## After the Fire Assistance Brochure

Public Safety Committee

January 23, 2017

# AFTER THE FIRE (NATIONAL STATISTICS)

The effects of fire have a large impact on society. In 2015, the following facts/figures were reported by the National Fire Protection Association (NFPA):

- 501,500 structure fires
- 3,280 civilian fire deaths
- 15,700 civilian fire injuries
- \$14.3 billion in property damage
- A fire department is responding to a fire every 23 seconds

# AFTER THE FIRE (LOCAL STATISTICS)

In the City of Dallas, fire has a huge impact on citizens and business owners as well. During FY 2014-2015, fire statistics included:

- **997 Structure Fires**
  - 157 incendiary fires
  - 707 accidental fires
  - 133 undetermined fires
- **Fire Deaths and Injuries**
  - 12 civilian fire related deaths
  - 50 civilian fire related injuries

**Total property damage \$17,897,849.98**

# AFTER THE FIRE

- Fires place a huge emotional strain on families because of property and in some cases life loss
- One of the Dallas Fire-Rescue Department's (DFR) many functions at structure fires includes salvage and overhaul
- Salvage and overhaul entails saving and protecting property during and after the fire
- Displaced families are connected to the Salvation Army which responds to aid with limited housing, food and clothing provisions

# AFTER THE FIRE

- Displaced families are provided with limited direction/instruction regarding how to piece their lives back together
- Consequently, DFR has put together a resource pamphlet to assist homeowners/renters with helpful information and contact phone numbers
- The pamphlet is aptly titled “After the Fire”

# AFTER THE FIRE

The After the Fire Brochure includes the following sections:

- What to expect after the fire
- Actions to consider during the first 24 hours
- First days of recovery with suggested actions/considerations
- Reference phone numbers
- A vital information worksheet
- Note pages

# AFTER THE FIRE

Fires can be mentally stressful. Pamphlet information includes:

- Discussion of how one may feel after a fire
- How to cope with the sense of loss
- How to help children cope with tragedy and their emotions

# AFTER THE FIRE

Handling damaged property-After the Fire includes:

- Tips on working with insurance companies
- A listing of services provided by restoration companies
- Considerations for choosing a restoration company

# AFTER THE FIRE

## Document Checklist:

- Auto Registration
- Bankbooks
- Passports
- Wills
- Marriage/Divorce documents
- Medical records
- Income Tax
- Bonds

# AFTER THE FIRE

## Distribution of the Pamphlet

- [Dallasfirerescue.com](http://Dallasfirerescue.com)
- Battalion Chief, Chaplain and Arson Investigator vehicles
- A Quick Reference (QR) Code has been developed for scanning (Smart Phone) and loading a PDF copy
- Use of social media to promote the brochure

# Memorandum

CITY OF DALLAS

DATE: January 20, 2017

TO: Honorable Members of the Public Safety Committee:  
Adam Medrano (Chair), B. Adam McGough (Vice Chair), Sandy Greyson, Tiffinni A. Young,  
Jennifer S. Gates, Philip T. Kingston

SUBJECT: **Upcoming Agenda Item 6: Authorize (1) an acquisition contract for the purchase and implementation of a fire inspection system in the amount of \$210,490; and (2) a five-year service contract for hosting, maintenance, and support for a fire inspection system in the amount of \$1,017,405 - Xerox Government Systems LLC, most advantageous proposer of three - Total not to exceed \$1,227,895**

The Dallas Fire-Rescue (DFR) Fire Inspection Division has historically had to navigate multiple operating systems during day-to-day activities related to pertinent data. The Fire Marshal's Office uses five primary systems to monitor, update, and perform daily activities (POSSE, FireBase - an in-house written application, SAP Pay1, Advantage, and CRMS). This format makes efficient staff utilization, statistical reporting, and interaction with other City of Dallas departments problematic. Additionally, tactical information related to an occupancy or location (hazardous materials, special needs residency, etc.) is vital to field personnel when dispatched to an incident. The absence of instant information access results in a compromise of safety to all members of DFR. Furthermore, the lack of an encompassing technology system brings about lost City of Dallas revenues. **This disconnect between systems was a key finding of non-compliance during the 2011 and 2014 Audit (A12-005).**

Specifically, the City Auditor's Office strongly mandated the following stipulation and correction: ***"Implement a formal process to monthly reconcile the data included in the computer systems used in the inspection process to ensure that inspections that occurred are documented, permits are processed correctly, appropriate fees collected, and that these fees are applied to the appropriate accounts."***

A Business Technology Request (BTR) was initiated in 2013 to purchase software that could encompass scheduling, occupancy management, analytics, personnel staff training and certifications, accounts receivable and local data transfer applications. These components will facilitate interfaces between the current inspection data, Posse, Pay1, and CRMS. The measurable value will incorporate personal safety and accountability, increased revenues, reduction of permit turn-around times, increased work efficiency, access to inspection information from one location, and the ability to push out this information to respective City of Dallas departments (i.e. pre-fire planning data, permit information, occupancy loads, and other inspection records). Communication and Information Services (CIS) approved BTR in 2015.

The Dallas Fire-Rescue Department is seeking the support and recommendation from the Public Safety Committee to authorize this fire inspection system. This item will be placed on the January 25, 2017, City Council Agenda.
