: Exhibit ___A: Subarea map.

SEC. 51P-15.105. CREATION OF SUBAREAS.

This district is divided into the following two subareas:

- (1) Subarea A (Preston Tower).
- (2) Subarea B.

SEC. 51P-15.106. DEVELOPMENT PLAN.

- (a) Except as provided in this section, a development plan must be approved by the city plan commission before the issuance of any building permit to authorize work in this district. If there is a conflict between the text of this article and the development plan, the text of this article controls.
- (b) No development plan is required for the interior remodel of an existing structure (from the passage of this ordinance), sidewalk construction in accordance with Section 51P-15.116, or landscape improvements in accordance with Section 51P-15.113.

SEC. 51P-15.107. MAIN USES PERMITTED.

The following uses are the only main uses permitted:

- (1) Residential uses.

*must
family*

*minimum
eight single
Section*

- Single family. [*A minimum of six, maximum of eight single family structures must be attached together. A minimum of 15 feet be provided between each group of six to eight single structures.*]
- Handicapped group dwelling unit. [*A minimum of six, maximum of eight single family structures must be attached together. A of 15 feet must be provided between each group of six to family structures. SUP required if spacing component of 51A-4.209(b)(3.1) is not met.*]
- Multifamily.
- Retirement housing.

(2) Institutional and community service uses.

- Church.

(3) Utility and public service uses.

- Local utilities.
- Tower/antenna for cellular communication. [*Limited to a mounted cellular antenna*].

SEC. 51P-15.108. LIMITED USES PERMITTED IN SUBAREA A.

The following limited uses are permitted in Subarea A (Preston Tower) on the first and second floors only:

(1) Office uses.

- Medical clinic or ambulatory surgical center.
- Office.

(2) Retail and personal service uses.

- Alcoholic beverage establishment.
- Dry cleaning or laundry store.
- General merchandise or food store less than 3,500 square feet.
- Personal service use [*tattoo and massage establishment*

prohibited].

SEC. 51P-15.109. ACCESSORY USES.

(a) Except as provided in this section, as a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific accessory uses, however, due to

their unique nature, are subject to additional regulations in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(b) The following specific accessory uses are not permitted:

- *Accessory medical/infectious waste incinerator.*
- *Accessory pathological waste incinerator.*
- *Accessory outside storage.*
- *Amateur communication tower.*
- *General waste incinerator.*

SEC. 51P-15.110. YARD, LOT, AND SPACE REGULATIONS.

(Note: The yard, lot, and space regulations in this section must be read together with the yard, lot, and space regulations in Division 51A-4.400. If there is a conflict between this section and Division 51A-4.400, this section controls.)

(a) Setbacks.

(1) Perimeter setbacks. Minimum setback from:

- (A) Northwest Highway is 70 feet.
- (B) Pickwick Lane is 20 feet.
- (C) Baltimore Drive is 20 feet.
- (D) the alley along the northern Property line is 20 feet.

(2) Interior setbacks.

- (A) Minimum setback from an interior property line that runs east/west is 40 feet.
- (B) Minimum setback from an interior property line that runs north/south is 20 feet.

(3) Encroachments.

(A) Benches, street lamps, transformers and other utility equipment, landscape planters, sculptures, and other decorative landscape items may be located within the required setbacks.

(B) Seat walls, retaining walls, stoops, porches, steps, unenclosed balconies, ramps, handrails, and safety railings all not exceeding four feet in height may project up to five feet into the required setbacks.

(C) Balconies, bay windows, awnings, and signs affixed to the building or part of the foundation may project up to five feet into the required setbacks if the clearance of the projection is a minimum of 12 feet above grade.

(D) Porticos may encroach up to 15 feet into the Northwest Highway setback and the setback from an interior property line that runs east/west.

(4) Urban form setback.

(A) An additional 20-foot front yard setback from Northwest Highway is required for that portion of a structure over 45 feet in height.

(B) An additional 20-foot setback from any interior property line that runs east/west is required for that portion of a structure over 45 feet in height.

(5) Tower spacing. Along Pickwick Lane, Baltimore Drive, and the interior property lines that run north/south an additional setback of one foot for each two feet in height above 45 feet is required for that portion of a structure over 45 feet in height, up to a total setback of 30 feet.

(b) Density.

(1) In general. Maximum dwelling unit density is 90 dwelling units per acre.

(2) Open space density bonus. Five additional dwelling units per acre are allowed if an additional five percent of the building site is reserved as open space in accordance with Section 51P-15.115 and provided in addition to the five percent of open space required in Section 51P-15.115. The open space density bonus can only be used in addition to the requirements in Section 51P-15.115 and Section 51P-15.110(e) and can only be used for a one-time bonus for five additional dwelling units per acre.

(3) Mixed-income housing density bonus. When the provisions of Section 51P-15.119 are met, maximum dwelling unit density per acre may increase in accordance with the following:

<u>Set aside minimums</u> <u>(% of total residential units reserved in each</u> <u>income band, adjusted annually)</u>	<u>Maximum Unit Density per Acre</u>
<u>5% at 51-60% AMFI and</u> <u>5% at 61-80% AMFI</u>	<u>100</u>
<u>5% at 51-60% AMFI and</u> <u>5% at 61-80% AMFI and</u> <u>5% at 81-100% AMFI</u>	<u>120</u>

(4) Combined density bonuses. The density bonuses in Paragraphs (2) and (3) may be used independently or combined.

(c) Floor area ratio. No maximum floor area ratio.

(d) Height.

(1) Maximum structure height.

(A) Within 240 feet of Northwest Highway, maximum structure height is 240 feet.

(B) Between 240 feet north of Northwest Highway and the north Property line, maximum structure height is 96 feet.

(2) Residential proximity slope. Residential proximity slope defined in 51A-4.412 applies to the Property.

(3) Projections.

(A) The following architectural elements may project up to six feet above the maximum structure height:

(i) Elevator or stair penthouse or bulkhead.

(ii) Mechanical equipment room.

(iii) Visual screens which surround roof mounted mechanical equipment.

(B) Parapet walls and guard rails may project up to four feet above the maximum structure height.

(e) Lot coverage.

(1) Within 240 feet of Northwest Highway, lot coverage is calculated as follows:

(A) For structures less than or equal to 96 feet in height, maximum lot coverage is 65 percent.

(B) For structures between 96 feet and 168 feet in height, maximum lot coverage is 55 percent, and 10 percent of open space must be provided in addition to the five percent of open space required in Section 51P-15.115.

(C) For structures greater than 168 feet in height, maximum lot coverage is 45 percent, and 20 percent of open space must be provided in addition to the five percent of open space required in Section 51P-15.115.

(2) Between 240 feet north of Northwest Highway and the north Property line, lot coverage is calculated as follows:

(A) For structures less than or equal to 60 feet in height, maximum lot coverage is 65 percent.

(B) For structures greater than 60 feet in height, maximum lot coverage is 55 percent, and 10 percent of open space must be provided in addition to the five percent of open space required in Section 51P-15.115.

(3) If a lot contains a structure that has increased height and decreased lot coverage as specified in Subsections (e)(1)(B), (e)(1)(C), or (e)(2)(B), lot coverage for the entire building site is subject to the lowest of the lot coverage percentages used.

(4) Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(f) Lot size. Minimum lot size for a single family and handicapped group dwelling use is 2,000 square feet. No minimum lot size for all other uses.

(g) Stories. No maximum number of stories above grade.

SEC. 51P-15.111. OFF-STREET PARKING AND LOADING.

(a) In general. Except as provided in this section, consult the use regulations in Division 51A-4.200 for the specific off-street parking and loading requirements for each use.

(b) Structured parking. Except as provided in this section, all required off-street parking must be located within an aboveground or underground parking structure.

(1) Aboveground parking structures. Aboveground parking structure must be screened or wrapped.

(A) Screening of parking structures. Openings in aboveground parking structure facades must be screened except for openings for vehicular access. Screening may include architectural grill work or other materials that provide ventilation.

(B) Wrapping of parking structures. Except for openings for vehicular access, aboveground parking structures must have a use other than parking, with a minimum depth of 25 feet of the building measured inward from the exterior facing structure facade.

(2) Single family and handicapped group dwelling unit garages. For single family and handicapped group dwelling unit uses, enclosed parking garages must be provided for required off-street parking.

(c) Surface parking.

(1) Required parking may not be provided as surface parking.

(2) Excess surface parking is only allowed as parallel parking with a minimum four-foot-wide bump out for every three spaces of parallel parking along an interior property line that runs east/west or within the Northwest Highway required setback.

(d) Service, loading, and garbage storage areas. Service, loading, and garbage storage areas must be enclosed within a main structure.

SEC. 51P-15.112. ENVIRONMENTAL PERFORMANCE STANDARDS.

See Article VI.

SEC. 51P-15.113. LANDSCAPING AND PEDESTRIAN AMENITIES.

(a) In general. Except as provided in this section, landscaping must be provided in accordance with Article X.

(b) Pedestrian zones along required setbacks.

(1) Pedestrian zone along Northwest Highway. The following must be provided in an area between 50 feet and 65 feet from Northwest Highway:

(A) A minimum of one medium or large tree per 30 linear feet.

(B) A minimum of one bench per 60 linear feet.

(C) A minimum of one pedestrian street lamp (free-standing or wall mounted) per 50 linear feet.

(2) Pedestrian zone along interior property lines that run east/west. The following must be provided in an area between zero feet and 15 feet from the back of the projected curb or edge of paving along all interior property lines that run east/west:

(A) A minimum of one medium or large tree per 30 linear feet.

(B) A minimum of one bench per 60 linear feet.

(C) A minimum of one pedestrian street lamp (free-standing or wall mounted) per 50 linear feet.

(c) Northwest Highway landscaping buffer. The street buffer zone in Section 51A-10.125(b)(1) does not apply to the landscape area fronting Northwest Highway.

(1) A minimum 10-foot-wide landscape buffer strip with screening must be provided along Northwest Highway.

(2) An existing or improved wall or fence must be provided in the landscape buffer and placed alongside large evergreen shrubs planted to form a full screening effect, or in combination with options for plant screening with one of the five options listed in Section 51A-10.126(b)(4)(D).

(d) Maintenance. Plant materials must be maintained in a healthy, growing condition.

SEC. 51P-15.114. SIGNS.

Signs must comply with the provisions for non-business zoning districts in Article VII.

SEC. 51P-15.115. OPEN SPACE.

(a) Minimum required open space. A minimum of five percent of the building site must be reserved as open space for activity such as active or passive recreation, groundwater recharge, or landscaping and must be located between the exterior structure facade and the property line.

(b) Increased height/decreased lot coverage open space requirements. In addition to the minimum open space required in Subsection (a), additional open space may be required due to increased height/decreased lot coverage. See Section 51P-15.110(e).

(c) Density bonus for open space. To obtain a density bonus of five additional dwelling units per acre, an additional five percent of the building site must be reserved as open space. This requirement is in addition to the open space requirements in Subsections (a) and (b).

(d) Open space requirements. All open space must comply with the following provisions.

(1) Structures that are not fully enclosed such as pergolas and gazebos; and ordinary projections of window sills, bay windows, belt courses, cornices, eaves, and other architectural features are allowed to be located within open space.

(2) Open space must contain primarily grass, vegetation, or open water; and be primarily used as a ground-water recharge area; and may contain pedestrian amenities such as fountains, benches, paths, or shade structures.

(3) Parking spaces, drive aisles, and areas primarily intended for vehicular use are not considered open space and do not count towards the open space requirement.

(4) Except for emergency and grounds maintenance vehicles, operation or parking of vehicles within on-site open space is prohibited.

(5) Open space must be properly maintained in a state of good repair and neat appearance. Plant materials must be maintained in a healthy, growing condition.

(6) Landscape areas that fulfil the requirements of Article X may also fulfil these requirements if all conditions of this section and Article X are met.

(7) Open space requirements may include the pedestrian zones as referenced in Section 51P-15.113(b).

SEC. 51P-15.116. SIDEWALKS.

(a) A sidewalk with a minimum average width of six feet must be provided along all street frontages and all interior required setbacks that run east/west except for the rear yard setback along the north Property line.

(1) Except as provided in this subsection, all sidewalks must be clear and unobstructed for a minimum of five feet in width.

(2) Tree grates do not count toward the minimum unobstructed sidewalk width.

(3) If the director determines that the location of a local utility or protected tree, as defined in Article X, would prevent a five-foot minimum width, the sidewalk may be reduced to four feet in width in that location.

(b) A sidewalk with a minimum width of four feet must be provided along all interior required setbacks that run north/south.

(c) Sidewalks must be located in an area parallel to and between:

(1) Two feet and 15 feet of the back of the projected curb or edge of paving along Pickwick Lane and Baltimore Drive.

(2) Zero feet and 15 feet of the back of the projected street curb or edge of paving along all interior property lines that run east/west and north/south.

(3) 50 feet and 65 feet from Northwest Highway.

- (d) Where a sidewalk crosses a vehicular driveway, the sidewalk must be constructed of a material, texture, or color that contrasts to the material, texture, or color of the vehicular driveway.

SEC. 51P-15.117. DESIGN STANDARDS.

(a) Transparency.

(1) Ground-story. A minimum of 30 percent transparency is required on the ground-story facade.

(2) Upper-stories. A minimum of 20 percent transparency is required on each of the upper story facades.

(3) Applicability. This subsection does not apply to facades facing the northern Property line except for facades facing open space as provided in Section 51P-15.115.

(b) Pedestrian building entrance. Except for facades facing the northern Property line that do not face open space as provided in Section 51P-15.115, a minimum of one pedestrian building entrance is required per 125 feet of building facade.

(c) Blank wall area. Maximum blank wall area is 30 linear feet on any facade.

(d) Highly reflective glass. Highly reflective glass is prohibited. Reflective glass may not be used as an exterior building material on any building or structure in the district.

(e) Non-required fences. Unless a use specifically requires screening, all fences along a street, setback, or open space must have a surface area that is a minimum of 50 percent open, allowing visibility between three feet and six feet above grade. The exception for multifamily uses in Section 51A-4.602(a)(2) that provides that a fence exceeding four feet above grade may be erected in a front yard in multifamily districts does not apply.

SEC. 51P-15.118. STREET FRONTAGES.

A lot is not required to front upon either a dedicated street or a private street if adequate access is provided by an access easement. The design and construction of the access easement must be approved by the director of public works and transportation in accordance with standard city rules and specifications.

SEC. 51P-15.119. MIXED-INCOME HOUSING.

(a) Except as provided in this section, compliance with Division 51A-4.1100 is required to obtain the density bonus in Section 51P-15.110(b)(3).

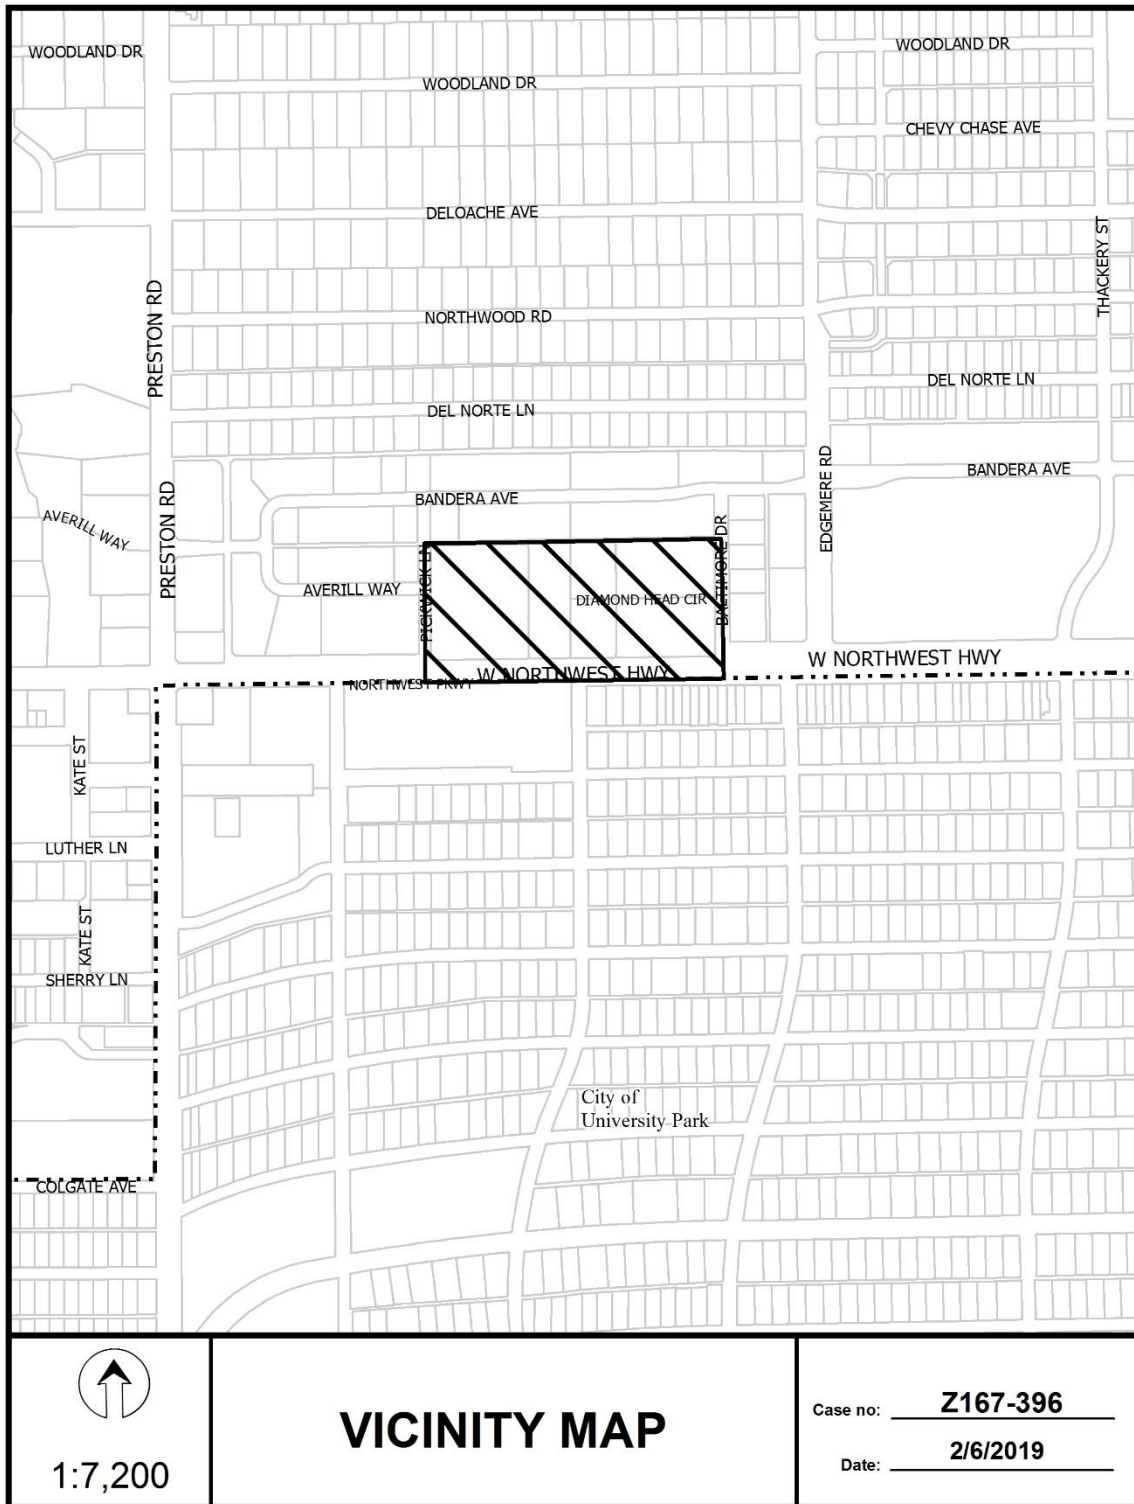

(b) Compliance with Section 51A-4.1107 is not required.

SEC. 51P-15.120. ADDITIONAL PROVISIONS.

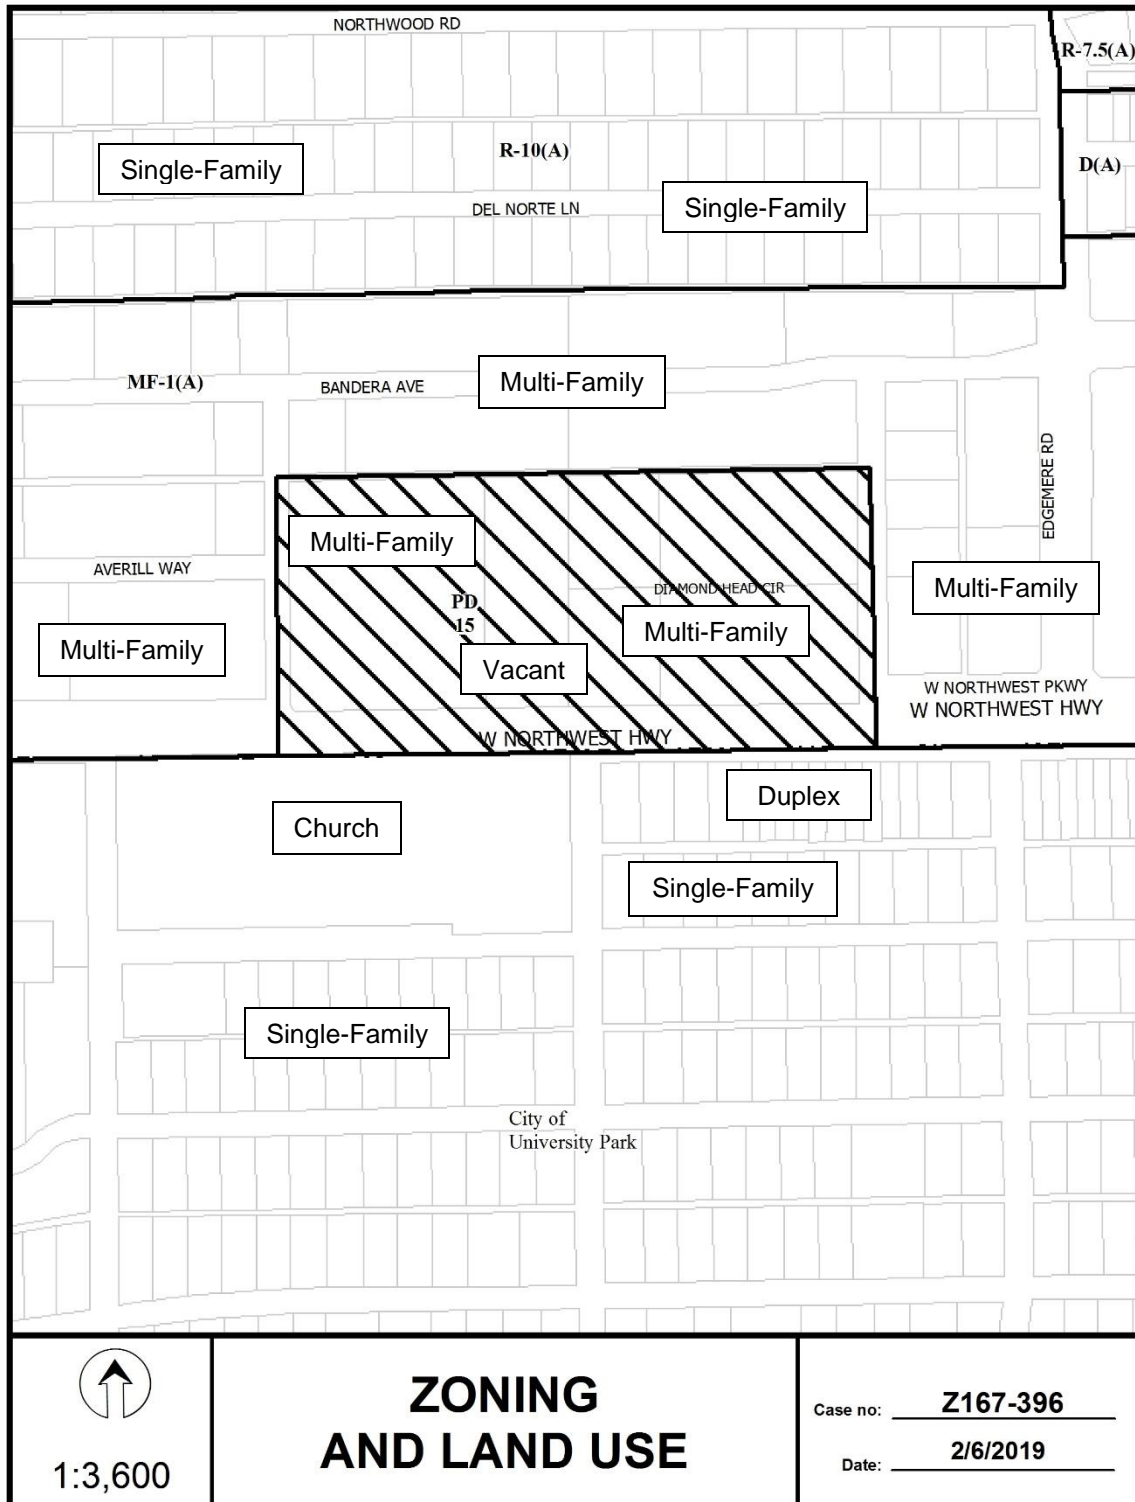

- (a) The Property must be properly maintained in a state of good repair and neat appearance.
- (b) Development and use of the Property must comply with all federal and state laws and regulations, and with all ordinances, rules, and regulations of the city.

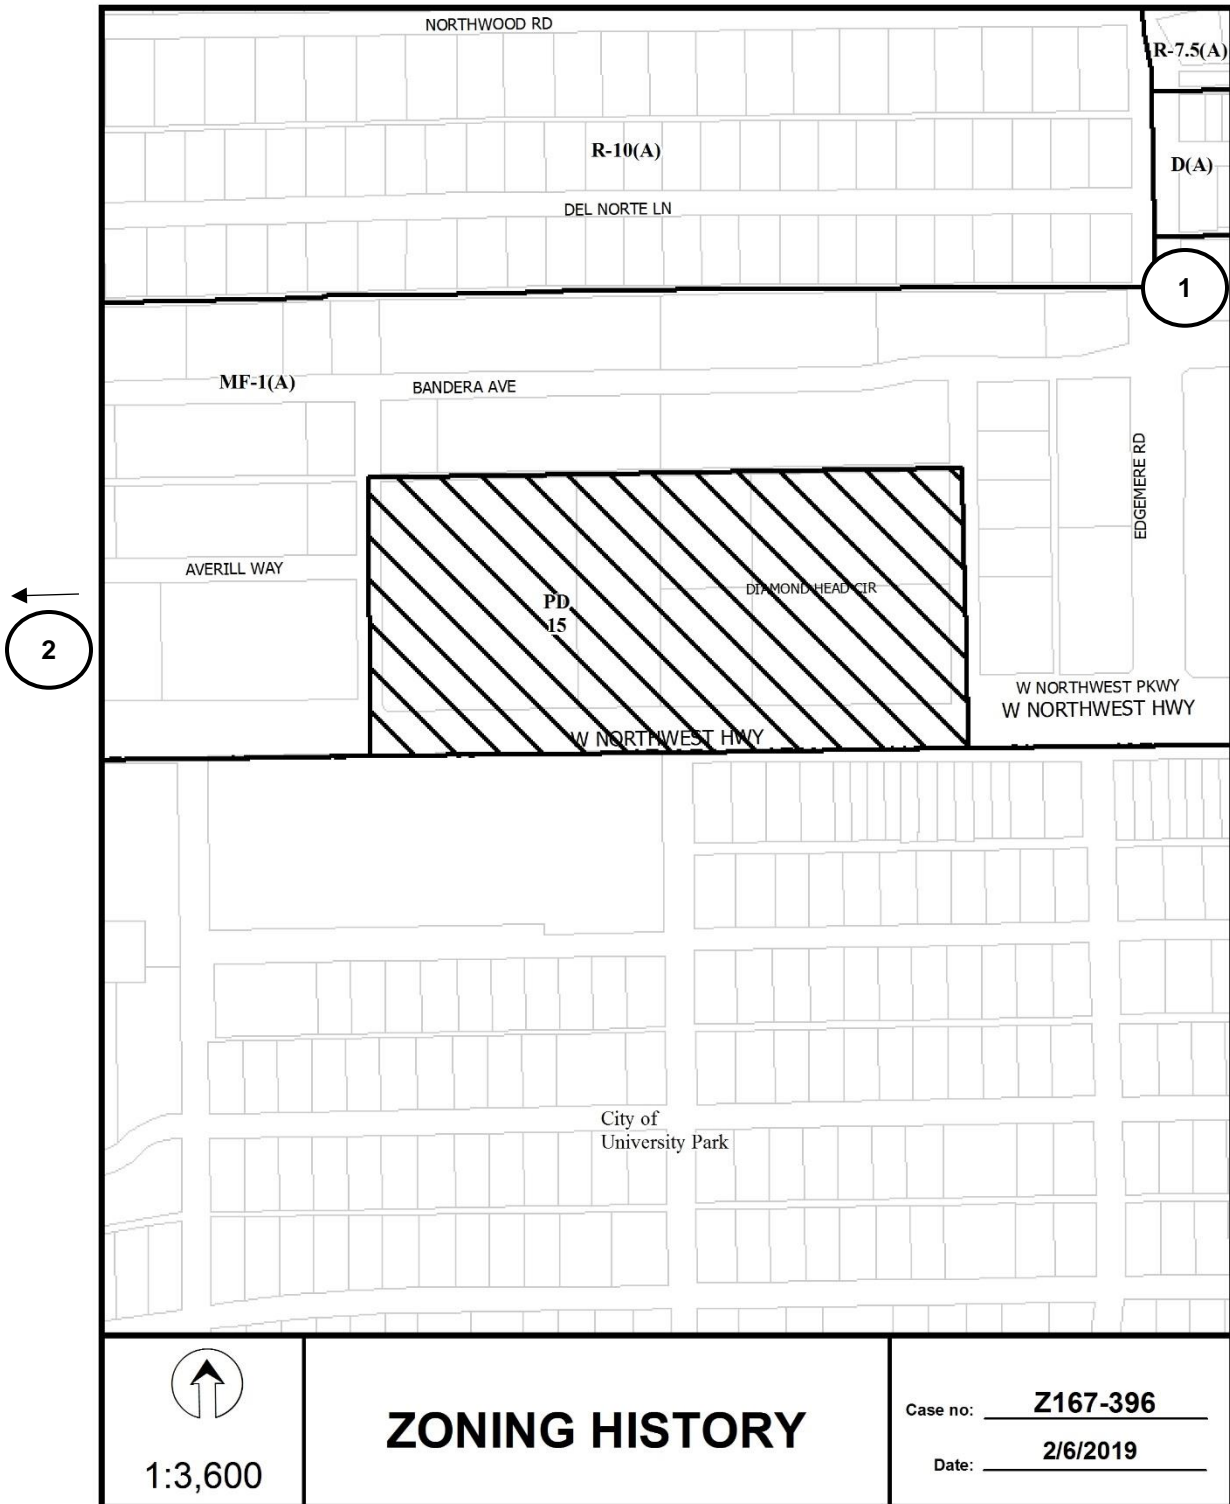

SEC. 51P-15.121. COMPLIANCE WITH CONDITIONS.

- (a) All paved areas, permanent drives, streets, and drainage structures, if any, must be constructed in accordance with standard city specifications, and completed to the satisfaction of the city.
- (b) The building official shall not issue a building permit to authorize work, or a certificate of occupancy to authorize the operation of a use, until there has been full compliance with this article, the Dallas Development Code, the construction codes, and all other ordinances, rules, and regulations of the city.”
