

North Central Texas Council of Governments

We want to hear from you! The City of Dallas has partnered with the National Park Service and NCTCOG to improve transportation access and opportunities around Bachman Lake. Residents, businesses, and community members are invited to help shape the vision for transportation in this area, and make sure your voice is heard!

There are two ways to get involved. First, take the Community Survey to tell us about your transportation needs in and around Bachman Lake and Love Field. The survey is available in English and Spanish, and coming soon, in Korean. Then, let us know the best way to communicate with the community by filling out the Public Engagement Feedback form.

For more information and links to the Community Survey, visit the Bachman Lake Area Planning Study website at:

<https://www.nctcog.org/trans/plan/land-use/land-use-projects/bachman-lake-area-planning-study>

For further information, please contact Helena Thompson in the Department of Aviation at 214.671.4484.
