### Dallas SAP Solution Center Website Redesigned

The Dallas SAP Solution Center's Website has been redesigned and is now available for viewing at:

<https://dallascityhall.com/departments/waterutilities/sap/Pages/default.aspx>

Developed on the City's SharePoint platform, and accessible from the Dallas Water Utilities home page, the site features new content, photos and tiles for easier navigation. SAP Users links including the Business Warehouse Library, Work Instructions and Forms are still on the Intranet site.

The News page highlights "What's New" in the SAP Solution Center. Stories include:

- SAP Business Consulting Division New Team Members
- DFW ASUG Spring Chapter Meeting
- SAP Role Refinement Project Complete

For additional questions about the Website or to offer ideas for future features please contact:
