(a) In general. Except as provided in this section, consult the use regulations in Division 51A-4.200 for the specific off-street parking and loading requirements for each use. For the purpose of this section, Subdistrict 6A shall be considered one lot.

(1) Multifamily use. A minimum of one off-street parking space per bedroom is required with a maximum of two off-street parking spaces per dwelling unit.

(2) Restaurant use.

(A) A minimum of one off-street parking space per 125 square feet of floor area is required.

(B) If an outdoor dining area, whether covered or not, is within 20 feet of, and has direct access to, a street, sidewalk, or publically accessible open space, the outdoor dining area is not included in the parking requirement calculations for up to 25 percent of the size of the indoor floor area. Any portion of the outdoor dining area in excess of 25 percent of the size of the indoor floor area must be parked in accordance with Section 51P-830.117(a)(2)(A).

(b) Parking reductions.

(1) Bicycle parking. Off-street parking spaces required for a use may be reduced by one space for each four bicycle parking stations provided for that use, up to a maximum of three off-street parking spaces per lot.

(2) Legacy building.

(A) For residential uses within a legacy building, off-street parking requirements may be reduced an additional 25 percent.

(B) For retail-related uses and office uses within a legacy building, off-street parking is not required.

(3) Mixed use development parking.

(A) In general. The off-street parking requirement for a mixed use development may be reduced in accordance with the mixed use development parking chart (Exhibit 830C).

(B) Calculation of adjusted standard off-street parking requirement. The adjusted off-street parking requirement for a mixed use development is calculated as follows:

(i) The standard parking requirements for each of the uses in the mixed use development must be ascertained.

(ii) The parking demand for each use is determined for each of the five times of day shown in the mixed use development parking chart by multiplying the standard off-street parking requirement for each use by the percentage in the chart assigned to the category of use. If a use in the development does not fall within one of the categories shown in the mixed use development parking chart, the percentage assigned to that use is 100 percent for all five times of day.

(iii) The “time of day” columns are totaled to produce sums that represent the aggregate parking demand for the development at each time of day. The largest of these five sums is the adjusted off-street parking requirement for the development.

(C) Minimum parking requirement. If one or more of the main uses in a mixed use development is a nonresidential use, the minimum parking requirement for the mixed use development cannot be reduced to a number of spaces that is less than the sum of the standard parking spaces required for each of the nonresidential uses in the mixed use development.

(4) On-street parking. Except as provided in this subparagraph, any on-street parking spaces that abut the building site may be counted as a reduction in the off-street parking requirement of the use adjacent to the on-street parking space. On-street parking must be striped in accordance with standard city specifications.

(A) An on-street parking space may not be used to reduce the required parking for more than one use, except that an on-street parking space may be used to reduce the combined total parking requirement for a mixed use development.

(B) An on-street parking space that is not available to the public at all times of the day may only be counted as a partial parking space in proportion to the amount of time that is available. For example, a parking space that is available to the public only eight hours per day will be counted as one-third of the parking space ($8 / 24 = 1/3$). The total number of the limited-availability parking spaces will be counted to the nearest whole number, with one-half counted as an additional space.

(5) Tree preservation. Off-street parking spaces required for a use may be reduced by one space for each protected tree (as defined in Article X) retained on site that would otherwise have to be removed to provide the required off-street parking for that use.

(c) Remote parking.

(1) For nonresidential uses and mixed use developments, remote parking is permitted if the requirements of Division 51A-4.320, "Special Parking Regulations," are met, including the landscape requirements, except that the remote parking may be within a walking distance of 1,000 feet from the use served.

(2) An agreement authorizing a nonresidential use or a mixed use development to use remote parking for nonresidential uses may be based on a lease of the remote parking spaces only if the lease:

- (A) is in writing;
- (B) contains legal descriptions of the properties affected;
- (C) specifies the special parking being provided and the hours of operation of any use involved;
- (D) is governed by the laws of the state of Texas;
- (E) is signed by all owners of the properties affected;
- (F) signed by all lienholders, other than taxing entities, that have an interest in or an improvement on the properties;
- (G) is for a minimum term of three years; and
- (H) provides both the owner of the lot occupied by the nonresidential use or mixed use development use and the owner of the remote parking lot shall notify the

building official in writing if there is a breach of any provision of the lease, or if the lease is modified or terminated.

(3) The remote parking provisions of this subsection and Division 51A-4.320 shall not affect or cause the reduction of delta credits.

(4) In Subdistrict 3A, remote parking may account for one-hundred percent of the off-street parking requirement during a phased construction period.

(d) Subdistrict 3B.

(1) Occupancies that combine a residential dwelling unit and a non-residential use in the same space must provide parking for the dwelling unit and the portion of the non-residential floor area above 600 square feet. If the non-residential floor area exceeds the floor area of the residential floor area, each use must provide parking separately.

(2) Subdistrict 3B is considered one building site for purposes of the parking regulations.

(3) For an art gallery, one space per 600 square feet of floor area is required.

(4) For an arts or craft production facility, one space per 1,000 square feet of floor area is required.

(5) For an events center use, one space per 175 square feet of floor area is required.

(6) For a hotel, one space per unit is required. An additional one space per 200 square feet of meeting room is also required.

(7) For a neighborhood market, one space per 200 square feet of floor area.

(8) No off-street loading is required. (Ord. Nos. 27944; 28733; 28745; 30374)

SEC. 51P-830.118.

If the director finds that the following standards apply to a building within this district, the director is authorized to add the building to the legacy building list (Exhibit 830B):

(1) the building was constructed before 1957 if fronting on Davis Street, Tyler Street, Polk Street, or 7th Street east of Madison Avenue and before 1945 if fronting on Bishop Avenue;

(2) for buildings with frontage on Davis Street or Bishop Avenue, the primary street-facing facade of the building is within 10 feet of the right-of-way line of Davis Street or within five feet of the 25-foot front yard setback line on Bishop Avenue;

(3) the building's main entrance faces Davis Street, Tyler Street, Polk Street, 7th Street, or Bishop Avenue;

(4) the building facade with the main entrance must have window and door openings that total at least 20 percent of the facade area; and

(5) off-street parking is not located in the required front yard. (Ord. Nos. 27944; 29210)

SEC. 51P-830.119. ENVIRONMENTAL PERFORMANCE STANDARDS.

See Article VI. (Ord. 27944)

SEC. 51P-830.120. LANDSCAPING.

(a) In general.

(1) Except as provided in this section, landscaping must be provided in accordance with Article X.

(2) Required landscaping may be located in the public right-of-way.

(3) Required landscaping and design standards located in adjacent rights-of-way may count toward the site requirements.

(b) Subdistricts 3, 3A, 3B, and 6. The following additional landscaping provisions apply:

(1) Street trees.

(A) Except as provided in this paragraph, in Subdistricts 3, 3B, and 6, one large canopy tree having a caliper of at least three inches must be provided no closer than 25 feet on center for every 40 feet of street frontage and may be planted within 25 feet of back of curb. Except as provided in this paragraph, in Subdistrict 3A, one large canopy tree having a caliper of at least three inches must be provided no closer than 20 feet on center for every 40 feet of street frontage and may be planted within 25 feet of back of curb.

(B) If the city arborist determines that the planting space for the required tree is inadequate or that utility lines prohibit the planting, two small trees may count toward the street tree requirements.

(2) Surface parking landscaping.

(A) Parking spaces in a surface parking lot may be located no more than 75 feet from the trunk of a large canopy tree in a median or island.

(B) Each large canopy tree must have a caliper of at least two inches, must be located in a median or island that is no closer than four feet to the paved portion of the parking lot.

(C) A median or island that is located in a surface parking lot must be a minimum of 125 square feet in area.

(3) Residential adjacency buffer. In Subdistrict 3B, a residential adjacency buffer must have a minimum depth of five feet with a minimum six-foot tall solid screening fence. Shrubs must form a three-foot-high screen that is 95 percent opaque year-round within three years of planting. Landscaping must consist of hedge-like evergreen plant materials recommended for local area use by the building official. Landscaping must be located in a bed that is at least three feet wide with a minimum soil depth of 24 inches. Plants must be placed 24 inches on center over the entire length of the bed unless a landscape architect recommends an alternative planting density that the building official determines is capable of providing a solid appearance within three years.

(c) Private license granted.

(1) The city council hereby grants a revocable, non-exclusive license to the owners or tenants (with the written consent of the owner) of all property in this district for the exclusive purpose of authorizing compliance with the parkway landscaping requirements of this article. "Parkway" means the portion of a street right-of-way between the street curb and the lot line. An owner or tenant is not required to pay an initial or annual fee for this license, although a fee may be charged for issuance of a parkway landscape permit. This private license will not terminate at the end of any specific period, however, the city council reserves the right to terminate this license at will, by resolution passed by the city council, any time such termination becomes necessary. The determination by the city council of the need for termination is final and binding. The city shall become entitled to possession of the licensed area without giving any notice and without the necessity of legal proceedings to obtain possession when, in its judgment, the purpose or use of the license is inconsistent with the public use of the right-of-way or when the purpose or use of the license is likely to become a nuisance or a threat to public safety. Upon termination of the license by the city council, each owner or tenant shall remove all improvements and installations in the public rights-of-way to the satisfaction of the director of public works and transportation.

(2) An owner or tenant is not required to comply with any landscaping requirement to the extent that compliance is made impossible due to the city council's revocation of the private license granted by this subsection.

(3) Upon the installation of landscaping and related amenities, such as irrigation systems, in the public rights-of-way, the owner or tenant shall procure, pay for, and keep in full force and effect commercial general liability insurance coverage with an insurance company authorized to do business in the State of Texas and otherwise acceptable to the city, covering, but not limited to, the liability assumed under the private license granted under this subsection, with combined single limits of liability for bodily injury and property damage of not less than \$1,000,000 for each occurrence, and \$2,000,000 annual aggregate. Coverage under this liability policy must be on an occurrence basis and the city shall be named as additional insured. Proof of such insurance must be sent to: Office of Risk Management, City of Dallas, 1500 Marilla, Dallas, Texas 75201, and the policy must provide for 30 days prior written notice to the Office of Risk Management of cancellation, expiration, non-renewal, or material change in coverage. All subrogation rights for loss or damage against the city are hereby waived to the extent that they are covered by this liability insurance policy.

(4) Each owner or tenant is responsible for maintaining the landscaping in a healthy, growing condition, for keeping related amenities in good repair and condition, and for keeping the premises safe and from deteriorating in value or condition, at no expense to the city. The city is absolutely exempt from any requirements to make repairs or to maintain the landscaping, related amenities, or the premises. The granting of a license for landscaping and related amenities under this subsection does not release the owner or tenant from liability for the installation or maintenance of trees, landscaping, and related amenities in the public right-of-way.

(d) Parkway landscape permit.

(1) It is the responsibility of the property owner to apply for and obtain a parkway landscape permit before locating trees, landscaping, or related amenities in the parkway. An application for a parkway landscape permit must be made to the building official. The application must be in writing on a form approved by the building official and accompanied by plans or drawings showing the area of the parkway affected and the planting or other amenities proposed.

(2) Upon receipt of the application and any required fees, the building official shall circulate it to all affected city departments and utilities for review and comment. If, after receiving comments from affected city departments and utilities, the building official determines that the construction, planting, or other amenities proposed will not be inconsistent with and will not unreasonably impair the public use of the right-of-way, the building official shall issue a parkway landscape permit to the property owner; otherwise, the building official shall deny the permit.

(3) A property owner is not required to comply with any parkway landscaping requirement of this article if compliance is made impossible due to the building official's denial of a parkway landscape permit.

(4) A parkway landscape permit issued by the building official is subject to immediate revocation upon written notice if at any time the building official determines that the

use of the parkway authorized by the permit is inconsistent with or unreasonably impairs the public use of the right-of-way. The property owner is not required to comply with any parkway landscaping requirement of this section if compliance is made impossible due to the building official's revocation of a parkway landscape permit.

(5) The issuance of a parkway landscape permit under this subsection does not excuse the property owner, his agents, or employees from liability for the installation or maintenance of trees or other amenities in the public right-of-way.

(e) Maintenance. Plant materials must be maintained in a healthy, growing condition. (Ord. Nos. 27944; 30374)

SEC. 51P-830.122. ARCHITECTURAL DESIGN STANDARDS.

(a) Applicability.

(1) Except as provided in this subsection, architectural design standards apply only to new construction of buildings with multifamily, mixed-use, or nonresidential uses on a vacant lot in all subdistricts and new construction of single family and duplex uses on a vacant lot in Subdistrict 8 (see Section 51P-830.122(1) for standards for Subdistrict 8).

(2) Architectural design standards are not required for a motor vehicle fueling station and general merchandise or food store 3,500 square feet or less located in Subdistrict 6A.

(3) In Subdistrict 3B, structures fronting an access easement dedicated in accordance with Section 51P-830.124 must comply with the requirements for a street-facing facade. Paragraphs (d), (e), and (f) do not apply to a building that does not have any street frontage and is located more than 40 feet from a street.

(b) Purpose.

(1) These architectural design standards are intended to preserve the historical, cultural, and architectural importance and significance of the Davis Street and Bishop Avenue corridors. This area has historic and cultural importance as an early major east-west thoroughfare in the Dallas metroplex and as the earliest neighborhoods developed in Oak Cliff. The corridor reflects turn of the 20th century development, urban expansion, mid-20th century Americana, and post-World War II automobile culture. These architectural design standards are

intended to preserve the character of the corridor while allowing compatible new construction and modifications that respect the corridor's historical, cultural, and architectural significance.

(2) These architectural design standards are intended to:

(A) ensure that new development enhances the character of the corridor and complements adjacent neighborhoods;

(B) ensure that increased density in established neighborhoods makes a positive contribution to the area's character;

(C) ensure the integrity of historic buildings and the compatibility of new development; and

(D) enhance the character and environment for pedestrians.

(c) Plan review. The director shall review any plan submitted to determine whether it complies with the requirements of this section.

(d) Building orientation. The primary facade of new construction on a vacant lot must face the street.

(e) Entrances.

(1) All street-facing entrances must be architecturally prominent and clearly visible from the street.

(2) Primary customer entrances for office uses and retail and personal service uses must face the street or a courtyard, door yard, or plaza area with direct access to the street. Primary customer entrances for retail and personal service uses must be clearly visible through the use of two or more of the following architectural details:

(A) Arcade.

(B) Arch.

(C) Awning.

(D) Canopy.

(E) Decorative elements such as tile work, molding, raised banding or projected banding.

(B) Display windows. (In Subdistrict 3A, “display window” means glazing that provides transparency into a non-residential space.)

(C) Awnings associated with windows or doors.

(4) Accessory structures must have similar architectural design elements, materials, and roof design as the primary structure.

(5) If a building is two stories or less, 30 percent of the street-facing facade, excluding fenestration, must be masonry. If the building is more than two stories, 100 percent of the first-story street-facing facade, excluding fenestration, must be masonry. This provision does not apply in Subdistrict 3A.

(6) The street level of the primary facade of nonresidential uses or mixed use projects with nonresidential uses on the street level must have a minimum transparency of 40 percent.

(7) Facades may not consist of more than 80 percent glass. For purposes of this provision, glass block is not considered as glass.

(g) Massing and form.

(1) If a building exceeds 150 feet of frontage along any street, and exceeds 36 feet in height, that building must have a minimum of 500 square feet of sloped-roof area. The sloped-roof area must be visible from the street, and the slope must exceed a pitch of two in 12.

(2) To create varied building massing for large scaled buildings, no more than 80 percent of any building footprint may exceed 60 feet in height.

To prevent visual monotony, at least 20 percent of the length of any fence or wall longer than 200 feet must be alternate materials, alternate textures, gates, offsets, or openings. The alternate materials, alternate textures, gates, offsets, or openings may be spread out over the length of the fence or wall.

(i) Materials.

(1) Glass. The reflectance of glass used on the first two stories may not exceed 15 percent. The reflectance of glass used on stories above the first two stories may not exceed 27 percent. As used in this provision, “reflectance” is the percentage of available light energy reflected away from the exterior surface of the glass. The higher the reflectance percentage, the more mirror-like the surface will appear.

(2) Masonry.

This provision does not apply in Subdistrict 3A.

(k) Windows. Retail and personal service uses must provide windows or display cases in street-level street facing windows along sidewalks.

(l) Architectural standards for residential structures in Subdistrict 8.

(1) Purpose. The purpose of these architectural design standards is to cause new construction and major modifications in the subdistrict to be compatible with the existing Victorian Transitional-style housing stock in the neighborhood.

(2) Applicability. These architectural design standards apply to new construction on a vacant lot and major modifications for single-family or duplex use only.

(3) Standards.

(A) Except as provided in this paragraph, structures in the front 50 percent of a lot may only have hipped-roofed or gable-roofed forms with a minimum roof slope of four (vertical) to 12 (horizontal) and a maximum roof slope of 12 (vertical) to 12 (horizontal).
