# Program Description and Safety Statistics

- Why have the Safelight Program?
- Enforcement Actions
- Definitions
- Safelight Program Statistics

# Why have the Safelight Program?

## **Problem:**

High number of right angle collisions and related injuries/fatalities due to drivers running red lights

## **Purpose:**

Improve public safety by increasing enforcement of red light laws in conjunction with public awareness to modify driving behavior

## **Solution:**

Deployment of red-light photo enforcement system and citation issuance

# Enforcement Actions

## **Prior to the Safelight Program**

Police Officers targeted traffic enforcement at specific intersections to address significant numbers of accidents, fatalities and injuries

## **Today**

The red-light photo enforcement system is a force multiplier allowing police officers to focus on call answering and investigative duties

# Definitions

- **Intersection**

Where two or more roads meet.

- **Approach**

A section of a road that leads to an intersection. *For example an intersection where two roads crossover each other would have four approaches: a north, south, east, and west.*

- **Camera approach**

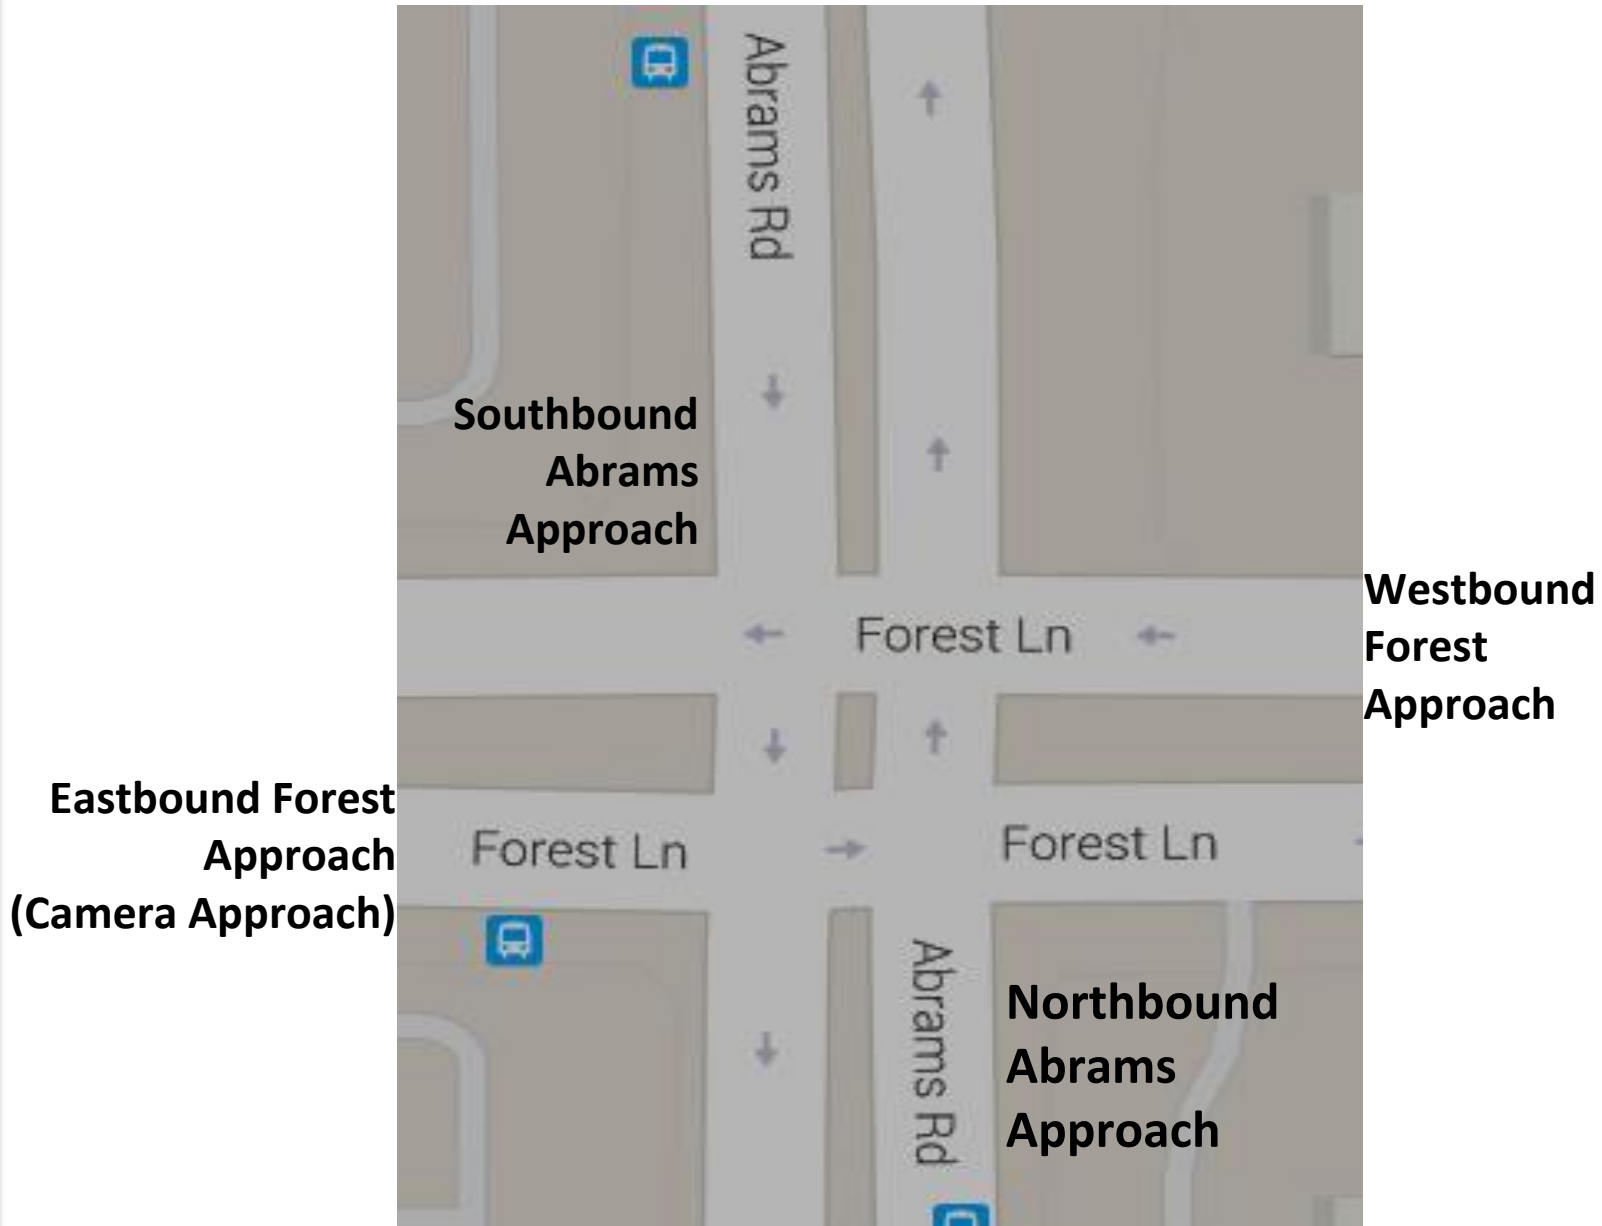

The side of the intersection where an automated red light camera is located on the approach. Each approach requires an individual camera.

- **Camera locations**

Camera sites are assigned by approach versus by intersection. An intersection normally has a single camera on one approach. A few intersections have more than one camera with each camera on a different approach.

# Definitions (continued)

# Safelight Program Statistics

## 9 Year Post Safety Report

Crashes – Camera Approaches of intersections with camera locations

### Post 9 year results at 32 camera approaches:

- 63% average reduction in crashes caused by red light running
- 72% of these approaches showed reductions or no change in red-light related crashes

Crashes – All Approaches of intersections with camera locations

### Post 9 year results at 30 intersections:

- 48% average reduction in crashes caused by red light running
- 93% of these approaches showed reductions or no change in red-light related crashes

# Safelight Program Statistics (continued)

## 7 Year Post Safety Report

Crashes – Camera Approaches of intersections with camera locations

### Post 7 year results at 11 camera approaches:

- 53% average reduction in crashes caused by red light running
- 91% of these approaches showed reductions or no change in red-light related crashes

Crashes – All Approaches of intersections with camera locations

### Post 7 year results at 10 intersections:

- 21% average reduction in crashes caused by red light running
- 60% of these approaches showed reductions or no change in red-light related crashes

# Collection Enforcement Tools

## **Credit Marking – (effective from program inception until June 1, 2016)**

Reporting to credit bureaus on delinquent payment status of citations

- Credit bureaus have provided notice that they will no longer honor credit marking requests and will remove the existing markings

## **Vehicle Registration Hold – (effective as of June 2, 2016)**

Withhold annual registration of vehicles due to delinquent payment status of citations

- Currently used by Municipal Courts

# Negotiated Benefits

As part of the agreed upon plan to prepare for the end of contract, the following changes will occur:

- **Camera Phase down**
  - Allows for extended camera activity for (3) months within the existing contract award amount
  - Estimated savings (approximately \$600k)
- **Extended Term**
  - Allows for additional time to plan, engineer and procure the new red-light photo enforcement system

# Next Steps

- Request For Competitive Sealed Proposal (RFCSP)
- Questions

# Decision Points

## **Staff Recommendation:**

- Conduct a review of best practices, procedures, and technology changes to improve the Safelight Program
- Issue new RFCSP to continue the Safelight Program

# Request For Competitive Sealed Proposal (RFCSP)

## Steps Underway

- Write updated specifications and release RFP
- Determine process for current system close
- Re-engineer site selection process for new contract

## Result

Recommendation to City Council for contract award to most advantageous proposer(s)

# Overview

- To understand why this Pilot Program has been developed
- To describe the Rapid Integrated Group Healthcare Team (RIGHT) Care Pilot Program components of Dallas County Smart Justice implementation project
- To delineate the goals of the program

# Overview, Cont.

- To thank the W. W. Caruth, Jr. Foundation, Communities Foundation of Texas and the Meadows Mental Health Policy Institute (MMHPI) for grant funding
- To seek input and approval from the Public Safety Committee to move forward with development of the Pilot Program

# Behavioral Health Patients

4

# Why do we need this Program

- Contact with local law enforcement and DFR EMS
  - 15,593 behavioral health calls a year in Dallas
  - Since 2012, an increase of 18% overall and 59% needing an ambulance
- Jail
  - 21% receive psychotropic medication
  - 25% have past/current mental health system contact
  - 58% rearrested

# Why do we need this Program, Cont.

- **Super-utilizers**
  - More than 6,000 “super-utilizers” in Dallas, with 4,000 living in poverty
  - Less than 1 in 7 are in care
  - 75% use jail repeatedly
- **Community-based and inpatient behavioral health care services**
  - Super-Utilizers need ongoing intensive care, housing, and supervision

# The Challenge

The challenge of trying to connect persons living with mental illness to behavioral health care:

- Time spent responding, de-escalating, and then transporting these patients
- “Revolving Door” of treatment facilities and ERs
- Varying policies and procedures between agencies
- Concern for liability if we do not do the “right thing”
- Need for more training and improved information sharing

Daniel Salazar, Assistant Chief  
Dallas Fire-Rescue Department  
City of Dallas

# Promotional Process Overview

- Existing promotional exam process
- Discuss recent job analysis
- Discuss promotional exam outsourcing
- Overview of promotional source materials committees
- Discuss past promotional exams and current promotional exam schedule

2

# Existing Promotional Exam Process

- Entails DFR and Civil Service Department (CVS) collaboration for development of multiple components for each exam
- CVS develops exams using Knowledge, Skills, and Abilities (KSA) linked to a Job Analysis Report (JA)
- Written Exam & Assessment Center exercises
- Final Combined Exam Results  
(eligibility lists are effective for 18 months)

3

# Promotional Exam Process Cont.

Written exam and Assessment Center (AC) test component weightings

- Fire Battalion Chief – 39% written exam and 61% AC
- Fire Lieutenant – 42% written exam and 58 % AC
- Fire Captain – 37% written exam and 63% AC
- Driver Engineer – written exam only

# Job Analysis (JA) Overview

- Previous job analysis developed - 2003
- During FY 15-16, DFR partnered with a consultant to develop new JA for each promotional rank needed. JAs are use to identify uniformed candidates for promotion within DFR
- JA include:
  - Employee surveys related to KSAs, group interviews, observations and Fire Administration input

5

# Outsourcing of Promotional Exams

- Historically CVS has developed promotional exams for DPD and DFR
- Outsourcing of promotional exams affords more flexibility with test scheduling and promotes notion of test integrity
- March 22, 2017 - Dallas City Council approved for DFR and DPD to contract with IO Solutions to administer future promotional exams

6

# Promotional Exam Source Committees

- DFR developed promotional source materials committees (uniformed employees)
- Committees relied on new KSAs to vet promotional source materials including:
  - Industry related textbooks and existing DFR Manuals of Procedures
  - City of Dallas Administrative Directives and DFR technical publications
- Final outcome - compilation of study materials lists to be used by CVS/Consultants for test development

7

# Advanced Life Support Engine Program

Public Safety Committee  
April 10, 2017

Fernando M. Gray, Sr.  
Executive Assistant Chief  
Dallas Fire-Rescue Department  
City of Dallas

# Presentation Overview

- Background/History
- Purpose
- Resources (Personnel Management)
- Intricacies of the program
- Next steps

# Background/History

- EMS program began in 1972
- In the early 1990's, the Global Positioning System (GPS) was installed on DFR emergency equipment
- Until 2012, all engines were supported with paramedic staffing

# Purpose

- Provide details about the Dallas Fire-Rescue Department Advanced Life Support (ALS) Engine Program

# Resource Management

- 57 Engines – One paramedic
- 43 Ambulance – Two paramedics
- Provide Advanced Life Support (ALS)
- Paramedics serve in both fire suppression and EMS roles

# Pre-hospital Level of Treatment

- Basic Life Support (BLS): less complex interventions such as CPR, bandaging, splinting, and obtaining vital signs
- Advanced Life Support (ALS): invasive therapy such as starting IV's, intubating patients, monitoring and treating heart rhythms and providing drug therapy

# Current Response Model

- A minimum of one paramedic on all Engine Companies at all times
- An engine is dispatched along with an ambulance on the following:
  - Heart attack/chest pain/unconscious person
  - Stabbing/shooting/major accident
  - CAD indicates an ambulance is further than six minutes away

7

# Equipment

- Equipped with Advanced Life Support (ALS) kits, drugs and an Automatic External Defibrillator (AED)

# Benefits of the Program

- Fill gaps created by ambulance “over” utilization
- Ambulances can be “cleared” and placed back in-service quicker
- Efficient means of ensuring emergency service
- Improved paramedic response times

9

# Next Steps

## Extension of the Program

- Utilization of alternate response vehicles

## Priority Dispatch

- Appropriate resources and service provided based upon the needs of the caller

Currently researching various response models
