| <b>Narrative</b>                      | <p>This is an accidental fire that resulted from juveniles playing with a heat source. Upon arrival, firefighters found fire coming out from the eaves of unit #109. The fire spread to the bedding traveled up the curtains, vented out the window, and up the wall into the attic space. The fire was contained to the room of origin and caused moderate fire damage. Truck 57 was the first arriving company.</p>  |                         |              |              |               |           |                 |            |          |          |          |              |                 |            |  |

| <b>Narrative</b>                      | <p>This is an accidental fire that resulted from an unspecified short-circuit arc in the conduit from the transformer running into the structure. Upon arrival, firefighters witnessed smoke and fire coming from the electrical system of the power house. The fire spread from the track into the power stations causing heavy fire damage to the stations. Engine 26 was the first arriving company.</p>  |                         |            |              |               |           |                |              |          |              |              |              |                |              |  |
