Temporary Inclement Weather Shelters DCA189-005

Zoning Ordinance Advisory Committee (ZOAC) June 20, 2019

Nathan Warren
Senior Planner
Sustainable Development
& Construction Department

City of Dallas

Background

- The Office of Homeless Solutions briefed the City Council on April 17, and May 15, 2019
- City Council gave direction to establish a new use to allow the opportunity to provide temporary emergency shelter for the homeless during times of severe temperatures

Issue

 As referenced in the briefing to City Council from OHS, the number of unsheltered homeless has increased by 9% from 2018 to 2019 and emergency shelter beds are at full capacity

Issue

- Currently, temporary shelters are not allowed
- The use overnight general purpose shelter allows for emergency lodging, but is prohibited to occur in churches, schools, and residential districts
- Organizations who want to house the homeless during times of severe weather are not legally allowed to do so

- Amend Chapters 51 and 51A of the Dallas Development Code to define and establish regulations for a new use called temporary inclement weather shelter
- The Office of Homeless Solutions is creating a new chapter in Dallas City Code
 - The use *temporary inclement weather shelter* will comply with the regulations within the new chapter

 A temporary inclement weather shelter is an overnight general purpose shelter as defined in Section 51A-205(2.1) that operates during times of inclement weather in an inclement weather period

 Inclement weather is defined as times when temperatures are forecasted to be below 36 degrees Fahrenheit, or when temperatures are forecasted to be above 100 degrees Fahrenheit during the day with evening temperatures above 80 degrees Fahrenheit

 Inclement weather period is defined as the period of time from December 1, to March 1, or from June 1, to September 1

- This use is only operational during an inclement weather period in a qualifying time of inclement weather
 - This use is not operational for the entire inclement weather period
 - Qualifying times of inclement weather will be determined by the entity named in the new chapter

Example of Inclement Weather (December 1 – March 1)

SUN JAN 27

Actual Temp 64°/33°

Hist. Avg. 58°/38°

MON JAN 28

Actual Temp 63°/40°

Hist. Avg. 58°/38° TUE JAN 29

Actual Temp 49°/30°

Hist. Avg. 58°/38° WED JAN 30

Actual Temp 52°/35°

Hist. Avg. 58°/38°

- This use is to be allowed by right in all districts, except Parking (P), in conjunction with a Certificate of Occupancy for a nonresidential use
 - This ensures that temporary inclement weather shelters are not allowed in structures functioning as residential uses

- The maximum number of overnight guests permitted under this use is 20
 - One bed must be provided per overnight guest
- This use must adhere to and follow:
 - All fire and building codes
 - The regulations within the new chapter
- This use must be spaced at least 1,000 feet away from another temporary inclement weather shelter and any other overnight general purpose shelter
 - This provision will prevent the concentration of shelters

- A temporary certificate of occupancy will be required to operate this use
- These temporary certificates of occupancy will be valid until the end of the current inclement weather period if issued during an inclement weather period, or until the end of the next inclement weather period if the temporary certificate occupancy is issued outside of an inclement weather period
