

Memorandum

CITY OF DALLAS

DATE October 4, 2019

TO Honorable Mayor and Members of the City Council

SUBJECT **Annual Investment Policy Review**

The Public Funds Investment Act (Chapter 2256, Texas Government Code) requires the City Council to adopt a resolution annually stating that it has reviewed the City's Investment Policy and approved any amendments. On August 15, 2019, the Investment Committee, which is composed of the Chief Financial Officer, City Controller, and Treasury Manager, met to review the policy and proposed 2019 Investment Policy for City Council consideration on October 23, 2019.

House Bill 2706 from the most recent Texas State legislative session made changes to certain sections of the Public Funds Investment Act. None of these changes require amendments to City of Dallas Investment Policy.

Please find attached a redlined copy of the City's 2019 Investment Policy. We would appreciate your support of the 2019 Investment Policy when the City Council considers it on October 23, 2019. In the meantime, we are happy to meet individually with you to discuss any questions or concerns.

Please let me know if you need additional information.

A. Government Code – Chapter 2256 “Public Funds Investment Act”	
B. Council Resolution	

1.0 Policy

It is the policy of the City of Dallas to invest public funds in a manner which will provide security and optimize interest earnings to the maximum extent possible while meeting the daily cash flow demands of the City and conforming to all federal, state and local statutes, rules and regulations governing the investment of public funds. This Policy sets forth the investment program of the City of Dallas and the guidelines to be followed in achieving its objectives.

Not less than annually, City Council shall adopt a written instrument by resolution stating that it has reviewed the Investment Policy and investment strategies and that the written instrument so adopted shall record any changes made to the Investment Policy or investment strategies.

This Policy is intended to satisfy the requirements of the Public Funds Investment Act, Chapter 2256, Texas Government Code (the "PFIA" or the "Act") that an investing entity such as the City of Dallas adopt and review an investment policy governing the investment by the investing entity of its funds and funds under its control.

2.0 Scope

This Policy governs the investment of all funds of the City except those that are identified in Section 2.2 below. With respect to the funds of non-profit corporations that are established by City resolution and act on behalf of the City in accordance with State law, this Policy shall prevail in the absence of a specific investment policy adopted by the non-profit corporation. In addition to this Policy, the investment of bond proceeds and other bond funds (including debt service and reserve funds) of the City or of a non-profit corporation established by City resolution and acting on behalf of the City in accordance with State law shall be governed and controlled by their governing ordinance, resolution or trust indenture, including the authorization of eligible investments, and by the provisions of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), including all regulations and rulings promulgated thereunder applicable to the issuance of tax-exempt obligations.

- 2.1 All funds are managed as a pooled fund group, referenced in this Policy as the City's investment pool, with the exception of the following, which are managed as separately invested assets:
 - 2.1.1 Bond Funds - funds established with the proceeds from specific bond issues when it is determined that segregating these funds from the City's investment pool will result in maximum interest earnings retention under the provisions of the Internal Revenue Code.
 - 2.1.2 Bond Reserve Funds - funds set at prescribed levels by certain bond ordinances to pay principal and/or interest if required to prevent default.
 - 2.1.3 Endowment Funds - funds given to the City with the instructions that the principal is to remain intact, unless otherwise agreed to, and the income generated by the investments will be used for specified purposes.
 - 2.1.4 Commercial Paper Funds - unexpended proceeds from the issuance of commercial paper notes.
- 2.2 Funds not governed by this Policy include:
 - 2.2.1 Employees' Retirement Fund
 - 2.2.2 Dallas Police and Fire Pension System
 - 2.2.3 Deferred Compensation Funds
 - 2.2.4 Private Donations – investments donated to the City are excluded from this Policy if separately managed under terms of use specified by the donor.

3.0 Objective

Investment of the funds covered by this Policy shall be governed by the following investment objectives, in order of priority:

- 3.1 **Safety:** Safety of principal is the primary objective of the Investment Policy. Investment of the City's funds shall be undertaken in a manner that seeks to ensure the preservation of capital for the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.

The City will mitigate credit risk, which is the risk of loss due to the failure of the issuer or backer, by:

- Limiting investments to the types listed in Section 8.0 ("Authorized and Suitable Investments") of this Policy
- Qualifying the broker/dealers and financial institutions with which the City may engage in an investment transaction in accordance with Section 9.0 ("Authorized Broker/Dealers and Financial Institutions)
- Diversifying the investment portfolio so that the impact of potential losses from any one type of investment or from any one individual issuer will be minimized (see Section 13.0 "Diversification and Maximum Maturities").

The City will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by:

- Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to maturity
- Investing operating funds primarily in shorter-term securities, money market mutual funds, or similar local government investment pools and limiting the weighted average maturity of the portfolio in accordance with this Policy (see Section 17.0 "Investment Strategies").

- 3.2 **Liquidity:** The City's investment portfolio will remain sufficiently liquid to enable the City to meet all operating requirements that might be reasonably anticipated. This is accomplished by structuring the portfolio so that investments mature concurrent with cash needs to meet anticipated demands. A portion of the portfolio will be placed in money market mutual funds or local government investment pools offering same-day liquidity to meet unanticipated demands.

- 3.3 **Yield:** The City's investment portfolio shall be designed with the objective of attaining a market rate of return, throughout budgetary and economic cycles, commensurate with the City's investment risk constraints and the cash flow characteristics of the portfolio.

4.0 Delegation of Authority

The Chief Financial Officer, under the direction and authority of the City Manager, shall direct the cash management program of the City as defined in Article XV, Section 2-134 "Duties of the Chief Financial Officer", Volume I, Chapter 2 "Administration" of the Dallas City Code, as amended. City Council shall designate the Chief Financial Officer, City Controller, and the Assistant Director/Treasury Manager as Investment Officers responsible for the investment of its funds, under the direction and authority of the City Manager.

The City's Investment Officers shall establish written procedures for the operation of the investment program consistent with this Investment Policy. Such procedures shall include explicit delegation of authority to persons responsible for investment transactions. No person may engage in an investment transaction except as provided under the terms of this Policy and the written procedures. Authority granted to a person to invest the City's funds is effective until rescinded or until termination of the person's employment by the City. The Investment Officers shall be responsible for all transactions undertaken and shall establish a system of controls, to be reviewed by the City Auditor, to regulate the activities of subordinate officials. In order to assure quality and capability of investment management, the Investment Officers shall possess sufficient working knowledge of economics and securities markets, as well as the supervisory experience and judgment necessary to carry out the responsibilities outlined in this Policy.

5.0 Prudence

Investments shall be made with judgment and care - under circumstances then prevailing - which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

- 5.1 The standard of prudence to be used by investment officials shall be the “prudent person” standard and shall be applied in the context of managing an overall portfolio. Investment Officers acting in accordance with written procedures and the Investment Policy and exercising due diligence shall be relieved of personal responsibility for an individual security’s credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.
- 5.2 In determining whether an investment official has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration the investment of all funds over which the official had responsibility rather than consideration as to the prudence of a single investment and, whether the investment decision was consistent with the City’s Investment Policy and written investment procedures.

6.0 Ethics and Conflicts of Interest

Investment Officers who have a personal business relationship with a business organization offering to engage in an investment transaction with the City shall refrain from activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions.

- 6.1 Investment Officers shall sign annual statements agreeing to abide by this section of the Investment Policy and affirming no known conflicts of interest.
- 6.2 Investment Officers must file a disclosure statement with the Texas Ethics Commission and City Council if:
 - a) the Investment Officer has a personal business relationship with a business organization offering to engage in an investment transaction with the City; or
 - b) the Investment Officer is related within the second degree by affinity or consanguinity, as determined under Chapter 573 of the Texas Government Code, to an individual seeking to transact investment business with the City.
- 6.3 An Investment Officer has a personal business relationship with a business organization if:
 - a) the Investment Officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;
 - b) funds received by the Investment Officer from the business organization exceed 10 percent of his/her gross income for the previous year; or
 - c) the Investment Officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for his/her personal account.

7.0 Training

The Investment Officers and the persons authorized to execute investment transactions shall attend at least one 10 hour investment training session within 12 months after taking office or assuming duties and receive not less than 8 hours of instruction relating to investment responsibilities during a two-year period that begins on the first day of the City’s fiscal year following the initial 10 hours of instruction and consists of the two consecutive fiscal years after that date. Training must be received from an independent source approved by the City’s Investment Committee and must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio and compliance with the Act.

8.0 Authorized and Suitable Investments

City funds governed by this Policy may be invested in the instruments described below, all of which are authorized by Chapter 2256 of the Government Code (Public Funds Investment Act).

- 8.1 Direct obligations of the United States, its agencies or instrumentalities, and other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of the United States or its respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States.

The City will restrict investments in eligible securities described in this section to discount notes and callable or non-callable fixed-rate securities with a fixed principal repayment amount.
- 8.2 Direct obligations of states and local governments rated not less than Aa3 or its equivalent (long-term rating) or an equivalent short-term rating by at least one nationally recognized investment rating firm.
- 8.3 Fully collateralized Certificates of Deposit/Share Certificates that are issued by a bank or credit union that has its main office or branch office within the City and are:
 - a) guaranteed or insured by the Federal Deposit Insurance Corporation or its successor or the National Credit Union Share Insurance Fund or its successor; or
 - b) secured by obligations in accordance with Section 11.0 herein.

If the certificate of deposit is collateralized by pledged securities the City must have on file a signed Depository Agreement, approved as to form by the City Attorney, which details eligible collateral, collateralization ratios for pledged securities, standards for collateral custody and control of pledged securities, collateral valuation of pledged securities, and conditions for agreement termination.
- 8.4 Certificates of Deposit obtained through a depository institution or a broker approved by the City's Investment Committee under the provisions of Section 9.0 of this Policy that has its main office or branch office within the City and that contractually agrees to place the funds in federally insured depository institutions in accordance with the conditions prescribed in Section 2256.010(b) of the Act.
- 8.5 Fully collateralized repurchase agreements in accordance with the conditions prescribed in Section 2256.011 of the Act. Prior to investment in a repurchase agreement, the City must have on file a signed Master Repurchase Agreement, approved as to form by the City Attorney, which details eligible collateral, collateralization ratios, standards for collateral custody and control, collateral valuation, and conditions for agreement termination and provided the repurchase agreement:
 - a) has a defined termination date;
 - b) is secured by a combination of cash and obligations of the United States or its agencies and instrumentalities described by Section 2256.009(a) (1) of the Act. Securities received for repurchase agreements must have a market value greater than or equal to 103% at the time the investment is made and throughout the terms of the repurchase agreement;
 - c) requires the securities being purchased by the City or cash held by the City to be assigned to the City, held in the City's name, and deposited at the time the investment is made with the City or with a third party selected and approved by the City; and
 - d) is placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state, and which is rated no less than A or its equivalent by two nationally recognized rating services.
- 8.6 A securities lending program is an authorized investment if it meets the following conditions:
 - a) A loan made under the program must allow for termination at any time;
 - b) A loan made under the program must be placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state that is rated no less than A or its equivalent by two nationally recognized rating services. An agreement to lend securities must have a term of one year or less and shall comply with the provisions of section 1058 of the Internal Revenue Code;
 - c) A loan made under the program must be secured as prescribed in Section 2256.0115(b)(3) of the Act. Securities being held as collateral must be pledged to the City, held in the City's name, and deposited at the time the investment is made with a third party approved by the City;

d) The amount of collateral must not be less than 100% of the market value of securities loaned, including accrued income. The market value of securities loaned shall be determined daily. Cash received as collateral shall not be invested for a term later than the expiration date of the securities lending agreement and may only be invested in investments as authorized by this Policy.

- 8.7 No-load money market mutual funds that are registered with and regulated by the Securities and Exchange Commission that meet the requirements of the PFIA, and, in addition:
- a) are rated not less than Aaa or an equivalent rating by at least one nationally recognized rating service. A rating is not required for a sweep account investment, which is part of the city's depository contract; and,
 - b) have provided the City with a prospectus and other information as may be required by law.

Investments will be made in a money market mutual fund only after a thorough investigation of the fund and approval by the Investment Committee which shall, at least annually, review, revise and adopt a list of approved funds.

- 8.8 No-load mutual funds that are registered with and regulated by the Securities and Exchange Commission that meet the requirements of the PFIA and have provided the City with an offering circular and other information required by the Act.

Investments will be made in a mutual fund only after a thorough investigation of the fund and approval by the Investment Committee which shall, at least annually, review, revise and adopt a list of approved funds.

- 8.9 Local government investment pools which are organized in conformity with Chapter 791 (Interlocal Cooperation Contracts Act) and meet the requirements of the PFIA that:
- a) are rated not less than Aaa or an equivalent rating by at least one nationally recognized rating service; and
 - b) have provided the City with an offering circular and other information required by the Act.

To become eligible, investment pools must be approved by City Council action. Investments will be made in a local government investment pool only after a thorough investigation of the pool and approval by the Investment Committee which shall, at least annually, review, revise and adopt a list of approved pools. A pool approved by the Investment Committee shall invest its funds in investment types consistent with the Act and the pool's own adopted investment policies and objectives. An approved pool is not required to invest its funds in investment types according to the investment policies and objectives adopted by its participants.

The Investment Officers may at times restrict or prohibit the purchase of specific issues due to current market conditions. An investment that requires a minimum rating under this section does not qualify as an authorized investment during the period the investment does not have the minimum rating. Ratings shall be monitored using nationally recognized financial information sources, including actions published on rating agency websites. The City shall take all prudent measures consistent with the Act to liquidate an investment that does not have the minimum rating required by the Act.

9.0 Authorized Broker/Dealers and Financial Institutions

The Investment Committee shall, at least annually, review, revise, and adopt a list of qualified broker/dealers and financial institutions authorized to engage in the purchase and sale of obligations of the U.S. Government, its agencies or instrumentalities with the City. In order to be considered, those firms that desire to become qualified bidders for securities transactions will be required to provide information regarding creditworthiness, experience and reputation. Authorized firms may include primary dealers or regional dealers that qualify under Securities & Exchange Commission Rule 15C3-1 (uniform net capital rule).

A written copy of this Investment Policy shall be presented to any person offering to engage in an investment transaction with the City. Investments shall only be made with those business organizations (including money market mutual funds and local government investment pools) which have provided the City with a written instrument executed by a qualified representative of the firm, acknowledging that the business organization has received and reviewed the City's Investment Policy in satisfaction of the business organization's duties under Financial Industry Regulatory Authority (FINRA) Rule 2111 (Suitability).

10.0 Competitive Bidding

It is the policy of the City to require competitive bidding for all individual security purchases and sales except for:

- a) transactions with money market mutual funds and local government investment pools (which are deemed to be made at prevailing market rates)
- b) treasury and agency securities purchased at issue through an approved broker/dealer or financial institution
- c) automatic overnight "sweep" transactions with the City Depository
- d) fully insured certificates of deposit placed in accordance with the conditions prescribed in Section 2256.010(b) of the Act or placed with the City's Depository if so authorized by the City Depository Contract.

At least three bids or offers must be solicited for all other transactions involving individual securities. The City's investment advisor is also required to solicit at least three bids or offers when transacting trades on the City's behalf. In situations where the exact security being offered is not offered by other dealers, offers on the closest comparable investment may be used to establish a fair market price for the security. Bids for certificates of deposit may be solicited in any manner permitted by the Act.

11.0 Collateralization of Deposits

The City requires that all uninsured collected balances plus accrued interest, if any, in depository accounts be secured in accordance with the requirements of this Policy and Chapter 2257, Government Code ("Public Funds Collateral Act") and the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). Financial institutions serving as City depositories will be required to sign a Depository Agreement with the City which details securities that can serve as eligible collateral, collateralization ratios, standards for collateral custody and control, collateral valuation, rights of substitution and conditions for agreement termination.

Pledged securities serving as collateral will always be held by an independent third party with which the City has a current custodial agreement and shall be reviewed at least monthly to ensure that the market value of the pledged securities is at least 102%. Eligible collateral are as follows:

Eligible Collateral

- 1) Direct obligations of the United States or other obligations of the United States or other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of the United States.
- 2) Direct debt obligations of an agency or instrumentality of the United States.
- 3) Mortgage-backed securities issued directly by an agency or instrumentality of the United States eligible under the Public Funds Collateral Act.
- 4) Direct debt obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent.

The use of a letter of credit issued to the City by the Federal Home Loan Bank may be considered by the City to provide collateral for bank deposits and for certificates of deposit.

The City's Investment Officers reserve the right to accept or reject any form of collateral or enhancement at their sole discretion.

12.0 Safekeeping and Custody

Safekeeping and custody of investment securities shall be in accordance with applicable law and accounting standards. All securities transactions, except local government investment pool and money market mutual fund transactions, shall be conducted on a delivery versus payment (DVP) basis. Investment securities will be held by a third-party custodian designated by the City, and be required to issue safekeeping receipts clearly detailing that the securities are owned by the City.

Safekeeping and custody of collateral shall be in accordance with applicable law and accounting standards. Pledged securities serving as collateral will be held by a third-party custodian designated by the City, and pledged to the City as evidenced by safekeeping receipts of the institution with which the securities are deposited.

13.0 Diversification and Maximum Maturities

The City’s Investment Pool will be diversified to limit market and credit risk by observing the limitations at the time of purchase as listed below. In order to ensure the ability of the City to meet obligations and to minimize potential liquidation losses, the dollar-weighted average stated maturity of the Investment Pool shall not exceed 1.5 years at the time investments are purchased for the Investment Pool. Funds managed as separately invested assets in Section 2.1 of the Policy are subject to all of the following with the exception of the Issuer Limitation on investment in U.S. Agencies and Instrumentalities. Funds managed as separately invested assets may be invested 100% in the obligations of any one U.S. Agency or Instrumentality.

- (1) Purchases of securities with stated maturities greater than the maximum authorized under this section require prior City Council approval. With respect to bond proceeds and other bond funds, the City may, in the bond ordinance, specifically authorize investments in repurchase agreements with maturities in excess of 30 days subject to any required approvals from bond insurers.

14.0 Sale of Securities

The City's policy is to hold securities to maturity. However, securities may be sold:

- (a) in order to minimize the potential loss of principal on a security whose credit quality has declined;
- (b) in order to reposition the portfolio for the purpose of improving the quality, yield, or target duration of the portfolio; or
- (c) in order to meet unanticipated liquidity needs of the portfolio.

15.0 Investment Committee

An Investment Committee shall be established and meet quarterly to determine investment guidelines, general strategies, and monitor performance. Members of the Investment Committee will include the Investment Officers, the Cash and Investment Manager and the City's Investment Advisor if the City has contracted with an Advisor. The Investment Advisor is a non-voting member of the Investment Committee.

16.0 Investment Advisor

The City may retain the services of an Investment Advisor to assist in the review of cash flow requirements, the formulation of investment strategies, and the execution of security purchases, sales and deliveries.

17.0 Investment Strategies

The City of Dallas maintains separate portfolios for individual funds or groups of funds (as listed under Sec. 2.0 of this Policy) which are managed according to the terms of this Policy and the corresponding investment strategies listed below. The investment strategy for portfolios established after the annual Investment Policy adoption will be managed in accordance with the terms of this Policy and applicable agreements until the next annual review when a specific strategy will be adopted.

- 17.1 Investment Pool Strategy - The City's Investment Pool is an aggregation of the majority of City funds which includes tax receipts, enterprise fund revenues, fine and fee revenues, as well as some, but not all, bond proceeds, grants, gifts and endowments. This portfolio is maintained to meet anticipated daily cash needs for City of Dallas operations, capital projects and debt service. The objectives of this portfolio are to:
 - a) ensure safety of principal by investing only in high-quality securities for which a strong secondary market exists;
 - b) ensure that anticipated cash flows are matched with adequate investment liquidity;
 - c) limit market and credit risk through diversification; and
 - d) attain a market rate of return commensurate with the objectives and restrictions set forth in this Policy by managing the portfolio to meet or exceed the 12-month moving average yield on treasury one-year constant maturities as reported by Federal Reserve Statistical Release H.15.

- 17.2 Bond Funds Strategy - Occasionally, separate non-pooled portfolios are established with the proceeds from bond sales in order to maximize earnings within the constraints of arbitrage regulations. The objectives of these portfolios are to:
- a) ensure safety of principal by investing only in high-quality securities for which a strong secondary market exists or by maintaining the security of the investment through collateralization according to the standards approved in Section 8.4 of this Policy;
 - b) ensure that anticipated cash flows are matched with adequate investment liquidity or that the terms of the secured investment agreement permit maximum flexibility for the City in making withdrawals;
 - c) manage market and credit risk through diversification and control of counterparty risk; and
 - d) attain a market rate of return commensurate with the objectives and restrictions set forth in this Policy and the bond ordinance by managing the portfolio to meet or exceed the bond yield
- 17.3 Bond Reserve Fund Strategy - Non-pooled reserve funds for outstanding revenue bonds are set at levels required by their respective bond ordinances. These funds will be used to pay the final principal and/or interest due on outstanding bonds that are similarly secured or to make up any shortfalls in debt service funds as required by the bond ordinance. The objectives of Bond Reserve Fund Portfolios are to:
- a) ensure safety of principal by investing only in high-quality securities for which a strong secondary market exists or by maintaining the security of the investment through collateralization according to the standards approved in Section 8.4 of this Policy;
 - b) ensure that anticipated cash flows are matched with adequate investment liquidity or that the terms of the secured investment agreement permit maximum flexibility for the City in making withdrawals;
 - c) manage market and credit risk through diversification and control of counterparty risk; and
 - d) attain a market rate of return commensurate with the objectives and the restrictions set forth in this Policy and the bond ordinance by managing the portfolio to meet or exceed the bond yield.
- 17.4 Endowment Funds Strategy - Funds received as gifts to the City with instructions that the income generated by the investment of said funds be used for specified purposes may be invested as separate non-pooled portfolios if required by the terms of the gift. The objectives of Endowment Portfolios are to:
- a) ensure safety of principal and sufficient liquidity by investing only in high-quality securities for which a strong secondary market exists;
 - b) manage market and credit risk through the use of a competitive process to place investments;
 - c) attain a market rate of return commensurate with the objectives and restrictions set forth in this Policy and the terms of the gift.
- 17.5 Commercial Paper Funds Strategy – The City issues tax-exempt commercial paper notes as an interim financing tool for construction projects. The investment of the proceeds from the issuance of commercial paper debt should have a high degree of liquidity in order to fund payments to contractors. The objectives of this portfolio are to:
- a) ensure safety of principal and sufficient liquidity by investing in money market mutual funds or short-term high-quality securities for which a strong secondary market exists;
 - b) manage market and credit risk through diversification of funds and/or securities. Funds must be rated AAA by at least one nationally recognized rating agency; and
 - c) attain a market rate of return commensurate with the objectives and restrictions set forth in this Policy and governing bond ordinances.

18.0 Reporting

Investment performance is regularly monitored by investment staff and reported to the Investment Committee on a quarterly basis. Month-end market prices on each security are obtained from nationally recognized securities databases including those provided by the City's depository bank through its safekeeping services and Bloomberg Professional Services. These prices are recorded in the City's portfolio database and included in all management reports as well as the City's Comprehensive Annual Financial Report.

Not less than quarterly the Investment Officers will submit to the standing finance committee of the city council described in Dallas City Charter, Chapter III, Section 13 (2), the City Manager, and the Mayor and City Council a written report of the status of the current investment portfolio. The report must meet the requirements of the Act.

An independent auditor shall formally review the quarterly reports prepared under this section at least annually, and that auditor shall report the results of the review to City Council.

19.0 Annual Compliance Audit

In conjunction with the annual financial audit, a compliance audit shall be performed which includes an audit of management controls on investments and adherence to the City's established investment policy.

20.0 Investment Policy Adoption

The City's Investment Policy is hereby adopted by resolution of the City Council on ~~September 12, 2018~~ October 23, 2019 in accordance with the PFIA.

BOOK ENTRY SECURITIES: Stocks, bonds, other securities, and some certificates of deposit that are purchased, sold, and held as electronic computer entries on the records of a central holder. These securities are not available for purchase in physical form; buyers get a receipt or confirmation as evidence of ownership.

BOOK VALUE: The original cost of the security as adjusted for amortization of any premium paid or accretion of discount since the date of purchase.

BROKER: A party who brings buyers and sellers together. Brokers do not take ownership of the property being traded. They are compensated by commissions. They are not the same as dealers; however, the same firms that act as brokers in some transactions may act as dealers in other transactions.

CALLABLE BOND: A bond that the issuer has the right to redeem prior to maturity at a specified price. Some callable bonds may be redeemed on one call date while others may have multiple call dates. Some callable bonds may be redeemed at par while others can be redeemed only at a premium. Some callable bonds are step-up bonds that pay an initial coupon rate for the first period, and then the coupon rate increases for the following periods if the bonds are not called by the issuer.

CERTIFICATE OF DEPOSIT (CD): A time deposit with a specific maturity evidenced by a certificate. Large-denomination (over \$100,000) CD's are typically negotiable.

CODE: The Internal Revenue Code of 1986, as amended.

COUPON RATE: The stated annual rate of interest payable on a coupon bond expressed as a percentage of the bond's face value.

CREDIT RISK: The risk that (1) the issuer is downgraded to a lower quality category and/or (2) the issuer fails to make timely payments of interest or principal.

CUSIP NUMBER: A nine-digit number established by the Committee on Uniform Securities Identification Procedures that is used to identify publicly traded securities. Each publicly traded security receives a unique CUSIP number when the security is issued.

CUSTODY: The service of an organization, usually a financial institution, of holding (and reporting) a customer's securities for safekeeping. The financial institution is known as the custodian.

DEALER: A firm which buys and sells for its own account. Dealers have ownership, even if only for an instant, between a purchase from one party and a sale to another party. They are compensated by the spread between the price they pay and the price they receive. Dealers are not the same as brokers; however, the same firms which act as dealers in some transactions may act as brokers in other transactions.

DELIVERY VERSUS PAYMENT (DVP): The safest method of settling a trade involving a book entry security. In a DVP settlement, the funds are wired from the buyer's account and the security is delivered from the seller's account in simultaneous, interdependent wires.

DEPOSITORY TRUST COMPANY (DTC): An organization that holds physical certificates for stocks and bonds and issues receipts to owners. Securities held by DTC are immobilized so that they can be traded on a book entry basis.

DERIVATIVE: A security that derives its value from an underlying asset, group of assets, reference rate, or an index value. Some derivatives can be highly volatile and result in a loss of principal in changing interest rate environments.

DISCOUNT: The amount by which the price paid for a security is less than its face value.

EFFECTIVE MATURITY: The average maturity of a bond, given the potential for early call. For a non-callable bond, the final maturity date serves as the effective maturity. For a callable bond, the effective maturity is bounded by the first call date and the final maturity date; the position within this continuum is a function of the call price, the current market price, and the reinvestment rate assumed.

FACE VALUE: The principal amount due and payable to a bondholder at maturity; par value. Also, the amount on which coupon interest is computed.

FAIL: The event of a securities purchase or sale transaction not settling as intended by the parties.

FEDERAL FARM CREDIT BANKS (FFCB): A government-sponsored corporation that was created in 1916 and is a nationwide system of banks and associations providing mortgage loans, credit, and related services to farmers, rural homeowners, and agricultural and rural cooperatives. The Federal Farm Credit System is supervised by the Farm Credit Administration, an independent agency of the U.S. government. (See Government Sponsored Enterprise)

FEDERAL FUNDS: Monies within the Federal Reserve System representing a member bank's surplus reserve funds. Banks with excess funds may sell their surplus to other banks whose funds are below required reserve levels. Normally, Federal funds are employed in settling all government securities transactions. The Federal Funds Rate is the rate of interest at which Fed funds are traded. This rate is currently pegged by the Federal Reserve through open-market operations.

FEDERAL HOME LOAN BANKS (FHLB): Government-sponsored wholesale banks (currently twelve regional banks) which lend funds and provide correspondent banking services to member commercial bank, thrift institutions, credit unions and insurance companies. The mission of the FHLBs is to liquefy the housing related assets of its members who must purchase stock in their district Bank. (See Government Sponsored Enterprises)

FEDERAL HOME LOAN MORTGAGE CORPORATION (FHLMC or "Freddie Mac"): A government-sponsored corporation that was created in July 1970, by the enactment of Title III of the Emergency Home Finance Act of 1970. Freddie Mac was established to help maintain the availability of mortgage credit for residential housing, primarily through developing and maintaining an active, nationwide secondary market in conventional residential mortgages. (See Government Sponsored Enterprises)

FEDERAL NATIONAL MORTGAGE ASSOCIATION (FNMA or Fannie Mae): FNMA, like GNMA was chartered under the Federal National Mortgage Association Act in 1938. FNMA is a federal corporation working under the auspices of the Department of Housing and Urban Development (HUD). It is the largest single provider of residential mortgage funds in the United States. Fannie Mae is a private stockholder-owned corporation. FNMA securities are highly liquid and are widely accepted. FNMA assumes and guarantees that all security holders will receive timely payment of principal and interest. (See Government Sponsored Enterprises)

FEDERAL OPEN MARKET COMMITTEE (FOMC): Consists of seven members of the Federal Reserve Board and five of the twelve Federal Reserve Bank presidents. The president of the New York Federal Reserve Bank is a permanent member while the other presidents serve on a rotating basis. The Committee periodically meets to set Federal Reserve guidelines regarding purchases and sales of government securities in the open market as a means of influencing the volume of bank credit and money.

FIXED-INCOME SECURITY: A financial instrument promising a fixed amount of periodic income over a specified future time span.

GOVERNMENT-SPONSORED ENTERPRISES (GSE's): Payment of principal and interest on securities issued by these corporations is not guaranteed explicitly by the U.S. government, however, most investors consider these securities to carry an implicit U.S. government guarantee. The debt is fully guaranteed by the issuing corporations. GSE's include: Farm Credit System, Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation, and Federal National Mortgage Association.

INSTRUMENTALITIES: See Government-Sponsored Enterprises

INTEREST RATE RISK: The risk that the general level of interest rates will change, causing unexpected price appreciations or depreciations.

LADDERED MATURITY STRATEGY: A maturity pattern within a portfolio in which maturities of the assets in the portfolio are equally spaced. Over time, the shortening of the remaining lives of the assets provides a steady source of liquidity or cash flow. Given a normal yield curve with a positive slope this passive strategy provides the benefit of being able to take advantage of the higher, longer-term yields without sacrificing safety or liquidity.

LIQUIDITY: An entity's capacity to meet future monetary outflows (whether they are required or optional) from available resources. Liquidity is often obtained from reductions of cash or by converting assets into cash.

LIQUIDITY RISK: The risk that an investment will be difficult to sell at a fair market price in a timely fashion.

MARKET RISK: The risk that the value of a security will rise or decline as a result of changes in market conditions. It is that part of a security's risk that is common to all securities of the same general class (stocks and bonds) and thus cannot be eliminated by diversification; also known as systematic risk.

MARKET VALUE: The price at which a security is trading and could presumably be purchased or sold.

MARKING-TO-MARKET: The practice of valuing a security or portfolio according to its market value, rather than its cost or book value.

MASTER REPURCHASE AGREEMENT: A written contract covering all future transactions between the parties to repurchase agreements that establishes each party's rights in the transactions. A master agreement will often specify, among other things, the right of the buyer to liquidate the underlying securities in the event of default by the seller.

MATURITY DATE: The date on which the principal or face value of an investment becomes due and payable.

MONEY MARKET INSTRUMENT: Generally, a short-term debt instrument that is purchased from a broker, dealer, or bank. Sometimes the term "money market" with "short-term", defines an instrument with no more than 12 months remaining from the purchase date until the maturity date. Sometimes the term "money market" is used more restrictively to mean only those instruments that have active secondary markets.

MORTGAGE-BACKED SECURITIES (MBS): Securities composed of, or collateralized by, loans that are themselves collateralized by liens on real property.

OFFER: The price asked by a seller of securities. (When purchasing securities, one asks for an offer.)

OPEN MARKET OPERATIONS: Purchases and sales of government and certain other securities in the open market by the New York Federal Reserve Bank as directed by the FOMC in order to influence the volume of money and credit in the economy. Purchases inject reserves into the bank system and stimulate growth of money and credit; sales have the opposite effect. Open market operations are the Federal Reserve's most important and most flexible monetary policy tool.

OPPORTUNITY COST: The cost of pursuing one course of action measured in terms of the foregone return that could have been earned on an alternative course of action that was not undertaken.

PAR: See Face Value

PFFIA OR ACT: The Public Funds Investment Act, Chapter 2256, Texas Government Code, as amended.

PREMIUM: The amount by which the price paid for a security exceeds its face value.

PRIMARY DEALER: A group of government securities dealers that submit daily reports of market activity and positions and monthly financial statements to the Federal Reserve Bank of New York and are subject to its informal oversight. Primary dealers include Securities and Exchange Commission (SEC)-registered securities broker-dealers, banks, and a few unregulated firms.

PRINCIPAL: The face or par value of an instrument, exclusive of accrued interest.

PRUDENT PERSON RULE: An investment standard. In some states the law requires that a fiduciary, such as a trustee, may invest money only in a list of securities selected by the state. In other states the trustee may invest in a security if it is one which would be bought by a prudent person of discretion and intelligence who is seeking a reasonable income and preservation of capital.

QUALIFIED REPRESENTATIVE: A person who holds a position with - and is authorized to act on behalf of - a business organization (as defined by the Public Funds Investment Act).

RATE OF RETURN: The amount of income received from an investment, expressed as a percentage. A market rate of return is the yield that an investor can expect to receive in the current interest-rate environment utilizing a buy-and-hold to maturity investment strategy.

REINVESTMENT RATE: The interest rate earned on the reinvestment of coupon payments.

REINVESTMENT RATE RISK: The risk that the actual reinvestment rate falls short of the expected or assumed reinvestment rate.

REPURCHASE AGREEMENT (RP or REPO): An agreement of one party to sell securities at a specified price to a second party and a simultaneous agreement of the first party to repurchase the securities at a specified price on demand or at a specified later date. The difference between the selling price and the repurchase price provides the interest income to the party that provided the funds. Every transaction where a security is sold under an agreement to be repurchased is a repo from the seller/borrower's point of view and a reverse repo from the buyer/lender's point of view.

REVERSE REPURCHASE AGREEMENT: (See Repurchase Agreement)

SAFEKEEPING: A procedure where securities are held by a third party acting as custodian for a fee.

SECONDARY MARKET: A market made for the purchase and sale of outstanding issues following the initial distribution.

SECURITIES AND EXCHANGE COMMISSION (SEC): Agency created by Congress to protect investors in securities transactions by administering securities legislation.

SECURITIES LENDING: The temporary transfer of securities by one party, the lender, to another, the borrower. The securities borrower is required to provide acceptable assets as collateral to the securities lender in the form of cash or other securities. If the borrower provides securities as collateral to the lender, it pays a fee to borrow the lent securities. If it provides cash as collateral, the lender pays interest to the borrower and reinvests the cash at a higher rate.

SEC RULE 15C3-1: See Uniform Net Capital Rule

STRUCTURED NOTES: Debt obligations whose principal or interest payments are determined by an index or formula.

SEPARATELY INVESTED ASSET: An account or fund of a state agency or local government that is not invested in a pooled fund group (as defined by the Public Funds Investment Act).

SPREAD: Most commonly used when referring to the difference between the bid and asked prices in a quote. Additionally, it may also refer to additional basis points that a non-Treasury security earns over and above a Treasury with a comparable maturity date.

STRIPS: Separation of the principal and interest cash flows due from any interest-bearing securities into different financial instruments. Each coupon payment is separated from the underlying investment to create a separate security. Each individual cash flow is sold at a discount. The amount of the discount and the time until the cash flow is paid determine the investor's return.

SWAP: The trading of one asset for another. Sometimes used in active portfolio management to increase investment returns by "swapping" one type of security for another.

TOTAL RETURN: Interest income plus capital gains (or minus losses) on an investment.

TREASURY BILLS: A non-interest bearing discount security issued by the U.S. Treasury, generally having initial maturities of 3 months, 6 months, or 1 year.

TREASURY NOTES: Intermediate-term, coupon bearing U.S. Treasury securities having initial maturities of 2 - 10 years.

UNIFORM NET CAPITAL RULE: Securities and Exchange Commission requirement that member firms as well as nonmember broker-dealers in securities maintain a maximum ratio of indebtedness to liquid capital of 15 to 1; also called *net capital rule* and *net capital ratio*. Indebtedness covers all money owed to a firm, including margin loans and commitments to purchase securities, one reason new public issues are spread among members of underwriting syndicates. Liquid capital includes cash and assets easily converted into cash.

YIELD TO MATURITY (YTM): The promised return assuming all interest and principal payments are made and reinvested at the same rate taking into account price appreciation (if priced below par) or depreciation (if priced above par).

(b) The investment policies must:

- (1) be written;
- (2) primarily emphasize safety of principal and liquidity;
- (3) address investment diversification, yield, and maturity and the quality and capability of investment management; and
- (4) include:
 - (A) a list of the types of authorized investments in which the investing entity's funds may be invested;
 - (B) the maximum allowable stated maturity of any individual investment owned by the entity;

 - (E) a requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis; and
 - (F) procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the provisions of Section [2256.021](#).

(c) The investment policies may provide that bids for certificates of deposit be solicited:

- (1) orally;
- (2) in writing;
- (3) electronically; or
- (4) in any combination of those methods.

(d) As an integral part of an investment policy, the governing body shall adopt a separate written investment strategy for each of the funds or group of funds under its control. Each investment strategy must describe the investment objectives for the particular fund using the following priorities in order of importance:

- (1) understanding of the suitability of the investment to the financial requirements of the entity;
- (2) preservation and safety of principal;
- (3) liquidity;
- (4) marketability of the investment if the need arises to liquidate the investment before maturity;

- (5) diversification of the investment portfolio; and
- (6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter [391](#), Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec.

3

(h) An officer or employee of a commission created under Chapter [391](#), Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter [573](#), to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any business organization offering to engage in an investment transaction with an investing entity. For purposes of this subsection and Subsection (1), "business organization" means an investment pool or investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio that has accepted authority granted by the entity under the contract to exercise investment discretion in regard to the investing entity's funds. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity; and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization:

(A) is dependent on an analysis of the makeup of the entity's entire portfolio;

(B) requires an interpretation of subjective investment standards; or

(C) relates to investment transactions of the entity that are not made through accounts or other contractual arrangements over which the business organization has accepted discretionary investment authority.

(1) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment

policy of the investing entity from a business organization that has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section [321.020](#). Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section [321.013](#), the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.
