STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan*, adopted by the City Council in June 2006, outlines several goals and policies which can serve as a framework for assisting in evaluating this proposal. To follow is a summary of relevant recommendations from different elements in the 2006 Plan:

LAND USE ELEMENT

Goal 1.1 Align land use strategies with economic development priorities

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics. Acknowledge the importance of neighborhoods to the city's long-term health and vitality.

ECONOMIC ELEMENT

Goal 2.5 Foster a city of great neighborhoods

Policy 2.5.1 Promote strong and distinctive neighborhoods to enhance Dallas' quality of life.

Policy 2.5.2 Ensure that existing and future residential areas are appropriately linked in order to enhance economic development and urban design benefits.

URBAN DESIGN ELEMENT

Goal 5.1 Promote a sense of place, safety, and walkability

Policy 5.1.3 Encourage complementary building height, scale, design and character.

Goal 5.2 Foster a city of great neighborhoods

Policy 5.2.1 Maintain neighborhood scale and character.

The proposed zoning changes meet the vision of the *forwardDallas! Comprehensive Plan* by elevating the importance and vitality of this neighborhood, promoting strong and distinctive neighborhoods, and encouraging complementary building height, scale, design and character. The recommended changes focused on allowing appropriate land uses and regulations to ensure compatibility with existing and future development.

Land Use Compatibility:

The *Elm Thicket – North Park Neighborhood Action Plan* was used as the basis for the proposed Planned Development District and changes to PD No. 67. Other departments (Development Services, Code Compliance, Housing and Neighborhood Revitalization, Engineering, and Public Works) are also leveraging projects in this area as a part of the implementation of the Plan. The proposed Planned Development District furthers the other departmental initiatives by providing the appropriate zoning to support development while maintaining the character of the existing neighborhood.

Neighborhood Context and Project Intent:

The Elm Thicket neighborhood, a historically African American community, is a large part of the authorized hearing (AH) area. The neighborhood has undergone extensive social and physical change over the last couple of decades. According to US Census data, twenty years ago, the AH area was over 90% African American. While the area has become more diverse, it has also experienced dramatic changes in historic character and is facing intense displacement pressure. In addition to demographic changes, median real estate taxes have increased at least 33% between 2005 and 2019 and continue to increase. Median home prices have doubled in the last twelve years in at least two block groups within the AH area. New home construction has increased significantly, most of which has included tearing down original structures. The intent of the proposed land uses and development standards is to meet the goals of the Neighborhood Action Plan and facilitate greater compatibility, particularly in scale, between traditional and new development.

Landscaping:

Any new development on the property will require landscaping per Article X of the Dallas Development Code, as amended, except where provided generally in PD No. 67.

Recommendations:

After the August 21, 2021 community meeting, staff evaluated the steering committee recommendations, further studied the evolving conditions and context for the entire authorized hearing area, and weighed community input since the inception of this area being designated a Neighborhood Plus Target Area. Based on those outcomes and a goal to preserve and protect the legacy and heritage of this historic Dallas neighborhood, staff prepared supplemental recommendations to the steering committee recommendations proposed in this report and shared them with the community.

The following sections in this report outline the steering committee recommendations, followed by the CPC recommendations. There is a comparative table at the end of the section that summarizes existing conditions, steering committee recommendations, and CPC recommendations. The comparative table reflects the largely similar proposals. Where the proposals differ, the text has been bolded and italicized for ease of reference. The CPC recommendations fall within the following categories: expansion of PD 67 to include adjacent R-7.5(A) area, additional matching provisions in Tracts I & III of PD 67, combining Tracts II & IV of PD 67, and the addition of clarifying language to PD 67.

Steering Committee Recommendations:

Proposed amendments to PD 67 Tract III

- Recommendation to permit Duplex use on property fronting Roper Street and Mabel Avenue.
- Recommendations for single family and duplex structures:

(1) Roofs. 90 percent of the roof of the main structure must be hip and gable when greater than 20 feet from grade.

GABLE ROOF means a roof having a triangular wall section at the ends of a pitched roof, bounded by the two roof slopes and the ridge pole which is positioned at the centerline of two eaves. The minimum pitch of a gable roof is 4:12.

HIP ROOF means a roof having sloping edges and sides. The minimum pitch of a hip roof is 4:12.

(2) Maximum structure height is 25 feet. No portion of the structure can be greater than 30 feet from grade.

- (3) Maximum lot coverage is:
- (A) 45 percent for single story structures.
 - (B) 35 percent for multiple story structures.

Recommended standards for proposed new PD for R-7.5(A) District (south of University Drive) (Refer to map on p. 11)

- Roofs. 90 percent of the roof of the main structure must be hip and gable when greater than 20 feet from grade.

GABLE ROOF means a roof having a triangular wall section at the ends of a pitched roof, bounded by the two roof slopes and the ridge pole which is positioned at the centerline of two eaves. The minimum pitch of a gable roof is 4:12.

HIP ROOF means a roof having sloping edges and sides. The minimum pitch of a hip roof is 4:12.

- Maximum structure height is 25 feet. No portion of the structure can be greater than 30 feet from grade.
- Maximum lot coverage is:
 - (A) 45 percent for single story structures.
 - 35 percent for multiple story structures.

CPC Recommendations:

Proposed amendments to PD 67

- Clarify language in PD to comply with current formatting, definitions, and language of Chapter 51A. Language for Tract V is already written to match Chapter 51A and there are references to Chapter 51A in the Tract IV text. Clarifying the section under which the PD falls should help facilitate an easier review process and ideally streamline permitting.
- Combine Tract II into Tract IV. Tracts II and IV are contained in one contiguous platted property, consisting of a multifamily use that complies entirely with Tract IV PD regulations. Currently, Tract II & Tract IV fall under Chapter 51 language. After careful review, staff found no conflicting language that would prohibit the combining of the two tracts. Tract IV is already written to closely comply with Chapter 51A. CPC recommends these conditions transition to fall under Chapter 51A.
- Proposed conditions for Tract I lot coverage and height should match the proposed lot coverage and height conditions for Tract III. While they have differing base zoning, Tracts I and III are similar in context, development pattern, and were platted at the same time under the same conditions.
- CPC recommends for PD 67 Tract III that the steering committee recommendations outlined in the previous section are followed.

CPC proposal for expansion of PD 67

- CPC recommends expanding PD 67 using the steering committee recommendations outlined in the previous section.
- Whereas the steering committee recommended that the proposed height and lot coverage standards apply only to properties south of University Boulevard, CPC proposes the standards apply to most of the properties designated R-7.5(A) within the authorized hearing area (Refer to map on p. 12). CPC recommends that the entire neighborhood would benefit from these recommendations, not just the homes south of University Drive, with the exception of the properties within the Airway Heights Addition. The Airway Heights Addition subdivision is not included in the new PD, due to being distinctly different from the rest of the R7.5(A) properties – no curb and gutter, no sidewalks, established pre-annexation with different subdivision standards, gable roofs, and all single-story minimal ranch homes.
- CPC recommends adding a purpose statement at the beginning of the ordinance to say: “Purpose: This article provides standards tailored to meet the needs of the Elm Thicket Northpark Neighborhood which is an area of historical and cultural importance and significance to the citizens of the City of Dallas. The general objectives of these standards are to promote and protect the health, safety, welfare, convenience, and enjoyment of the public, and, in part, to achieve the following:
(1) Accommodate the existing mix of uses in the area.
(2) Protect the internal stable residential neighborhood.
(3) Preserve and enhance the historical and cultural significance of the area.
(4) Strengthen neighborhood identity”

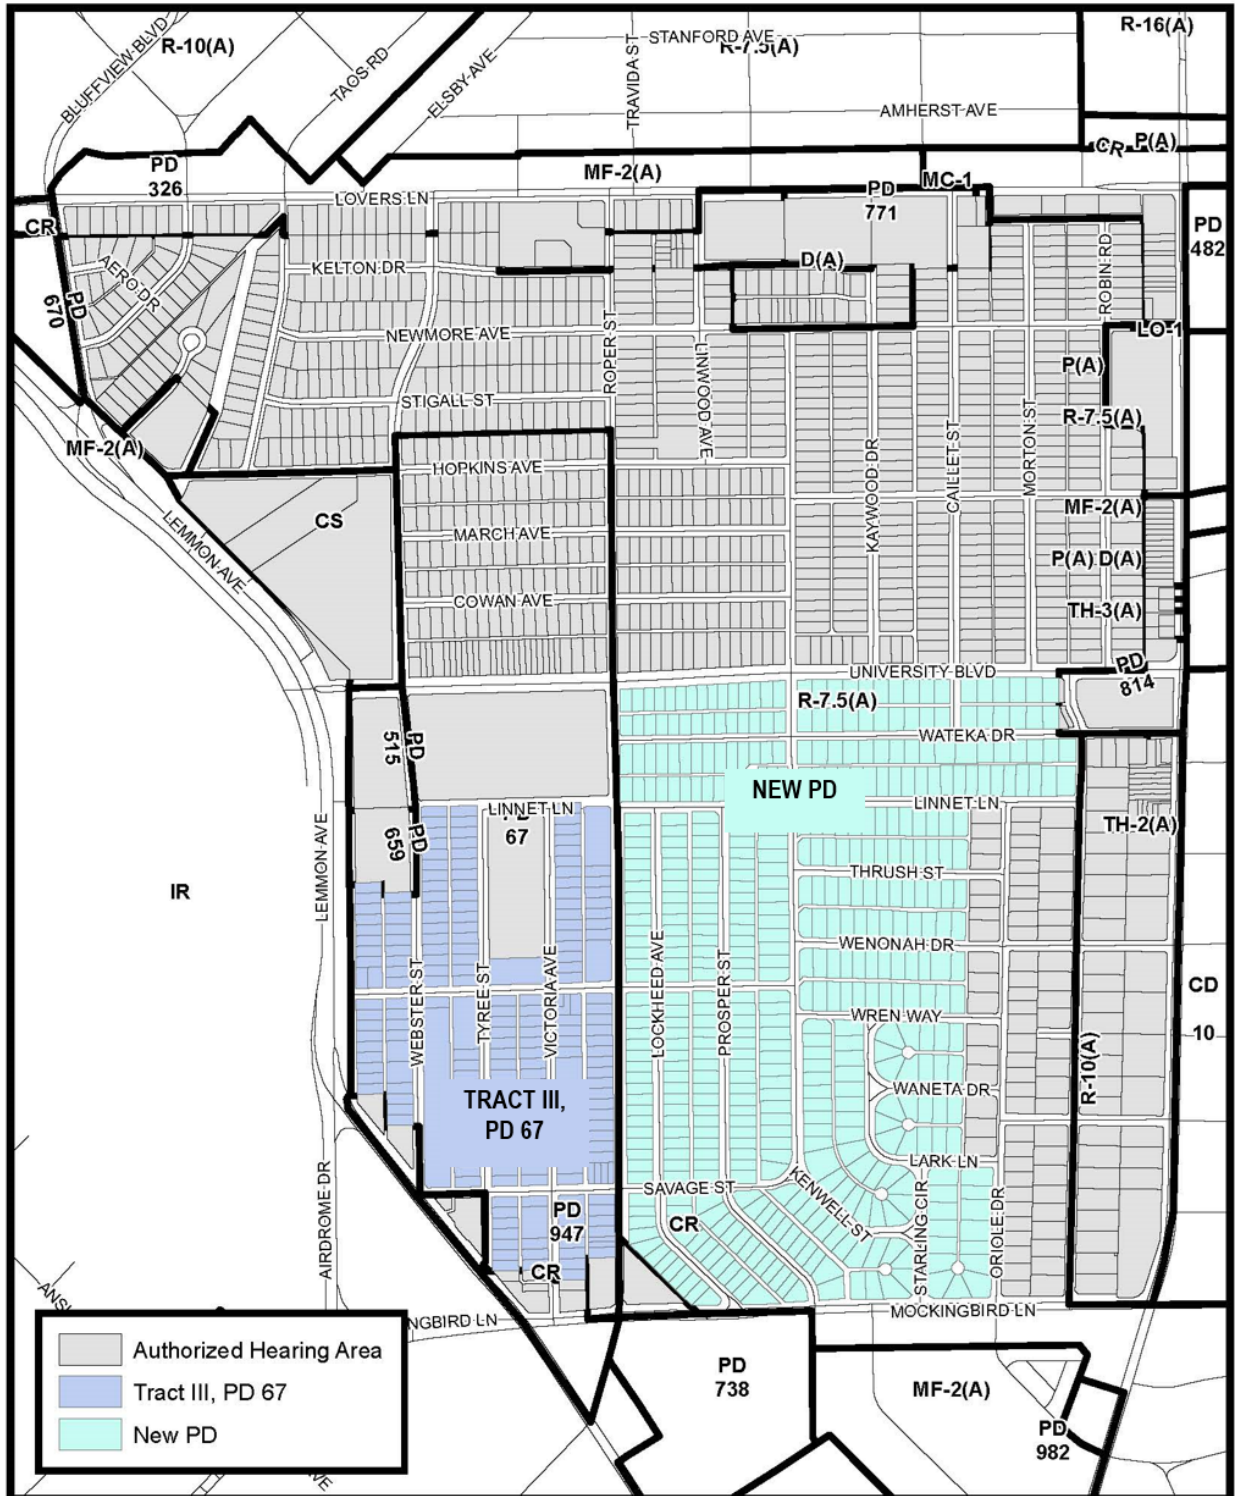

Comparative Table:

The table below shows a comparison of existing conditions, steering committee recommendations, and CPC recommendations. The primary differences between the steering committee and CPC recommendations are shown in ***bold italics***.

	Existing	Steering Committee Recommendation	CPC Recommendation
Lot Coverage	45%	Tract III and New PD - Maximum lot coverage is 45% for single story structures and 35% for multiple story structures.	Tracts <i>I, III, & IV</i> - Maximum lot coverage is <i>40%</i> .
Height	30 feet	Tract III & New PD - Maximum structure height is 25 feet. No portion of the structure can be greater than 30 feet from grade.	Tracts <i>I, III, & IV</i> - Maximum structure height is 25 feet. No portion of the structure can be greater than 30 feet from grade.

PD 67 other	N/A	Tract III – Allow Duplex uses along Mabel Avenue and Roper Street.	Tract III – Allow Duplex uses along Mabel Avenue and Roper Street. Combine Tracts II & IV. Update PD No. 67 ordinance to 51A language for clarity.

Market Value Analysis

Market Value Analysis (MVA), is a tool to aid residents and policy makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The subject area is within Categories “B” to “F”.
