The term “military or veteran status” was added to make the Charter conform to current law. The terms “gender identity and expression” and “genetic characteristics” were added to make the Charter match the city codes of other cities (see memo dated May 30, 2014).

**Note 2:** “Military or veteran status,” “gender identity and expression,” and “genetic characteristics” could be addressed through an amendment to the City Code rather than an amendment to the Charter.

**Proposed language:**

**“SEC. 16. NO DISCRIMINATION [~~BASED ON RACE, SEX, RELIGIOUS OR POLITICAL OPINIONS~~]; PROHIBITING CERTAIN POLITICAL ACTIVITY ON THE PART OF EMPLOYEES.**

(a) No person shall be appointed, reduced, removed, or in any way favored or discriminated against because of race, color, age, religion, gender [sex], marital status, sexual orientation, gender identity and expression, genetic characteristics, national origin, disability, military or veteran status, political [~~or religious~~] opinions or affiliations. **Proposed language:**

**“SEC. 1. SIGNATURES AND APPROPRIATIONS.**

No contract, other than purchase orders for supplies and equipment and change orders authorized in accordance with Section 6, Chapter XXII of this Charter, shall be deemed executed on behalf of the city nor shall it be binding upon the city unless it has first been signed by the city manager and approved by the city attorney. The expense thereof shall be charged to the proper appropriation. Whenever the contract charged to any appropriation equals the amount of said appropriation, no further contracts shall be signed. The publication of an ordinance or resolution to make it effective as an ordinance or resolution in accordance with Section 7, Chapter XVIII of this Charter does not execute the ordinance or resolution as a contract unless the ordinance or resolution expressly so provides.”

  - Deadline for appraisal districts to certify tax roll is **July 25<sup>th</sup>**

# Property Tax Base Value (\$ in billions)

# Property Tax Rate

- FY15 forecast assumes tax rate will remain at current rate of \$0.7970 per \$100 valuation

- Current property tax forecast of 4.3% growth triggers 2.5% pay increase (\$5.8m expense increase already included in expense outlook)

# Property Tax – Meet & Confer

- If certified tax roll growth is 4.8% (or higher), then additional expense must be added

2014 Certified Property Value Increase	Total Tax Revenue Increase	Across Board Pay Increase	FY15 Cost of Meet & Confer *	Revenue net of M&C Expense

# Bond/Debt Service Capacity Projection Fiscal Years 2015-2025

Total projected capacity: \$2.1 billion

\$1.04 billion authorized by voters, but not yet issued GO bonds:  
 1998 BP: \$33m  
 2006 BP: \$380m  
 2012 BP: \$625m

\$1.07 billion projected future debt capacity between fiscal years 2020-2025.

**(Subject to Change)**

Assumes debt service tax rate of \$0.2369 and growth of 6.0% to 2.3% over the next 10 years.

Other category includes Parks, Trinity Corridor, Economic Development/Housing projects

# Debt Service Future Projections (\$ in millions)

Potential future bond election in Nov 2017 (FY18) and begin projects using Commercial Paper.

# Pay-as-you-Go Analysis

- Instead of pursuing voter approval for future bond programs, City could convert to “pay-as-you-go” or cash funding for capital improvements and infrastructure
- Instead of issuing new debt beginning in FY20\* (previous slide), could dedicate debt service expense to pay cash for capital projects
  - ❑ Assumes first bond issue would be Nov 2019 (FY20) based on using commercial paper during FY18 and FY19 to interim finance initial work on 2017 bond program
- In-lieu of issuing \$1.1 billion for new bond program between FYs 2020 and 2025:
  - ❑ \$177m in projects debt service cost over those five years could be reallocated to cash funded capital projects
  - ❑ Eventually could reallocate \$1.1 billion in debt service cost to cash fund capital projects, yet it would take from 2020 to 2033 to accrue \$1.1 billion in cash
- This analysis does not discount value of future cash flows or any potential cost increases to needs inventory resulting from time needed to accrue sufficient cash to award potential projects (time value of money)
